

October 1, 2019

Good afternoon,

You have been identified as an ADUMS Account Administrator for the University of South Carolina. As a result, we need to make you aware of some important changes that will be implemented on January 1, 2019.

- The mainframe identity infrastructure (aka C60) will be moved to Oracle Identity Manager (OIM). As a result, **Guest Account Management within the ADUMS tool will be discontinued on January 1, 2019. Guest account access will also be discontinued.** If you are aware of individuals that need to keep their access after January 1, they will need to go through the HR Affiliate process before Thanksgiving Break 2018 (November 20, 2018).
- To perform the HR Affiliate process, go to the HR Toolbox website: [https://sc.edu/about/offices\\_and\\_divisions/human\\_resources/toolbox/index.php](https://sc.edu/about/offices_and_divisions/human_resources/toolbox/index.php). Halfway down the page there is a Hiring Section that lists "Affiliate Appointment." Click this link to go to the affiliate sponsoring form and the affiliate policy.

These changes are being implemented in order to move the university forward by improving our information security, HR, and payroll systems. Please contact the Service Desk at (803) 777-1800 or submit a service ticket at <http://sc.edu/ithelp> with any questions.

Thank you,

Division of Information Technology
