IV. Mid-Year Financial Review

Chairman Warr called on Ms. Brunelli who explained that due to the late hour she would forgo presenting the Mid-Year Financial Review as a PowerPoint since most of the information had been provided at the Board Retreat in January. Instead, she referred Trustees to the actual Mid-Year Financial Review document that had been provided on the Board Portal. She said this voluminous document was used internally to review accounts to ensure the University was operating on budget as of December 31.

Ms. Brunelli said that information was sent and responses sought from all campuses and the Columbia campus auxiliaries so that everyone was clear on the mid-year financial status. Because the University is so driven by enrollment, she said the status of tuition revenue for the campuses was the significant element to identify at mid-year.
She reported the Columbia campus enrollment was up, as expected, but increased enrollment also occurred at Aiken, Beaufort and Upstate. USC Beaufort (USCB) reported exceptionally good enrollment, with the campus showing an increase of more than 10% for the fall. This was good news since enrollment increases typically are not budgeted, she said. Responding to a Trustee question, she said the USCB increase was primarily due to in-state students. There was concern about the regional campuses; where fall enrollments were unchanged, had decreased or were relying on concurrent students. As a result, she said, USC Salkehatchie and USC Union had been advised to make budget adjustments following meetings with the campus deans.

Ms. Brunelli said that spring review would be conducted at the end of February, noting that the challenge would be pulling data with PeopleSoft. She added that work was continuing on the PeopleSoft stabilization, which had improved since her December report. Budget development also is coming up, she said. The House Ways and Means Committee will hold budget deliberations the week of February 22, and Ms. Brunelli said that she hoped to have the results of those deliberations to Trustees by the end of the week. Ms. Brunelli also called attention to the ratio analysis summary for the 2015 fiscal year located at the back of the mid-year review document. This is the reporting for the Capital Debt Management audit finding.

She next summarized the preliminary needs for the Columbia campus for FY2016-2017, noting that each campus currently is going through the process of identifying their needs for the coming fiscal year. The top item for consideration is whether there will be a state pay package and fringe increases, which drives budget development.

Chairman Warr stated that Ms. Brunelli’s report was received as information.

III. Adjournment

There being no other matters to come before the committee, Chairman Warr declared the meeting adjourned at 2:45 p.m.

Respectfully submitted,
