V. **USC Upstate Report**

   Chairman von Lehe called on Chancellor Kelly who welcomed Trustees to USC Upstate and discussed the 50th anniversary of the campus. In the past 50 years, he described USC Upstate as having developed into “a workforce driver and a talent manager, making certain it was making the communities it served better.” He expressed his excitement about his investiture ceremony, scheduled for the following day, noting again the positive energy and support he had found in the surrounding community, the Board of Trustees, the USC Upstate Foundation and the Spartanburg County Commission on Higher Education.

   Chancellor Kelly then called on Mr. Young who welcomed everyone on behalf of the Spartanburg County Commission on Higher Education. “We believe you have sent us the right man at the right time”
to lead USC Upstate, he said.

Chancellor Kelly concluded by noting enrollment was up; then announced, those attending the investiture should report no later than 9:45 a.m. to the Stockwell Administration Building.

VI. Report of the President

Chairman von Lehe called on President Pastides who said he was proud to be in attendance and to support Chancellor Kelly as the 50th anniversary of the campus was celebrated. He noted USC Upstate was ranked by U.S. News and World Report second in the southeast among regional public colleges, as well as second for taking care of veterans, and number six for ethnic diversity.

In other news, President Pastides noted Forbes magazine cited the University of South Carolina Columbia as one of the top 100 places to work in the United States, with Michelin being the only other South Carolina entity on the list. There were 14 other universities among the top 100, he said, but only two flagship universities, which is a university that carries the state’s name. The University also has been identified as having the top sports science program in the United States and fourth in the world.

President Pastides said the University had received its highest ever grant from the National Science Foundation recently with the awarding of a $20-million grant to a 10-university collaboration, which includes USC Beaufort. The public-private collaboration also includes Boeing, IBM, Milliken and BMW.

He continued, noting that he had taken thousands of “selfies” and enjoyed thousands of “high-fives” but he did his first slam a week ago when students invited him to the Koger Center to tell his story on stage with the spotlight on him talking without notes. President Pastides said October is possibly the busiest month of the year, with thousands being hosted at the University. In the past week at the President’s House there were 229 President’s Society members who committed to donating $1,801 or more annually; 710 for the Parents Weekend reception, with 8,653 parents registered for events on campus – the largest number ever; 572 attended the Faculty Open House from the system; and 556 faculty, staff and students attended the International Open House.

The Tennessee game takes place this Saturday and Homecoming against Vanderbilt will be the following week. USC Upstate will celebrate homecoming in February 2018 as it welcomes Florida Gulf Coast University in men’s basketball, he said. USC Aiken’s homecoming also will be in February when it will host Lander for men’s and women’s basketball and USC Beaufort has its homecoming this weekend, having hosted a soccer game last night against Ava Maria.

In conclusion, President Pastides said he looked forward to the evening reception and to Friday’s investiture of Brendan Kelly, at which everyone would have a chance to meet the Chancellor’s family.
VII. **Other Matters**

Chairman von Lehe thanked the President for his remarks and asked if there were any other matters to come before the Board.

VIII. **Adjournment**

There being no other matters to come before the Board, Chairman von Lehe adjourned the meeting at 3:40 p.m.

Respectfully submitted,

Secretary
