25LIVE Accessing Pre-Set Public Searches

The following guide will walk you through finding the pre-set location searches in 25LIVE.

A few pre-determined lists of locations are already set up in 25LIVE to assist users in finding spaces available for request on campus.

"General classrooms" contains a list of the general purpose classrooms managed in 25LIVE by the registrar's office.

"Quick View" is a high level list of popular event locations that you can request for use in 25LIVE.

To find these lists, click the **more** menu and select **(1) availability**.

Your page will refresh and you will see a grid view of locations. Toggle between the two lists by clicking the **(2) drop down box**. Select either "General classrooms" or "Quick View".

Neither list is comprehensive so you may need to search further to the find a location. For more

information on searching for locations in 25LIVE, view our location search video or PDF.
