For too long, students haven't been given a strong, representative voice at this university. Transparency between the university and its students isn’t just a frivolous want but an essential need. I’ll spend every moment of my time in Senate advocating for the needs of every student on this campus. No matter who you are, I’ll strive to represent you and your needs. Students in the College of Arts and Sciences, let's move Carolina Forward, together!

Lauryn Workman

As a Senator, I’ll dedicate myself to moving Carolina forward by pushing the Board of Trustees to critically analyze the history of our campus. Additionally, I believe that 100% wi-fi coverage is necessary to make sure students and faculty across campus have the opportunity to be productive. Finally, expanding programs such as comprehensive career fairs and entrepreneurship programs will help students to be successful after they leave the Carolina community. Let’s move Carolina Forward, together!
Hello! I’m Aleea Winston, a freshman seeking the honor of representing the College of Arts and Sciences in the Student Senate. I am interested in expanding the services and benefits provided to our students and improving awareness of pre-professional advising and fellowships. I would like to increase the opportunities for internships and research, and make them more accessible to all students. I will listen to student concerns and bring them forward for discussion. Currently I am serving as a University Ambassador, which has given me insight into all the great opportunities and resources here at USC.
