STAMPS SCHOLARS

A COMMUNITY FOR EXCEPTIONAL STUDENT LEADERS

2016
We are a nationally prestigious merit scholarship program and community that helps exceptional students become meaningful leaders throughout society.

The first Stamps Scholars programs launched in 2006 at the University of Michigan and Georgia Tech. The program has since grown to nearly 40 schools across the country with more than 1,000 current and alumni Stamps Scholars. More than 200 new Stamps Scholarship recipients in 2016 will join the nearly 550 current Scholars.

Ryan Schools, University of Notre Dame, Class of 2017
The 2016 STAMPS Scholarship Program

The Stamps Foundation awards multi-year scholarships to driven and talented student leaders to help them achieve their goals. We partner with visionary colleges and universities to enable extraordinary educational experiences.

Scholars receive annual awards that range from $72,000 to $5,000 (four-year awards total an average of $288,000–$20,000) with additional funds for enrichment activities such as study abroad, academic conferences, and leadership training. The Stamps Foundation and partner schools evenly share the costs of the awards.

“The Stamps Family Charitable Foundation is not just giving students a financial means to attend college, but cultivating a family of bright minds, challenging us to dream deep and wide, and helping us manifest these dreams.”

Lo-Hua Yuan | University of Michigan | Entering Class 2008

THE 2016 STAMPS SCHOLARSHIP PROGRAM

Annie Rong, University of Illinois Urbana Champaign, Class of 2016
President for Women in Computer Science (WCS) at UIUC. After graduation, she will be a Software Developer at Google working on their Cloud platform.
There are many places to see, people to meet, and opportunities to grow. The Stamps Family Charitable Foundation is taking you there.

MaryCate Most | University of Illinois | Entering Class 2013

THE STAMPS SCHOLARS COMMUNITY

One of the many benefits of being a Stamps Scholar is the national network of fellow Scholars and alumni. Along with a sense of community on their campus, Scholars have the opportunity to interact with their peers from the other Stamps partner schools in formal and informal programs—from regional conferences and informal meet-ups hosted by partner schools to the biennial Stamps Scholars National Convention hosted by the Stamps Foundation.

Andrew Nalani, Dartmouth College, Class of 2016
Piloted and Directed the African Youth Leadership Experience program in Uganda. Also a Member in the Handel Society at Dartmouth and the World Music Percussion Ensemble.
UNIQUE EXPERIENCES DEVELOP LEADERS

Leadership development is at the core of the Stamps Scholarship program. Leadership potential is also a key part of the selection criteria for receiving a Stamps award. And, Stamps Scholars receive a separate financial award to participate in leadership activities of their choosing.

This unique benefit that all Stamps Scholarships include is an enrichment fund, an additional monetary fund for Scholars to use in their academic and professional development. They may use the award to study or volunteer outside the United States, conduct research, or participate in a leadership program or academic conference. We like to think of this part of the award as the “dream fund.”

Haefa Mansour, Purdue University, Class of 2015
Developed a novel method for creating multilayer electrochromic devices while an intern at 3M. Now pursuing a PhD in Chemical and Biological Engineering at UC Berkeley.
Where To apply

Applying for a Stamps Scholarship is easy: just apply to one or more of our partner schools. If you qualify, you’ll automatically be considered for a Stamps award.

The majority of our partner schools don’t require a separate application for the Stamps Scholarship, but the application deadline and award process varies from school to school along with the amount of the award. An interview is always part of the process.

Contact a partner school to learn more about how they administer the Stamps Scholarship program.

Who Should Apply

The Stamps Foundation, with its partner schools, seeks students who demonstrate academic merit, strong leadership potential, and exceptional character. We support exceptional young people with promise and vision who are eager to make their contribution to the world and have the work ethic to make their dreams a reality.

The Stamps Foundation welcomes and supports students from all backgrounds and areas of study. Financial need is not a consideration.

Chris Rossi, University of Michigan, Class of 2010

Studied Aerospace Engineering at Michigan and then at MIT. Currently at Blue Origin as a Guidance, Navigation and Controls engineer on the New Shephard reusable launch system.
In 2006 Penny and Roe Stamps created merit scholarship programs for undergraduates at their alma maters – The University of Michigan and Georgia Tech. Since then, the Stamps Scholars community has grown into a national network of visionary colleges and universities who partner with the Stamps Foundation to award multi-year scholarships that help driven and talented student leaders achieve their education and life goals.

Penny Stamps
A graduate of the University of Michigan School of Art & Design and a former teacher and business owner, Penny has always been passionate about education. In 1999, she worked with the University of Michigan School of Art and Design to launch the Roman J. Witt Visiting Professors Program in honor of her late father. She also established the highly successful Penny W. Stamps Distinguished Visitors Lectures Series. In 2012, The Penny W. Stamps School of Art & Design at the University of Michigan was named for her. Penny’s philanthropy has earned her numerous honors, including the University of Michigan’s 2005 Donald B. Hermelin Award for Volunteer Leadership, the 2013 National Philanthropy Lifetime Achievement Award, and an honorary alumna of Georgia Tech.

Roe Stamps
A private investor and co-founder of the Boston-based private investment company Summit Partners, Roe is a former Lieutenant in the United States Navy Reserve, an Industrial Engineering graduate of Georgia Tech, and an MBA graduate from Harvard Business School. Since his relocation to South Florida in 1993, Roe, along with his wife Penny, has devoted significant time and resources to philanthropic causes. Roe is a Trustee Emeritus of the Georgia Tech Foundation, and a Trustee at the University of Miami, the John S and James L Knight Foundation and several other distinguished organizations. Roe has received awards from Georgia Tech and Harvard as a distinguished alumnus and an honorary PhD from Georgia Tech in 2014. In 2010, Roe was honored by the American Red Cross South Florida Region as the Humanitarian of the Year.

Meredith Paker, University of Georgia, Class 2016
Seeking a Masters in Philosophy in Economic and Social History at Oxford as a Marshall Scholar. In Athens, she leads a local Girl Scout troop and DJs at UGA’s campus radio station.
