

CURRICULUM COMMITTEE

The Curriculum Committee has the responsibility to review, advise, and make policy recommendations to the Dean on matters related to the design, delivery and evaluation of the undergraduate medical education program.

The Committee will be composed of 11 faculty members from the biomedical and clinical sciences who have been elected by the Faculty, the Program Evaluation and Assessment Subcommittee Chair, and one elected representative from the student council of the School of Medicine. These 13 members constitute the voting membership of the Committee. The Associate Dean for Education, the Senior Associate Dean for Academic Affairs and Diversity, the Assistant Dean for Clinical Curriculum, the Chair of each Curriculum Committee Subcommittee (who is also the Director for that Academic Year), and the M1, M2, M3, and M4 Student Presidents, or their designates, will be non-voting members of this Committee.

The Chair of the Committee will be elected from membership of the Committee by a majority vote. He/she will have served at least one year as a member of the Committee prior to election and will serve as Chair for a two-year term. All appointments to the Curriculum Committee, as well as the Chair of the Committee, will have renewable appointments, with a limit of two consecutive terms of service.

The committee consists of 10 elected faculty members, 1 elected student member, and 10 members appointed by Dean. The members are appointed for 3 years. This committee meets for 2 hours every month.
