

University Committee on Admissions 2015-2016 Academic Year Annual Report

Committee Members

Jodi Spillane, Chair	University Libraries (2016)
Kenny Whitby	Political Science (2016)
Robert Friedman	Biological Sciences (2017)
Nikki Wooten	Social Work (2017)
Chen Zhou	Business (2018)
Dan Friedman	University 101 (2016)
Karen Heid	Art (2016)
Erica Tobolski	Theatre and Dance (2017)
Amber Williams	Nursing (2018)
Scott Verzyl, ex-officio Secretary	Admissions
Mary Wagner	Admissions
Helen Doerpinghaus	Provost's Office

Year Highlights

1. The committee voted via email to approve to approve the following:
 - a. Four credit by exam policy edits as proposed by the Office of Admissions (Please see Appendix 1). These edits were presented at the November 4, 2015 Faculty Senate Meeting but did not pass. Bulletin change requests 1-3 were re-presented at the December 2, 2015 Faculty Senate Meeting and did pass (Appendix 2).
 - b. Bulletin change request 4 (Appendix 3). The wording of this request had undergone significant changes since it first appeared before the committee. It was presented at the April 6, 2016 Faculty Senate Meeting and passed.
2. The Committee met in person on April 28, 2016. Agenda items were:
 - a. Update on the Fall 2016 Admissions Cycle
 - b. Update on the Coalition App
 - c. Update on the SAT redesign
 - d. Discussion of the new South Carolina Uniform Grading Scale
 - e. Review edits to the Behavioral Review Policy
 - f. Selection of Chair for the 2016-2017 academic year: Amber Williams (Nursing).

Bulletin change request 1:

Add additional Advanced Placement exam names, “seminar” and “research,” to the list provided in the “Advanced Placement by Examination” section of the Undergraduate Bulletin.

Background:

The College Board is now offering two new AP exam courses: **AP Seminar** and **AP Research**. In July 1985, the SC Commission on Higher Education established a policy on advanced Placement Credit Awards which stipulates that students earning a score of 3 or better on any AP exam shall be awarded at least 3 hours of credit by SC public institutions. Subject matter experts in the College of Arts and Sciences recently reviewed the AP Seminar and Research courses. The bulletin needs to be updated to include these recently evaluated AP Exams for which the state requires us to grant credit.

A review of the course descriptions indicates that students scoring 3 or better on the **AP Seminar Course** should be given USC credit as **HUMA 001T (3 hrs)**. Students scoring 3 or better on the **AP Research Course** should be given credit as **UELC 001T (3 hrs)**.

Rationale for Equivalencies:

AP Seminar Course

On the basis of the AP description, this course engages students in cross-curricular material as analyzed from divergent perspectives. It utilizes foundational, literary and philosophical texts; listening to speeches, broadcasts and personal accounts and experiencing artistic works and performances. Given this depth of humanities-related materials associated with the courses it seems appropriate to give general humanities credit, hence, **HUMA 001T**. *This course does not satisfy the Carolina Core AIU requirement, but would be suitable to satisfy a College humanities requirement beyond the core.*

AP Research Course

On the basis of the AP description, this course focuses on particular issues of interest to the student. The design, planning and implementation of the investigations carried out by students cuts across all disciplines, and thus, less easily categorized as humanities, social science or natural science, hence, the more general characterization of the course as a University elective, **UELC 001T**.

The edits, below, were approved by majority vote of the Faculty Admissions Committee and have received the support of the Assistant and Associate Deans Committee. Changes are highlighted in yellow.

Contact: Questions regarding these changes should be directed to committee chair, Jodi Spillane (SPILLA@mailbox.sc.edu), Thomas Cooper Library.

<End of Bulletin change request 1>

Bulletin change request 2:

Add language to address how the university awards credit for Cambridge International A-Level exams in the “Advanced Placement by Examination” section of the Undergraduate Bulletin.

Background:

There are other internationally recognized curricula for which a student can qualify for college-level credit by examination. One of these is the [Cambridge International](#) exam. As the name suggests, this is coursework offered through the University of Cambridge (UK) and it available in several other countries, including USA. International students are not the only one impacted by Cambridge exams. There is growing interest in the US because [more US high schools are offering a Cambridge-based curriculum as an alternative to AP or IB](#).

Many American Universities are now offering student college-level credit for successful completion of A-level coursework in a variety of subject areas and the number is growing. Performance on these exams is typically aligned with AP or IB scores for which students can earn credit.

At present USC has no formal policy for evaluating A-Level exams through the Cambridge International Exam program. Adding a statement about how subject matter experts may award credit-by-examination will provide framework to evaluate and award Cambridge International exams for credit in a manner similar to Advanced Placement, International Baccalaureate, and CLEP. As students present Cambridge International A-level examination scores, subject matter experts will be asked to evaluate exam content to award appropriate college level credit.

The edits, below, were approved by majority vote of the Faculty Admissions Committee and have received the support of the Assistant and Associate Deans Committee. Inserting a statement about Cambridge exams will require re-numbering the remaining items within this section. Changes and deletions are highlighted in yellow below.

Contact: Questions regarding these changes should be directed to committee chair, Jodi Spillane (SPILLAJL@mailbox.sc.edu), Thomas Cooper Library.

<End of Bulletin change request 4>

Bulletin change request 1:

Add additional Advanced Placement exam names, “seminar” and “research,” to the list provided in the “Advanced Placement by Examination” section of the Undergraduate Bulletin.

Background:

The College Board is now offering two new AP exam courses: **AP Seminar** and **AP Research**. In July 1985, the SC Commission on Higher Education established a policy on advanced Placement Credit Awards which stipulates that students earning a score of 3 or better on any AP exam shall be awarded at least 3 hours of credit by SC public institutions. Subject matter experts in the College of Arts and Sciences recently reviewed the AP Seminar and Research courses. The bulletin needs to be updated to include these recently evaluated AP Exams for which the state requires us to grant credit.

A review of the course descriptions indicates that students scoring 3 or better on the **AP Seminar Course** should be given USC credit as **HUMA 001T (3 hrs)**. Students scoring 3 or better on the **AP Research Course** should be given credit as **UELC 001T (3 hrs)**.

Rationale for Equivalencies:

AP Seminar Course

On the basis of the AP description, this course engages students in cross-curricular material as analyzed from divergent perspectives. It utilizes foundational, literary and philosophical texts; listening to speeches, broadcasts and personal accounts and experiencing artistic works and performances. Given this depth of humanities-related materials associated with the courses it seems appropriate to give general humanities credit, hence, **HUMA 001T**. *This course does not satisfy the Carolina Core AIU requirement, but would be suitable to satisfy a College humanities requirement beyond the core.*

AP Research Course

On the basis of the AP description, this course focuses on particular issues of interest to the student. The design, planning and implementation of the investigations carried out by students cuts across all disciplines, and thus, less easily categorized as humanities, social science or natural science, hence, the more general characterization of the course as a University elective, **UELC 001T**.

The edits, below, were approved by majority vote of the Faculty Admissions Committee and have received the support of the Assistant and Associate Deans Committee. Changes are highlighted in yellow.

<End of Bulletin change request 1>

Bulletin change request 2:

Add language to address how the university awards credit for Cambridge International A-Level exams in the “Advanced Placement by Examination” section of the Undergraduate Bulletin.

Background:

There are other internationally recognized curricula for which a student can qualify for college-level credit by examination. One of these is the [Cambridge International](#) exam. As the name suggests, this is coursework offered through the University of Cambridge (UK) and it available in several other countries, including USA. International students are not the only one impacted by Cambridge exams. There is growing interest in the US because [more US high schools are offering a Cambridge-based curriculum as an alternative to AP or IB](#).

Many American Universities are now offering student college-level credit for successful completion of A-level coursework in a variety of subject areas and the number is growing. Performance on these exams is typically aligned with AP or IB scores for which students can earn credit.

At present USC has no formal policy for evaluating A-Level exams through the Cambridge International Exam program. Adding a statement about how subject matter experts may award credit-by-examination will provide framework to evaluate and award Cambridge International exams for credit in a manner similar to Advanced Placement, International Baccalaureate, and CLEP. As students present Cambridge International A-level examination scores, subject matter experts will be asked to evaluate exam content to award appropriate college level credit.

The edits, below, were approved by majority vote of the Faculty Admissions Committee and have received the support of the Assistant and Associate Deans Committee. Inserting a statement about Cambridge exams will require re-numbering the remaining items within this section. Changes and deletions are highlighted in yellow below.

Contact: Questions regarding these changes should be directed to committee chair, Jodi Spillane (SPILLA@mailbox.sc.edu), Thomas Cooper Library.

<End of Bulletin change request 4>

Bulletin change request 4:

Correct and simplify policy language with regard to foreign language and mathematics placement testing in the “Advanced Placement by Examination” section of the Undergraduate Bulletin.

Background:

This change is being submitted at the request of the Assistant and Associate Dean’s Council (AADC) in an effort to clarify current practice and correct errors listed in the bulletin. New web links are proposed to direct students to correct websites where policies are readily maintained and updated.

Current policy as listed is inaccurate. For example, not all freshmen are required to take a math placement exam. Transfers must also take placement exams but the current policy does not instruct student on where to retrieve information about requirements. The proposed edits more accurately describe current practice and direct students to correct version of placement test policy.

This amendment was approved by majority vote of the Faculty Admissions Committee and has received the support of the Assistant and Associate Deans Committee as well as from the Departments of Mathematics and Languages, Literatures and Cultures. Changes and deletions are highlighted in yellow below.

Contact: Questions regarding these changes should be directed to committee chair, Jodi Spillane (SPILLAJL@mailbox.sc.edu), Thomas Cooper Library.
