*Network username is assigned by the university and is the first portion of your university email address.

5. Click Proceed
6. Enter your date of birth (MM/DD/YYYY)
7. Click Proceed
8. Click Medical Clearances (left side of the screen)
9. Click Update next to Immunization Record
10. Click Upload and add your document.
11. Scroll to the bottom of the page and Click Save or your document will not upload.

Entering immunization dates and/or titer

1. Click Update next to each Immunization.
2. Add date of immunization under Date 1.
3. Select type of vaccine under Vaccine 1 by clicking the downward arrow on the right. (This must be completed for each vaccine).
4. If adding Titer enter date titer were drawn under Date and results by selecting Negative or Positive. (This must be completed for each Titer).

TB Screen Risk Form (To be completed by all students)

1. Click TB Screen Risk Form
2. Click the Update button and answer each question.
3. Click Submit

*If tuberculosis testing is required, the system will automatically prompt you after completing the TB Screen Risk Form. To fulfill this requirement, you must have either a QuaniFeron Gold or T-Spot blood test performed within the past one (1) year and a Chest X-ray performed within the past three (3) months, all testing performed in the U.S.

Required Immunizations for USC Registration

1. Measles, Mumps and Rubella (MMR) two doses: The 1st dose must be administered on/after first birthday and the 2nd dose at least 28 days after initial dose.

   Note: A positive titer for MMR is acceptable, however, if negative for any of the three you will be required to have two doses of MMR separated by 28 days.

2. Meningococcal Vaccine: Students under age 21 will need the Meningococcal ACYW (Meningitis) vaccine (Menactra or Menveo). Students receiving the vaccine prior to age 16 will need a Meningococcal ACYW (Meningitis) booster (Menactra or Menveo).

   Note: Meningococcal B vaccine (Bexsero or Trumenba) is recommended, however;

   **Meningococcal B does NOT fulfill the meningococcal requirement.**
