August 5, 2026 | 11:00 – 12:30

Implementation Science: Getting Research into Practice

Translating evidence into sustainable clinical and community practice through implementation frameworks and real-world application.

[Register Now](#)

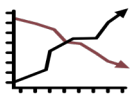

September 2, 2026 | 11:00 – 12:30

AI & Wearable Devices in Clinical & Translational Research

Emerging applications of artificial intelligence and digital health technologies in research design and patient monitoring.

[Register Now](#)

October 7, 2026 | 11:00 – 12:30

Why Good Interventions Fail in Practice

Explore why well-designed, evidence-based interventions often fail to achieve their intended impact when implemented in real-world clinical and community settings.
