III. “HURRICANE MICHAEL EMERGENCY PREPAREDNESS EXERCISE OVERVIEW:
This report was deferred until another Board of Trustees meeting.

IV. PALMETTO COLLEGE REPORT: Chairman Loadholt called on Provost Amiridis who stated that the Huron Consulting Group had previously presented the Palmetto College concept during the November 29, 2011, meeting of the Ad Hoc Committee on Strategic Planning. Today’s briefing was intended to introduce this topic formally to the Board of Trustees.

President Pastides commented that the General Assembly was motivated and mobilized to support the concept. He noted that various members were asking if the Board of Trustees endorsed the formation of Palmetto College.

Mr. Kennedy from Huron Consulting Group initially remarked that further review and due diligence of this idea had been undertaken since the November 29th meeting.

He summarized the four guiding principles which will shape Palmetto College: (1) Students (adult students who may be geographically-bound; University non-completers and Associates Degree holders; (2) Courses (Upper division courses only; vast majority of courses on-line via asynchronous delivery methods; (3) Programs (vocationally oriented; fields with proven job market demand; accredited through the senior campus degree programs; positioned to compete with for-profit institutions; and, (4) Structure (leverages the regional campuses; organized as one college within the system; overseen by a new Chancellor with a direct reporting relationship to the President; centralization of many services.

Mr. Kennedy also addressed the need for Palmetto College: Relative to other states, South Carolina had a low level of Bachelor’s degree attainment; quality of life improvements for Bachelor’s Degree holders; expanding job market demand for Bachelor’s Degree holders across the next 5-10 years; fulfilling the mission of the University; emulation of the core principles of accountability based funding.
He noted that an increase in bachelor’s degrees to meet projected job market demands was considered “critical” across South Carolina. “The confluence of future economic needs and current educational attainment in counties in South Carolina leads us to believe that this is an issue for the vast majority of the counties in the state.”

He further noted that Palmetto College’s initial programs will be selected based on the mission, goals, market demands and the USC System’s capabilities.

It was recommended to use the existing accreditation offered in Columbia, Aiken, Upstate and possibly Beaufort in the future.

The organizational structure will be a reconfiguration of the current model. It was believed that there was an opportunity to eliminate various positions which would become redundant. The key was to streamline the operation and place it under the leadership of one Chancellor who was empowered to make decisions and to have direct access to other decision makers, other Chancellors and the President.

Preliminary recommendations included appointing the chancellor and centralizing services to eliminate redundancy.

Mr. Kennedy stressed that the Palmetto College concept will require new revenue-sharing arrangements between all senior and regional campuses based on direct costs and a new approximation of indirect costs.

He suggested offering courses in the range of the current Palmetto Programs ($367 per credit hour). “Access and affordability are going to remain hallmarks of this program. At this price point, we think the affordability message is fairly clear.”

In order for progress to be made Mr. Kennedy reviewed five critical issues: (1) State Funding: USC submitted a request for a $5 million annual recurring state appropriation; (2) Course Development: USC was considering a partnership with an outside firm to develop courses for Palmetto College; (3) Sales and Marketing: the specific direction for sales and marketing would hinge on many programming decisions and the level of involvement of outside vendor(s); (4) Structure: among the first decisions to be finalized was the organization structure and selection of leadership; (5) Accreditation: the selection of the structure for Palmetto College will determine the path for accreditation.

President Pastides asked that the Board of Trustees endorse the concept of Palmetto College so that the administration could continue to plan. Mr. Hubbard moved approval of the motion as President Pastides stated. All Board members seconded the motion.
V. REPORT OF THE ALUMNI ASSOCIATION: Secretary Stone submitted the following report on behalf of Mr. Bussell who was unable to attend; a hard copy had been distributed at each member's place.

Report of The University of South Carolina Alumni Association
February 10, 2012

Your Alumni Association is moving ahead at full speed. The momentum of the University is contagious. Our Alumni feel the energy and they share the enthusiasm and confidence that encompasses not only this campus, but every corner of the state and anyplace where our influence is felt.

The search for our new executive director is underway. We ave a talented and experienced search committee and we expect to begin the process of interviewing applicants soon. We are still receiving applications and we continue to accept applications to ensure that we have a qualified pool of applicants to choose from.

Amy Stone and Michelle Dodenhoff continue to share oversight responsibilities for the Association and the staff has not missed a beat. We had a great pregame celebration prior to the Capital One Bowl with over 1,200 spirited attendees. We just hosted our baseball and softball preview party and the successful Carolina Day at the Statehouse was held this past Wednesday.

Plans are underway for our March Board of Governors Meeting and Annual Meeting where we elect new officers and several new board members. The Board of Governors will also hear from an advocacy expert from the Ohio State Alumni Association which is recognized as one of the best in the nation. We will also be touring the recently renovated Patterson Hall.

The reality of our Alumni Center has taken several critical steps in the past 30 days. We have reached agreement with the City of Columbia and the current lease holder on the Damon's property adjacent to The Columbia Convention Center to purchase this site. Our agreement includes financial assistance in the construction of the connector under Lincoln Street and the connection to the adjacent parking garage. Contracts are being finalized for a closing in the next 30 to 60 days.

By acquiring the site we are now in a position to kick our fundraising efforts into high gear. While we move into this aggressive fundraising we will also begin the procurement for architects, construction managers and other professional services that will be needed.

We are committed to playing a stronger role in the evolving mission of The University and we will continue to increase the engagement of Alumni in helping to reach these goals.

VI. REPORT OF THE PRESIDENT: Chairman Loadholt called on President Pastides who stated that the President’s Report will be deferred until the next meeting of the Board of Trustees.

Since there were no other matters, Chairman Loadholt declared the meeting adjourned at 6:15 p.m.

Respectfully submitted,

Amy E. Stone
Secretary
