IAL ENROLLMENT

University of South Carolina - Columbia, Columbia, SC

2024 Enrollment Information Profile Submission Form

Due Date: 01/15/2025

DIRECTIONS

Please report your institution's FTE enrollment for the 2024 fall term in the right-hand column.

When tabulating the total, include all degree and non-degree students, wherever instruction occurs. This applies to students enrolled in course work delivered at the main campus, off-campus sites, branch campuses, and course work delivered electronically, including dual-enrollment students.

Note: You may need to zoom out on your screen if the page seems misaligned.

Press and hold Ctrl while you roll the mouse dial (or +/- if your mouse has no dial) to zoom in or out.

Please use the following definitions for your computation of FTE and not your institution's definition.

A full-time undergraduate student is one enrolled for 12 or more credit hours.

A full-time post-baccalaureate/graduate student is one enrolled for 9 or more credit hours.

A reminder, it is important your submission be received in time; we are now required to submit enrollment information in a timely manner to the federal government.

Prior Year Value Errors:

The numbers for last year's profile are only for informational purposes.

Prior year value updates are *not required or encouraged* due to not having any benefit.

Current Year Value Errors:

If the institution needs to resubmit, the IAL can do this by going to the Annual Update tab in the portal and clicking the resubmit option no later than the Due Date.

Non-Credit

(Include continuing education. Do not include non-credit courses taken by for-credit students as part of a for-credit program such as labs, chapels, student success courses, remedial courses, etc. Count these under for-credit.)

6.a. For each non-credit course offered in the fall term, multiply the total number of contact hours for the course (as determined by your institution) by the total number of students enrolled in the course.

Prior year, read-only

Current year

Add resulting figures for all non-credit course (see example below).

Example for calculating 6a above:

An institution has five non-credit courses. Course one has 17 students and 20 course contact hours; course two has 11 students and 15 contact hours; course three has 10 students and 15 contact hours; course four has 16 students and 5 contact hours; and course five has 14 students and 10 contact hours.

Calculation for Part 6.a.	Students		Contact Hours	
Course one:	17	x	20	= 340
Course two:	11	x	15	= 165
Course three:	10	x	15	= 150
Course four:	16	x	5	= 80
Course five:	14	x	10	= 140

Calculation Total for Part 6.a. = 875

Divide combined total in 6a by 168 if your institution is on a semester or trimester system (12 hours/week x 14 weeks), or by 120 if your institution is on a quarter system (12 hours/week x 10 weeks), Round to the nearest whole number
