

B.S. CARDIOVASCULAR TECHNOLOGY

Each year of this plan includes milestones that support the four pillars of career development — self-discovery, exploration, experience, and action. These milestones are here to guide you, not limit you — your journey may move at a different pace, and that's completely okay.

YEAR 1 | BUILD FOUNDATIONS

- Visit [Garnet Gate](#) & the August Student Org Fair to explore clubs or orgs for your major
- Identify your career goals & take [career & personality assessments](#) to understand your skills, interests, values and strengths
- Explore [Cardiovascular Technology employers](#) & what you can do with your major 📍
- Attend the [Part-Time Job Fair, All Majors Fair & STEM Career & Internship Fair](#) in the fall/spring to understand relevant employers and fair etiquette
- Get involved to build on the [eight Career Competencies](#) employers look for
- Explore [success/support](#) options and [Office of Student Advocacy](#)
- Volunteer and connect with the [Leadership and Service Center](#)
- Find summer experiences and engage in extracurricular activities based on interests to network and develop skills 🤝
- Make an appointment with a CC to create or have your resume reviewed and to talk about your personal brand, goals & next steps
- Attend Career Center workshops and presentations

YEAR 2 | EXPLORE POSSIBILITIES

- Take a [personality assessment](#) & review Custom Personality Report 📄
- Reflect on career goals and how they have evolved, and review skills to see what areas need more development 📈
- Consider a [minor](#) and take courses that will expand your skills
- Attend events hosted by graduate/professional schools, employers, and the Career Center to learn about different career paths and gain career skills
- Attend [career fairs](#) to gain exposure to programs/jobs
- Explore [study abroad](#) for a global perspective
- Explore [Beyond the Classroom](#)
- Explore [research](#) related to your interest
- Start looking for a summer internship or fall/spring co-op 📅
- Participate in job shadowing, and participate in a formal mentoring program using [MentorshipHub](#)
- Talk about your personal brand, goals & next steps with a CC or PPA
- Practice mock interviewing online or with your CC
- Start or continue volunteering with organizations
- Further explore your career interest by utilizing LinkedIn's [USC Alumni Page](#) to connect with alumni & professionals in your field

YEAR 3 | FIND FOCUS

- Check in with your academic advisor to ensure you are on track for graduation
- Discuss with a CC or PPA how your 2nd year & summer experiences have better equipped you for success and to reflect on how your skills & experiences can be represented in professional documents and applications
- Secure a summer internship/co-op, micro-internship, [job shadowing](#), practicum, clinical experiences, or other experiential learning opportunity that will make you competitive for future opportunities
- Explore courses, trainings, or certifications to enhance your employability
- Attend employer, professional or graduate school panels, workshops, & immersion experiences to network & learn
- Follow employers of interest 📍
- Connect with faculty, staff, or former supervisors on [LinkedIn](#) and ask them to write you a recommendation
- Prepare for entrance exams (GRE, MCAT, LSAT, GMAT, etc.)
- Contact the [Pre-Professional & Graduate School Advising](#) team for help with specific admission requirements for graduate/professional schools
- Review your online presence on social media and networking platforms
- If Graduate school is in your future utilize the resources located in the [CC Toolkit](#) and in our [Cocky Career Guides](#)
- If not attending grad school, meet with a CC to explore various career options

YEAR 4 | PREPARE FOR LAUNCH

- Reach out to professors, supervisors, and key connections to write recommendation letters or serve as references
- Join professional groups and set job alerts for your search
- Utilize any relevant resources to network and reach out to contacts
- Research online to know more about the companies, organizations, and positions you are interested in and explore career paths, job titles and salaries 📍
- Investigate graduate school vs. full-time job and meet with a MCAS CC or PPA to create a plan for your job search or grad school applications
- Verify graduation requirements and complete [GLD](#)
- Review your top skills & experiences from the last four years that are most relevant to a professional career and update professional documents and online profiles
- Engage in interview preparation & practice – create a document with your most relevant experiences and apply the STAR method
- Complete the graduation survey to share your post-grad plans
