Travel and Expense
Traveler Training
Today’s Agenda

• Update Banking Information
• Review of transaction types
• Approving Travel Authorizations
• Approving Travel Advances
• Approving Expense Reports
Benefits of the Travel and Expense Module

• This powerful, yet easy to use module dramatically reduces the amount of time and effort required to submit, approve, process, and pay expense reports.

• Encumbers the Travel Authorization on your budget.
Traveler

The traveler is any employee who travels. In PeopleSoft, the traveler is responsible for:

- Updating Banking information in PeopleSoft. This will validate them as a traveler in PeopleSoft allowing them or a Proxy to create an expense transaction on their behalf.
- When expense transactions are created by a proxy for the traveler, the traveler will be responsible for approving those transactions in PeopleSoft.

It is important to note this implementation is for Employees only. The current process for student and non-employee travel will not change.
Updating Banking Information

- First step to using the Travel and Expense module is entering bank account information.
- Entering banking information validates the traveler, allowing transactions to be completed on their behalf.
- Be sure banking information is correct and update when necessary.
- **ALL** payments will be made via direct deposit.
Overview of Expense Transactions

• Travel Authorization (TA)
• Travel Advance
• Expense Report (TRV)
Travel Authorization

• A travel authorization is an “estimate” of what the employee’s costs may be for hotel, transportation, etc.

• Travel Authorizations are required for:
  – Expenses $5,000 or greater
  – All Foreign Travel
  – All Travel Advances

• After the TA is submitted, approved and budget checked, the amount on the TA becomes an encumbrance on your budget; the total amount on the TA is ‘set aside’ from the budget.

• The Travel Office performs final approval if created for the criteria stated above.
Travel Advance

• To minimize the impact of business travel on employee personal finances, you can create a travel advance to pay for items such as hotel/lodging and meals.

• Travel Authorization is required for a Travel Advance.

• A Travel Advance can be created for 70% of total estimated expenses of Hotel/Lodging and Meals up to $3,000 without requiring pre-authorization from the Travel Office.

• Only one advance can be requested at a time and must be applied to an expense report or repaid.

• The Travel Office performs final approval.
Expense Report

• An Expense Report in PeopleSoft makes it easy to transform a handful of receipts into a final document for expense reimbursement.

• Create an Expense report:
  – by not associating a Travel Authorization (does not meet the requirements)
  – by associating a Travel Authorization (foreign or $5,000 and greater)
  – by associating a Travel Authorization and applying a Travel Advance (travel advance requested)
# Roll Out Schedule by Operating Unit

<table>
