Case Management
To help with off-campus or out-of-state mental health care.

Psychiatric Evaluations & Medication Management
Our providers can recommend treatment for mental, emotional and behavioral problems and can prescribe medications if needed and arrange for ongoing monitoring and coordination with other health care professionals.

Before our psychiatric providers can assume medication management for Attention-Deficit Hyperactivity Disorder (ADHD), Student Health Services requires formal neuropsychological testing to confirm this diagnosis. We do not offer ADHD testing; therefore, the cost of this testing is NOT covered by the Student Health Fee. Testing results from off-campus or out-of-state psychologists will be accepted if it complies with our guidelines. Please contact our clinic for any additional questions.
