REPORT: COMMITTEE ON CURRICULA AND COURSES
(For consideration by the Faculty Senate at its December 2, 2015 meeting.)

Per the USC Policies and Procedures Manual - Academic Affairs section ACAF 2.00 and 2.03 Appendices, any department which has a proposal being recommended by the Committee on Curricula and Courses must have a representative in attendance at the Faculty Senate meeting in which said proposal is to be recommended.

Please contact Chair Kathleen Kirasic (Psychology) in advance of Faculty Senate meeting if errors are noted, either by phone: 777-4137 or e-mail: kck@sc.edu.

(Please note: Unless noted, approvals are effective in the 2016-2017 Bulletin)

Correction to Report of November 4, 2018:

There was an omission to the Report from the Committee on Curricula and Courses of November 4, 2015.

The Committee approved but did not present the change of credit hours from 124 to 120 for the Change to Concentration for both Fashion Merchandising and Retail Management from the College of Hospitality, Retail, & Sport Management.

</table>
2. Interdisciplinary Studies Major (36 Hours)

Each student must complete a program of studies designed by an interdisciplinary program committee appointed by the assistant dean and approved by the college Interdisciplinary Studies Committee. The program shall include a minimum of 36 semester hours of credit in courses numbered 300 or above and in two or more fields. No course submitted in fulfillment of the general education requirements may be included in the program requirements. A maximum of 15 semester hours of independent study courses may be applied to the interdisciplinary studies program requirement.

3. Cognate or Minor Requirements (12-18 Hours) for B.A. Degrees

Cognate

The cognate is intended to support the course work in the major. The cognate must consist of twelve (12) hours of courses at the advanced level, outside of but related to the major. The cognate may be taken in one or more departments or programs, depending on the interests of the student and the judgment of the advisor.

Courses offered by departments and programs in the College of Arts and Sciences that are acceptable for cognate credit are outlined in the section titled Courses Acceptable for Cognate Credit in Degree Programs in the College of Arts and Sciences.

For cognate course offerings in other colleges, consult the appropriate sections of this bulletin. Some major...
programs have specific cognate requirements.

It should be emphasized that the cognate is not a second set of elective courses to be chosen at random by the student. The cognate must be approved by the major advisor as being related to the major field of study. Students are urged to consult their major advisors for specific requirements in their major.

Courses applied toward general education requirements cannot be counted toward the cognate.

For Bachelor of Arts degrees, all cognate courses must be passed with a grade of C or higher.

### Procedure

The following procedures shall be followed in designing a program of interdisciplinary studies.

1. The candidate shall apply to the College Academic Affairs and Advising Office for declaration of an interdisciplinary studies program.
2. The candidate must submit to the College Academic Affairs and Advising Office a written statement of goals concerning a potential interdisciplinary studies program.
3. The College Academic Affairs and Advising Office will help the candidate formulate an interdisciplinary program committee, which shall consist of faculty members from the student’s areas of interdisciplinary interest. The members of the interdisciplinary program committee shall be appointed by the College Academic Affairs and Advising Office, who will designate one member as chair and as the student’s academic advisor.
4. The interdisciplinary program committee shall meet with the student and prepare a program of studies leading to the Bachelor of Arts in Interdisciplinary Studies. This program shall include a written justification for the specific program of studies designed with the student. The program of study must be approved by the committee prior to the completion of 75 hours. The committee and assistant dean must approve any subsequent changes in the student’s program.
5. The candidate’s academic advisor shall advise the student each semester and shall sign the necessary registration and other advisor’s forms. Advising shall adhere to the student’s approved program of studies. The academic advisor shall consult with the interdisciplinary program committee for approval should deviation from the original program become necessary or advisable. All
changes shall be registered with the assistant dean.

6. The college Interdisciplinary Studies Committee shall review and give final approval to individual programs of interdisciplinary studies.

the student. The program of study must be approved by the committee prior to the completion of 75 hours. The committee and College Academic Affairs and Advising Office must approve any subsequent changes in the student’s program.

5. The candidate’s academic advisor shall advise the student each semester and shall sign the necessary registration and other advisor’s forms. Advising shall adhere to the student’s approved program of studies. The academic advisor shall consult with the interdisciplinary program committee for approval should deviation from the original program become necessary or advisable. All changes shall be registered with the College Academic Affairs and Advising Office.

Change in Major/Degree Program – Bachelor of Science with a major in Interdisciplinary Studies (BSIS)

| Existing Curriculum (128 Hours) |
| Basic Degree Requirements for Bachelor of Science Degrees (128 Hours) |
| Note: Bachelor of Science degrees with majors in Biological Sciences, Chemistry, Economics, Geography, Mathematics, Psychology, Sociology or Statistics, and the Bachelor of Science in Chemistry with a major in Chemistry require 120 hours. All other Bachelor of Science degrees require a minimum of 128 hours. |
| 1. Carolina Core Plus General Education Requirements |

| Proposed Curriculum (120 hours) |
| Basic Degree Requirements for Bachelor of Science Degrees (120 Hours) |
| Note: Bachelor of Science degrees with majors in Biological Sciences, Chemistry, Economics, Geography, Geological Sciences, Interdisciplinary Studies, Mathematics, Physics, Psychology, Sociology or Statistics, and the Bachelor of Science in Chemistry with a major in Chemistry require 120 hours. All other Bachelor of Science degrees require a minimum of 128 hours. |
| 1. Carolina Core Plus General Education Requirements |
| 2. Major |
| 3. Cognate or Minor Requirements (optional) |
2. Major

Interdisciplinary Studies Program Requirements (36 Hours)

Each student must complete a program of studies designed by an interdisciplinary program committee appointed by the assistant dean and approved by the college Interdisciplinary Studies Committee. The program shall include a minimum of 36 semester hours of credit in major eligible courses in two or more fields. No course submitted in fulfillment of the general education requirements may be included in the program requirements.

2. Major

Interdisciplinary Studies Program Requirements (36 Hours)

Each student must complete a program of studies designed by an interdisciplinary program committee appointed by the College Academic Affairs and Advising Office. The program shall include a minimum of 36 semester hours of credit in major eligible courses in two or more fields. No course submitted in fulfillment of the general education requirements may be included in the program requirements. A maximum of 15 semester hours of independent study courses may be applied to the interdisciplinary studies program requirement.

3. Cognate or Minor Requirements (12-18 Hours) for B.S. Degrees

Cognate

The cognate is intended to support the course work in the major. The cognate must consist of twelve (12) hours of courses at the advanced level, outside of but related to the major. The cognate may be taken in one or more departments or programs, depending on the interests of the student and the judgment of the advisor.

Courses offered by departments and programs in the College of Arts and Sciences that are acceptable for cognate credit are outlined in the section titled Courses.

3. Cognate or Minor Requirements (12-18 Hours) for B.S. Degrees

A cognate or minor is not required for the BSIS degree. Students who opt to complete a cognate or minor must follow requirements for the cognate or minor as detailed in the College of Arts and Sciences section of the Bulletin.
Acceptable for Cognate Credit in Degree Programs in the College of Arts and Sciences.

For cognate course offerings in other colleges, consult the appropriate sections of this bulletin. Some major programs have specific cognate requirements.

It should be emphasized that the cognate is not a second set of elective courses to be chosen at random by the student. The cognate must be approved by the major advisor as being related to the major field of study. Students are urged to consult their major advisors for specific requirements in their major.

Courses applied toward general education requirements cannot be counted toward the cognate.

For Bachelor of Science degrees, grades of D are acceptable for completion of the cognate requirement, except where restricted by the major program.

### Procedure

The following procedures shall be followed in designing a program of interdisciplinary studies:

1. The candidate shall apply to the assistant dean for declaration of an interdisciplinary studies program.
2. The candidate must submit to the assistant dean a written statement of goals concerning a potential interdisciplinary studies program.
3. The assistant dean will help the candidate formulate an interdisciplinary program committee, which shall consist of faculty members from the student's areas of interdisciplinary interest. The members of the interdisciplinary program committee shall be appointed by the assistant dean, who will designate one member as chair and as the student's academic advisor.
4. The interdisciplinary program committee shall meet with the student and prepare a program of studies leading to the Bachelor of Science in Interdisciplinary Studies. The program shall include a written justification for the specific program of studies designed with the student. The program of study must be approved by the committee prior to the completion of 90 hours. The committee and assistant dean must approve any subsequent changes in the student's program.
5. The candidate's academic advisor shall advise the student each semester and shall sign the necessary registration and other
advisor's forms. Advising shall adhere to the student's approved program of studies. The academic advisor shall consult with the interdisciplinary program committee for approval should deviation from the original program become necessary or advisable. All changes shall be registered with the assistant dean.

6. The college Interdisciplinary Studies Committee shall review and give final approval to individual programs of interdisciplinary studies.

Bachelor of Science in Interdisciplinary Studies Degree After Completion of One Year of Medical or Dental School. Upon application to the College of Arts and Sciences, Undergraduate Studies, Jones Physical Center 109, a student who has completed 95 hours or more of degree-applicable undergraduate work at the University of South Carolina (with the last 30 hours in residence at the University) with a grade point average of 2.00 or higher, will be granted the BSIS degree provided that:

1. The applicant has satisfied all graduation requirements for the BSIS degree in the College of Arts and Sciences, except for the final 33 hours.
2. The applicant has not applied these University of South Carolina credits to obtaining a baccalaureate degree from any institution.
3. The applicant submits documents from an accredited medical or dental school demonstrating satisfactory completion of the first year of study leading to a post-baccalaureate degree.
4. The applicant has the program of study approved by the college Interdisciplinary Studies Committee.
5. The assistant dean of the College of Arts and Sciences certifies that the requirements prescribed for the degree have been met.

Interested students enrolled at the University should consult the assistant dean of the College of Arts and Sciences for details concerning this option.

prepare a program of studies leading to the Bachelor of Science in Interdisciplinary Studies. The program shall include a written justification for the specific program of studies designed with the student. The program of study must be approved by the committee prior to the completion of 75 hours. The committee and College Academic Affairs and Advising Office must approve any subsequent changes in the student’s program.

5. The candidate’s academic advisor shall advise the student each semester and shall sign the necessary registration and other advisor’s forms. Advising shall adhere to the student’s approved program of studies. ---

### Certification Requirements (39 hours)

The following professional courses in education are required for all students preparing to teach art in K-12 settings:

- **EDFI 300 - Schools In Communities** (3 Hrs)
- **EDPY 401 - Learners and the Diversity of Learning** (3 Hrs)
- **ARTE 571 - Directed Teaching in Art** (12 Hrs)*
- **ARTE 525 - Elementary Methods for K-12 Art**

### Certification Requirements (42 hours)

The following professional courses in education are required for all students preparing to teach art in K-12 settings:

- **EDFI 300 - Schools In Communities** (3 Hrs)
- **EDPY 401 - Learners and the Diversity of Learning** (3 Hrs)
- **EDRD 500 - Content Area Literacy PK-12** (3 Hrs) or **EDEX 581 - Teaching Reading in the Content Areas to Adolescents with Reading**
### Major Requirements (54 hours)

- ARTS 103 - Fundamentals of Art (3 Hrs)
- ARTS 104 - 3-Dimensional Design I (3 Hrs)
- ARTS 111 - Basic Drawing I (3 Hrs)
- ARTS 230 - Introduction to Drawing (3 Hrs)
- ARTS 210 - Introduction to Painting (3 Hrs)
- ARTS 215 - Introduction to Printmaking (3 Hrs)
- ARTS 220 - Beginning Ceramics (3 Hrs)
- ARTS 225 - Introduction to Three-Dimensional Studies or ARTS 555 - Jewellerymaking I (3 Hrs)

### Major Requirements (51 hours)

- ARTS 103 - Fundamentals of Art (3 Hrs)
- ARTS 104 - 3-Dimensional Design I (3 Hrs)
- ARTS 111 - Basic Drawing I (3 Hrs)
- ARTS 230 - Introduction to Drawing (3 Hrs)
- ARTS 210 - Introduction to Painting (3 Hrs)
- ARTS 215 - Introduction to Printmaking (3 Hrs)
- ARTS 220 - Beginning Ceramics (3 Hrs)
- ARTS 225 - Introduction to Three-Dimensional Studies or ARTS 555 - Jewellerymaking I (3 Hrs)
- ARTS 232 - Figure Structure I (3 Hrs)
Jewelrymaking I (3 Hrs)
- ARTS 232 - Figure Structure I (3 Hrs)
- ARTS 261 - Introduction to Photography (3 Hrs)
- ARTS - Elective (3 Hrs)
- ARTS - Elective (3 Hrs)
- ARTS - Elective (3 Hrs)

Each student must have a concentration of at least 9 hours in one studio area at the 200 level or above.

Four additional courses in Art History

- ARTH 105 - History of Western Art I
- ARTH 106 - History of Western Art II
- ARTH - One course in contemporary Art History (3 Hrs)
- ARTH - Elective (3 Hrs)
- ARTS 261 - Introduction to Photography (3 Hrs)
- ARTS - Elective (3 Hrs)
- ARTS - Elective (3 Hrs)
- ARTS - Elective (3 Hrs)

Each student must have a concentration of at least 6 hours in one studio area at the 200 level or above.

Four additional courses in Art History

- ARTH 105 - History of Western Art I
- ARTH 106 - History of Western Art II
- ARTH - One course in contemporary Art History (3 Hrs)
- ARTH - Elective (3 Hrs)

B. Department of Biological Sciences

Change Description, Credit Hours, Course Hour Type and Prerequisite

From: BIOL 652 Evolutionary Biology. (4) A survey of major themes in evolutionary biology, including natural selection, molecular evolution, population genetics, quantitative genetics, sexual selection, speciation, and coevolution.
Prereq: BIOL 552 or consent of instructor
Course Hour Type: Variable

To: BIOL 652 Evolutionary Biology. (3) An advanced course in evolutionary biology, including natural selection, neutral evolution, molecular evolution, population genetics, quantitative genetics, sexual selection, speciation, human evolution, and the evolution of disease.
Prereq: BIOL 301 and BIOL 303 or consent of instructor
Course Hour Type: Fixed

The following courses fulfill some of the general education requirements and some cognates and must be completed for a B.S. in Chemistry degree:

- PHYS 211 - Essentials of Physics I
- PHYS 211L - Essentials of Physics I Lab
- PHYS 212 - Essentials of Physics II
- PHYS 212L - Essentials of Physics II Lab
- MATH 241 - Vector Calculus
- One math course beyond MATH 241
- CSCE 145 or CSCE 206

Select one of the following options:

**Option 1:**

- CHEM 111 - General Chemistry I
- CHEM 112 - General Chemistry II

**Option 2:**

CHEM 141, 142 are equivalent to CHEM 111, 112, and 321L.

- CHEM 141 - Principles of Chemistry I
- CHEM 142 - Principles of Chemistry II

Major Requirements (37 Hours)

Courses in chemistry numbered 300 level and above to include the following:

- CHEM 322 - Analytical Chemistry
- CHEM 322L - Analytical Chemistry Laboratory
- CHEM 333 - Organic Chemistry I
- CHEM 333L - Comprehensive Organic Chemistry Laboratory I
- CHEM 334 - Organic Chemistry II
- CHEM 334L - Comprehensive Organic Chemistry Laboratory II
- CHEM 511 - Inorganic Chemistry
- CHEM 541 - Physical Chemistry
- CHEM 541L or CHEM 594

The following courses fulfill some of the general education requirements and some cognates and must be completed for a B.S. in Chemistry degree:

- PHYS 211 - Essentials of Physics I
- PHYS 211L - Essentials of Physics I Lab
- PHYS 212 - Essentials of Physics II
- PHYS 212L - Essentials of Physics II Lab
- MATH 141 – Calculus I
- MATH 142 – Calculus II
- MATH 241 - Vector Calculus
- One math course beyond MATH 241
- CSCE 145 or CSCE 206
- STAT 509 or STAT 515

Select one of the following options:

**Option 1:**

- CHEM 111 - General Chemistry I
- CHEM 111L - General Chemistry I Laboratory
- CHEM 112 - General Chemistry II
- CHEM 112L – General Chemistry II Laboratory

**Option 2:**

CHEM 141, 142 are equivalent to CHEM 111 & 111L, 112 & 112L, and 321L.

- CHEM 141 - Principles of Chemistry I
- CHEM 142 - Principles of Chemistry II

Major Requirements (37 Hours)

Courses in chemistry numbered 300 level and above to include the following:

- CHEM 322 - Analytical Chemistry
- CHEM 322L - Analytical Chemistry Laboratory
- CHEM 333 - Organic Chemistry I
- CHEM 333L - Comprehensive Organic Chemistry Laboratory I
- CHEM 334 - Organic Chemistry II
- CHEM 334L - Comprehensive Organic Chemistry Laboratory II
- CHEM 511 - Inorganic Chemistry
- CHEM 541 - Physical Chemistry
- CHEM 541L or CHEM 594
- CHEM 334 - Organic Chemistry II
- CHEM 542 - Physical Chemistry
- CHEM 542L or CHEM 592
- CHEM 550 or CHEM 555
- CHEM 621 - Instrumental Analysis
- CHEM 621L - Instrumental Analysis
- 3 credits of undergraduate research

Notes:

Students who transfer into the program after completion of CHEM 331L and 332L may meet the organic chemistry requirements by completing CHEM 334L.

- CHEM 334L - Comprehensive Organic Chemistry Laboratory II
- CHEM 511 - Inorganic Chemistry
- CHEM 541 - Physical Chemistry
- CHEM 541L - Physical Chemistry Laboratory
- CHEM 542 - Physical Chemistry
- CHEM 542L - Physical Chemistry Laboratory
- CHEM 550 or CHEM 555
- CHEM 621 - Instrumental Analysis
- CHEM 621L - Instrumental Analysis
- 3 credits of undergraduate research

Notes:

Students who transfer into the program after completion of CHEM 331L and 332L may meet the organic chemistry requirements by completing CHEM 334L.

**Change in Major/Degree Program – B.S. in Biochemistry and Molecular Biology**

### Existing

#### Major Prerequisites

The following courses fulfill some of the general education requirements and must be completed for a B.S. degree with a major in biochemistry and molecular biology:

CHEM 659 Special Topics in Biochemistry. (3) Selected topics in the field of biochemistry. May be repeated as content varies by title. Prereq: Grade of C or higher in CHEM 555/BIOL 545 or CHEM 550/BIOL 541

Change Description
From: CHEM 399 Independent Study. (3) Contract approved by instructor, advisor, and department chair or dean is required.

To: CHEM 399 Independent Study. (3) Contract Required.

Change Description, Change Prerequisite
From: CHEM 621L Instrumental Analysis Lab. (1) Chemical instrumentation laboratory with environmental, forensic, and biotechnology applications.

Note: Three laboratory hours per week. Corequisite: Prereq or coreq: CHEM 541, 621, and CHEM 541L or 591

To: CHEM 621L Instrumental Analysis Lab. (1) Methods, principles and strategies for chemical instrumentation in analysis. Chemical instrumentation laboratory with environmental, forensic, and biotechnology applications.
Note: Three laboratory hours per week

Coreq: CHEM 621

**Change Description, Change Credit Hours, Credit Hour Type**

From: CHEM 639 | Special Topics in Organic Chemistry. (1) Current developments in organic chemistry. Readings and research on selected topics. Course content varies by title and suffix and will be announced in the schedule of classes. May be repeated for credit

Course Hour Type: Variable

To: CHEM 639 | Special Topics in Organic Chemistry. (3) Current developments in organic chemistry. Readings and research on selected topics. May be repeated as content varies by title.

Course Hour Type: Fixed

**Correct Title and Change Prerequisite**

From: CHEM 106 | Chemistry and Modern Man II. (3)
Prereq: CHEM 105

To: CHEM 106 | Chemistry and Modern Society II. (3)
Prereq: Grade of C or higher in CHEM 105

From: CHEM 106L | Chemistry and Modern Man Laboratory. (1)
Prereq: CHEM 105

To: CHEM 106L | Chemistry and Modern Society II Laboratory. (1)
Coreq: CHEM 106 (unless a grade of C or higher earned previously)
Prereq: Grade of C or higher in CHEM 105

**Delete Prerequisite**

From: CHEM 360 | Undergraduate Seminar. (1)
Prereq: CHEM 333, BIOL 303

To: CHEM 360 | Undergraduate Seminar. (1)

**Change Prerequisite and other Change**

From: CHEM 533 | Comprehensive Organic Chemistry III. (3)
Prereq: CHEM 334 or the equivalent

To: CHEM 533 | Comprehensive Organic Chemistry III. (3)
Prereq: Grade of C or higher in CHEM 334

Other Change: For Undergraduate Credit Only
From: CHEM 541  Physical Chemistry. (3)
Prereq: Grade of C or better in Chem 112 (or Chem 142), in PHYS 212 (or PHYS 207), and in MATH 241; or consent of instructor

To:   CHEM 541  Physical Chemistry. (3)
Prerequisites: Grade of C or higher in CHEM 112 (or CHEM 142) and in MATH 241 or higher MATH. Corequisite: PHYS 212; unless a grade of “C” or higher in PHYS 212 earned previously.

Other Change: For Undergraduate Credit Only

Add Co-Requisites and/or Change Prerequisites
From: CHEM 111  General Chemistry I. (3)
Prereq: MATH 111 or 115 (or higher)

To:   CHEM 111  General Chemistry I. (3)
Prerequisites: Grade of C or higher in MATH 111, MATH 115, MATH 122, MATH 141 or higher math (or by placement score into MATH 122, MATH 141 or higher math) Co-requisite: CHEM 111L (unless grade of C or higher in CHEM 111L earned previously)

From: CHEM 112  General Chemistry II. (3)
Prereq: MATH 111 or 115 (or higher) and a grade of C or better in CHEM 111 or CHEM 141

To:   CHEM 112  General Chemistry II. (3)
Prerequisites: Grade of C or higher in CHEM 111 or CHEM 141; and a grade of C or higher in MATH 111, MATH 115, MATH 122, MATH 141 or higher math. Co-requisite: MATH 122, MATH 141 or higher MATH and CHEM 112L.

From: CHEM 118  Computational Chemistry I. (1)
Coreq: Prereq or coreq: CHEM 112 or CHEM 142
Prereq: Prereq or coreq: CHEM 112 or CHEM 142

To:   CHEM 118  Computational Chemistry I. (1)
Corequisite: CHEM 112 and CHEM 112L or CHEM 142 (unless a grade of C or higher earned previously)

From: CHEM 141  Principles of Chemistry. (4)
Prereq: high-school chemistry; Prereq or coreq: MATH 141 or higher.

To:   CHEM 141  Principles of Chemistry. (4)
Prerequisites: high-school chemistry; grade of C or higher in MATH 141 or higher math (or by placement score into MATH 142 or higher math).
From: CHEM 142 Principles of Chemistry II. (4)
Prereq: CHEM 141

To: CHEM 142 Principles of Chemistry II. (4)
Prereq: Grade of C or higher in CHEM 141

From: CHEM 318 Computational Chemistry II. (1)
Prereq: CSCE 145 or 206, CHEM 118 or consent of instructor

To: CHEM 318 Computational Chemistry II. (1)
Prereq: Grade of C or higher in CSCE 145 or 206 and in CHEM 118 or consent of instructor

From: CHEM 321 Quantitative Analysis. (3)
Co–req: CHEM 321L
Prereq: CHEM 112 and 112L or CHEM 142

To: CHEM 321 Quantitative Analysis. (3)
Corequisite: CHEM 321L Prerequisites: Grade of C or higher in CHEM 112 and CHEM 112L or in CHEM 142

From: CHEM 322 Analytical Chemistry. (3)
Co–req: CHEM 322L
Prereq: Grade of C or better in CHEM 112 and CHEM 112L or CHEM 142 and MATH 141

To: CHEM 322 Analytical Chemistry. (3)
Corequisite: CHEM 322L Prerequisites: Grade of C or higher in CHEM 112 and CHEM 112L (or in CHEM 142) and in MATH 141 or higher MATH.

From: CHEM 331L Essentials of Organic Chemistry Laboratory I. (1)
Co–req: Prereq or coreq: CHEM 333
Prereq: Prereq or coreq: CHEM 333

To: CHEM 331L Essentials of Organic Chemistry Laboratory I. (1)
Co-req: CHEM 333 (unless grade of C or higher in CHEM 333 earned previously)

From: CHEM 332L Essentials of Organic Chemistry Laboratory II. (1)
Co–req: CHEM 334
Prereq: CHEM 331L or, with permission of instructor, CHEM 333L, CHEM 334

To: CHEM 332L Essentials of Organic Chemistry Laboratory II. (1)
Corequisite: CHEM 334 (unless grade of C or higher in CHEM 334 earned previously) Prerequisite: Grade of C or higher in CHEM 331L

From: CHEM 340  Elementary Biophysical Chemistry. (3)
Prereq: CHEM 112 or CHEM 142

To:  CHEM 340  Elementary Biophysical Chemistry. (3)
Prereq: Grade of C or higher in CHEM 112 and CHEM 112L or in CHEM 142

From: CHEM 340L  Elementary Biophysical Chemistry Laboratory. (1)
Prereq: CHEM 340 or 550

To:  CHEM 340L  Elementary Biophysical Chemistry Laboratory. (1)
Prereq: Grade of C or higher in CHEM 340 or 550

From: CHEM 496  This title changes based on the title listed on the contract. (3)
Prereq: consent of instructor

To:  CHEM 496  This title changes based on the title listed on the contract. (3)
Prereq: Contract Required.

From: CHEM 497  This title changes based on the title listed on the contract. (3)
Prereq: consent of instructor

To:  CHEM 497  This title changes based on the title listed on the contract. (3)
Prereq: Contract Required

From: CHEM 498  This title changes based on the title listed on the contract. (3)
Prereq: consent of instructor

To:  CHEM 498  This title changes based on the title listed on the contract. (3)
Prereq: Contract Required

From: CHEM 499  This title changes based on the title listed on the contract. (3)
Prereq: consent of instructor

To:  CHEM 499  This title changes based on the title listed on the contract. (3)
Prereq: Contract Required

From: CHEM 511  Inorganic Chemistry. (3)
Prereq: CHEM 334, PHYS 212 or 207, and MATH 241

To:  CHEM 511  Inorganic Chemistry. (3)
Prereq: Grade of C or higher in CHEM 334, PHYS 212, and MATH 241
From: CHEM 541L Physical Chemistry Laboratory. (2)
Coreq: Prereq or coreq: CHEM 541
Prereq: CHEM 321L or CHEM 142 or consent of instructor;
Prereq or coreq: 541

To: CHEM 541L Physical Chemistry Laboratory. (2)
Corequisite: CHEM 541 (unless grade of C or higher in CHEM 541 earned previously) Prerequisites: Grade of C or higher in CHEM 321L or in CHEM 322L or in CHEM 142.

From: CHEM 542 Physical Chemistry. (3)
Prereq: Grade of C or better in CHEM 112 (or CHEM 142), in PHYS 212 (or 207), and in MATH 241; or consent of instructor

To: CHEM 542 Physical Chemistry. (3)
Prereq: Grade of C or higher in CHEM 112 (or CHEM 142), MATH 241 and PHYS 212

From: CHEM 542L Physical Chemistry Laboratory. (2)
Prereq: CHEM 321L or CHEM 142 or consent of instructor;
Prereq or coreq: CHEM 542

To: CHEM 542L Physical Chemistry Laboratory. (2)
Prereq: Grade of C or higher in CHEM 321L or in CHEM 142 or consent of instructor Co-requisite: CHEM 542 (unless grade of C or higher in CHEM 542 earned previously)

From: CHEM 545 Physical Biochemistry. (3)
Prereq: CHEM 541 and CHEM 550

To: CHEM 545 Physical Biochemistry. (3)
Prereq: Grade of C or higher in CHEM 541 and CHEM 550

From: CHEM 621 Instrumental Analysis. (3)
Coreq: Prereq or coreq: CHEM 541, and CHEM 541L or CHEM 591
Prereq: Prereq or coreq: CHEM 541, and CHEM 541L or CHEM 591

To: CHEM 621 Instrumental Analysis. (3)
Prereq: Grade of C or higher in CHEM 321 or 322

From: CHEM 622 Forensic Analytical Chemistry. (3)
Prereq: CHEM 321/321L and CHEM 334/332L or 334L

To: CHEM 622 Forensic Analytical Chemistry. (3)
Prereq: Grade of C or higher in CHEM 321/321L and in CHEM 334/332L or 334L
From: CHEM 623 Introductory Environmental Chemistry. (3)  
Prereq: CHEM 321, CHEM 333, and MATH 142

To: CHEM 623 Introductory Environmental Chemistry. (3)  
Prereq: Grade of C or higher in CHEM 321, in CHEM 333, and in MATH 142

From: CHEM 633 Introduction to Polymer Synthesis. (3)  
Prereq: CHEM 334 or equivalent

To: CHEM 633 Introduction to Polymer Synthesis. (3)  
Prereq: Grade of C or higher in CHEM 334

From: CHEM 644 Materials Chemistry. (3)  
Corequisite: Prereq or coreq: CHEM 542  
Prerequisites: Prereq or coreq: CHEM 542

To: CHEM 644 Materials Chemistry. (3)  
Corequisite: CHEM 542 (unless a grade of C or higher earned previously.)

Add Note/Restrictions
CHEM 321L Quantitative Analysis Lab. (1)  
Note: Credit cannot be received for both CHEM 321L and CHEM 322L.

CHEM 322L Analytical Chemistry Lab. (1)  
Note: Credit cannot be received for both CHEM 321L and CHEM 322L

CHEM 401 Industrial Chemistry Capstone Experience. (3)  
Restrictions to: Chemistry, Biochemistry & Molecular Biology, Chemical Engineering, and Biomedical Engineering Majors

Change Add Co-Requisites and/or change Prerequisite, Remove Specification
From: CHEM 333 Organic Chemistry I. (3)  
Prereq: CHEM 112 or CHEM 142

To: CHEM 333 Organic Chemistry I. (3)  
Prereq: Grade of C or higher in CHEM 112 or in CHEM 142  
Remove the Specification: “Required for chemistry majors.”

From: CHEM 334 Organic Chemistry II. (3)  
Prereq: CHEM 333

To: CHEM 334 Organic Chemistry II. (3)  
Prereq: Grade of C or higher in CHEM 333
Remove the Specification: “Required for chemistry majors.”

**Change Prerequisite, Add Restrictions**

From: CHEM 333L Comprehensive Organic Chemistry Laboratory I. (2)
Coreq: Prereq or Coreq: CHEM 331 or CHEM 333
Prereq: Prereq or coreq: CHEM 331 or CHEM 333

To: CHEM 333L Comprehensive Organic Chemistry Laboratory I. (2)
Corequisite: CHEM 333 (unless grade of C or higher in CHEM 333 earned previously)
Restricted: Chemistry, Biochemistry & Molecular Biology, Chemical Engineering, Biomedical Engineering majors

From: CHEM 334L Comprehensive Organic Chemistry Laboratory II. (2)
Coreq: Prereq or Coreq: CHEM 334
Prereq: coreq: CHEM 334

To: CHEM 334L Comprehensive Organic Chemistry Laboratory II. (2)
Co-requisite: CHEM 334 (unless grade of C or higher in CHEM 334 earned previously) Prerequisites: Grade of C or higher in CHEM 333L
Restricted to: Chemistry, Biochemistry & Molecular Biology, Chemical Engineering, Biomedical Engineering majors

**Add Carolina Core Designation**

From: CHEM 107 Forensic Chemistry. (4)

To: CHEM 107 Forensic Chemistry. (4)

**Overview**

The Film and Media Studies Program is an interdisciplinary
interdisciplinary program in the College of Arts and Sciences devoted to the critical study of moving image culture—its history, theory, and criticism. The major offers crucial knowledge and analytical skills in our increasingly media-saturated culture, as well as the core strengths of a liberal arts education.

Students who might want to major or minor in film and media studies, or whose course of study would benefit from knowing how to closely analyze audiovisual media (e.g., film, video, digital media), should begin their course work with FILM 240. FILM 300 is also appropriate for entering students, regardless of major, who want more in-depth knowledge of the history of moving image culture. FILM 110 is designed for non-majors. All of these courses can be used to fulfill general education requirements in the Carolina Core.

For current course offerings and descriptions, and a list of our affiliate faculty, students should consult the Film and Media Studies Program Web site, www.cas.sc.edu/film.

F. Department of Geography

**Change Description and add Carolina Core Designation**

From: GEOG 105 The Digital Earth. (3) Use of maps, aerial photographs, and images from satellites as representations of the earth’s surface.

To: GEOG 105 The Digital Earth. (3) Introduction to geographic data; use of digital maps and aerial/satellite images as means of Earth observation; basics of spatial data analysis; location-based Web APPs; digital map services.

### Application and Admission

Application and admission to the professional program in education/internship are required for all majors seeking teacher certification. All teacher education candidates must adhere to all education policies and procedures related to clinical experiences and meet University and S.C. Board of Education requirements.
in order to be recommended for certification. Information is available from academic advisors or the College of Education, Office of Student Affairs, at 803-777-6732.

Note:

Normally, students pursuing the teacher certification option may apply 300- or higher level education courses and/or 300- or higher level FORL courses to the cognate.

### Change in Major/Degree Program – French, B.A.

#### Existing

**2. French Major (27 Hours)**

A minimum grade of C is required in all major courses.

**General Option (27 Hours)**

**Required Core (9 Hours)**

- FREN 309 - Reading French Texts
- FREN 310 - Advanced Oral Communication
- FREN 311 - French Composition

**Electives (18 Hours)**

- Select an additional 18 hours from FREN 300 - 500 with approval of the Undergraduate Advisor

**Teacher Certification Option (37 Hours)**

Students pursuing a French Major with Teaching Certification will complete the following courses in addition to the General French Major requirements:

- FORL 472 - Introduction to Technology in Language Education
- FORL 510 - Teaching Second Languages to Young Children
- FORL 511 - Teaching Foreign Languages in Secondary Schools
- EDFI 300 - Schools In Communities
- EDTE 400 - Learning Through Community Service
- EDEX 491 - Introduction to Inclusion of Students with Mild Disabilities
- EDPY 401 - Learners and the Diversity of Learning
- EDPY 401P - Practicum: Learners and the Diversity of Learning

#### Proposed

**2. French Major (27 Hours)**

Old:

Prerequisites: Placement at 300 level of Phase II placement exam, C+ or better in SPAN 309, or consent of instructor; department permission required for transfer students.

New:

Prerequisites: Placement at 300 level of Phase II placement exam, C+ or better in SPAN 302, or consent of instructor; department permission required for transfer students.

SPAN 380

Old:

Prerequisites: Placement at 300 level on Phase II placement exam, grade of C+ or better in SPAN 309, or consent of instructor. Department permission required for transfer students.

New:

Prerequisites: Placement at 300 level on Phase II placement exam, grade of C+ or better in SPAN 302, or consent of instructor. Department permission required for transfer students.

SPAN 409

Old:

Prerequisites: SPAN 309 or consent of instructor

New:

Prerequisites: SPAN 302 or consent of instructor

SPAN 410
Old:

**Prerequisites:** SPAN 309, 310

**Note:** Restricted to Students who have successfully completed 309-310 and/or have permission of instructor to enroll.

New:

**Prerequisites:** SPAN 302, 303

**Note:** Restricted to Students who have successfully completed 302-303 and/or have permission of instructor to enroll.

PORT 299

Old:

**Prerequisites:** SPAN 309, advanced proficiency or equivalent in Spanish, or consent of instructor

New:

**Prerequisites:** SPAN 302, advanced proficiency or equivalent in Spanish, or consent of instructor

Curriculum Affected by Number Changes for SPAN 309, 310, and/or 300

Spanish Major and Spanish Minor should be updated to reflect the new numbering:

**Note**

Cognate courses must be selected in consultation with the student’s major advisor (12 hours). Normally, students pursuing the teacher certification option may apply 300 or higher level education courses and/or 300 or higher level FORL courses to the cognate.

**Application and Admission**

Application and admission to the professional program in education/internship are required for all majors seeking teacher certification. All teacher education candidates must adhere to all education policies and procedures related to clinical experiences and meet University and S.C. Board of Education requirements in order to be recommended for certification. Information is available from academic advisors or the College of Education, Office of Student Affairs, at 803-777-6732.

**New Course**

**CHIN 550**  Advanced Special Topics in Chinese Studies. (3) Advanced special topics in Chinese studies. May be repeated as content varies by title.
Change Title, course number, description and prerequisite
FROM: SPAN 300  Cultural Readings for Conversation. (3) Readings and discussion of topics affecting the Hispanic world. Emphasis on speaking and listening skills. Use of electronic media. Not open to native speakers. Prereq: SPAN 210 or 211 or by Phase II placement exam

To: SPAN 304  Cultural Readings and Advanced Conversation. (3) Cultural readings about the Spanish-speaking world, and advanced speaking skills practice through various strategies such as group discussions, debates, presentations. Prereq: SPAN 302, by Placement on Phase II placement exam or consent of instructor. Department permission required for transfer students.

FROM: SPAN 310  Advanced Spanish Language II. (3) Continuation of advanced practice of listening, speaking, reading, and writing skills. Prereq: SPAN 309 by Placement on Phase II placement exam or consent of instructor. Department permission required for transfer students.

To: SPAN 303  Cultural Readings and Advanced Composition. (3) Development of advanced composition skills in Spanish on a variety of topics related to cultural production of the Spanish-speaking world. Prereq: SPAN 302, by Placement on Phase II placement exam or consent of instructor. Department permission required for transfer students.

Change Title, course number and description
FROM: SPAN 309  Advanced Spanish Language I. (3) Advanced practice of listening, speaking, reading and writing skills.

To: SPAN 302  Advanced Spanish. (3) In-depth study of advanced grammatical structures of Spanish to develop proficiency in all 4 skills and cultural competency. Gateway course for Spanish majors.

H. Department of Linguistics

New Course
LING 474  Bilingualism [=ANTH 474] [=PSYC 474]. (3) Bilingual language development, social and cultural aspects of bilingualism, the bilingual brain, bilingualism throughout the lifespan.

I. Department of Philosophy
Change Title, course number and description
FROM: PHIL 110  Introduction to Logic I. (3) The nature of arguments; fallacies, criteria, and techniques of valid deductive inference; applications.

Carolina Core ARP
TO: PHIL 114

Introduction to Formal Logic I. (3) Formal logic, including foundational logical concepts, syntax and semantics of first-order logic; derivations; applications.

Carolina Core ARP

**New Course**

PHIL 115

Introduction to Formal Logic II. (3) Intermediate topics in predicate logic, including second-order predicate logic; meta-theory, including soundness and completeness; introduction to non-classical logic.

Prereq: PHIL 114 or approved equivalent

### J. Department of Physic & Astronomy

#### Change in Minor - Physics Minor

<table>

<td><strong>Proposed</strong></td>
</tr>
</tbody>
</table>

**Existing Cognate and Minor Requirements:**

Department of Physics and Astronomy
College of Arts and Sciences

**Prerequisite Courses (4 Hours):**

- ASTR 111 - Descriptive Astronomy I
- ASTR 111A - Descriptive Astronomy IIA

**Required Courses (16 Hours):**

- ASTR 211 - Descriptive Astronomy II
- ASTR 211A - Descriptive Astronomy IIA
- At least 12 hours in advanced courses numbered 311 or higher

**Astronomy Minor**

Department of Physics and Astronomy

College of Arts and Sciences

**Prerequisite Courses (7-8 hours):**

- ASTR 101 - Introduction to Astronomy I
- MATH 122 or MATH 142

**Required Courses (at least 15 hours):**

- ASTR 201 - Introduction to Astronomy II
- ASTR electives: At least 9 hours in advanced ASTR courses numbered 300 or higher
- Non-ASTR electives: With approval from the Department of Physics and Astronomy, up to 4 hours in courses from the following set:
  - CHEM 118 or higher
  - CSCE 145 or higher
  - EMCH 201 or higher
  - GEOL 201 or higher
  - MATH 174 or higher
  - PHYS 211 or higher
  - STAT 201 or higher

Advance consultation with the Physics & Astronomy Department is recommended to ensure that course credits will be acceptable for the astronomy minor. Note that some courses in the ASTR and non-ASTR electives list may have...
Delete courses
ASTR 311  Descriptive Astronomy III. (3)

New Course
ASTR 201  Introduction to Astronomy II: The Dark Universe. (3) Astronomical topics including stellar death, black holes, dark matter, dark energy and cosmology. Astronomical techniques and application of the scientific method in astronomy.

Carolina Core

Prereq: ASTR 101 or SCHC 115 or consent of instructor

K. Department of Sociology
Delete Course
SOCY 498  Research Seminar. (3)

**Minor in Risk Management and Insurance (18 Hours)**

**Note:**

* A student double majoring in Mathematics and Statistics may use STAT 511 [=MATH 511] to satisfy a major requirement in both programs.

A student double majoring in Economics (in the College of Arts and Sciences) and Statistics may use the combination of both ECON 436 and STAT 506 in place of the combination of both STAT 516 and one of the STAT 500 or above advanced application courses for the Statistics major. In this case ECON 436 may satisfy a major requirement in both programs. ECON 436 and STAT 516 may not both be used to satisfy major requirements in
**Note:**

* A student double majoring in Mathematics and Statistics who uses STAT 511 [=MATH 511] to satisfy a major requirement in Mathematics may also use that course to satisfy this major requirement in Statistics.

** Major credit will be given for only one of STAT 509 or STAT 515. Neither STAT 509 nor STAT 515 may be taken concurrently with, or after, STAT 513. A student who has started the Statistics major after taking STAT 512 may replace the STAT 509/515 requirement with an additional 3 hour advanced application course chosen from STAT 500 or above.

To: STAT 530  Applied Multivariate Statistics and Data Mining. (3) Introduction to fundamentals of multivariate statistics and data mining. Principal components and factor analysis; multidimensional scaling and cluster analysis; MANOVA and discriminant analysis; decision trees; and support vector machines. Use of appropriate software.
Prereq: A grade of C or higher in STAT 515, STAT 205, STAT 509, STAT 512, ECON 436, MGSC 391, PSYC 228, or equivalent

M. Department of Theatre and Dance
Change to Concentration – Dance Education with K-12 Certification
Existing Emphasis in Dance Education K-12 Certification

Prerequisites

The following courses fulfill some of the General Education Requirements and must be completed for the BA degree with a major in Dance, Emphasis in Dance Education K-12 Certification:

- DANC 150
- DANC 281
- DANC 282

It is recommended that the following courses be taken as part of the General Education requirements:

- CSCE 101
- CSCE 102

All of these recommended or required courses must be passed with a grade of C or higher.

Major Requirements including Professional Education and Education Cognate (69 hours)

Required (12 hours):

- DANC 103 - The Dancer's Body
- DANC 160 - Dance Improvisation and Composition
- DANC 300 - Music for Dancers
- DANC 360 - Choreography I

Techniques (15 hours)

- 5 ballet techniques
- 5 contemporary techniques
- 2 world dance
- 1 open technique

Proposed Emphasis in Dance Education K-12 Certification

Prerequisites

The following courses fulfill some of the General Education Requirements and must be completed for the BA degree with a major in Dance, Emphasis in Dance Education K-12 Certification:

- DANC 150
- DANC 281
- DANC 282

It is recommended that the following courses be taken as part of the General Education requirements:

- CSCE 101
- CSCE 102

All of these recommended or required courses must be passed with a grade of C or higher.

Major Requirements including Professional Education and Education Cognate (69 hours)

Required (12 hours):

- DANC 103 - The Dancer's Body
- DANC 160 - Dance Improvisation and Composition
- DANC 300 - Music for Dancers
- DANC 360 - Choreography I

Techniques (15 hours)

- 5 ballet techniques
- 5 contemporary techniques
- 2 world dance
- 1 open technique
Students must meet both the number of credits and distribution of technique requirements listed above; some techniques courses are variable credit.

To graduate with a major in dance, students must successfully complete DANC 302 and DANC 312.

### Dance Company (3 hours):

- **DANC 177 - Dance Company I**

### Professional Education (27 Hours)

- **DANC 270 - Dance Education I**
- **DANC 370 - Dance Education II: Creative Dance for Children**
- **DANC 470 - Dance Education III: Dance Pedagogy for Middle and High School**
- **DANC 471 - Synthesis of Dance Education Constructs (pre-internship seminar)**
- **DANC 478 - Integrated Approaches in Dance Education**
- **DANC 479 - Teaching Internship in Dance Education**

### Education Cognate (12 Hours)

- **EDFI 300 - Schools In Communities**
- **EDPY 401 - Learners and the Diversity of Learning**
- **PEDU 515 - Physical Education for Inclusion**
- **EDEX 523 - Introduction to Exceptional Children**

**ARTE 260 - Interdisciplinary Relationships in the Arts**

### Professional Education Program Requirements

The dance major with an emphasis in dance education supports prospective teachers in developing both in-depth content knowledge and appropriate knowledge, skills, and dispositions of teaching required in today's classrooms.

Extensive clinical experiences in a variety of appropriate PreK-12 classrooms and schools are a central component of the program.
Application and admission to the Professional Program in Education (typically at 60 credit hours) and admission to Internship are required for all majors seeking teacher certification. All teacher education candidates must adhere to all education policies and procedures related to clinical experiences. Information on education applications, policies, and procedures is available from the College of Education, Office of Student Affairs at 803-777-6732.

Specific requirements in dance education for Admission to Internship II/Student Teaching include the following:

1. Admission to the Professional Program
2. Maintain minimum collegiate summary grade point average as required for admission to the Professional Program.
3. Completion of DANC 270, 370, 470, 471, 478 and 479; dance content courses; and all performance, choreography, and production requirements
4. A grade of C+ or better in all dance, dance education and education courses.
5. Successfully complete EDFI 300, EDPY 401, and ARTE 260.
6. Satisfactory personal interview
7. A passing score on a dance proficiency written exam.

Note:

Dance majors with an emphasis in Dance Education K-12 teacher certification must meet USC and South Carolina Board of Education requirements in order to be recommended for certification (includes passing state-required examinations). An application for certification is required. Contact the College of Education, Office of Student Affairs, 803-777-6732.

</tr>
</tbody>
</table>

Freshmen entering the USC Columbia prebusiness division of the Moore School of Business must meet the campus requirements for admission.

Students from other USC campuses who have no work from colleges outside of USC must have a GPA of 3.00 on all work taken and must have taken at least 15 USC credit hours (to include calculus) with a minimum grade of C. Additionally, those students who have fewer than 30 semester hours from colleges outside USC must also meet Columbia campus freshman admission requirements.

Students enrolled in other colleges on the Columbia campus must have a minimum GPA of 3.00 on all work taken and must have at least 15 USC credit hours to include calculus with a minimum grade of C.
Progression Requirements

The requirements stated below are minimum requirements and are subject to change as stated in the last paragraph of this section. To continue in the sophomore year of the prebusiness division of the Moore School of Business, a student must have a minimum cumulative GPA of 2.60 on a minimum of 24 hours. The 24 hours must include ENGL 101 and 102, SPCH 140 or 230, MATH 122 or 141, and either math at the next higher level or PHIL 110, with a minimum grade of C in each of these courses. A student not meeting these requirements must transfer out of the prebusiness division of the Moore School of Business.

To be admitted to the upper division of the Moore School of Business, a student must have a minimum cumulative GPA of 3.00 on a minimum of 48 hours. The 48 hours must include ENGL 101 and 102, MATH 122 or 141, STAT 206, ECON 221/222, ACCT 225/226, MGSC 290/291, and MGMT 250 or ENGL 463, with a minimum grade of C in each of these courses.

All majors in the Moore School of Business will be expected to pass all business administration and economics courses with a minimum grade of C. Students must petition to take any business or economics class for a third time. Petitioning does not guarantee permission and based on academic record, some students may be required to change majors or transfer out of the business school.

Dual Degrees. Currently enrolled students from other USC colleges who expect to obtain a second baccalaureate degree from the Moore School of Business must meet regular admission and progression requirements of the school and formally apply and be accepted by the school prior to obtaining 75 hours.

Classes. Enrollment priority will be given business majors who are in good academic standing in all business and economics classes.

Suspension. The Moore School of Business adheres to the University’s general policy on suspension.

Graduation. All students admitted to the Moore School of Business effective fall 2016 and thereafter must have a minimum cumulative GPA of 2.80 on all USC work attempted in order to obtain a degree from the Moore School of Business.
**Classes.** Enrollment priority will be given business majors who are in good academic standing in all business and economics classes.

**Suspension.** The Moore School of Business adheres to the University’s general policy on suspension.

**Graduation.** All students admitted to the Moore School of Business effective fall 2000 and thereafter must have a minimum cumulative GPA of 2.50 on all USC work attempted in order to obtain a degree from the Moore School of Business.

EDEX 581 Teaching Reading in the Content Area to Adolescents with Reading Disabilities. (3) Research, theory, and instructional practices related to providing reading instruction in content areas for youth with disabilities, with a focus on developing disciplinary literacy in inclusive settings.

### D. Department of Language and Literacy

**Change title, description and credit hours**

**FROM:** EDRD 500 Teaching Reading in Allied Subject Areas K-12. (1) The identification of
children with reading needs in allied subject areas (music, art, physical education, health) and development of instructional strategies to meet those needs.

TO: EDRD 500  Content Area Literacy PK-12. (3) A survey of research and practice which facilitates students’ literacy skills in the content areas. For K-12 content area teachers of art, dance, physical education, foreign language, music and theatre.

### 4. COLLEGE OF ENGINEERING AND COMPUTING

#### Change to Major/Degree Program – College of Engineering and Computing

**Existing Program / Major Requirements:**

These changes apply to the College of Engineering and Computing page of the Undergraduate Bulletin, and hence all BS programs in the CEC.

<table>
<thead>
<tr>
<th>Existing Cognate and Minor Requirements:</th>
<th>Change Cognate and Minor Requirements:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Plan “M.”</strong></td>
<td>delete section</td>
</tr>
</tbody>
</table>

At the time of admission to the upper division, those students with a GPA of at least 3.40 on the lower-division courses attempted may select the special Plan “M.” Selection of Plan “M” declares the student’s objective is a master’s degree and allows a sequencing of courses to meet that goal in an optimal time period. The student may plan a schedule, time of graduation, and finances accordingly. Students in Plan “M” can earn both a bachelor’s and a master’s degree and are eligible for graduate assistantships upon admission to The Graduate School. Students in Plan “M” must maintain a GPA of 3.40.

Students not in Plan “M” may, of course, apply to graduate school in the customary fashion, and those in Plan “M” may opt out and become candidates for the bachelor’s degree only. Those not eligible (or who do not apply) for Plan “M” at the time of upper-division admission may do so later, if eligible.
### Progression Requirements

To be admitted to the upper division and to be eligible to enroll in upper-division classes, a student must have a GPA of 2.00 or better on all lower-division courses required in the degree program. A listing of lower- and upper-division courses for each degree program is maintained in the Student Services Office. The GPA computation will include repeated grades, with the exception of those for which the university-approved grade forgiveness has been applied. A student not meeting these requirements must change major or transfer out of the College of Engineering and Computing. Additional requirements, including minimum grades in specific courses, may be specified by each major degree program.

Students that are within 30 hours of completing all degree requirements should request a senior check from the Student Services Office.

### Graduation Requirements

In addition to the general University and program specific requirements for a bachelor’s degree, engineering and computing students must have a GPA of 2.00 or better on all major courses in their degree programs. A listing of major courses for each degree program is maintained in the Student Services Office. The GPA computation will include all repeated grades, with the exception of those for which the university-approved grade forgiveness has been applied. For the programs that include an Upper Division, a student must have a GPA of 2.00 or better on all Lower-Division courses required in the degree program. The GPA computation will include repeated grades, with the exception of those for which the university-approved grade forgiveness has been applied. A student not meeting these requirements must change major or transfer out of the College of Engineering and Computing. Lower and Upper Division course lists are included in the program sections of this bulletin. Additional requirements, including minimum grades in specific courses, may be specified by each major degree program.

Students who are within 30 hours of completing all degree requirements should request a senior check from the Student Services Office.

Academic Standards

Minimum Course Grades

The Biomedical Engineering B.S. program requires that a grade of "C" or better be earned in each of the following courses: BMEN 211, BIOL 101, BIOL 101L, CHEM 111, CHEM 111L, ENGL 101, ENGL 102, MATH 141, MATH 142, PHYS 211, PHYS 211L.

Progression Requirements

Progression requirement policies are described in the College of Engineering and Computing section of this bulletin. For the purpose of these policies, Lower Division courses for the Biomedical Engineering B.S. program consist of: BMEN 101, BMEN 211, BMEN 260, BMEN 290, BIOL 101, BIOL 101L, BIOL102, BIOL 102L, CHEM 111, CHEM 111L, CHEM 112, CHEM 112L, PHYS 211, PHYS 212, ENGL 101, ENGL 102, MATH 141, MATH 142, MATH 241 or 250, and MATH 242. Upper Division courses for the Biomedical Engineering B.S. program consist of all BMEN courses numbered 303 and above and ECHE 320 or equivalent.

Major GPA

Major GPA requirement policies are described in the College of Engineering and Computing section of this bulletin. For the purpose of these policies, the following courses are used to determine the Major GPA for the Biomedical Engineering B.S. program: all Biomedical Engineering Major courses, all courses used to satisfy a Biomedical Engineering Elective, all courses used to satisfy an Engineering Elective, and ECHE 320 or equivalent.

Overview
Biomedical engineers are involved in the design and improvement of products and procedures that promote improved health. Contributions of biomedical engineers range from the design of artificial organs to the discovery of new therapeutic pharmaceuticals to the development of surgical procedures and associated instrumentation.

The Departments of Chemical Engineering and Mechanical Engineering collaborate to offer the Bachelor of Science in Biomedical Engineering. The curriculum provides a strong foundation in the basic and applied sciences, as well as in the liberal arts, to provide students with a well-balanced education. Increasing emphasis is placed upon the application of engineering principles to biological systems in the junior and senior years. The curriculum provides the opportunity to engage in technical electives, laboratory course components, and a capstone design experience. Additional elective components and the design experience can be tailored to the specific interests of the student.

Bachelor’s/Master’s Degrees Accelerated Program
The Bachelor’s/Master’s Degrees Accelerated Program in Biomedical Engineering allows undergraduate students to complete both the B.S. degree and M.S. degree in as few as five years. The use of dual credit-courses that can be used toward both degrees enables acceleration of the program, reducing the total enrollment of the student by one semester.

Biomedical Engineering undergraduate students may apply for approval of an accelerated
Bachelor’s/Master’s Degrees Accelerated Program

The Bachelor’s/Master’s Degrees Accelerated Program in Biomedical Engineering allows undergraduate students to complete both the B.S. degree and M.S. degree in as few as five years. The use of dual credit-courses that can be used toward both degrees enables acceleration of the program, reducing the total enrollment of the student by one semester.

Biomedical Engineering undergraduate students may apply for approval of an accelerated education plan in the semester in which they will complete 90 hours of undergraduate course work. In addition, students must have a sufficient foundation in biomedical engineering course work to enable them to take graduate-level courses. University and program regulations stipulate that applicants must have a minimum GPA of 3.40, both overall and in biomedical engineering courses. Students in the accelerated program must maintain a GPA of 3.40 while pursuing the B.S. degree.

Students applying to this program must submit to The Graduate School a completed “Application for Admission to a Combined Bachelor’s/Master’s Education Plan” (G-BMSPA) with endorsements of the undergraduate advisor, research advisor and the program graduate director. The dean of The Graduate School has final authority for approving accelerated education plans. A “Bachelor’s/Master’s Degree Accelerated Plan Course Work Authorization” form must be submitted for each semester in which one or more of these courses are taken.

Participation in the accelerated program does not require or insure acceptance into The Graduate School. Students wishing to continue towards a master’s degree in biomedical engineering at USC must apply formally to the Graduate School by submitting the appropriate application and all required supporting documents. Students in the accelerated program will be eligible for graduate assistantships upon admission to The Graduate School.

Only graduate-level courses (numbered 500 and above, including up to 3 credit hours of project/research work) satisfying both B.S. and Master’s degree requirements may be used for
Students applying to this program must submit to The Graduate School a completed “Application for Admission to a Combined Bachelor’s/Master’s Education Plan” (G-BMPA) with endorsements of the undergraduate advisor, research advisor and the program graduate director. The dean of The Graduate School has final authority for approving accelerated education plans. A “Bachelor’s/Master’s Degree Accelerated Plan Course Work Authorization” form must be submitted for each semester in which one or more of these courses are taken.

Participation in the accelerated program does not require or insure acceptance into The Graduate School. Students wishing to continue towards a master’s degree in biomedical engineering at USC must apply formally to the Graduate School by submitting the appropriate application and all required supporting documents. Students in the accelerated program will be eligible for graduate assistantships upon admission to The Graduate School.

Only graduate-level courses (numbered 500 and above, including up to 3 credit hours of project/research work) dual credit. BMEN core graduate courses (excluding 1-hour seminar courses and thesis preparation, BMEN 799) or courses from list of the approved BMEN graduate electives (refer to the graduate student handbook) may be used for graduate-level coursework. No more than twelve credit hours may be used as dual credit. The graduate courses used for dual credit must be taken during the student’s final undergraduate year. No more than nine credit hours may be applied towards both the Bachelor’s and Master’s degree.

#### Engineering Electives (6 Hours)
- A list of acceptable Engineering Elective courses is maintained in the department office and on its [website](#). The list includes: ENCP 200 or ECIV 200 or EMCH 200; ENCP 201 or EMCH 210; ENCP 210 or ECIV 210 or EMCH 310; ENCP 260 or ECIV 220 or EMCH 260; ENCP 330 or EMCH 330; ENCP 460, 481, 499, 540; BMEN 211, 260, 271, 290, 300 and above, except 301 and 303; CSCE 211, 212, 240, 313, 317, 374; ECHE 202 (in combination with two credit hours of ECHE 499 for co-op students), 372, 389, 456, 497, 499, 520, 571, 572, 573, 574, and 589; ELCT 220, 221, 222, 300 and above; ECIV 300 and above, except 360; EMCH 300 and above, except 354 and 360.

#### Technical Electives (12 Hours)
- A list of acceptable Technical Elective courses is maintained in the department office and on its [website](#). The list includes all Engineering Electives, Chemistry Electives, and Chemistry Lab Electives; ENCP 102 or EMCH 111; MATH 374, 500 and above; STAT 500 and above, except 541 and 591; BIOL 101, 101L, 102, 102L, 120, 120L, 200 and above; GEOL any course; MSCI any course; PHYS 300 and above; CSCE 145, 146, 206, 210, 215, 350.

#### Liberal Arts Electives (6 Hours)
- A list of acceptable Liberal Arts Elective courses is maintained in the department office and on its [website](#). The list includes all Carolina Core Liberal Arts courses (AIU, CMS, GFL, GHS, GSS, and VSR), and other department-approved courses. At least one of the six courses used to satisfy a Carolina Core Liberal Arts requirement or a Chemical Engineering Liberal Arts Elective requirement must be at the 300-level or above and in the same field of study as one of the other five courses.
Optional Concentrations

Students may pursue any of the following concentrations by choosing specified engineering, technical, and chemistry elective courses to fulfill degree requirements:

- Concentration in Biomolecular Engineering
- Concentration in Energy
- Concentration in Interdisciplinary Engineering
- Concentration in Materials

To fulfill the requirements for any concentration, a student must complete five courses (15 credit hours) in one area and which must be approved by the student’s advisor and by the department. Consult the department website or advising handbook for a list of approved concentration courses and for the Chemical Engineering Concentration approval form.

Academic Standards

Minimum Course Grades

The Chemical Engineering B.S.E. program requires that a grade of “C” or better be earned in each of the following courses: ECHE 101 or ENCP 101, ENGL 101, ENGL 102, MATH 141, MATH 142, CHEM 111, CHEM 111L, PHYS 211, and PHYS 211L.

Progression Requirements

Progression requirement policies are described in the College of Engineering and Computing section of this bulletin. For the purpose of these policies, Lower Division Courses for the Chemical Engineering B.S.E. program consist of: ENGL 101, ENGL 102, MATH 141, MATH 142, MATH 241, CHEM 111, CHEM 111L, CHEM 112, CHEM 112L, PHYS 211, PHYS 211L, PHYS 212, PHYS 212L, and all Lower Division Engineering courses. Upper Division Courses for the Chemical Engineering B.S.E. program consist of all ECHE courses numbered 321 and above.

Major GPA
Major GPA requirement policies are described in the College of Engineering and Computing section of this bulletin. For the purpose of these policies, the following courses are used to determine the Major GPA for the Chemical Engineering B.S.E. program: all Lower Division Engineering courses, all Chemical Engineering Major courses, and all Engineering Electives.

**Change Credit Hours**

From: ECHE 101 Introduction to Chemical Engineering. (3)
To: ECHE 101 Introduction to Chemical Engineering. (2)

**Add Prerequisite**

From: ECHE 202 Exploring the Chemical Engineering Workplace. (1)
To: ECHE 202 Exploring the Chemical Engineering Workplace. (1)
Prereq: ECHE 300

**Change Description, and Prerequisite**

From: ECHE 310 Introductory Chemical Engineering Thermodynamics. (3) First law and second law of thermodynamics. Mathematical relationships between thermodynamic properties. Analysis of power and refrigeration cycles. Introduction to phase and chemical equilibrium.
Prereq: ECHE 300, MATH 241

To: ECHE 310 Introductory Chemical Engineering Thermodynamics. (3) First law and second law of thermodynamics. Thermodynamic properties of single component systems. Analysis of power and refrigeration cycles.
Prereq: C or better in ECHE 300 Prereq or coreq: MATH 241

From: ECHE 322 Mass Transfer. (3) Molecular diffusion in fluids; diffusion in laminar and turbulent flow; momentum, transport analogies; interfacial mass transfer; design applications include humidification, absorption, adsorption, and ion exchange.
Prereq: ECHE 300

To: ECHE 322 Mass Transfer. (3) Molecular diffusion in fluids; diffusion in laminar and turbulent flow; momentum, transport analogies; interfacial mass transfer; design applications including humidification and absorption
Prereq: C or better in ECHE 300

**Change Prerequisite**
From: ECHE 440 Separation Process Design. (3)
Prereq: ECHE 300
To: ECHE 440 Separation Process Design. (3)
Prereq: C or better in ECHE 300

C. Department of Civil Engineering
Change Prerequisites
From: ECIV 320 Structural Analysis I. (3)
Prereq: ECIV 201 and C or better in ECIV 220
To: ECIV 320 Structural Analysis I. (3)
Prereq: ECIV 201; MATH 242; C or better in ECIV 220

From: ECIV 325 Structural Steel Design. (3)
Prereq: ECIV 320
To: ECIV 325 Structural Steel Design. (3)
Prereq: C or better in ECIV 320

From: ECIV 327 Reinforced Concrete Design. (3)
Prereq: ECIV 320
To: ECIV 327 Reinforced Concrete Design. (3)
Prereq: C or better in ECIV 320

D. Department of Civil & Environmental Engineering
Change to Major/Degree Program – Civil Engineering, B.S.E.
Existing Program Introduction:

Learning Outcomes

- Students will demonstrate an ability to apply knowledge of mathematics, science, and engineering.
- Students will demonstrate an ability to design and conduct experiments, as well as analyze and interpret data.
- Students will demonstrate an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- Students will demonstrate an ability to function on multi-disciplinary teams.
- Students will demonstrate an ability to identify, formulate, and solve engineering problems.
- Students will demonstrate an understanding of professional and ethical responsibility.
- Students will demonstrate an ability to communicate effectively.
- Students will demonstrate an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.
- Students will demonstrate a knowledge of contemporary issues.
- Students will demonstrate an understanding of professional and ethical responsibility.
- Students will demonstrate the broad education necessary to understand the impact of engineering solutions.
in a global, economic, environmental, and societal context.

- Students will demonstrate a recognition of the need for, and an ability to engage in life-long learning.
- Students will demonstrate a knowledge of contemporary issues.

## Curriculum (129-141 hours)

1. Carolina Core (34-46 hours)
2. Other General Requirements (17 hours)
3. Lower Division Engineering (18 hours)
4. Civil Engineering Major (25 hours)
5. Electives (35 hours)

### Existing Carolina Core Requirements:

- **CMW**
  - ENGL 101 - Critical Reading and Composition
  - ENGL 102 - Rhetoric and Composition

- **ARP**
  - MATH 141 - Calculus I
  - MATH 142 - Calculus II

- **SCI**
  - CHEM 111 - General Chemistry I
  - CHEM 111L - General Chemistry I Laboratory
  - PHYS 211 - Essentials of Physics I
  - PHYS 211L - Essentials of Physics I Lab

- **GFL**
  - Score two or better on foreign language placement test; or complete the 109 and 110 courses in FREN, GERM, LATN or SPAN; or complete the 121 course in another foreign language.

- **GHS**
  - **GHS: Global Citizenship and Multicultural Understanding: Historical Thinking (3 hours)**
• Any approved Carolina Core course for GHS

GSS

GSS: Global Citizenship and Multicultural Understanding - Social Sciences (3 hours)

• Any approved Carolina Core course for GSS

AIU

AIU: Aesthetic and Interpretive Understanding (3 Hours)

• Any approved Carolina Core course for AIU

CMS

CMS: Effective, Engaged, and Persuasive Communication: Spoken Component (3 Hours)

Choose from:

• PHIL 325 - Engineering Ethics (CMS/VSR overlay)
• SPCH 140 - Public Communication

INF

INF: Information Literacy (0-3 hours)

• USC ENGL 102 or any approved overlay or stand-alone Carolina Core INF course

VSR

VSR: Values, Ethics and Social Responsibility (0-3 hours)

Choose from:

• PHIL 325 - Engineering Ethics (CMS/VSR overlay)
• PHIL 322 - Environmental Ethics

Existing College/School Gen Ed or Departmental Requirements:

Other General Requirements (17 hours)

• CHEM 112 - General Chemistry II
• MATH 241 - Vector Calculus
- MATH 242 - Elementary Differential Equations
- PHYS 212 - Essentials of Physics II
- PHYS 212L - Essentials of Physics II Lab
- STAT 509 - Statistics for Engineers

**Lower Division Engineering (18 hours)**

- ECIV 101 - Introduction to Civil Engineering
  - or ENCP 101 - Introduction to Engineering I
- ECIV 200 - Statics
- ECIV 201 - Computational Methods for Civil Engineering
  - or ENCP 201 - Introduction to Applied Numerical Methods
- ECIV 210 - Dynamics
  - or ENCP 210 - Dynamics
- ECIV 220 - Mechanics of Solids
  - or ENCP 260 - Introduction to the Mechanics of Solids

**Existing Program / Major Requirements:**

**Civil Engineering Majors (26 hours)**

- ECIV 111 - Introduction to Engineering Graphics and Visualization
  - or ENCP 102 - Introduction to Engineering II
- ECIV 303 - Civil Engineering Materials
- ECIV 320 - Structural Analysis I
- ECIV 330 - Introduction to Geotechnical Engineering
- ECIV 340 - Introduction to Transportation Engineering
- ECIV 350 - Introduction to Environmental Engineering
- ECIV 362 - Introduction to Water Resources Engineering
- ECIV 405 - Systems Applications in Civil Engineering
- ECIV 470 - Civil Engineering Design

### ECIV Distribution Courses (12 hours)

ECIV distribution includes one course from four of the following five areas:

- environmental
- geotechnical
- structures
- transportation
- water resources

The department maintains lists of courses for each area in the department office and on its [website](#).

### ECIV Electives (12 hours)

Four ECIV electives chosen from additional ECIV courses numbered 300 and above.

### Engineering, Science, or Mathematics (ESM) Electives (9 hours)

Choose from a list of acceptable engineering, science and mathematics elective courses that is maintained in the department office and on its [website](#).

- ECIV 303L - Civil Engineering Materials Laboratory
- ECIV 330L - Geotechnical Laboratory
- ECIV 350L - Introduction to Environmental Engineering Laboratory
- ECIV 362L - Introduction to Water Resources Engineering Laboratory

### Existing Other Program Requirements:

**Academic Standards**

### Proposed Change Program Requirements:

**Academic Standards**
### Entrance Requirements

See College of Engineering and Computing for entrance requirements, progression requirements, and special academic opportunities.

### Minimum Course Grades

The Civil Engineering B.S.E. program requires that a grade of "C" or better be earned in each of the following courses: ENGL 101, ENGL 102, MATH 141, MATH 142, CHEM 111, PHYS 211, ECIV 200, ECIV 201, and ECIV 220.

### Progression Requirements

Progression requirement policies are described in the College of Engineering and Computing section of this bulletin. For the purpose of these policies, Lower Division Courses for the Civil Engineering B.S.E. program consist of: ENGL 101, ENGL 102, MATH 141, MATH 142, MATH 241, CHEM 111, CHEM 111L, CHEM 112, CHEM 112L, PHYS 211, PHYS 211L, PHYS 212, PHYS 212L, and all Lower Division Engineering courses. Upper Division Courses for the Civil Engineering B.S.E. program consist of all ECIV courses number 300 and above, except ECIV 360.

### Major GPA

Major GPA requirement policies are described in the College of Engineering and Computing section of this bulletin. For the purpose of these policies, the following courses are used to determine the Major GPA for the Civil Engineering B.S.E. program: all Lower Division Engineering courses, all Civil Engineering Major courses, and all courses used to satisfy a ECIV Laboratory Elective, ECIV Distribution Elective, and ECIV Elective.

### Professional Development Requirement

This requirement is satisfied by completing one or more program-accepted Carolina Core courses for CMS and VSR, by ENGL 462, ENGL 463, PHIL 323, PHIL 324, or SPCH 230.
### Current

#### Minor in Business Information Management:

**Required Courses (18 hours):**

- ECON 224 - Introduction to Economics
- ACCT 222 - Introduction to Accounting
- MGMT 371 - Principles of Management
- MGSC 390 - Business Information Systems
- MGSC 490 - Information Systems Analysis and Design
- MGSC 590 - Information Systems Development

**Electives (6 hours):**

Choose any two of the following courses:

- ACCT 324 - Survey of Commercial Law
- ECON 311 - Issues in Economics
- ECON 379 - Government Policy Toward Business
- FINA 333 - Finance and Markets
- IBUS 301 - Introduction to International Business
- MGMT 472 - Entrepreneurship and Small Business
- MKTG 350 - Principles of Marketing
- MKTG 351 - Consumer Behavior
- MGSC 395 - Operations Management

## Major Elective Courses (9 Hours)

Chosen in consultation with advisor; at least 6 hours must be from HRTM courses.

## 5. Approved Free Elective Courses (3-15 Hours)

The Tourism Major Curriculum includes 3 to 15 hours of approved electives depending on how students fulfill the Carolina Core Requirements. Any course in the university can be used to satisfy the elective requirement including additional electives in the major.

## 5. Approved Free Elective Courses (3-11 Hours)

The Tourism Major Curriculum includes 3 to 11 hours of approved electives depending on how students fulfill the Carolina Core Requirements. Any course in the university can be used to satisfy the elective requirement including additional electives in the major.

### B. Department of Integrated Information Technology

**Change to Major/Degree Program – Change BS in Integrated Information Technology**

**Existing**

Integrated Information Technology (iIT)

College of Hospitality, Retail, and Sport Management

This major prepares graduates for careers in information technology. The program focuses on the design, implementation and management of information systems and networks, including databases, large-scale computers, and Internet-based systems, as well as project management and end-user support. The program includes general education courses, information technology core and advanced courses, management courses related to the field, and an industry internship.
Accreditation

The Integrated Information Technology program is accredited by the Computing Accreditation Commission of ABET, www.abet.org.

Learning Outcomes

Students will demonstrate the ability to:

GOAL 1 advance in their careers through their knowledge of information technology, communication skills, and understanding of business and technological issues.

- function effectively on teams to accomplish a common goal;
- communicate effectively with a range of audiences;
- use and apply current technical concepts and practices in the core information technologies

GOAL 2 continue their professional development through professional study and research.

- recognize the need for and be able to engage in continuing professional development;

GOAL 3 contribute to economic development and society through the effective use of technology to address problems in a broad range of settings.

- analyze a problem and identify and define the computing requirements appropriate to its solution;
- understand professional, ethical, legal, security, and social issues and responsibilities;
- design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs;

GOAL 4 advocate for the needs of users and organizations in developing technical solutions.

- identify / analyze user needs and take them into account in the selection, creation, evaluation and administration of computer-based systems;
- effectively integrate IT-based solutions into the user environment;

GOAL 5 anticipate the changing direction of information technology and evaluate and communicate the likely utility of new technologies to an individual or organization.

- analyze the local and global impact of computing on individuals, organizations, and society;

GOAL 6 manage the information resources of an individual or organization.

- assist in the creation of an effective project plan.
- use current techniques, skills, and tools necessary for computing practice;

GOAL 7 explain and apply appropriate information technologies and employ appropriate methodologies to help an individual or organization achieve its goals and objectives.

- apply knowledge of computing and mathematics appropriate to the discipline;
• identify best practices and standards and their application.

Curriculum (Total Credit Hours: 125)

A bachelor of science degree in Integrated Information Technology consists of the Carolina Core, related coursework, College of HRSM required courses, iIT required and elective courses, and free electives.

1. Carolina Core Courses
2. Related Coursework
3. HRSM College Required Courses
4. iIT Major Requirements
5. Free Electives

Integrated Information Technology majors may pursue a minor in any course of study offered by the College of Hospitality, Retail and Sport Management (HRSM) as well as any other University program with an approved minor. College of HRSM required courses may not be counted toward a minor.

Progression Requirements

Pre-professional courses needed to progress to Professional Division (45 Hours)

The IIT program is divided into Pre-Professional and Professional division classes. Students are required to complete 15 designated Pre-Professional courses (see below) and obtain a minimum grade point average of 2.00 before being eligible to enroll in Professional Division classes. Students who do not meet the specific course, semester hour, and grade point average requirements for progression must continue in the Pre-Professional division or change to another major. The required Pre-Professional classes are:

• ARP Carolina Core Requirement
• CMW Carolina Core Requirement
• 12 additional credit hours of Carolina Core Learning Outcomes
• CSCE 201 - Introduction to Computer Security
• ITEC 242 - Business Communications
• ITEC 264 - Computer Applications in Business I
• ITEC 233 - Introduction to Computer Hardware and Software Support
• ITEC 245 - Introduction to Networking
• ITEC 265 - Computer Applications in Business II
• ITEC 362 - Web-Based Support Systems

Course Grade Requirements

All courses listed under CMW Carolina Core Requirements, College of HRSM Required Courses, iIT Core Courses, and iIT Professional Division Courses must be completed with a grade of C or better.
Graduation requires a 2.00 GPA. In order to satisfy the requirements for a degree in Integrated Information Technology and regardless of other satisfactory work, a student may not take an ITEC course more than two times.

**Existing College/School Gen Ed or Departmental Requirements:**

1. **Carolina Core for the College of HRSM and General Education for the Degree Program (31–43 Credit Hours)**

   Integrated Information Technology majors must fulfill all Carolina Core general education requirements. The Carolina Core consists of 31 to 43 credit hours of required coursework in ten different areas of study. Students select one or more courses for each learning outcome to satisfy the minimum number or credit hours required. (for additional information and lists of approved courses, please refer to the Carolina Core section of the Bulletin.)

   **CMW: Effective, Engaged, and Persuasive Communication: Writing (6 hours)**

   - ENGL 101 - Critical Reading and Composition
   - ENGL 102 - Rhetoric and Composition

   **ARP: Analytical Reasoning and Problem Solving (6-8 hours)**

   Two courses, one from category A, one from category B

   A. MATH 174 - Discrete Mathematics for Computer Science
   B. STAT 201 - Elementary Statistics or STAT 205 - Elementary Statistics for the Biological and Life Sciences

   **SCI: Scientific Literacy (7 hours)**

   - Two approved Carolina Core courses from the natural sciences including one laboratory selected from Astronomy, Biology, Chemistry, Environmental Science, Geology, Marine Science or Physics

   **GFL: Global Citizenship and Multicultural Understanding/Foreign Language (0-6 hours)**

   - College of HRSM students must demonstrate proficiency in a foreign language by achieving a score of 2 or higher on the foreign language placement test or by completing one foreign language course through to 110 or 121. See list of approved GFL courses.

   **GHS: Global Citizenship and Multicultural Understanding: Historical Thinking (3 hours)**

   - Any approved Carolina Core course for Global Citizenship and Multicultural Understanding: Historical Thinking
GSS: Global Citizenship and Multicultural Understanding/Social Sciences (3 hours)

- Any approved Carolina Core course for Global Citizenship and Multicultural Understanding/Social Sciences

AIU: Aesthetic and Interpretive Understanding (3 hours)

- Any approved Carolina Core course for Aesthetic and Interpretive Understanding

CMS: Effective, Engaged and Persuasive Communication (3 hours)

- SPCH 140 - Public Communication

  or

- SPCH 230 - Business and Professional Speaking

INF: Information Literacy

- This requirement may be met in an overlay course that combines learning outcomes from two Carolina Core components.

VSR: Values, Ethics and Social Responsibility

- This requirement may be met in an overlay course that combines learning outcomes from two Carolina Core components.

2. Related Coursework (3 Credit Hours)

- ECON 224 - Introduction to Economics

3. College of HRSM Required Courses (21 Credit Hours)

- SPTE 240 - Business Law
- ITEC 242 - Business Communications
- ITEC 264 - Computer Applications in Business I
- RETL 261 - Functional Accounting I
- RETL 262 - Functional Accounting II
- HRTM 344 - Personnel Organization and Supervision
- HRSM 301 - HRSM Professional Development Seminar

Existing Program / Major Requirements:

4. Integrated Information Technology Requirements (52 Credit Hours)

A. iIT Core Courses (30 Credit Hours)
• ITEC 101 - Thriving in the Tech Age
• ITEC 233 - Introduction to Computer Hardware and Software Support
• ITEC 245 - Introduction to Networking
• ITEC 265 - Computer Applications in Business II
• CSCE 204 - Program Design and Development
• ITEC 352 - Software Design
• ITEC 362 - Web-Based Support Systems
• ITEC 370 - Database Systems in Information Technology
• ITEC 444 - Introduction to Human Computer Interaction
• ITEC 445 - Advanced Networking

B. iIT Professional Division Classes (22 Credit Hours)

The following courses are restricted to students enrolled in the professional division of Integrated Information Technology, or those students who receive special permission from the program chair:

• ITEC 301 - Professional Internship Seminar
• ITEC 447 - Management of Information Technology
• ITEC 448 - Professional Internship
• ITEC 560 - Analysis and Applications of Project Management Software
• ITEC 564 - Project Management for Information Systems
• ITEC Elective (one of the following courses required):
  1. ITEC 475 - Mainframe Systems
  2. ITEC 476 - Job Control Language
  3. ITEC 544 - Training Systems
  4. ITEC 545 - Telecommunications
  5. ITEC 562 - Advanced Web Support Systems
  6. ITEC 570 - Database Management and Administration
  7. ITEC 586 - eCommerce Technology in Hospitality
  8. ITEC 590 - Special Topics in Integrated Information Technology

5. Free Electives (6-18 Credit Hours)

The IIT curriculum includes 6-18 hours of electives depending on how students fulfill the Carolina Core requirements. Any course in the university can be used to satisfy the elective requirement (including additional electives in the major).

5. Free Electives (1-13 Credit Hours)

The IIT curriculum includes 1-13 hours of electives depending on how students fulfill the Carolina Core requirements. Any course in the university can be used to satisfy the elective requirement (including additional electives in the major).

Change to Major/Degree Program – BS in Sport and Entertainment Management

</tr>
<tr>
<td>The Sport and Entertainment Management (SPTE) Department at the University of South Carolina prepares students for a variety of managerial positions in the sport</td>
</tr>
</tbody>
</table>
The goal of the SPTE department is to create an integrated academic learning environment for analyzing and resolving the challenges in the business of sport and entertainment. The SPTE department provides a comprehensive curriculum that includes courses in general education, business and sport and entertainment management, as well as two experiential learning experiences (practicum and internship) under the supervision of industry professionals and SPTE faculty.

The faculty and staff are committed to providing support for student achievement. Students can enter the industry with exceptional knowledge, professional preparation, a strong alumni network, and the confidence to assume leadership positions.

Learning Outcomes

- Students should be able to demonstrate knowledge of the qualifications, job requirements, and working conditions for a sport and entertainment industry position.
- Students should be able to demonstrate the computer and technical skills needed for a sport and entertainment industry position.
- Students should be able to apply learned concepts and theory to demonstrate an understanding of the nature of the sport and entertainment industry.

Learning Outcomes

- Identify and summarize the qualifications, job requirements, and working conditions for a sport and entertainment industry position.
- Demonstrate the computer and technical skills needed for a sport and entertainment industry position.
- Apply learned concepts and theory to demonstrate an understanding of the nature of the sport and entertainment industry.

Degree Requirements (120 hours)

- Carolina Core Courses
- College of HRSM Required Courses
- Related Coursework
- Major Coursework
- Free Electives
- Optional Concentrations
In order to enroll in the Professional Division of SPTE, students must complete 45 credit hours in the courses indicated as Pre-Professional Division with a minimum grade point average of 2.75. Students who do not meet the specific course, semester hour, and grade point average requirements for progression must continue in the Pre-Professional division or change to another major. Only students admitted to the professional division of Sport and Entertainment Management will be allowed to enroll for more than 18 credit hours of SPTE course work.

Pre-Professional courses include the following:
- Carolina Core Courses within the CMW, ARP and CMS areas
- Pre-Professional College Required Courses
- Pre-Professional Related Courses
- Pre-Professional Major Courses

Course Grade Requirements

Students in this major must receive a C or better in the following courses:
- The CMW Carolina Core Courses
- All SPTE Major Courses
- All SPTE Major Elective Courses
- All Related Coursework

Graduation requires a 2.75 GPA. In order to satisfy the requirements for a degree in Sport and Entertainment Management.

Existing Carolina Core Requirements:

**CMW**
- ENGL 101 - Critical Reading and Composition
- ENGL 102 - Rhetoric and Composition

**ARP**
- MATH 122 - Calculus for Business Administration and Social Sciences OR MATH 141 - Calculus I
- STAT 201 - Elementary Statistics

**SCI**
- Two approved Carolina Core SCI courses, including at least one laboratory, selected from Astronomy, Biology, Chemistry, Environmental Science, Geology, Marine Science or Physics
GFL
- College of HRSM students must demonstrate proficiency in a foreign language by achieving a score of 2 or higher on the foreign language placement test or by completing one foreign language course through 110 or 121. See list of approved Carolina Core GFL courses.

### 4. Major Area Coursework (36 credit hours)

**Pre-Professional Division Major Courses (12 credit hours)**

- SPTE 201 - Introduction to Sport Management
- SPTE 295 - Practicum *
- SPTE Elective**

* SPTE 295 Practicum is the final course taken in the Pre-Professional Division required hours. Students must achieve the required 2.75 GPA prior to enrolling in SPTE 295.

**Professional Division Major Courses (24 credit hours)**

- SPTE 380 - Sport and Entertainment Marketing
- SPTE 440 - Sport and Entertainment Business and Finance
- SPTE 444 - Sport and Entertainment Event Management
- SPTE 495 - Internship in Sport and Entertainment Management
- 3 SPTE Electives**

### 4. Major Area Coursework (42 credit hours)

**Pre-Professional Division Major Courses (15 hours)**

- SPTE 201 - Introduction to Sport Management
- SPTE 202 - Introduction to Live Entertainment Management
- SPTE 203 - Introduction to Event and Venue Management
- SPTE 295 - Practicum *

* SPTE 295 Practicum is the final course taken in the Pre-Professional Division required hours. Students must achieve the required 2.75 GPA prior to enrolling in SPTE 295.

**Professional Division Major Courses (27 hours)**

- SPTE 380 - Sport and Entertainment Marketing
- SPTE 440 - Sport and Entertainment Business and Finance
- SPTE 444 - Sport and Entertainment Event Management
- SPTE 495 - Internship in Sport and Entertainment Management
- 4 SPTE Electives**

### 5. Free Electives (15-27 Hours)

The SPTE curriculum includes 15-27 hours of electives depending on how students fulfill the Carolina Core requirements. Courses used to satisfy the elective requirement must be approved by the SPTE advisor (including additional electives in the major).

**Major Electives which may be used as Free Electives include the following courses with advisor's consent:**

- SPTE 110 - Sport and Entertainment in American Life

### 5. Free Electives (2-14 credit hours)

The SPTE curriculum includes 2-14 hours of electives depending on how students fulfill the Carolina Core requirements. Courses used to satisfy the elective requirement must be approved by the SPTE advisor (including additional electives in the major).

**Major Electives which may be used as Free Electives include the following courses with advisor's consent:**

- SPTE 110 - Sport and Entertainment in American Life
• SPTE 202 - Introduction to Live Entertainment Management
• SPTE 203 - Introduction to Event and Venue Management
• SPTE 302 - Artist Representation and Management
• SPTE 303 - Live Entertainment Tour Management
• SPTE 305 - The Business of NASCAR
• SPTE 310 - Collegiate Athletics
• SPTE 315 - NCAA Compliance
• SPTE 320 - Sport and the Law
• SPTE 325 - Resort and Club Recreation Programming
• SPTE 340 - The Sporting Goods Industry.
• SPTE 342 - Sport and Entertainment Contracts and Negotiations
• SPTE 376 - Risk Management in Sport and Entertainment
• SPTE 385 - Ethics in Sport and Entertainment Business
• SPTE 399 - Independent Study
• SPTE 402 - Entertainment and the Law
• SPTE 404 - Promoting Entertainment Events
• SPTE 410 - Sport and Entertainment in Popular Culture
• SPTE 430 - Sport and Entertainment Services Marketing
• SPTE 435 - Spectator Facilities Management
• SPTE 450 - Sales in Sport and Entertainment Business
• SPTE 490 - Special Topics in Sport and Entertainment Management
• SPTE 498 - Research Experience
• SPTE 499 - Senior Thesis
• SPTE 501 - Trends and Issues in Sport and Entertainment Management
• SPTE 545 - Managing Part-Time Employees and Volunteers
• SPTE 570 - Special Topics in Global Sport
• SPTE 580 - Business Principles in Sport Management.
• SPTE 590 - Special Topics in Live Entertainment and Sport.
• SPTE 635 - Sport and Entertainment Event Development
• SPTE 650 - Integrated Marketing Communication in Sport and Entertainment

• SPTE 302 - Artist Representation and Management
• SPTE 303 - Live Entertainment Tour Management
• SPTE 305 - The Business of NASCAR
• SPTE 310 - Collegiate Athletics
• SPTE 315 - NCAA Compliance
• SPTE 320 - Sport and the Law
• SPTE 325 - Resort and Club Recreation Programming
• SPTE 340 - The Sporting Goods Industry.
• SPTE 342 - Sport and Entertainment Contracts and Negotiations
• SPTE 376 - Risk Management in Sport and Entertainment
• SPTE 385 - Ethics in Sport and Entertainment Business
• SPTE 399 - Independent Study
• SPTE 402 - Entertainment and the Law
• SPTE 404 - Promoting Entertainment Events

B.S. with Distinction

The Departmental Undergraduate Research Track is available to students majoring in sport and entertainment management who wish to participate in significant research activities of the major field in collaboration with, or under the supervision of, a faculty mentor.

Prerequisites:

A minimum GPA of 3.50 in major courses, 3.30 overall

Three courses in addition to the major requirements:

- SPTE 498 - Research Experience
- SPTE 499 - Senior Thesis
- SPTE 501 - Trends and Issues in Sport and Entertainment Management

Additional Requirements

Presentation of the senior thesis in an appropriate venue (e.g. SEVT, USC Discovery Day, IAVM research session, NASSM, CSRI).

A written sponsorship agreement from the faculty mentor will be placed on file in the department office.

Students who successfully fulfill these requirements with a GPA of at least 3.50 in all major courses and a 3.30 overall GPA will be awarded their degree “With Distinction in Sport and Entertainment Management” upon graduation.

6. COLLEGE OF INFORMATION AND COMMUNICATIONS
A. Department of Journalism and Mass Communications
Change in curriculum – Mass Communications, B.A.J.M.C.

New Language or proposed change to Bulletin

The challenge of 21st-century communications is to combine the information-gathering function–research and data bases–with the disciplines of disseminating information–journalism, advertising, public relations, visual communications, and mass communications.
The college's School of Journalism and Mass Communications is professionally oriented and grounded strongly in the liberal arts. It offers instruction at the undergraduate and graduate levels. Course work is offered in electronic and print journalism, advertising, public relations, visual communications, and mass communications to train students in both the processes and effects of mass communication.

**Other Program Requirements:**

- Additional requirements for LEADERSHIP DISTINCTION ¹
- Additional requirements for LEADERSHIP DISTINCTION ²
- Additional requirements for LEADERSHIP DISTINCTION ³
- Additional requirements for LEADERSHIP DISTINCTION ⁴
- Additional requirements for LEADERSHIP DISTINCTION for all pathways ⁵

**Additional requirements for those seeking the Leadership Distinction designation**

The major in Mass Communications aligns with Graduation with Leadership Distinction. All students pursuing the Leadership Distinction designation will be assigned a faculty mentor from the Mass Communications sequence with whom they will be required to meet at least once per semester during their academic career. Further information on Graduation with Leadership Distinction can be obtained through the Office of USC Connect.
### Leadership Distinction designation

1. For Global Learning with Leadership Distinction designation, these electives must fulfill at least one semester of overseas study or equivalent in multiple experiences. Some domestic study away from USC campus can count.

2. For Research with Leadership Distinction designation, these electives or other course work must demonstrate student participation in a minimum of 2 semesters in an extensive research/discovery project defined by the discipline.

3. For Civic Engagement with Leadership Distinction designation, these electives or other course work must include at least 1 semester in an approved leadership experience (e.g., officer, ambassador, peer leader, project leader and one of the following):
   - 240 hours supervised work, professional experience
   - 2 additional semesters in approved leadership experience
   - 120 hours of work/professional experience and 1 additional semester in a leadership role.

4. For Community Service with Leadership Distinction designation, these electives or other course work must demonstrate student participation in at least 300 hours of community service from at least 2 different programs/experiences.

5. For all students pursuing the Leadership Distinction designation, the portfolio must:
   (a) demonstrate at least three out-of-class experiences such as the following: attendance at lectures, workshops, conferences, membership and participation in a student/professional organization, professional or community service activity, job shadowing or the creation or innovation of an event/performance related to their focus.
   (b) demonstrate at least one presentation at Discovery Day or at a professional or academic meeting or publication in a professional or academic publication.

6. All students pursuing the Leadership Distinction designation will be assigned a faculty mentor from the Mass Communications sequence with whom they will be required to meet at least once per semester during their academic career.

---

**B. Department of Library and Information Science**  
**Change to Major/Degree Program – BSIS Program**
## Existing

### Learning Outcomes

- Students will describe the techniques and principles for creating, storing, organizing, transforming, and communicating information to various information seekers.
- Students will demonstrate practical skills of information science and the use of information systems.
- Students will demonstrate knowledge of the tenets of information literacy.
- Students will demonstrate the comprehension of the valuable role of information and information technology in society as well as the diversity of needs and uses for information.

### Curriculum

See School of Library and Information Science for admission and progression requirements.

### Degree Requirements (121 hours)

1. Carolina Core Requirements (31-43 hours)
2. Other General Education Requirements (36 hours)
3. Major Requirements (36 hours)
4. Minor or Additional Approved Electives

Information Science

- SLIS 494 - Independent Study in Information Science
- SLIS 496 - Internship in Information Science

Additional Elective Courses or Minor (18 hours)

A student majoring in information science has the option of completing a specified minor sequence of prescribed courses prescribed by the unit offering the minor (see Complementary Programs below) or selecting an additional 18 hours of elective courses, as approved by the advisor. General education requirement courses do not count as electives. All elective courses must be passed with a grade of C or better. The minor is intended to develop a coherent basic preparation in a second area of study. Courses applied toward general education requirements cannot be counted toward the minor. No course may satisfy both major and minor requirements. All minor courses must be passed with a grade of C or better. For descriptions of specific minors, students should consult the department in which they wish to minor for a list of courses, noting completion of their minor and have prerequisites that may not count towards the minor. A minor advisement form must be completed by the end of the junior year (having completed between 60 and 90 semester hours) year and approved by the school.

SLIS Complementary Programs

- SLIS 435 - Digital Information Infrastructure
- SLIS 440 - Competitive Intelligence
- SLIS 450 – Information Literacy in Cultural Heritage Institutions
- SLIS 480 - Emerging Topics in Information Science
- SLIS 494 - Independent Study in Information Science
- SLIS 496 - Internship in Information Science

Additional Elective Courses or Minor (18 hours)

A student majoring in information science has the option of completing a specified minor sequence of courses prescribed by the unit offering the minor (see Complementary Programs below) or selecting an additional 18 hours of elective courses, as approved by the advisor. General education requirement courses do not count as electives. All elective courses must be passed with a grade of C or better. The minor is intended to develop a coherent basic preparation in a second area of study. Courses applied toward general education requirements cannot be counted toward the minor. No course may satisfy both major and minor requirements. All minor courses must be passed with a grade of C or better. For descriptions of specific minors, students should consult the department in which they wish to minor for a list of courses, noting completion of their minor and have prerequisites that may not count towards the minor. | - EXSC 530 - The Physiology of Muscular Activity | - EXSC 401-Practicum Preparation |
| - EXSC 530L - Physiology of Muscular Activity Lab | - EXSC 444-Exercise Science Practicum |
| - EPID 410 - Principles of Epidemiology | - EXSC 530 - The Physiology of Muscular Activity |
| First aid and CPR certifications | - EXSC 530L - Physiology of Muscular Activity Lab |
| 4. Area of Emphasis Requirements (34-38 hours) | - EPID 410 - Principles of Epidemiology |

Select one of the following areas of emphasis: Health
Fitness, Motor Development, or Scientific Foundations.

### Health Fitness (34 Hours)
- EXSC 341A - Health Fitness Practicum
- EXSC 454 - Health/Fitness Programs
- HPEB 502 - Applied Aspects of Human Nutrition

or

EXSC 507 - Exercise, Sport, and Nutrition

- EXSC 531 - Clinical Exercise Physiology
- EXSC 531L - Clinical Exercise Physiology Lab
- EXSC 481 - Practicum in Community Fitness Programs
- Social Science (3 hours)
- Selectives* (12 Hours)

### Motor Development (38 Hours)
- EXSC 303 - Perceptual-Motor Development
- EXSC 342A - Practicum in Life-Span Motor Development
- EXSC 342B - Practicum in Life-Span Motor Development
- EXSC 482 - Internship in Life-Span Motor Development
- EXSC 531 - Clinical Exercise Physiology
- EXSC 531L - Clinical Exercise Physiology Lab
- EXSC 535 - Biomechanics of Human Movement
- EXSC 563 - Physical Activity and the Physical Dimensions of Aging
- Social Science (3 hours)
- Selectives* (12 Hours)

### Scientific Foundations (34 Hours)
- BIOL 302 - Cell and Molecular Biology
- BIOL 302L - Cell and Molecular Biology Laboratory
- CHEM 112 - General Chemistry II
  or
  PHYS 202 - General Physics II

- First aid and CPR certifications

### 4. Exercise Science Cognate (12 hours)
Each student must complete an EXSC cognate of 12 credit hours. The cognate is intended to support the course work in the major and enhance the student’s area of interest. EXSC cognate courses will be selected from EXSC courses that are 300 level and above. EXSC core requirement courses may not count towards the cognate. All EXSC cognate courses must be approved by the student’s academic advisor.

### 5. Cognate (12 hours)
Each student must complete a cognate of 12 credit hours. The cognate is intended to support the course work in the major. Depending on student interests, cognate courses may be selected from one or several units. A cognate differs from a minor in that the courses must be above the sophomore level and may be distributed over more than one subject area. Courses applied toward minimum Carolina Core requirements, EXSC core courses, or EXSC cognate courses cannot be counted toward the cognate. All cognate courses must be approved by the student’s academic advisor.

### 5. Electives
Students in Exercise Science must complete a minimum of 120 credit hours. Depending on specific course choices, students must complete an appropriate number of elective courses.

### Minors
Students majoring in Exercise Science may pursue minors offered by other units. In
202L
- CHEM 333 - Organic Chemistry I
- CHEM 331L - Essentials of Organic Chemistry Laboratory I
- CHEM 334 - Organic Chemistry II
- CHEM 332L - Essentials of Organic Chemistry Laboratory II
- EXSC 499 - Independent Study
- Social Science (3 hours)
- Selectives* (12 Hours)

5. Electives**

Students in Exercise Science must complete a minimum of 120 credit hours. Depending on choice of area of emphasis, students must complete an appropriate number of elective courses.

Notes:

*Selectives are intended to enhance the major and must be selected from the area of emphasis-specific list designated in the department undergraduate program manual. Courses applied toward minimum Carolina Core requirements cannot be counted toward selectives. All selectives must be approved by the student's academic advisor.

**Advisor approved.

Minors

Students majoring in Exercise Science may pursue minors offered by other units. In completing a minor, students may apply advisor-approved courses to both the minor and any elective or selective credits. Courses in the college core requirements beyond the Carolina Core minimum requirements may also be used in the minor.

New courses

- EXSC 401 Practicum Preparation. (1) Integration of major program of study and general education; issues of transition into senior practicum-EXSC 444.
  Prereq: EXSC 530

- EXSC 444 Exercise Science Practicum. (6) Supervised experience in a field, clinical, or research setting.
Prereq: EXSC 401

Restricted to: EXSC majors

D. Department of Health Promotion, Education, and Behavior

**New course**

HPEB 674 Social Networks, Social Capital, and Health. (3) Examination of health sciences and sociological research on social networks, social capital, and health. Theoretical and methodological foundations for network analysis of social relationships and health, design of public health interventions, and use of online social networks to promote health. Key constructs include social support, social capital, and social diffusion.

10. COLLEGE OF SOCIAL WORK

Change to Major/Degree Program – Social Work, B.S.W.

<td>Based on the purposes and values of a liberal arts education, and generalist social work practices, the goals of the BSW program are as follows:</td>
</tr>
<tr>
<td><strong>Goal 1</strong> (curriculum): To prepare students for knowledgeable, ethical, competent, and culturally relevant generalist social work practice.</td>
<td><strong>Goal 1:</strong> The program prepares students to appreciate the importance of human relationships for the provision of competent generalist practices</td>
</tr>
<tr>
<td>Graduates of the BSW program will be able to:</td>
<td></td>
</tr>
<tr>
<td>Objective 1: Apply critical thinking skills within the context of professional social work practice.</td>
<td>Learning Outcome 1: Graduates will engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities (2.1.10).</td>
</tr>
<tr>
<td>Objective 2: Understand the value base of the profession and its ethical standards and principles, and practice accordingly.</td>
<td><strong>Goal 2:</strong> The program prepares students to demonstrate competent generalist practices within the parameters of the profession’s ethics, values, emphasis on the dignity and worth of the person, and respect for diversity and difference.</td>
</tr>
<tr>
<td>Objective 3: Practice without discrimination and with respect, knowledge, and skills related to clients’ age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.</td>
<td>• Learning Outcome 2: Graduates will identify as professional social workers and conduct themselves accordingly (2.1.1).</td>
</tr>
<tr>
<td>Objective 4: Analyze the forms and mechanisms of oppression and discrimination and apply strategies of advocacy and social change that advance social and economic justice.</td>
<td>• Learning Outcome 3: Graduates will apply social work ethical principles to guide professional practice (2.1.2).</td>
</tr>
<tr>
<td>Objective 5: Interpret and synthesize the history of the social work profession and its contemporary structures and issues.</td>
<td>• Learning Outcome 4: Graduates will engage</td>

development and behavior across the life span and the interactions among individuals and between individuals and families, groups, organizations, and communities.

Objective 8: Analyze, formulate, and implement conclusions to influence social policies.

Objective 9: Evaluate research studies, assess and apply research findings to practice, and evaluate their own foundation practice interventions.

Objective 10: Use communication skills differentially across client populations, colleagues, and communities.

Objective 11: Use supervision and consultation appropriate to social work practice.

Objective 12: Function effectively and efficiently within the structure of organizations and service delivery systems and propose skillful actions for organizational development and sustainability.

Goal 2 (explicit and implicit academic community climate): To provide students with a learner-centered academic climate that fosters excellence in generalist social work practice with individual, families, groups, communities, and organizations.

Graduates of the BSW program will be able to:

Objective 1: Apply technology and information management strategies;

Objective 2: Use supervision and consultation throughout the program for learning, professional advancement and personal growth.

Objective 3: Demonstrate leadership skills and behaviors in the classroom and various program components.

Objective 4: Partner with administration, faculty, and staff to promote and maintain a learner centered academic climate.

Goal 3 (partnerships with community): To offer students opportunities, through service learning and field education, to become community-engaged leaders and advocates for social and economic justice within culturally diverse communities and organizations.

Graduates of the BSW program will be able to:

Objective 1: Apply theoretical frameworks to analyze policies and program and influence legislative and policy processes.

Objective 2: Assess and implement the planned change process in organizations and communities.

Goal 4 (professional development): To provide students with experiences needed for lifelong learning and continuing professional development.

diversity and difference in practice (2.1.4).

Goal 3: The program prepares students to apply a person and environment framework to interpret practice contexts and relevant research.

- Learning Outcome 5: Graduates will apply knowledge of human behavior and the social environment (2.1.7).
- Learning Outcome 6: Graduates will engage in research-informed practice and practice-informed research (2.1.6).
- Learning Outcome 7: Graduates will respond to contexts that shape practice (2.1.9).

Goal 4: The program prepares students to understand the conditions that influence human rights, as well as the policies and practices that enhance social and economic justice.

- Learning Outcome 8: Graduates will engage in policy practice to advance social and economic well-being and to deliver effective social work services (2.1.8).

Goal 5: The program prepares students to use critical thinking in serving and advocating for social and economic justice.

- Learning Outcome 9: Graduates will apply critical thinking to inform and communicate professional judgments (2.1.3).
- Learning Outcome 10: Graduates will advance human rights and social and economic justice (2.1.5).
Graduates of the BSW program will be able to:

**Objective 1:** Produce plans for continuing growth by effectively using supervision and consultation, develop strategies for self-care, and engage in career development and life-long learning.

### Change to Major/Degree Program – Social Work, B.S.W.

The purpose of the major is to provide an undergraduate Bachelor of Social Work (BSW) major that (1) prepares graduates for ethical, competent, and culturally relevant social work generalist practice with individuals, families, groups, communities, and organizations; (2) conveys the foundational knowledge, values, skills, and professional behaviors of generalist social work practitioner; (3) provides opportunities for students to experience leadership in human service organizations and communities by using various perspectives to promote a planned change process; and (4) equips students with the knowledge and skills necessary for developing plans for life-long learning and professional development. The undergraduate major is intended to provide a broad-based liberal arts education that leads to professional social work education. Graduates will be leaders and advocates who work to enhance social and economic well-being of individuals, families, groups, and the community.

#### Existing

In order to be admitted to the College of Social Work-BSW Program, freshmen and transfer students must meet all University and college admission requirements. Transfer students must meet all such requirements and have a GPA of 2.25 or better. Acceptance into the BSW Program with a lower division classification does not guarantee progression into the upper division BSW Major.

All students in the lower division in the BSW program are subject to the following regulations:

1. Students must maintain a minimum GPA of 2.25.
2. All incomplete grades posted on the transcript must be removed before progression into the upper division.
3. Students must earn a minimum grade of C in all required English courses.

**Advanced Placement:** Students must adhere to the University requirements for advanced placement in general education courses. Only those general education courses identified by the University can be used for advanced placement through the College Level Examination Program (CLEP). University departmental exams may be used for advanced placement if offered by the appropriate department and if the student meets the expected testing level identified by the department.

**Upper Division:** Progression into upper division social work occurs primarily in the fall semester. Students who complete 45 hours of general education and wish to apply to upper division must submit a completed College of Social Work - BSW Application by the announced due dates published each year. Factors considered in the progression decision include the following:

1. good standing with the University and successful completion of the application process.

Factors considered in the progression decision include the following:

1. good standing with the University and successful completion of the application process.
2. minimum of a 2.5 cumulative USC and collegiate summary grade point average in general education and other courses
3. a grade of "C" in their English general education course requirements.
4. verified completion of 45 hours of general education courses at the time of application.
5. verified completion of 60 hours of general education courses at the time of progression to upper division.
6. verified completion of SOWK 201 and 222.
7. meeting with their social work advisors to receive and discuss the pre-application, application packet, personal statement, reference forms, and over-all process.
8. completion of a statement of agreement to abide by the professional values and behavioral expectations outlined in the NASW Code of Ethics, USC Carolina Creed, and other documents found in student manuals.
9. attendance at the BSW program and field education orientation sessions.

Students must have a completed application for field, provide evidence of completion of remaining lower-division course work, and be admitted to the upper division prior to registering for their first upper division (300 level) social work course.

Progression Requirements: To remain in the undergraduate degree program at the College of Social Work, a student must make satisfactory academic progress toward the degree. A student who fails to make satisfactory progress may be placed on academic probation or removed from the program. If the semester, yearly, or cumulative grade point average of a student is below 2.50, the student will be notified in writing. A student must have an overall 2.0 average and must complete all social work core courses with an overall grade point average of 2.5. A student may attempt a social work core course a maximum of two times to fulfill the requirement. A grade of W (withdrawal) will be recognized as an attempt. A student may repeat a maximum of two core courses. In addition, all students in the College of Social Work are subject to the regulations on probation, suspension, and readmission in the section of the USC Undergraduate Bulletin titled "Academic Regulations."

Change to Major/Degree Program – Social Work, B.S.W.

Existing

The College of Social Work offers a four-year undergraduate program on the Columbia campus leading to a Bachelor of Social Work (BSW). This BSW program is in the candidacy and accreditation process prescribed by the Council of Social Work Education (CSWE).

Proposed

The College of Social Work offers a four-year undergraduate program on the Columbia campus leading to a Bachelor of Social Work (BSW). This BSW program has been fully accredited by the Council of Social Work Education (CSWE) since 2012.
**Change Title**
From: SOWK 331 Social Work with Diverse and Oppressed Populations. (3)
To: SOWK 331 Diversity and Social Justice in Contemporary Society. (3)

### Social and Behavioral Sciences Option (27 Hours)

A minimum of 27 hours from two of the following disciplines:

- Anthropology
- Criminology and Criminal justice
- Economics
- Geography
- Political science
- Psychology
- Sociology
- Social Work

### Cognate (12 hours)

All grades must be C or better.

The cognate is comprised of a discipline NOT included in the student’s major but philosophically/ontologically joined to it. Coursework must be at the 300 or above level in one of the following disciplines: ANTH, Art, Business, CRJU, DANC, ECON, Education, ENGL, GEOG, HIST, Languages, MATH, PHIL, POLI, PSYC, Physical or Biological Sciences, RELG, SOWK, SOCY, THEA. The cognate cannot be a discipline included in the student's major. No more than six hours of transfer work may be applied to the cognate.

*The most updated list of courses designated as fulfilling the Native American Studies option will be listed on the BA in Liberal Studies program website. [http://saeu.sc.edu/academics/programs/LiberalStudies/index.html](http://saeu.sc.edu/academics/programs/LiberalStudies/index.html)
