It is intended to provide healthy, fresh produce and other assorted South Carolina (SC) products to the students, faculty, staff, and the surrounding community of the University of South Carolina. Both small and large vendors of produce and non-commercial food items will find a supportive outlet for the sale of their goods. Products sold must fit into one of three categories: fresh produce, locally grown or produced, and/or sustainable. The Healthy Carolina Farmers Market will encourage commerce, entertainment, and health on the campus of the University of South Carolina and the state of South Carolina as a whole.

The Healthy Carolina Farmers Market is dedicated to building a sustainable, regional foodshed and to educating people about the benefits of sustainable agriculture in the region. It emphasizes the direct connection between local food choices and the quality and health of our environment and daily lives. By providing farmers/growers with a direct market for their products, Healthy Carolina Farmers Market helps sustain the regional farm economy and helps ensure the future of farming in SC.
