Graduation Requirements Summary

Minimum Total Hours	Major Requirements Hours	College & Program Requirements Hours	Carolina Core Hours	Minimum Overall GPA
128	34	50-62	34-46	2.000

- Regardless of individual course grades, students must maintain a minimum 2.000 cumulative GPA.
- Some colleges require a minimum GPA for major courses. Courses indicated in this column are included in the major GPA for this program of study.
- The [Carolina Core](#) provides the common core of knowledge, skill and academic experience for all Carolina undergraduate students.
- The College of Arts and Sciences requires one U.S. History and one non-U.S. History course, both of which must be chosen from the approved Carolina Core GHS courses. Whichever is not fulfilled through the Carolina Core GHS requirement must be fulfilled through this college requirement.
- Students in the College of Arts and Sciences are required to demonstrate proficiency in one foreign language equivalent to the 122 course through course credit or the corresponding foreign language placement score.
- Students who place into MATH 115 will be required to successfully complete the corresponding prerequisite before taking MATH 141. MATH 115 may be used as an approved elective. Students who start with MATH 115 should use the following sequence for semesters 2-4:

Semester One	Semester Two	Semester Three
ENGL 101	ENGL 102	MATH 141
BIOL 101 & 101L	BIOL 102 & 102L <i>or</i> MSCI 102	CHEM 111 & 111L
GEOL 101 <i>or</i> GEOL 201 <i>or</i> GEOG 201	MATH 115	ENVR 201 (<i>fall only</i>)
History ⁵	POLI 201	Carolina Core Requirement
UNIV 101 <i>or</i> Carolina Core Req.	Foreign Language <i>or</i> other Carolina Core Req.	Foreign language <i>or</i> Carolina Core Req.

- No courses of a remedial, developmental, skill-acquiring, or vocational nature may apply as credit toward degrees in the College of Arts and Sciences. The College of Arts and Sciences allows the use of the Pass-Fail option on elective courses. Further clarification on inapplicable courses can be obtained from the College of Arts and Sciences.
- Environmental Science Major Courses (27-29 hours)
 - | Select 3 of 4 (10-11 hours): | |
|--|---|
| GEOL 315 – Surface & Near Surface Processes (4) (<i>spring only</i>) | ECIV 350 – Intro. to Environmental Engineering (3) |
| GEOG 202 – Weather & Climate (4) | ENHS 660 – Concepts of Environmental Health Science (3) |
 - Selected Courses with Advisor Approval (17-18 hours):** Students, in consultation with their advisor, will develop a program of study which either provides a broad set of environmental science courses or allows students to focus in a defined area. Given the current course offerings and faculty at the University, if a student wanted to focus their elective course work, possible areas include: Natural Systems, Climate and Weather, Water Resources, Energy, or Humans and the Environment. All students' elective courses should include at least 2 courses taken at the 500 level, no more than 3 should be from a single discipline and no more than one Research Methods course. For a list of acceptable major course electives, please visit the [Bulletin](#).

Program Notes:

- Courses identified as “critical” must be completed in the student’s first 60 semester hours of work in order for these courses to be credited toward graduation.
- Environmental Science majors may enroll in a major course a maximum of twice to earn the required grade of C or higher. For the purposes of progression, withdrawal with a W does not constitute enrollment.
- The last 30 credit hours toward your degree must be earned in residence at the University of South Carolina-Columbia.

University Requirements: Bachelor’s degree-seeking students must meet Carolina Core (general education) requirements. For more information regarding these requirements, please visit the [Carolina Core](#) page on the University website.
