"I am very satisfied in choosing this text as the main resource and guide for my students. The theories related to the career development process are explained in such a way that students are able to see how they relate to their personal career development. I plan to continue using this text for years to come."

-Joe Maestas, Student Services Counselor/Adjunct Instructor  
Colorado Mountain College, Aspen Campus

"We like to believe that we can control our own lives. This book is proposing that you do that through a thorough knowledge of yourself and the power of good decision-making skills."
