REVIEW OF CURRENT PROCESS

ACADEMIC ACCOMMODATIONS REQUEST PROCESS

HIGH LEVEL OVERVIEW

Start-to-finish process time averages 2-3 weeks

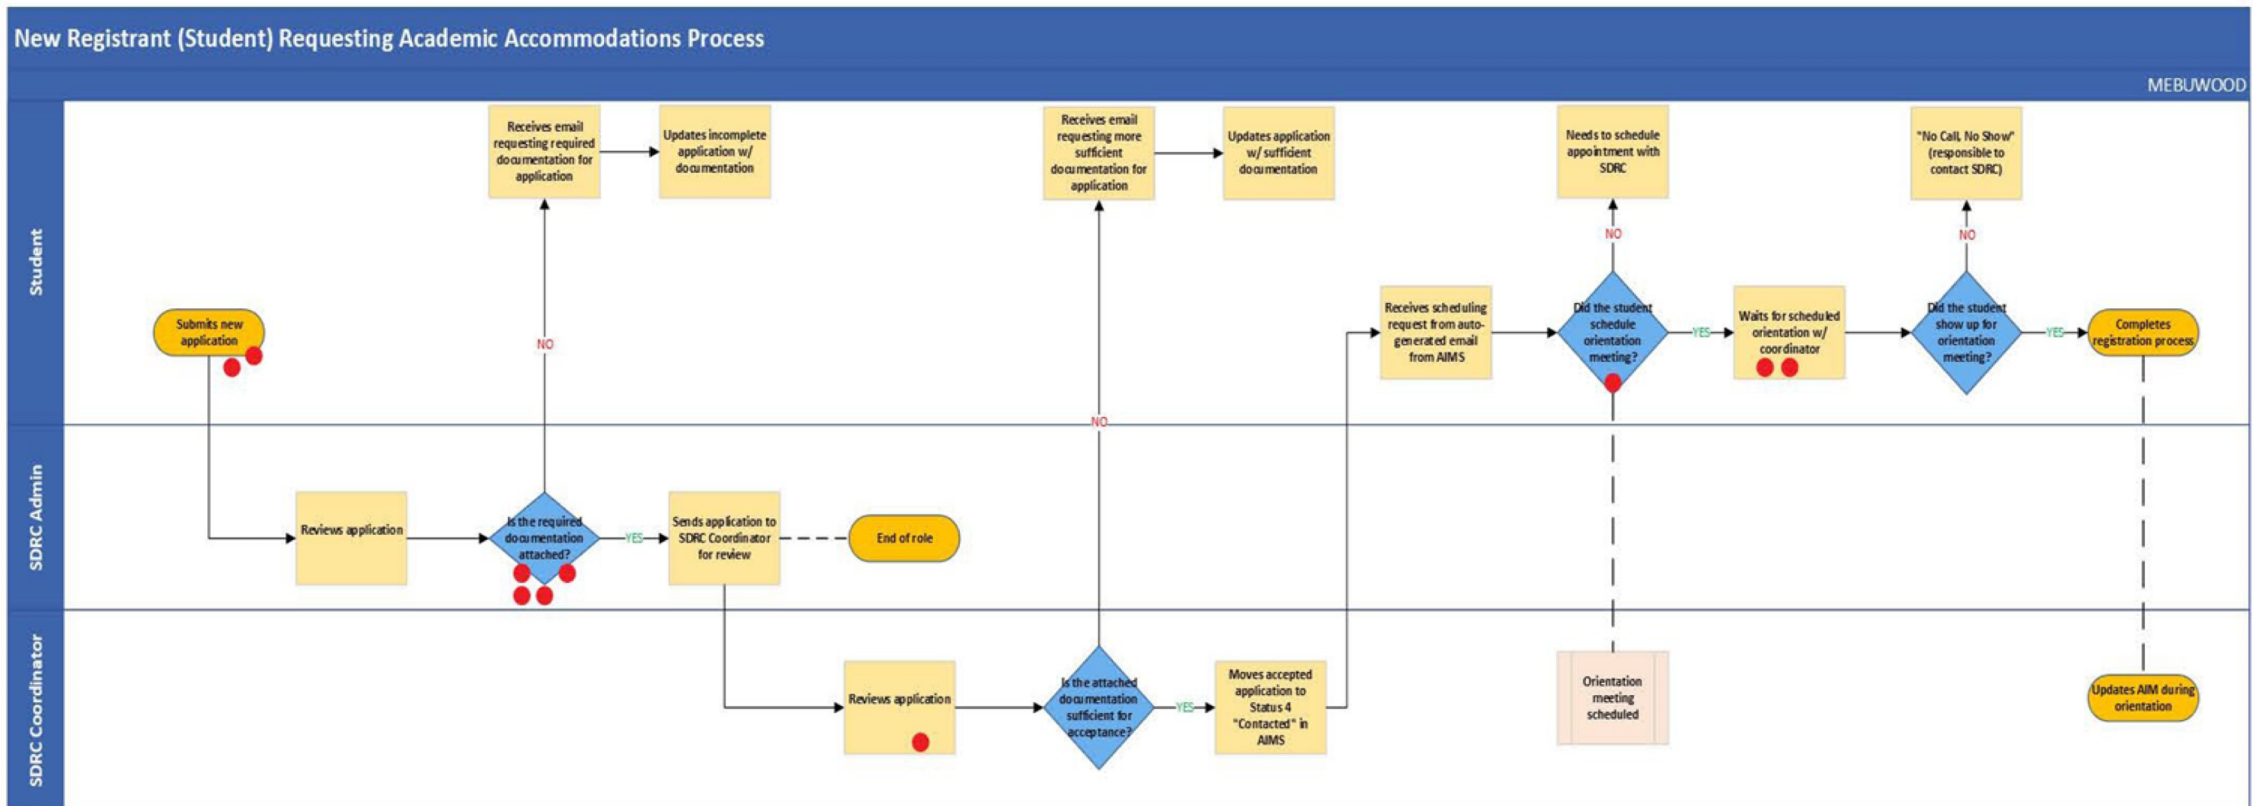

Follow-ups, representing interactions between these roles and the student applying for accommodations, consume significant staff hours daily and weekly, reflecting critical points in the process * (*indicated in red*)

ACADEMIC ACCOMMODATIONS REQUEST PROCESS

DETAILED PROCESS MAPPING

Project mapping identified where considerable time is spent processing, waiting, or looping back with students to gather missing or incomplete information.

HAND-OFF FOR GRADUATE STUDENT WORKPLACE ACCOMMODATIONS

HIGH LEVEL OVERVIEW

The process for graduate student workers to request workplace accommodations lacks clarity and formal structure.

Absent a clearly defined process, the director of the SDRC has offered informal consultation, contingent upon the completion of the academic accommodation application process.

STAKEHOLDER FEEDBACK

STAKEHOLDER FEEDBACK

A survey was distributed to registered SDRC students and faculty and staff partners. This survey focused on process effectiveness, communication channels, challenges, and overall satisfaction with the accommodations process.

Stakeholder Feedback	Number	Percentage
Undergraduate Student	103	48%

SDRC FULL REPORT

Student Disability Resource Center (SDRC)

Student Disability Accommodations Registration Process Improvement Project

The Student Disability Resource Center (SDRC) plays a pivotal role in ensuring equal access to education for students with disabilities. In recent years, there has been a significant uptick in the demand for reasonable accommodations in classrooms, thereby highlighting the growing importance of promptly delivering these accommodations. To better serve students, faculty, and staff, the SDRC and Office of Civil Rights & Title IX recognize this opportunity to identify efficiencies to:

- Provide clarity about the student disability accommodations process
- Reduce student disability accommodations process time
- Develop seamless coordination with HR for graduate students who need classroom and workplace accommodations

Registering with the Student Disability Resource Center (SDRC) aims to provide all students with disabilities an equal opportunity for success in their college experience. Students who wish to request academic accommodations must self-identify with the SDRC office, complete an application within AIM (an online accommodations management system), and submit required disability documentation. SDRC staff are trained to evaluate disability documentation in combination with the student's self-report to determine eligibility for accommodations on a case-by-case basis. Accommodations can be requested at any time of the year.
