The Graduate Director puts out a call for nominations from the faculty. All graduate students who plan to work in computational mathematics are eligible, but preference is given to those who have actually started dissertation work in the area. Faculty send their nominations with a description of the students plans or work in progress. The Graduate Advisory Committee reviews the nominations and recommends the student to be awarded. The cumulative academic records are considered along with the research plans/progress. (For 2011-2012, the meeting was on 9/27/2011 and two students were considered.) The Graduate Director conveys
