Accessible Microsoft PowerPoint Presentations (Mac)

Layouts

Use slide layouts PowerPoint provides. Correctly structured headings, lists, and reading order help ensure accessibility.

 Choose Home tab > New Slide dropdown to choose preferred layout.

2. Layout dropdown used to change layout.

Meaningful Links

Create unique link text instead of pasting a full URL or using generic links (ex., "Learn more," "Link") in the document. Appropriate link text makes the link more understandable, especially when read by screen reader.

- Right-click the existing URL link and select Hyperlink > Edit hyperlink or tap Command + K.
- 2. Change the text in the **Text to Display** field to a more meaningful description.

	Web Page or File	This Document	Email Address	
Link to a	n existing file or we	b page.		
Address	http://www.sc.edu/accessibility			elect

Alternative Text

Image descriptions can be added as alternative text in PowerPoint. "Alt text" is read by screen reader and should remain intact when exporting to HTML or PDF.

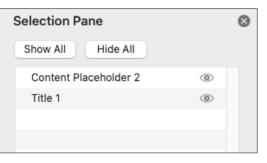

- 1. Right-click on image and select View Alt Text... An Alt Text pane will appear.
- 2. Enter appropriate alt text in the textbox.
- 3. Do not use generated descriptions:

(1-2 detailed sentences recommended)	
Avoid automatically generated descriptions!	
Mark as decorative	

Reading Order

Proper reading order is important if content is read aloud by device (ex. screen reader).

- Select Review tab > Check Accessibility
 Selection Pane. Content is reading order from the bottom-up.
- 2. Content can be adjusted for more accurate reading order, read from bottom-up.

Data Tables

Accessible tables include table headers.

- Within Insert tab, choose Table > Insert Table. Insert rows & columns.
- Add table headers by checking Table
 Design tab > Header Row checkbox in Table Style Options.

Accessibility Checker

Don't forget to **check accessibility for issues**. The checker provides errors, warnings, & tips.

- 1. Select Review tab > Check Accessibility > Check Accessibility option.
- 2. Explore features under Accessibility tab.

Also Be Mindful Of...

- **Sufficient font size**, especially if viewed on a projector.
- Captioning/transcript for embedded videos & transcript for embedded audio.
- Avoiding automatic slide transitions.
- Use plain, simple language when found possible.
- Enable "Always Use Subtitles" if you will be presenting with a microphone.
