PROGRAM

NATIONAL RESOURCE CENTER

FIRST-YEAR EXPERIENCE® AND STUDENTS IN TRANSITION  
UNIVERSITY OF SOUTH CAROLINA

Join the CONVERSATION

@NRCFYESIT #FYE19

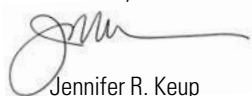

Dear Conference Delegates,

On behalf of the staff of the National Resource Center for The First-Year Experience and Students in Transition at the University of South Carolina, I am honored to welcome you to Las Vegas, Nevada for the 38th Annual Conference on The First-Year Experience. We are pleased to welcome registrants from campuses across the United States and international delegates from colleges and universities all around the world, representing a diversity of institutional mission, types, sizes, and student populations. Thus, our conference participants remind us how rewarding it is to share ideas and learn about higher education and student success across campuses, systems, sectors, contexts, cultures, and countries. I know that I speak for all of the National Resource Center staff and affiliates when I extend warm conference greetings to you all.

The National Resource Center takes great pride in hosting educationally productive and personally inspiring conferences that create meaningful connections between delegates, presenters, and exhibitors during the event and serve as a rich professional network long after our time together at the conference. The Center's staff has planned an outstanding program of pre-conference workshops; keynote, plenary, and closing speakers; featured sessions; and conference presentations. While learning from these educational sessions is valuable to our work, the conference schedule also is designed to facilitate informal interactions among participants. Among the core commitments of the National Resource Center and the standards for excellence in our work with the first-year experience are collaboration, lifelong learning, inclusion, and the connection between research and practice. As we face a time of significant social, economic, and political transition, it is never more important than it is now for us to unite around these values. As such, we encourage you to take advantage of both formal and informal opportunities to interact with conference participants, discuss current trends and issues, discover more about research and assessment findings, support one another, and learn from your fellow delegates about promising practices for first-year students in the United States and across the globe.

The staff of the National Resource Center and representatives from our local co-host, Nevada State College, are here to help you in any way that we can. Please do not hesitate to contact us at the conference registration desk if you have any questions or concerns. Those of us on the conference planning team look forward to meeting you, working with you, and learning from you during our time in Las Vegas and in the future. Enjoy your time at the conference!

Sincerely,

Jennifer R. Keup

Director, National Resource Center for The First-Year Experience & Students in Transition

THE FIRST-YEAR EXPERIENCE® is a service mark of the University of South Carolina. A license may be granted to registered conference attendees and others upon written request to use the term THE FIRST-YEAR EXPERIENCE® in association with educational programmatic approaches to enhance the first year developed as a result of participation in this conference series. This license is not transferable and does not apply to the use of the service mark in any other programs or on any other literature without the written approval of the University of South Carolina.

The University of South Carolina provides equal opportunity and affirmative action in education and employment for all qualified persons regardless of race, color, religion, sex, national origin, age, disability, sexual orientation, or veteran status. The University of South Carolina System has designated as the ADA Title II, Section 504 and Title IX coordinator the Executive Assistant to the President for Equal Opportunity Programs. The Office of the Executive Assistant to the President is located 1600 Hampton Street Annex, Columbia, South Carolina; Telephone (803) 777-3854.

## NATIONAL RESOURCE CENTER

FIRST-YEAR EXPERIENCE® AND STUDENTS IN TRANSITION  
UNIVERSITY OF SOUTH CAROLINA

### CORE COMMITMENTS

**Student Transitions:** Student transitions, such as the first year of college, sophomore year, transfer experience, degree completion, and new graduate student experiences, are critical junctures in the educational pipeline and unique opportunities for post-secondary student learning and development. We strive to set a standard of excellence for supporting student transitions and facilitating educational success for a diversity of students in the 21st century.

**Connection Between Research and Practice:** We believe that good practice in higher education must rely upon a foundation of high-quality research. Conversely, good research draws from and informs practices in our field. As such, the work of the National Resource Center advances and supports both scholarly practice and applied research.

**Inclusion:** We strive to create a supportive and professional environment where a diversity of viewpoints are recognized and considered in the ongoing dialogue on student transitions. One of the greatest strengths of the first-year experience and students in transition movement is its ability to cut across traditional boundaries in higher education and involve professionals from multiple sectors of education, institutional roles, and disciplinary perspectives as well as from a variety of personal backgrounds, institutional environments, and educational experiences.

**Collaboration:** Partnership and collaboration draw from the interdisciplinary nature of higher education, communicate an ongoing commitment to inclusion, and, ultimately, enhance the success of our efforts to support student transitions. The National Resource Center models effective collaboration and aims to create intentional and integrative connections between colleagues, units, organizations, systems, educational sectors, regions, and countries in support of student transition and success.

**Lifelong Learning:** We believe that all educators continue to be lifelong learners. We support a climate of intellectual curiosity and provide the tools and media to pursue professional development and an ongoing process of inquiry, exploration, and discovery.

### Welcome to the

This conference is designed to provide a structure intended to be as professionally enriching as it is individually pleasurable. We hope this will be a rewarding conference for you.

### GOALS OF THE CONFERENCE

The primary goal of the Annual Conference on The First-Year Experience is to assist educators and administrators in institutions of higher education in the planning, implementing, and refining of programs designed to enhance the first-year experience. The conference aims to promote a comprehensive and engaging community open to the diversity of ideas, in which all delegates are given the opportunity and resources to grow personally and professionally.

### CONFERENCE SPONSOR AND CO-HOSTS

#### **National Resource Center for The First-Year Experience and Students in Transition**

Building upon its history of excellence as the founder and leader of the first-year experience movement, the National Resource Center for The First-Year Experience and Students in Transition serves education professionals by supporting and advancing efforts to improve student learning and transitions into and through higher education. The Center achieves this mission by providing opportunities for the exchange of practical and scholarly information as well as the discussion of trends and issues in the higher education field through the convening of conferences, institutes, workshops, and online learning opportunities; publishing books, research reports, a peer-reviewed journal, an electronic newsletter, and guides; generating, supporting, and disseminating research and scholarship; hosting visiting scholars; and maintaining several online channels for resource sharing and communication, including a dynamic website, listservs, and social media outlets.

#### **University of South Carolina**

Chartered in 1801 as South Carolina College, the University of South Carolina, Columbia remains on its original site in the state capital. The University of South Carolina is a publicly-assisted, coeducational institution dedicated to the entire state of South Carolina. The primary mission of the University of South Carolina, a multi-campus public institution, is the education of the state's diverse citizens through teaching, research and creative activity, and service. The University is committed to providing its students with the highest-quality education, including the knowledge, skills, and values necessary for success and responsible citizenship in a complex and changing world.

### CO-HOST

The staff of the National Resource Center for The First-Year Experience and Students in Transition expresses appreciation to our co-host for their support and assistance:

#### **Nevada State College**

# GENERAL INFORMATION

## Check-In Information

Conference check-in is located in the Forum Ballroom Foyer. The staff of the National Resource Center for The First-Year Experience and Students in Transition will be available to assist you during the following dates and times:

### Friday, February 15, 2019

2:00 p.m. – 6:00 p.m.

### Saturday, February 16, 2019

7:30 a.m. – 6:00 p.m.

### Sunday, February 17, 2019

7:30 a.m. – 5:30 p.m.

### Monday, February 18, 2019

7:30 a.m. – 5:30 p.m.

### Tuesday, February 19, 2019

7:30 a.m. - 11:00 a.m.

## Hotel Map

A floor plan of the meeting rooms at Caesars Palace is located on the back cover of the program.

## No-Smoking Policy

The conference organizers request careful observance of the no-smoking policy. We enforce this rule due to the health risks associated with passive exposure to cigarette smoke.

## Cell Phone Usage

The conference organizers request that all cell phones are turned to vibrate or off while attending sessions.

## National Resource Center Bookstore

We are pleased to announce that publications from the National Resource Center for The First-Year Experience and Students in Transition are now being distributed by Stylus Publishing. Limited numbers of select publications will be available for sale during the conference. Major credit cards, cash, and check are accepted. Please visit the Stylus booth [Booth 6-7 in the Forum Ballroom 1-11, 25] to browse our most popular titles.

## Philanthropy Project

*HELP of Southern Nevada*

HELP of Southern Nevada's Shannon West Homeless Youth Center provides services for at-risk youth that are homeless or are at risk of becoming homeless. The Youth Center motivates residents towards reaching self-sufficiency by providing the training and skills to further their education, employment, social and life skills.

## Pencil Project

As in years past, the National Resource Center for The First-Year Experience and Students in Transition encourages you to participate in our ongoing outreach project to encourage low-income K-12 school students to consider higher education in their future. The conference organizers invite all conference participants to bring at least one new pencil (bring as many as you like) with your college or university name or logo to the conference registration desk so they can be distributed to low-income students in the host city or in Columbia, South Carolina. We hope you will participate in this effort.

## Outstanding First-Year Student Advocate Sessions

Several current and past recipients of the Outstanding First-Year Student Advocate award are presenting sessions at this conference. Recipients of this award will be designated throughout the program.

## International Sessions

Sessions being presented by those representing countries other than the United States of America are designated by the globe symbol.

## Excellence in Teaching First-Year Seminars Award

Current and past recipients of the Excellence in Teaching First-Year Seminars award are presenting sessions at this conference. Recipients of this award will be designated throughout the program.

## Nametag Ribbons

White	First-Time Attendees
Rainbow	Hosting Institutions
Purple	International Attendees
Gold	Outstanding First-Year Student Advocates
Light Blue	Presenters
Blue	Volunteers
Green	Vendors

## Session Evaluations

Session evaluations can be completed through the interactive scheduler, Guidebook. The session evaluation can be found at the bottom of the screen after the session description or it can be accessed on the menu page.

## Conference Evaluations

An Overall Conference Evaluation Form will be sent to you via CampusLabs after the conference. When you return to your campus, please take a few minutes to complete the evaluation. The information you provide is used to evaluate the conference and improve future conferences; therefore, your comments are extremely important. The link to this evaluation form will be emailed following the conference.

## Session Handouts

At the conference: There are several tables set up throughout the meeting space for presenters to leave extra handouts from their sessions. Presenters: Be sure to include your name and the title of your presentation on the handout.

After the conference: If you were not able to attend a session of interest, the handouts for the sessions will be available on our web site after March 31, 2019. Please note that only those handouts sent to us by presenters will be posted to the website. All presenters are encouraged to submit electronic versions of their session handouts to the National Resource Center by e-mailing them to [fyeconf@mailbox.sc.edu](mailto:fyeconf@mailbox.sc.edu).

# guidebook

download the Guidebook app and search  
*38th Annual Conference on The First-Year Experience*  
or by visiting <https://guidebook.com/g/fye19/>

In order to develop your personal schedule for the conference, download the Guidebook app on your iPhone, iPod touch, iPad, Android phone, Android tablet or a Kindle Fire. Open Guidebook app and click on "Schedule." Once a session is selected, it will be loaded into the "My Schedule" icon on the main menu page.

## PROPOSAL REVIEWERS

The National Resource Center for The First-Year Experience and Students in Transition would like to thank everyone who served as a proposal reviewer. The participation of our reviewers is instrumental in the success of this conference.

To view a full list of proposal reviewers, please visit <http://www.sc.edu/fye>.

# SESSION FORMATS

*The sessions presented at this conference are in eight formats. The alpha designation with the session number indicates the session type.*

## Poster Sessions

Poster sessions are presented in the form of an exhibit and delivered primarily through the use of visual display and handout materials. Numerous poster sessions will be scheduled concurrently, and conference delegates will be free to move from one poster session to another.

*Poster session types:*

### Research Findings (PR)

This type of poster session presents research results focused on a specific topic or program.

### Assessed Programmatic Approaches (PA)

This type of poster session presents on a specific programmatic approach at a single institution.

### Facilitated Dialogues (FD)

These sessions promote open dialogue around a significant or major issue or theme. Facilitated dialogues provide attendees an opportunity to share ideas and learn from one another's experiences.

## Concurrent Sessions

This session includes a formal presentation with time for questions and participant interaction.

*Concurrent session types:*

**Research (CR)** – These sessions present on quantitative or qualitative research that has been conducted on issues addressing student transitions.

**Trends & Issues (CT)** – These sessions address emerging trends, current issues, and broad concepts.

**Assessed Institutional Initiatives (CI)** – These sessions highlight specific programs/initiatives that have been instituted, assessed, and shown to be successful on a particular campus.

## Vendor Presentations (V)

These sessions provide vendors the opportunity to network with conference participants in a formal setting providing information on publications, products, or services.

## 2018-2019 Paul P. Fidler Research Grant Recipient

### PRINCIPAL INVESTIGATORS

**Dr. Will Sheppard**  
Winston Salem State University

**Dr. Brandy Bryson**  
Appalachian State University

### **Academically Achieving Black Males at HBCUs: A Mixed-Methods Study of First-Year Students' Academic and Transitional Success**

**Abstract:** The research on Black males continues to narrowly focus on achievement gaps, problems, and underrepresentation of Black males in higher education. Limited research points to academically achieving Black male students and their successful first year college transitions. Even more absent is the research on the transitions of successful first-year Black males at HBCUs. Consequently, this cross-institutional collaborative mixed-methods study focuses on academically achieving Black males' relationships to learning and achievement, and skills, habits, and characteristics of successful transitioning Black males within the 10 HBCUs in North Carolina. Practice and research implications for this study are expansive and promising.

The Paul P. Fidler Research Grant is designed to encourage the development and dissemination of knowledge that has the potential to improve the experiences of college students in transition. The grant is named in memory of Dr. Paul P. Fidler, a faculty member at the University of South Carolina, whose pioneering research on student learning and success had a vital impact on work being done to promote the success of all students in transition.

**Margaret Konkel**, Director, First-Year Seminar  
– Montana State University

**Ryan Korstange**, Assistant Professor, University Studies  
– Middle Tennessee State University

#### W-11 | Designing & Delivering an Effective First-Year Experience Course at 2-Year Institutions

1:00 p.m. – 5:00 p.m. | \$150 | Pompeian III

**Julie McLaughlin**, Professor and Department Chair for First-Year Courses  
– Cincinnati State Technical and Community College

**Joe Cuseo**, Professor Emeritus; Advocate, '01  
– Marymount College

SATURDAY

# SATURDAY, FEBRUARY 16

## **W-12 | Affecting the First-Year Experience for African-American and Latino Males**

1:00 p.m. – 5:00 p.m. | \$150 | Pompeian IV

**Wayne Jackson**, Director of Multicultural Academic and Support Services

— *University of Central Florida*

**Tony Davis**, Counselor

— *Montgomery County Community College*

## **W-13 | Generation Z: Reaching Students through High Impact Practices**

1:00 p.m. – 5:00 p.m. | \$150 | Florentine I

**Jennifer Coplea**, Coordinator, CNAS (College of Natural & Agricultural Sciences) Scholars

— *University of California, Riverside*

## *Opening Session with Awards Recognitions and Keynote Address*

5:30 p.m. – 7:30 p.m.

## **Intersectionality and the Role of First-Year Experience Educators**

Forum Ballroom 12-24

**Laura Rendón**, Professor Emeritus of Higher Education  
— *University of Texas - San Antonio*

Higher education is presently dealing with a complex, multidimensional student culture where identity is not easily categorized and where intersecting identities related to, for example, race/ethnicity, gender, class, sexuality and religion can result in varying degrees of social injustice. This session will review the changing nature of race, gender, sexuality and identity. The role of first-year educators in working with an intersectional framework, validating student identities and cultures, building bridges and coalitions, and developing new curricular and student affairs programming related to intersectionality and well-being will also be discussed.

## Outstanding First-Year Student Advocate Award

5:30 p.m. – 7:30 p.m. | Forum Ballroom 12-24

The National Resource Center for The First-Year Experience and Students in Transition is pleased to recognize the Outstanding First-Year Student Advocates. Sponsored by Cengage and the National Resource Center for The First-Year Experience & Students in Transition, University of South Carolina

Crystal Benedicks  
*Wabash College*

Brigitte Lahme  
*Sonoma State University*

Loretta Swank  
*Southeastern Louisiana University*

## OPENING RECEPTION | 7:30 p.m. – 8:30 p.m.

*Forum Ballroom 1-11, 25*

### *Featured Session*

## **An Evening with John Gardner: Reflections on the First-Year Experience Movement**

8:30 p.m. – 10:00 p.m. | Florentine III

**John N. Gardner**, Chair and Chief Executive Officer

—*John N. Gardner Institute for Excellence in Undergraduate Education*; Senior Fellow,  
*National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina*

Come spend part of your first evening with the conference founder, John Gardner. This event is designed to help him get to know conference delegates personally, to help delegates make sense of the first-year experience movement, and to facilitate networking. John also provides the opportunity for discourse, reflection, information, and inspiration to the entire conference. He will present an interactive portrait of the first-year experience movement—its history and accomplishments, observations on its present, and some predictions about its future. Conference attendees are invited to drop in when they want, leave when they want, relax, and make themselves comfortable.

## Better Access Means More Learning

### The Price Problem

Your students juggle unaffordable textbook spending across courses, often resulting in no textbook for your College Success course—and poor performance lasting the whole term, throughout all of their courses.

**72%**

of students have put off buying course materials until after class started<sup>1</sup>

**38%**

earned a poor grade

and

**20%**

failed a course because they could not afford the course materials<sup>2</sup>

Sources: 1 <http://press.vitalsource.com/vitalsource-survey-due-to-high-cost-of-college-students-skip-purchasing-course-materials-grades-suffer-as-a-result>; 2 Florida Virtual Campus, 2016 Student Textbook and Course Materials Survey, [http://www.openaccesstextbooks.org/pdf/2016\\_Florida\\_Student\\_Textbook\\_Survey.pdf](http://www.openaccesstextbooks.org/pdf/2016_Florida_Student_Textbook_Survey.pdf)

What if accessing their course materials was as unlimited as their potential?

### Limit Prices, Not Potential

With Cengage Unlimited, exhaustive deal searches and book-borrowing are over. Your Students have the tools and resources they need to be successful in college—all at once, starting from day one.

Introductory Psychology	RETAIL \$128.00
College Algebra	RETAIL \$192.00
English Composition	RETAIL \$70.00
College Success	RETAIL \$60.00
Total cost when sold separately \$450.00	
Cost for Cengage Unlimited \$119.99	
ESTIMATED SAVINGS WITH CENGAGE UNLIMITED \$330.00	

### See Possibilities Unfold

Give your students an introduction to success, starting with Cengage Unlimited in your Intro to College Success course.

Now that's something to get excited about!

[cengage.com/unlimited](http://cengage.com/unlimited)

## Conference Check-In

7:30 a.m. – 5:30 p.m.

Forum Ballroom Foyer

## Continental Breakfast

7:30 a.m. – 9:00 a.m.

Forum Ballroom 1-11, 25

## Primer for First-Time Attendees

7:45 a.m. – 8:45 a.m.

Octavius 7-10

### Jennifer R. Keup

Director, National Resource Center for  
The First-Year Experience & Students in Transition  
*University of South Carolina*

### John N. Gardner

Senior Fellow, National Resource Center for  
The First-Year Experience & Students in Transition  
*University of South Carolina*  
Chair and Chief Executive Officer  
*John N. Gardner Institute for Excellence in Undergraduate Education*

A tradition at The First-Year Experience Conferences since 1984, the primer reviews the events that led to the creation of University 101 at the University of South Carolina, the resulting series of conferences, and an international education reform movement known as The First-Year Experience. The presenters will attempt to situate the meaning of this now ubiquitous concept in higher education and define the philosophical assumptions undergirding this conference series. They will also reflect on the current status of the movement, its accomplishments, and the current challenges bringing us together at this meeting.

## 9:00 a.m. – 10:00 a.m.

### CT - 1 Leveraging Survey Data and Predictive Analytics to Support First-Year Students

Capri

#### Michelle Bombaugh

*University of South Florida*

#### Jim Cole

*Indiana University*

This session will discuss the emerging trend of using predictive data to identify and support first-year students. For several years, USF-Tampa has been using an in-house persistence model to identify 10-12% of new first-year students at risk of not persisting to the second year. In Fall 2016, USF incorporated BCSSE data into the predictive model. BCSSE Advising Reports and results are shared with academic advisors, first-year seminar instructors, and housing personnel who provide targeted interventions for these students. BCSSE data not only strengthened the statistical model, but also identified which BCSSE variables were significant predictors of first-year persistence.

### CI - 2 Transforming the First-Year Experience Course to Meet College-Specific Goals

Milano I

#### Carolyn Sanders

#### Jennifer Pettitt

*University of Alabama in Huntsville*

This session will focus on the innovative, discipline-specific approach recently incorporated into the University of Alabama in Huntsville's mandatory first-year experience course. The mission of UAH's seven colleges is to develop course structure and content that provides optimum support for first-year students within the disciplines of each college. The restructured program is now in its fourth year. Assessment data indicates that this plan, customized within each college, has allowed first-year students to develop unique connections related to their major and their college faculty to a greater degree possible than with the previous, traditional FYE course structure and content.

### CT - 3 Leveraging Early-Alert for Cross-Campus Collaborations Aimed at First-Year Student Success

Milano II

#### Dallin George Young

#### Mike Dial

*University of South Carolina*

This session is designed to provide educators in attendance with the historical, theoretical, research, and practical background of early alert programs and the language, tools, and conceptual points-of-view of high-quality early alert programs. We will cover the historical and conceptual foundations of early alert programs and present two theoretical frameworks for early alert: intrusive advising and the transtheoretical model of intentional human behavior change. We will conclude with a discussion of practice, challenges, and the decisions institutions must make when selecting products designed to support early alert.

### CT - 4 United Families/Familias Unidas: Online Support for Families of FGCS

Milano III

#### Dorothy Ward - Advocate, '04

#### Jaclyn Darrouzet-Nardi

#### Steve Varela

#### Mick Martinez

*The University of Texas at El Paso*

The Entering Student Program at The University of Texas at El Paso has partnered with Student Affairs and with Academic Technologies to develop an online family guide with a special focus on families of first-generation college students (FGCS). The website, entitled United Families/Familias Unidas, delivers videos and text in English and Spanish to help families understand how to support their students' university experience. This presentation will summarize relevant research related to colleges and universities engaging families of students, especially FGCS, and will discuss the rationale behind the selection of the website's content and the intention behind the website's design.

## **CR - 5 What Components Contribute to Thriving in Residential Learning Communities?**

Milano IV

**Jill Stratton**

*Washington University in St. Louis*

**Warren Chiang**

*Stanford University*

**Lara Lomicka Anderson**

*University of South Carolina*

**Ghada Endick**

*Rutgers University*

In this session, presenters will share findings from a multi-institutional study that investigated the notion of thriving in Residential Learning Communities. The study used the Thriving Quotient (Schreiner, 2010) to research how residential learning communities at four U.S. institutions (ranging from research 1 to private) contribute to students' academic engagement and performance, interpersonal relationships, and psychological well-being. This study examined how students' thriving correlates with the various components of residential learning communities and explores what specific components contribute to thriving. Results indicate that particular types of groups (women, first-generation students) show significant trends with regard to thriving in RLCs.

## **CR - 6 Transitioning to College: The Students' Story**

Milano V

**Melissa Allay**

**Karen Smith**

*East Carolina University*

Using Nancy Schlossberg's Transition Theory and Guide, a story of students' experience in their transition to college was determined. For the second year, a large university's staff implemented Schlossberg's guide to gain a better understanding of what the student transition experience looks like and how the first-year seminar can assist in a student's transition. Presenters will walk through their process, share findings, look at lessons learned, and discuss what it means for future research and the first-year seminar course.

## **CT - 7 Student Affairs Staff in the Library With the Candlestick**

Milano VI

**Julia Glauber**

**Sharon Fisher**

*Binghamton University*

This session will illuminate the connections between student affairs professionals and academic librarians, especially their shared mission of supporting students' immediate academic success while also preparing them to engage in lifelong learning. Participants will gain a clearer understanding of librarians' varied roles and learn detailed strategies for making connections, understanding organizational dynamics, and navigating personalities within the library. The discussion portion of the session will provide participants the opportunity to explore possibilities for implementing cocurricular programming with their institutions' libraries.

## **CI - 8 RAM CAMP: We. Are. RAMily**

Milano VII

**Lisa Cooper**

*Virginia Commonwealth University*

RAM CAMP is a week-long on-campus leadership experience designed to connect incoming first-year students to VCU traditions, campus

resources, and fellow Rams. Campers are divided into small groups and participate in various activities led by an upperclass student leader. These leaders, along with university staff/faculty, create opportunities for campers to develop leadership skills, engage in community service, and build their Ram community. During this session, the program coordinator will discuss the design of a successful first-year extended orientation program that led to 94% of survey participants saying they would recommend the program to other incoming first-year students.

## **CI - 9 Engineering Ahead: A Summer Bridge Model**

Milano VIII

**Ryan Hassler**

*Penn State University - Berks*

Penn State Berks is one of four Penn State campuses that received National Science Foundation (NSF) funding (2016-2018) to create a summer bridge (transition from high school to college) program to enhance the retention rate of women, racially underrepresented and first-generation students in engineering. This session will detail the creation, implementation, and evaluation of what started as a four-week summer math boot camp, but has evolved to become a much more comprehensive and collaborative program between Penn State Berks, the Penn State College of Engineering, and local industry leaders in the field of engineering.

## **CI - 10 Assessing and Improving the First-Year Seminar and Academic Advising**

Octavius 7-10

**Kevin Clarke**

**Elizabeth Reynders**

*Loyola University Chicago*

For many years, Loyola University Chicago has offered a first-year seminar taught by students' academic advisor. However, little was done to measure the impact and effectiveness of this model, and course evaluation results were middling. This session will address how the institution took a deep look at the impact of the first-year seminar, first-year academic advising, and the first-year experience, and took steps to improve instructor, advisor, and peer advisor training and development; institutional processes; and, in doing so, improve each student's overall first-year experience, sense of community, and connection to the institution. Assessment processes and results will be shared.

## **CT - 11 What the Faculty?! Gaining Buy-In and Leading Together**

Octavius 11

**Liz Patterson**

**Corrine Hinton**

**Sara Lawrence**

**Cali DiOrio-Saye**

*Texas A&M University-Texarkana*

Collaboration among faculty and student affairs professionals is critical in creating and enhancing first-year experience initiatives. While collaboration has become more common than ever, many higher education professionals still face challenges in building sustainable mutually beneficial relationships across party lines. A faculty and staff panel from Texas A&M University - Texarkana will share their experiences and insights on how they effectively use a collective approach with shared goals and values to plan, implement, and assess first-year initiatives. The panel will speak to specific examples of gaining and sustaining faculty buy-in, maintaining reciprocity, and cultivating an integrative approach to professional development.

## CR - 12 Exploring Integrative Learning Within Residential Learning Communities

Octavius 12-13

**Mary Ellen Wade**

*Loyola University Maryland*

**Richard Gebauer** - Advocate, '15

*Cabrini University*

**Tina Muller**

*California Polytechnic State University, San Luis Obispo*

**Samantha Kramer**

*University of Central Oklahoma*

**Margaret Leary**

*University of San Diego*

Integrative learning is deeply rooted in developing an understanding of a subject through its connection with self-awareness and the interdependent world (Booth, McLean, & Walker, 2009). Presenters will detail a multi-institutional study investigating first-year student experiences with integrative learning in residential learning communities to examine students' growth in integrative learning abilities across courses or disciplines and between formal, in-class learning (the curriculum) and out-of-class learning (the cocurriculum). This presentation will include the process and initial findings for developing a pre/post-survey and a reflective writing assignment based on areas of AAC&U's Integrative Learning VALUE Rubric.

## CI - 13 College Promise: Beyond the Free Tuition

Octavius 14-16

**Joanna Zimring Towne**

**Deborah Harrington**

*Los Angeles Community College District*

**Diana Bonilla**

*Los Angeles Mission College*

Participants will learn how the Los Angeles Community College District (LACCD) partnered with the LA Mayor's Office and the LA Chamber of Commerce to create the LA College Promise (LACP). The session will highlight the theoretical framework of the LACP and provide insight into how our district was able to bring together all nine colleges to design and implement a College Promise program that was both unified and flexible. The core elements of the LACP, which are driven by evidence-based, high-impact practices, will be discussed including intrusive student success activities and the use of peer and near-peer coaching and mentoring programs.

## CT - 14 Beyond Traditional Career Activities in FYS: Engaging Students in Networking

Octavius 17-19

**Sabrina Mathues**

*Brookdale Community College*

**Christine Harrington** - Excellence in Teaching Recipient, '16

*Middlesex County College*

Almost every first-year seminar includes traditional career exploration activities such as self-assessment and finding career information. Although these activities are an important part of the career decision-making process, focusing on networking skills in the first-year seminar will set students up for further success. During this highly interactive session, presenters will discuss the importance of students developing networking skills early in their college career, and we will engage in several activities that can be used with students to help them develop and expand their network. Participants will leave inspired to take a more action-oriented approach to career exploration.

## V - 15 Reimagining the First-Year Experience With Active Learning

Octavius 20

**David Sevitt**

*Top Hat & BVT Publishing*

**Nina Angelo**

*Top Hat*

**Richard Schofield**

*BVT Publishing*

Success programs for first-year postsecondary students significantly improve student performance and retention. BVT Publishing, a publisher of affordable college textbooks, sought to scale efforts, so it worked with Top Hat, the active-learning platform that helps professors engage students and build comprehension. They converted titles used in student success programs, into customizable interactive digital textbooks that enable ongoing assessment to ensure students are engaged and succeeding. This session will share lessons learned on how to design and incorporate active-learning content into student success programs, with a focus on how content customization is driving student comprehension, engagement, and retention.

## CT - 16 A 21st-Century Paradigm: Teaching Liberal Arts Through the Common Reader

Octavius 21-23

**Hala Al-Najjar**

**Angelica DeAngelis**

**Derek Parks**

**Stavros Hadjisolomou**

*American University of Kuwait*

The debate is rightfully shifting from the validity of a liberal arts education to how best to adapt a liberal arts program to the needs of the 21st century and to specific student populations. The American University of Kuwait (AUK), a private, liberal arts university in the Arabian Gulf, has developed a hybrid two-course first-year experience sequence that teaches global liberal arts skills through a local novel in its University, Community, and Citizenship course. This facilitated discussion will present the pedagogical rationale for this approach, regional and institutional challenges, and the impact of the program and its transferability stateside and beyond.

## FD - 17 Peer Leaders as Self-Authors: The Opportunity of Authentic Leadership

Roman I

**Kathryn Wilhite**

*Kennesaw State University*

**Tessa Smith**

*University of Wisconsin-Madison*

Peer leaders, particularly in first-year seminars, are uniquely positioned to encounter crossroads and begin authoring their stories through serving their peers. Baxter-Magolda's (2001) Self-Authorship model is a popular framework for student development that first-year seminar coordinators can use to help peer leaders develop holistically and take ownership of their roles and experiences. Authentic leadership principles (Northouse, 2018) offer a companion framework to design training experiences that assist in developing values, understanding purpose, and nurturing relationships. Participants will examine the intersection of these ideas and learn strategies to facilitate self-exploration guided by these overlapping theories.

# SUNDAY, FEBRUARY 17

## **FD - 18 Online First-Year Communities with a High-Impact Flavor** Roman II

**Lina Anastasovitou**  
*San Jose State University*

Student engagement is a focal point in residential communities, especially for first-year students. This session will explore the concept of engaging students in first-year theme communities through an online forum and a curricular model. Inspired by the notion of meeting students where they are in a personalized learning environment and using existing technology, we have created a pilot course on Canvas, our learning management system, as student engagement platform for first-year students living in theme communities. In this session, participants will engage in dialogue exploring the concept of designing an online community that employs high-impact practices and applicable assessment strategies.

## **CI - 19 Incorporating High-Impact Practices into a First-Year Seminar** Florentine I

**Teressa Dobbs**  
**Xiaoping Wang**  
*Northeast State Community College*

By infusing high-impact practices (HIPs) into the first-year seminar, students can begin to build connections and camaraderie, envision a clear connection between the outside world and the classroom, and reflect and engage in higher order thinking. In this session, participants will learn how a community college developed a program that improved student engagement, retention, and academic success by strengthening the first-year seminar through incorporating HIPs that included growth mindset, service-learning, common reading, and, in particular, the ePortfolio.

## **CT - 20 Deepening Student Understanding of First-Year Seminar Topics in Gateway Courses** Florentine II

**Tabitha Mingus**  
**Thayma Lutz**  
**Katie Easley**  
*Western Michigan University*

In this interactive presentation, we will discuss how our experiences in the Gateways to Completion program have led us to conclude that redesigned curricula and improved pedagogical models must work in concert with staff-led student success programs for maximum effectiveness. Working collaboratively will leverage the synergy between faculty and staff and more effectively address issues of student achievement, retention, and completion. We will also share data about how this strategy has led to a dramatic decrease in failure rates in our foundational gateway courses, a closing of the achievement gap, and better outcomes in next courses in sequence.

## **CT - 21 Integrating Student Development Theory into Faculty Practice** Florentine III

**Amy Watkin**  
**Amanda Pieters**  
*Concordia College*

Often those of us in student affairs wonder if our college is student ready, while those of us in academic affairs wonder if students are ready for college. At Concordia College, a collaboration between student affairs and academic affairs is working to put an end to the chase! In this session, we will discuss a theory-to-practice approach to FYE workshops that foster student success and retention in the classroom while narrowing the gap between student and academic affairs.

## **CT - 22 Familial Ties Help Bridge the Gap Between Student and Institution** Florentine IV

**Leilani Carreno**  
**Edgar Lopez-Hernandez**  
**Maria Takalo**  
*Nevada State College*

The family dynamic of a first-generation college student may be the key to unlocking student success, engagement, retention, and attrition. Building early relationships with family/community/network members allows higher education professionals to inform and impact on a larger scale. Integrating family members into the first-year experience of a first-generation college students allows for the family to become a partner with us in the educational journey. With this partnership in place, an open line of communication is created to a student's biggest influencers allowing for conversations around class expectations, time management, family involvement, and cultural wealth.

**MORNING BREAK | 10:00 AM – 11:00 AM**  
*Roman III - IV Ballroom*

## **10:00 a.m. – 11:00 a.m. — POSTER SESSIONS**

### **PA - 23 A First-Year Model for Increased Pass Rates on Licensure Exams** Roman III-IV

**Ellen Rustico**  
**Brenda Hardin Abbott**  
*Bay Path University*

A career in education hinges on the successful completion of licensure exams. First-year education majors bring various levels of test-taking skills. Some first-year students come fully prepared to take and pass one of three state required tests for Massachusetts licensure. Many do not have the needed test-taking skills to pass the Communication and Literacy MTEL (Massachusetts Test for Educator Licensure) and require significant coaching and remediation in order to take and pass the test. After several years of tracking failing test scores among first-year education majors, a model to provide first-year education majors with additional support was created.

### **PA - 24 Can't Fight This Feeling: Research Process Reflection and Instruction Impact** Roman III-IV

**Erica England**  
**Erin Hvizdak**  
*Washington State University*

Washington State University librarians held a workshop with first-year composition instructors that asked them to map their research process and note their feelings at each stage. Instructors were later interviewed about the impact that this reflective process had on their course and assignment designs. Our purpose was to increase awareness of potential student research anxieties in an effort to assist instructors in creating assignments that better align with the developmental stage of the student. This interactive poster will allow attendees to participate in a crowd-sourced mini-workshop and present interview data and examples of pre/post-workshop assignments.

# POSTER SESSIONS - 10:00 a.m. — 11:00 a.m.

# FYE 2019

SUNDAY

## PA - 25 Catch the Next: An Approach to Accelerated Student Success

Roman III-IV

**Diane Lerma**

*Palo Alto College*

**Stacy Ybarra**

*Alamo Colleges*

Catch the Next (CTN) is a college readiness and completion organization empowering student to catch college and career dreams while empowering faculty, staff, and institutions to fulfill their professional development and educational mission. We aim to increase education attainment for Latinos and other underserved communities. While many of our students dream of advancing to college and career success, too few find a home in higher education. Through its casita model, CTN provides a home away from home for our students, empowering them to catch their college and career dreams.

## PA - 26 College Factors That Improve Student Success Within the First-Year Seminar

Roman III-IV

**Jamil Johnson**

**Masha Krsmanovic**

**Thomas Cox**

*University of Central Florida*

Using a sample of 1,548 first-year students, this study examined the impact of an academic-themed first-year seminar (FYS) on students' learning gains. Quasi-experimental, pre/post-test research design revealed that FYS course participants record statistically significant differences in learning gains for each of the 10 measured areas that have been proven to affect college success. Additionally, the findings showed that the course has varied impacts among different student populations in two of the measured areas, with international students recording significantly lower learning gains than other student groups.

## PA - 27 Course-Embedded Assessments and Student Perceptions in the First-Year Seminar, LINK101

Roman III-IV

**Mark Pilgrim**

**Brian Hamm**

**Debra Joe Franks**

**Keith McCaslan**

*Lander University*

Lander University has implemented a first-year seminar—Leadership, Involvement, Networking, Knowledge (LINK) 101—as part of a first-year program. LINK is intended to improve both student success and retention, in addition to serving as our QEP for our SACS-COC accreditation process. In this session, the authors will present data from both course-embedded direct assessments and indirect assessments of student learning and perceptions from year one of the program. The program improvements based on this data will be discussed and preliminary results from year two of the program will be presented.

## PA - 28 Developing the Innovative Mindset in First-Year Students

Roman III-IV

**Recha Reid**

*Georgia Institute of Technology*

In order to expand the curricular and cocurricular activities available to first-year students, active-learning strategies were created within the first-year classroom. The ability of students to develop and apply the innovation process of creative problem-solving to both their education and career were enhanced through practical exercises. An expanded

pilot program was initiated as a part of the summer first-year seminar. This poster will address the ways in which this innovation course module enabled students to explore the strategies used by scientists and engineers to design practical and creative solutions to problem-solving.

## PA - 29 Impact Inside and Out: IL in the Classroom and the Residence Hall

Roman III-IV

**Yolanda Tugwell**

**Jessica Lewis**

*The University of the West Indies, Mona - Jamaica*

Finding resources in the library can be daunting for first-year students. The University of the West Indies Mona Library has tried to meet students at their point of need through traditional library and residential spaces. The session will highlight the Hall of Residence Librarian Program established in 2013 and the compulsory information literacy program for all first-year students, which together allow the library to make contact with almost 3,000 undergraduates. These programs have shown that they help to reduce library anxiety and empower students to seek assistance when needed, enabling them to navigate the library's online resources.

## PA - 30 I-Scholars: Employing Campus Collaboration to Serve Underrepresented Students

Roman III-IV

**Leslie Chiles**

**Victoria Gue**

*Loyola University Maryland*

This presentation will demonstrate how collaboration between academic affairs and student development resulted in the creation of a first-year program for students from underrepresented groups (first-generation, low-income, or racially diverse backgrounds) who demonstrated the need for support in their transition to college. Consisting of a summer bridge program focused on math and writing instruction, as well as ongoing academic coaching and opportunities for campus involvement, Loyola's I-Scholars program has created an engaged cohort of students dedicated to Loyola's mission and academic success. The presentation will be supported by comparative data analyzing retention rates, GPAs, and other indicators of success.

## PA - 31 Leveraging Peer Advisors to Model Academic Excellence

Roman III-IV

**Mathavi Strasburger**

*Harvard University*

**Jessamyn Doan**

*Agnes Scott College*

Peer advising programs can improve retention rates and enhance first-year students' collegiate experiences. However, using peer advising to address purposeful learning is an area of untapped potential. Agnes Scott College has created a peer mentoring program that focuses on modeling the concept of academic excellence to first-year students by equipping them with study strategies in the context of conversations about academic purpose. Through a month-long workshop series, co-led by peer advisors, first-year students are exposed to best practices on metacognition and effective learning. After the first year of the program, marked improvements were observed in academic achievement.

## **PA - 32 The McDaniel Commitment: Transforming a Promise into Reality**

Roman III-IV

**Karen Violanti**  
**Erin Benevento**  
**Tommy Schoolman**

*McDaniel College*

McDaniel College has implemented an exciting initiative unique to the first-year experience field. The McDaniel Commitment intentionally links student experiences through sequential programming (both academic and campus life) from the first year to commencement. The Commitment guarantees every student will engage in strategic, guided exploration with a team of mentors. The focus constructs a tailored program of courses and experiential learning preparing them for personal and professional success. This session will introduce the overarching structure of the Commitment with specific focus on first-year components, including assessment results from the inaugural year, outlining successes, challenges, and best practices for moving forward.

## **PA - 33 Not Your Mother's Pre-Orientation Program**

Roman III-IV

**Erin Benevento**  
**Karen Violanti**  
**Tommy Schoolman**

*McDaniel College*

An initiative unique to the first-year experience field, McDaniel College's new McDaniel Commitment intentionally links student experiences through sequential programming (academic and social) from pre-orientation to commencement. The first component of the Commitment, My Place, is a pre-orientation program called McDaniel Local. What sets McDaniel Local apart is its unique combination of facilitating small-group community building, developing local and environmental connections, and serving as the foundational element of the comprehensive, cross-divisional Commitment. McDaniel Local took the college by storm in Summer 2018, uniting staff, faculty, and students in support of this new launch point of the First-Year Experience at McDaniel.

## **PA - 34 Peer Mentors to Peer Hosts: Development of Program at UPRM**

Roman III-IV

**Eric Martinez**  
**David Rivera**  
**Julio Cruz**  
**Norma Garcia**

*University of Puerto Rico-Mayaguez*

The University of Puerto Rico at Mayaguez began to develop a first-year program in 2015. The poster will present the work conducted to develop a peers program and the major lessons and modifications of the first three years of the design. Cultural, academic, and fiscal considerations will be discussed with qualitative and quantitative data from the academic years 2015-2016, 2016-2017 and 2017-2018. Preliminary data from the revise model of peer host ongoing in the academic year 2018 will also be presented.

## **PA - 35 Recruiting Restoring & Retaining African American Males: Probation to Leadership**

Roman III-IV

**Brian Miller**  
*Arkansas Baptist College*

The session will focus on the ROCK (Restoring Our Community with Knowledge) Program, which is housed on the campus of Arkansas Baptist

College. The program was initially designed as a retention program for students returning from or at risk of being suspended or placed on probation. The session will cover the steps involved with strategically recruiting African American males. Once recruited, how do you engage and build their desire for education? Lastly, we will cover the steps involved in retaining students throughout each year.

## **PA - 36 Research Connections: A Collaborative Event to Build Curiosity About Research**

Roman III-IV

**Helena DeBald**  
*University of Connecticut*

At the University of Connecticut, getting undergraduate students curious about what it means to attend a Research 1 institution is a multi-departmental effort. Knowing students have a myriad of options to add a research experience to their résumé, the Offices of First Year Programs & Learning Communities and Undergraduate Research collaborated to offer students Research Connections. The program goal was to make early-career students aware of and excited about possible avenues to a research experience. This event grew into a large networking program in 2018 by building relationships and buy-in with academic departments and student services across campus.

## **PA - 37 Scarlet to Black: Financial Literacy for the First Year**

Roman III-IV

**Philip Tew**  
**Kerry Tew**  
*Arkansas State University*

The Scarlet to Black Program is designed to improve both the financial literacy and financial actions of first-year students. The program includes the use of social media, working with parents as well as students, mandatory presentations on financial literacy basics, workshops to delve into specific topics, and the use of a reality fair.

## **PA - 38 Science Leadership Scholars: Supporting Underserved Students in STEM**

Roman III-IV

**Sara Thigpin**  
**Victor Castillo**  
*Texas A&M University*

The College of Science at Texas A&M University welcomes approximately 900 students into the college each year. Only 34% of students who matriculate to our college graduate from our college. We are keenly interested in doing everything we can to encourage them to remain in science, but students who share common risk factors such as first-generation, low-income, and historically underrepresented minorities, have an even greater risk of not being successful, regardless of SAT/ACT scores and prior high school success. Science Leadership Scholars was created in an effort to help highly recruited, first-generation, low-income students graduate from the college.

## **PA - 39 Summer Bridge Program Development Across Multiple Cohorts**

Roman III-IV

**Kristen Coffey**  
**Laila Shishineh**  
*University of Maryland, Baltimore County*

The University of Maryland, Baltimore County (UMBC) offers a summer bridge program focused on math and/or writing to all incoming new students. Now going into the 12th year of this program, this poster will highlight the program growth across 11 cohorts including self-report data from participants. The mission of the program is to help new first-

year students successfully transition to UMBC with a summer program as well as ongoing support throughout the first year centered around understanding college academics, exploring campus resources, engaging in self-discovery, and connecting to UMBC and the surrounding community.

## **PA - 40 Using Inquiry-Based Learning to Enhance Scholarly Development in First-Year Students**

Roman III-IV

**Jennifer Vitale**  
**Shaunna Hunter**

*Hampden-Sydney College*

This poster will present results of an ongoing, inquiry-based learning initiative implemented in first-year courses at a small, liberal arts college. The goals of the initiative were to build students' skills as scholars and also to develop students' appreciation for scholarship, ability to critically evaluate scholarship, and understanding of scholarly conventions in various fields. Assessment of student work, student attitudes towards scholarship, and student perceptions of their education experience based on NSSE data suggest that the initiative has helped to increase students' scholarship skills, engagement in scholarship, and appreciation for scholarship. Impacts on the institution as a whole will also be discussed.

## **PA - 41 Using Technology to Implement High-Impact Advising Practices with First-Year Students**

Roman III-IV

**Tammy Wyatt**  
**Angelica Barrera**  
**Barbara Smith**

*University of Texas at San Antonio*

Centralized academic advising models with assigned caseloads in conjunction with the use of predictive analytics and advising technology tools are effective and best practice approaches in academic advising. In less than three years, the University of Texas at San Antonio (UTSA) aligned its practices with these models and approaches. The immediate results have been significant and of high-impact to our undergraduate student population, particularly first-year students. The purpose of this presentation is to describe the implementation process and results of UTSA's newly adopted holistic advising practices that focus on the academic success of our first-year students.

## **PA - 42 You \*Shall\* Pass: Bridging the First-Year Research Skills Gap**

Roman III-IV

**Sheryl Larson-Rhodes**

*State University of New York at Geneseo*

Concern over first-year (FY) students' lack of research skills is long established, including their inability to support claims, go beyond Google, and understand the need for citations. The research instruction librarians at SUNY Geneseo's Milne Library have collaborated with other colleges/universities, high schools, and school support units to build a bridge over the research skills abyss, including opportunities for high schools to bring students to Milne for a research skills class and embedded instruction in FY writing seminars. Students, teachers, and faculty uniformly provide positive feedback, with a demonstrated increase in students' research skills and readiness for college-level work.

## **PR - 43 At SUNY Cobleskill, Are Honors Students Slipping Through the Cracks?**

Roman III-IV

**Kelly Yacobucci**  
**Alexandra Gieseler**  
**Nora Oukili**

*State University of New York Cobleskill*

Educational resources are often focused on supporting at-risk students. It makes sense because they are ones who need extra help or attention to give them the best chance to succeed. However, are colleges unintentionally neglecting the high achievers in the crucial first year? As undergrad students, we have noticed this through our participation in the honors program and in the first-year experience at our institution. Our poster will feature what SUNY Cobleskill is attempting to do after intensive program reviews on the honors program and the first-year experience program.

## **PR - 44 Common Reading Essay Contest Participation: Predictor of Student Success?**

Roman III-IV

**Charles Haberle**  
*Providence College*

Many common reading programs include essay contests and other activities to engage students in the chosen book for their institution. This study examines whether participation in an optional common reading program essay contest during the summer prior to enrollment as full-time first-year students could serve as a unique predictor of student success and/or persistence.

## **PR - 45 Development of a Brief Inventory of Cultural Competence**

Roman III-IV

**Jerred McCormick**  
**M. E. Betsy Garrison**  
*University of Arkansas*

The purpose of the current study was to investigate the factor structure of a new 24-item instrument of the cultural competence, the Brief Cultural Competence Inventory (BCCI), in college students. As part of a larger project, students (n = 392) from a single academic unit completed an online survey in Spring 2018. Based on an exploratory factor analysis, a three-factor structure was found and the factors were named: my cultural view on others, difference of cultures to my own, and open-mindedness of all cultures. Future research should examine the reliability of the BCCI and replicate the study with more diverse populations.

## **PR - 46 Effects of New Course to First-Year Engineering Students at HCT**

Roman III-IV

**Fatima Alhammadi**  
*Higher Colleges of Technology*

The development of the critical thinking capabilities of students comprises among the most fundamental objectives of higher education. In that regard, Higher Colleges of Technology in the UAE has introduced a course for its first-year engineering students known as Introduction to design thinking. The course is being taught at all the different streams in the engineering major of the university's 17 campuses across the UAE to impart and enhance innovation in the institution's engineering curriculum at an early stage. The findings of research undertaken to determine the effects of the new course on the students at the university are observed.

## **PR - 47 First-Year Experience: All on Board**

Roman III-IV

**Luvuyo Kakaza**  
**Nosisana Mkonto**

*Cape Peninsula University of Technology*

**Subethra Pather**

*University of the Western Cape*

Many institutions of higher learning attempt to improve on their students' retention and throughput rates by implementing strategies based on models of student transitions. Research focusing on transitions in general and the first-year experience (FYE) is gaining ground worldwide. Most studies borrow from theories that speak on student transition and integration (e.g., Tinto 1987). Institutions of higher education make use of models and strategies available, but there is still a paucity of research focusing on stakeholder uptake of such models in South Africa's universities. This session will explore stakeholder participation in FYE initiatives in South Africa.

## **PR - 48 Digital Storytelling Approach in Understanding University Students' First-Year Experience**

Roman III-IV

**Subethra Pather**

*University of the Western Cape*

This presentation explores three university students' First-Year Experience through digital storytelling. Digital storytelling is a multimedia activity that can help students to construct their own knowledge and reflect on their experiences in new ways. The digital stories captured were analyzed from a constructivist perspective employing an interpretive research approach. The framework of identity and agency was used to investigate how the figured world of the university intersects with the first year students' construction and negotiation of identity, positionality and experience. Using this lens assisted academic and support staff to better understand their first year students and their realities?

## **PR - 49 Foster Care Alumni Attending College: Perceptions of Campus-Based Support Services**

Roman III-IV

**Lily Holzner**

*California Polytechnic State University, San Luis Obispo*

Former foster youth (Foster Care Alumni, FCA) face a unique set of challenges as they navigate postsecondary education. College graduation rates for former foster youth are between 3-11% nationwide. There is a lack of evidence-based assessment and scholarship for campus-based support programs for former foster youth, and much of the research conducted assumes a deficits-based approach in regard to program development. Following the phenomenological research tradition, this pilot study sought to focus on the lived experiences of foster care alumni at two and four-year postsecondary institutions, with the intention to build a strengths-based foundation for future research and program development.

## **PR - 50 Improving Student Retention at a Historically Black University**

Roman III-IV

**Lawrence Brown**  
**Crystal Flowers**

*Florida Agriculture and Mechanical University*

Since establishing a first-year experience program at Florida A&M University in the summer of 2012. The University has seen a steady increase in its first-year retention rate for the students who participate in the first-year program, which has helped to improve the University's

overall retention rate. This presentation will focus on the curricular and cocurricular components of the FYE program. A discussion will include course design, objectives, and goals; campus collaborations; cocurricular programming; and retention and graduation rates.

## **PR - 51 Is Pathways Program Meeting the Persistence Needs of First-Year Students?**

Roman III-IV

**Karen Daas**  
**Kathleen Laborde**

*University of Texas at San Antonio*

UTSA implemented a core first-year course to build student success, retention, and graduation rates, presented at FYE 2018. The program incorporates an academic pathway model in which students choose 1 of 10 programs for their core requirement. In Fall 2018 students were given a pre-test the first week of school to gauge self-described comfort in accessing campus resources, interacting with professors, and college level academic skills. A post-test will be administered the last week of the fall semester and correlated for significant growth.

## **PR - 52 Reasons Why Japanese Students Study at University**

Roman III-IV

**Yukari Hashimoto**

*University of Nagasaki*

**Tateo Hashimoto**

*Nagasaki International University*

**You Kyonmi**

*Nagasaki University*

A study explored why first-year students ( $N = 473$ ) chose to study at a prefectural university. Frequently appearing words and lexical cohesion between words were analyzed by applying text mining. In terms of frequency, "future," "knowledge," and "specialty" were most stated. Cluster analysis was conducted to explore lexical cohesion, and it revealed several reasons to learn in a university, such as to prepare to be a member of society, to gain an advantage when job-hunting, to obtain a greater understanding of one's major subject area, to broaden one's perspective, and to gain experience.

## **PR - 53 Restructuring First-Year Experience Programs for a New Era at Saudi Universities**

Roman III-IV

**Atiyah Alghamdi**

*King Saud University*

Saudi Vision 2013 is a government movement to build a knowledge economy. Traditionally, teaching and learning, economic realities, and a government philosophy not focused on education have presented challenges for higher education. This study used a concept mapping/pattern matching methodology (Trochim, 1989a; 1989b) to identify the main dimensions of FYE programs in 14 universities. Analysis revealed 48 developmental statements that were placed into seven clusters distributed along three dimensions: (a) organizational design and structure, (b) pedagogical functionality, and (c) students services. For each dimension some strategies were suggested to the educational policy-makers to develop the program.

## **PR - 54 Tracking Male Student Success at a Gulf Region University**

Roman III-IV

**Lance Kahn**  
**Adam Jeffers**

*Zayed University*

## POSTER SESSIONS - 10:00 a.m. — 11:00 a.m.

# FYE 2019

The presentation will introduce the first-year baseline data for a planned five-year research study. The study will examine the academic progress of the entire cohort of male FYE students at Zayed University, a public university in the United Arab Emirates. The presentation will begin with an explanation of the relationship between Arabic/Emirati culture and student success before discussing the initial findings of the study. The goal of the study is to clarify what student behaviors and university policies influence male student success in FYE. The presentation will conclude by seeking feedback and suggestions for the study from the audience.

### **PA - 55 First-Year Library Research Sessions: Information Literacy & Assessment in Action**

Roman III-IV

**Suzy Wilson**

*University of Maryland*

This poster examines the library research sessions integrated into nearly 400 sections of the first-year writing course at a public, four-year institution. In these sessions, first-year students explore the research process through a combination of activities, discussions, and resource demonstrations. A one-sentence survey provided to students shows they leave these sessions with enhanced understanding of the research process, increased confidence in their ability to find and access relevant library resources, and a higher level of comfort with library spaces and library instructors. This poster explores the large-scale student learning assessment process, which could be adapted for use at other institutions.

### **PR - 56 TRIO/SSS Programs and First-Year Seminar: Creating Meaningful Partnerships for First-Generation Students**

Roman III-IV

**Brittany Dorn**

**Jason Rose**

**Christopher Ward**

**Angela Vaughan**

**Drew Lail**

*University of Northern Colorado*

The purpose of this study is to better understand how collaboration between a TRIO program and an FYS program affects first-generation college students' success during their first year. Quantitative analyses were used to assess differences between nonparticipants, FYS participants only, and TRIO/FYS participants (N = 2,720) in first-term GPA and second-year persistence. Compared to nonparticipants, TRIO/FYS participants had significantly higher GPAs (2.61 vs. 2.33) and persistence (a 22% difference). TRIO/FYS also had higher persistence (a 12% difference) compared to the FYS-only participants. Qualitative analyses included focus groups to share how these programs addressed the challenges faced by first-generation college students.

## 11:15 a.m. — 12:15 p.m.

### **CI - 57 Steps to Success: Embedding Information Literacy into the First-Year Seminar of the Learning Community Experience**

Messina

**Richie Gebauer** - Advocate, '15

**Michelle Filling-Brown**

*Cabrini University*

**Jennifer Hasse**

*University of the Sciences in Philadelphia*

Establishing an institutional climate devoted to building synergy between first-year initiatives and high impact practices is directly connected to student success. At Cabrini University, information literacy (IL) instruction is embedded in the university's first-year seminar, which serves as one of multiple courses in a Learning Community setting. This session will explore strategies for improving students' IL, critical reading, and writing skills through scaffolded assignments in the first-year seminar of a learning community. Participants will investigate instructional technology tools for classroom instruction and assessment and think about how to assess first-year students as they integrate multiple skills in writing assignments.

### **CI - 58 Integrated Programming/Pedagogy for First-Year Students: An Insider's Guide**

Capri

**Ruth Goldfine**

**Lynn Disbrow**

**Deborah Mixson-Brookshire**

**Natasha Habers**

*Kennesaw State University*

This session provides participants with the opportunity to learn about and discuss a variety of intentional, integrated curricular and cocurricular programs and initiatives. The presenters will provide an overview of curricular and cocurricular programming for students in their first year and beyond that can be adopted at other universities. Assessment data will be provided to demonstrate the impact and effectiveness of this programming. Additionally, participants will be provided with a variety of strategies for incorporating integrated, intentional pedagogy and strategies into the programming offered at their institutions.

### **CR - 59 First-Year Seminar Class Size: Effects on Selected Program Outcomes**

Milano III

**David Strickland**

*East Georgia State College*

**Carol Strickland**

*Georgia Southern University*

This study examined the effect of class size on program outcomes in a first-year seminar (FYS) using a quantitative, true experimental design with random assignment of students to class size conditions: a large auditorium section (85) and three small sections (15 each). Pre/post-test data were collected on outcomes identified by the Center for Community College Student Engagement. Aggregate scores between groups were analyzed for questions on five outcomes: making connections, high expectations and aspirations, clear academic plan and pathway, engaged learning, and academic support network. This study has implications for planning and implementing first-year seminars of varying sizes.

SUNDAY

## **CR - 60 First-Year Seminar Curriculum Promoting College Engagement, Academic Self-Efficacy, and Achievement**

Milano IV

**Alexis Hauck**  
**Stephanie Persutte-Manning**  
**Christopher Ward**  
**Angela Vaughan**

*University of Northern Colorado*

Facilitating academic success for first-year college and first-generation students is essential and can be impacted by academic self-efficacy and college engagement. This study examined the relationship between engagement and self-efficacy and FYS performance. The relationship of these constructs to outcomes (i.e., first-term GPA and persistence) was also explored. FYS performance was significantly related to engagement and academic self-efficacy and each of these constructs were then positively related to the outcomes ( $n = 208$ ). This study provides evidence that learning environments can promote increased engagement and efficacy for students regardless of entering academic abilities. Suggestions for FYS curriculum are included.

## **CT - 61 Engaging Parents and Families of First-Year, First-Generation College Students**

Milano V

**Amy Baldwin**  
*University of Central Arkansas*

**Sarah Whitley**  
*Center for First-Generation Student Success, NASPA*

The parents and families of first-generation students can be a help or hindrance to their students' success. Institutions can, however, leverage these families' support by intentionally communicating with and offering opportunities for increasing their own cultural and social capital. This session will review the research on the impact of family on first-generation students and discuss ways to improve communication with those families. Additionally, this session will provide both best practices on engagement strategies and relevant topics that can help families effectively support their students. The session will conclude with examples of model programs for parents and families of first-generation students.

## **CT - 62 Thriving in College, Career, and Beyond – Developing a Three-Credit First-Year Seminar**

Milano VI

**Pamm Ambrose**  
**Lisa Lawless**  
*Illinois State University*

As students and their families recognize a college education to be an investment in a student's future, the demand is increasing in higher education to provide effective academic and professional success programs beginning early in the student's college career. In this session, presenters will discuss the collaborative process between University College and the Career Center of redesigning and implementing our first-year seminar course. This course, expanded from one-credit to three-credit, combines early career development and civic engagement opportunities with the traditional academic and social transition issues that arise for new students.

## **CT - 63 Re-Imagining Faculty Development: Comprehensive Approaches for First-Year Experience Programs**

Milano VII

**Gregory Eiselein**  
**Donald Saucier**

*Kansas State University*

**Carmen Macharaschwili**  
*Association of College and University Educators*

Effective instructor training programs are essential to postsecondary initiatives to improve student success. Yet designing, implementing, and supervising successful faculty development within first-year experience programs remain a challenge. Our presentation will examine these challenges and discuss the ways on-campus development efforts for first-year experience instructors, when connected to an online course on evidence-based best teaching practices, can address the most pressing problems facing FYE programs. While inviting participants to share their faculty development experiences and concerns, this session will provide participants with the opportunity to re-imagine the kind of faculty development program that would benefit their institutions the most.

## **CT - 64 Starting Fresh: Strategies for Revamping the First-Year Experience Seminar**

Milano VIII

**Michelle Buggs**  
**Jorge Waltje**  
**Noah Lelek**  
*Texas Woman's University*

Curriculum development is a critical component of administering a quality first-year experience seminar but can often be overwhelming and challenging. As more students enroll in higher education and professional responsibilities increase, the need for efficient and effective instruction is critical. This session will present TWU's First-Year Experience program's approach to updating and streamlining the curriculum to meet student learning outcome needs of the course and core/general education curriculum while also facilitating a transition experience for students in the first-year. Participants will identify strategies in leveraging faculty and technological resources in implementing a common curriculum for FYE seminar participants.

## **CI - 65 Ongoing and Action-Oriented First-Year Seminar Program Assessment**

Octavius 7-10

**Carrie Van Haren**  
**Dan Friedman**  
**Sandy Greene**  
*University of South Carolina*

University 101, the University of South Carolina's first-year seminar, is grounded in ongoing and action-oriented assessment. While it is important to know a first-year seminar works (e.g., it positively impacts student learning, success and retention), it is also important to know why it works and what aspects of the program make the most impact on student success. Presenters will share how assessment is used to ensure quality across all components of the first-year seminar program. An assessment model will be shared and advice given for conducting meaningful seminar assessment on other campuses.

## **CI - 66 Creating an Engaged, Collaborative, and Transformative Program for Underrepresented Students**

Octavius 11

**Adriana Lopez**  
**Jason Sumi**  
*Sierra College*

The RISE Program at Sierra College (community college) is an equity program that serves to elevate scholars from historically underrepresented backgrounds including African-American/Black, Latinx, Native and Indigenous, Filipinx, first-generation, low-income, undocumented, and

students with disabilities. This session will provide information regarding the program's development and implementation including the robust student support team (counselor, success coach, peer mentor, and financial aid technician) assigned to every scholar. The program also prides itself with its RISE Paradigm: We believe in your life goals and honor your identities, we will support and affirm the whole person that you are, YOU are enough!

## **V - 67 Planning a Campus Financial Literacy Program from Start to Finish**

Octavius 12-13

**Amy Conrad**

**Raven Newberry**

*National Endowment for Financial Education*

College brings with it increasingly complex money decisions, and for many students financial issues are a big factor in their struggle to thrive in higher education. In order to better prepare students for success in school and set them up for greater stability post-graduation, a strong foundation of financial knowledge, skills, and behaviors is needed. The presenter will give attendees the framework for creating a college financial literacy program from start to finish, including goal setting, resource selection, delivery tactics, and evaluation. After completing the workshop, participants will have clear outlines and templates to plan campus financial wellness initiatives.

## **CR - 68 First-Year Seminars and the Impact on International Student Success**

Octavius 14-16

**Masha Krsmanovic**

**Jamil Johnson**

*University of Central Florida*

This mixed-method study examines the academic and social integration of international first-year students and the impact of the first-year seminar (FYS) on their success. The study employs Berry's Acculturation Model (1974, 1980, 1997) to examine the acculturation strategies that international students develop during their first year of undergraduate study. The results demonstrate that international students rate the impact of FYS lower than their domestic counterparts for all learning outcomes except one: career exploration. Furthermore, international students' narratives illustrate that voluntary and involuntary separation is the most prevalent acculturation strategy adopted by the group.

## **CR - 69 The Academic S.T.A.R.S. Program: More Than A Bridge**

Octavius 17-19

**Marjorie Fuller**

*West Virginia University*

Recent research suggests that traditional bridge programs may have lost their effectiveness and may not play the influential role in the lives of African American students they once did. But West Virginia University has a program that consistently yields a 90+ percent retention rate among its participants. Entitled Academic S.T.A.R.S. (Students Achieving and Reaching Success), it offers something different. In this session, the presenter will explain the history and rationale behind the development of the unique Rites of Passage aspect that makes S.T.A.R.S. one of the most successful bridge program models for students of color available.

## **V - 70 Redesigning Your Student Success Center: Moving Services Online**

Octavius 20

**Kristen Seldon**

*Innovative Educators*

**Damon Cagnolatti**

*Cerritos College*

This engaging session will highlight the collaboration between Cerritos College and Innovative Educators to create an online student success hub, ifalconstudentsuccess.com. The presenters will provide an overview of how they grew their strategic success initiative from curriculum and workshops to IE online modules. They will review how they selected, implemented, and leveraged the platform to save time and to improve student access, engagement, and completion. With a special focus on how Cerritos moved its content to the online platform, participants will learn how the evolution of these programs has positively impacted student success.

## **CI - 71 Enhancing Student Success by Revising Existing First-Year Content Courses**

Octavius 21-23

**William Kay**

**Mary Sheppard**

**Edna Keeble**

**Vurain Tabvuma**

*Saint Mary's University*

Existing first-year content courses at a Canadian university were modified to incorporate cocurricular student success elements using a quasi-experimental design. The types of activities and method of incorporation varied according to the characteristics of the course. The discipline-specific content was not decreased, thereby improving student success while maintaining existing content. A faculty-led community of practice provided a peer-based mechanism to support faculty in this initiative. Early results indicate an enhanced sense of community in modified courses compared to similar unmodified courses. Statistical results comparing pre/post survey data of students in the modified and unmodified sections of the courses will be presented.

## **FD - 72 Supporting Underrepresented, Developmental, and Struggling Students at Majority Institutions**

Roman I

**Coretta Pittman**

*Baylor University*

**Concetta Williams**

*Chicago State University*

**Shelia Collins**

*Independent Scholar*

One thing minority serving institutions (MSIs) intentionally do well is provide the interventions necessary for students to succeed. These students are often from low-income areas and are first-generation college students. So what happens at traditional institutions that treat all students the same? These institutions may increase diversity and access; however, they are not supporting these students, who may have been socialized outside mainstream contexts that are most likely to be replicated at large PWIs. This session will look for ways to support students, especially students of color, at predominantly white institutions using methodologies from MSIs.

# SUNDAY, FEBRUARY 17

## **FD - 73 Cultivating a Community of Practice for First-Year Experience Faculty and Partners**

Roman II

**Tiffany Shoop**  
**Rexford Waters**

*Virginia Tech*

Faculty members and campus partners from across the institution are often asked to teach and support first-year experience (FYE) courses. The purpose of this session is to engage in conversation about creating and sustaining a community of practice (CoP) for those involved in FYE programs. The facilitators will share highlights from their work in cultivating a CoP for FYE faculty and campus partners at Virginia Tech and will facilitate a discussion about (a) challenges of establishing a CoP, (b) what has worked and what has not in fostering a CoP, and (c) new strategies for supporting CoPs.

## **CI - 74 College Mentorship: Promoting Student Success Through Engagement and Empowerment**

Florentine I

**Karman Tam**  
**Stacy Welcome**  
**Darin Baskin**  
**Rajone Lyman**

*Houston Community College*

First-year students are known for being particularly susceptible to test anxiety. In response to this, Houston Community College strives to increase student achievement through advocating an active process of examination preparation. This session will discuss the institution's effort to initiate a mentorship program, which strives to optimize students' preparation for examination through the use of high-impact practices. It will share survey data that show the significance of game-based examination reviews on improving students' motivation. In addition, it will provide frontline instructors with strategies to adopt an interactive approach to conducting the reviews, which has been proven to improve test scores.

## **CI - 75 High-Impact Initiatives for First-Year, At-Risk Students**

Florentine II

**Amber Mulkey**  
**Wonjae Kim**  
**Rene Schmauder**

*Clemson University*

**Dora Rosser**

*University of South Carolina*

The Early Success Program was designed for at-risk first-year students conditionally admitted to Clemson University. The program uses a variety of interventions designed to maximize student success including intentional onboarding, a summer preview program, individual advising and coaching, parent partnership, peer mentoring, a first-year experience course, and collaboration with multiple campus partners. Students enrolled in the program are retained and graduate at rates comparable, if not higher, to the general first-year population. We will discuss the many high-impact initiatives used by the Early Success Program that are applicable to different first-year populations for maximum student success.

## **CT - 76 The Life Abundant: Our First-Semester Seminar and Orientation**

Florentine III

**Sara Bailey**  
*Beacon College*

Beacon College was the first in the nation accredited to award bachelor degrees exclusively to students with learning disabilities, ADHD, and other learning differences. In Fall 2017, Beacon College implemented a first-semester seminar and a revised new student orientation to help their students transition to the College and to learn about their talents and strengths, specifically using CliftonStrengths for Students. This presentation will focus on the successes and challenges in planning and implementing the first-semester seminar and new student orientation programs designed specifically for students with learning disabilities, ADHD, and other learning differences.

## **CT - 77 Flipping the Script: Equipping Rural Students for College Excellence**

Florentine IV

**Jamie Boggs**  
**Chris Lakes**

*Berea College*

Students from rural areas are succeeding in college at alarmingly low rates, making our support even more important when they arrive on campus. A primary focus of Berea College is serving rural students from the Appalachian region, many of whom are from the most poverty stricken areas in the country. This session will highlight how our institution has assessed the needs of this population and designed services to meet the specific needs of this often-neglected group. Participants will gain ideas about how to better support rural students on their own campuses.

## **11:15 a.m. – 12:30 p.m. Featured Session**

### **FS - 78 Leveraging Digital Resources to Connect Students with Content and One Another**

Milano I

**Brad Garner**

*Indiana Wesleyan University*

We are all influenced on a daily basis by an informational tsunami that appears each time we log onto our computers. The Internet and the tools, resources, and information available there can be transformed into a treasure trove of learning opportunities relevant to the first-year experience. This session will systematically guide participants through a process of taking full advantage of the digital world to enhance learning both inside and outside the classroom. Participants will leave this session with an abundance of techniques that can enhance teaching and learning and engage students in new and creative ways.

## 11:15 a.m. – 12:30 p.m. Featured Session

### FS - 79 Understanding Students' Path to Graduation and Using the First-Year as a Catalyst

Milano II

**Catherine Andersen** - Advocate, '97

*University of Baltimore*

Regardless of the size, type or geographic location of an institution of higher education, or whether a student is a first-time freshman or transfer student, one measure of effectiveness is the percentage of students who begin and subsequently graduate. When one understands the unique input variables students bring to an institution and understand and track their specific paths, intervention plans based on sound assessment data that lead to real improvements, can be developed. This session will review the most current student retention data, and address the multitude of variables that become barriers for student success and identify and design interventions along students' unique paths to graduation. In addition, participants will do a SWOT (Strengths, Weaknesses, Opportunities and Threats) for their own institutions and develop a preliminary action plan, using the first-year as the catalyst, to address their institutions' retention issues.

## 1:45 p.m. – 2:45 p.m.

### CI - 80 First-Year TRAC and High-Impact Practices: A Recipe for Retention

Capri

**Yvonne Villanueva-Russell**

**Angela Martinez**

*Texas A&M University-Commerce*

This presentation will illustrate how one regional, mid-sized state university made a data-driven decision to better integrate high-impact practices (HIPs) into the first-year experience. Previously, siloed initiatives targeted to small groups of students produced only modest gains in retention of first-time, full-time college students. An effort was made to redesign the first-year experience with intentional use of HIPs and a commitment to scale-up for the benefit of every first-year student. Our presentation will address the institutional climate that led to this change, the process used to design and ensure continual improvement, and the promising results we have attained.

### CI - 81 Signature Course Stories: Revamping the Core Curriculum Chapter by Chapter

Milano I

**Patricia Moran Micks**

**Lori Holleran Steiker**

*The University of Texas at Austin*

The Signature Courses at the University of Texas at Austin connect first-year students with distinguished faculty members' passion, research and expertise in unique learning environments. By way of these rigorous intellectual experiences, students develop college-level skills in research, writing, speaking, and discussion through an approach that is both interdisciplinary and contemporary. A major initiative in the campus' curriculum overhaul, Signature Courses employ a distinct academic curriculum designed to transform high school students into collegiate thinkers. This session will provide information on the development of these core curriculum courses from idea to implementation, both from a programmatic and teaching perspective.

### CI - 82 A Learning Community That Makes Summer Count for First-Year Students

Milano II

**Christina Wan**

**Emma Blandford**

*Georgia Institute of Technology*

This session will provide an overview of lessons learned from the launch of a first-year summer program. Specific focus will be on developing thematic connections across the curricular and cocurricular elements of the program, along with building campus partnerships to create a seamless learning experience in a five-week summer semester. This session will also discuss in detail the annual assessment process and methods for the program.

### CT - 83 How Structural Design of First-Year Seminar Classes Supports Completion

Milano III

**Robin Cunningham** - Advocate, '19

*Seton Hall University*

University Life is the one-credit first-year seminar required of all students at Seton Hall University. The course helps students learn how to do college. We will share research showing the relationship between performance in University Life and over-all course completion. This session will focus on the structural design of our classes and the subsequent improvements being made by instructors as reflected in our course evaluations. We will also review some of our most recent approaches to creative curriculum design.

### CT - 84 The Color of Success: First-Year Experience Programming at Minority-Serving Institutions

Milano IV

**Kevin Wright**

**Anna Smedley**

**Emily Shreve**

**Rosan Mitola**

**Beth Gersten**

*University of Nevada, Las Vegas*

This session is designed to further examine how various functional areas contribute to the first-year experience at a minority-serving institution. While our institution may have a majority student population of first-generation, Pell-eligible, and people of color, we still seek to create and maintain thriving initiatives to serve our students, including increasing equitable representation within faculty and staff. During this session, participants will be able to engage with multiple campus leaders and learn about the different services that are designed to benefit our first-year students with an inclusion and equity lens.

### CT - 85 First-Generation College Student Community: A Space for Cross-Cultural Interactions

Milano V

**Carmen Gonzalez**

**Carmen Huerta-Bapat**

*University of North Carolina at Chapel Hill*

Participants will have the opportunity to learn about strengths-based initiatives and programs that they can implement on college campuses to affirm first-generation college students intersecting identities and build community among a very diverse population of students. We will talk about how we can capitalize on the fact that programs and supports for FGCS can provide a space for growing intercultural competence and for students to explore their own identities. Attendees will be able to engage in interactive discussion and leave with a plan of action for their own college campuses to support FGCS unique perspectives and experiences.

## **CT - 86 Reflections on Living the Hyphen in Living-Learning Programs**

Milano VI

**Leah Tobin**  
**Damien Franze**  
**Jessica Lee**

*University of Maryland College Park*

More practitioners than ever are finding themselves in positions which demand a partnership between student and academic affairs. From the perspective of current and former academic and resident life mid-level practitioners, this session will explore the role that staff members with traditional student affairs backgrounds play in developing and sustaining partnerships within and beyond academic units. Using experiences gained by their current roles in academically based living-learning programs, the session will share and explore best-practices, skills, strategies, and reflections from literally living the hyphen between student and academic affairs.

## **CT - 87 Rewriting the Narrative on Latino/a Student Success Through Academic Advising**

Milano VII

**Giovanna Tello**  
*Florida International University*

**Michele Campagna**  
*Westchester Community College*

While the representation of Latino/a students in higher education continues to rise, their retention and completion rates still remain comparatively lower than their counterparts in other racial/ethnic groups. Academic advisors can play a vital role in promoting Latino/a first-year retention and success by serving as cultural translators, mentors, coaches, and teachers to students and their families. This session will explore the intersection of Latino culture and the culture of higher education and discuss ways that academic advising programs can be reconceptualized to support the transition and achievement of this student population at two-year and four-year institutions.

## **CT - 88 First-Year Seminars, Libraries, and Generation Z: Shaping Student Success Narratives**

Milano VIII

**Emily Bosscher**  
**Cathy Mayer**  
*Trinity Christian College*

Generation Z has arrived on your campus and data reveal that they are driven, highly visual, practical, and expect multi-modal interactions in their higher education experience. Presenters will share leading research and original data from a private, liberal arts, four-year institution on Generation Z students, focusing on the way they engage with information and the responsibility they hold for their own information fluency. Through discussion, participants will gain practical ideas for library services and partnering with faculty to address concerns about college readiness in some Generation Z students.

## **CT - 89 The First-Year Experience Course: Marketing and Motivational Strategies**

Octavius 7-10

**Joe Cuseo** - Advocate, '01  
*Marymount California University*

Not all first-year seminars are created equal. This session focuses on first-year seminars that go beyond strictly academic topics and take a holistic (whole-person), student-centered approach to promoting college success. The case will be made that this type of FYE course has the

most empirical support and the most potential to promote the success of today's college students. Specific strategies will be shared for marketing the course and gaining buy-in from campus decision makers, attracting prospective students to enroll in the course, and increasing the intrinsic motivation of students who do enroll in the course.

## **CT - 90 Prepping for Sophomore Success in the First Year**

Octavius 11

**Kimberly Dressler**  
*University of South Carolina*

**Jimmie Gahagan**  
*Virginia Commonwealth University*

Much attention has been given to the first-year experience over the last 30 years and within the last decade there has been a greater focus on the sophomore year- but where do the two meet? How do institutions adapt the first-year message and mindset to meet the unique needs of sophomore students and help them make a successful transition from one year to the next? This session will explore how assisting students in the first-year experience can prepare them for success in their sophomore year. Specific attention will be given to engagement with both academic support and high-impact practices.

## **CR - 91 Unique First-Year Experiences for Students and Faculty Engagement**

Octavius 12-13

**Chad Pritchard**  
**Elijah Hansen**  
**Kevin Pirch**  
**Lynn Briggs**  
*Eastern Washington University*

Individualized FYE courses allow faculty to engage in their preferred theme or topic, while giving students a choice of classes. Implementing a new general education program has included a strong push for academic-focused FYE courses so students can be introduced to learning outcomes, disciplines, the university, and faculty while receiving course credits. Faculty input into the program nurtures transparency and trust through the university, leading to more involvement by faculty and, in effect, students. Having unique FYE topics provides challenges and opportunities for programmatic assessment and enables students to acquire success skills during their first quarter on campus.

## **CR - 92 Improving Student Persistence: Metacognitive Learning Strategies in First-Year Seminar**

Octavius 14-16

**Allyson Goodman**  
**Jennifer Sias**  
**Sheila Fields**  
*Marshall University*

Does the inclusion of metacognitive learning strategies instruction in a first-year seminar improve student persistence? This session will focus on the results of such an inclusion by three veteran seminar instructors who will share their methods and experiences of applying strategies presented by Sandra Yancy McGuire in *Teach Students How to Learn: Learning Strategies You Can Incorporate into Any Course to Improve Student Metacognition, Study Skills and Motivation*. Presenters will share the results of action research using instructor and student reflections as well as semester-to-semester persistence and success data.

## **CR - 93 Integrated Transition Programs for Underrepresented Students in STEM**

Octavius 17-19

**Elizabeth Holcombe**

*Indiana University*

**Adrianna Kezar**

*University of Southern California*

This session describes the benefits of integrated first-year programs for underrepresented students in STEM and for broader campus communities. Integrated programs incorporate expertise from both academic affairs and student affairs to build a unified community of support that helps alleviate the negative climate that underrepresented STEM students often face in their first year of college. In this session, we will share our research on integrated first-year programs across eight California State University (CSU) institutions. We will discuss how to effectively structure integrated programs for first-year students in STEM, as well as the benefits that integration fosters for students and campus communities.

## **V - 94 Meeting Guided Pathways, CAS AND CASEL? Yes, It's Possible!**

Octavius 20

**Nick Rabinovitch**

**Carla Lundman**

*Human eSources*

Yes, there is a way to jump start your Guided Pathways initiatives and to meet CAS standards and CASEL's core competencies! Presenters will share how our career and personal assessments and student success courseware work to improve student persistence while supporting institutional and national efforts.

## **CI - 95 Evolution of the First-Year Experience Course at Yamagata University**

Octavius 21-23

**Takao Hashizume**

**Katsumi Senyo**

**Shigeru Asano**

**Koji Fujiwara**

*Yamagata University*

The first-year experience (FYE) course at Yamagata University, Japan was completely redesigned in 2017 to focus on developing student success skills such as basic research, teamwork, presentation, and report writing. We presented our challenging journey to rebuild the course at last year's conference and received a lot of valuable feedback. Our FYE course continues evolving. We have implemented the FYE peer mentor program for the latest 2018 FYE course. In this presentation, we will share how our peer mentor program helps new students in enhancing those success skills as well as improves those peer mentor's leadership skills.

## **FD - 96 Integrating Common Read Texts Into Themed First-Year Writing Courses**

Roman I

**Leah Van Vaerenwyck**

**Sara Clark**

**Robert Wauhkonen**

**Alison Pasinella**

*Lesley University*

Research suggests that successful common read programs (CRPs) are often integrated into multiple disciplines and within classroom syllabi (Maloy, Counihan, Dupre, Madera, & Beckford, 2017). This facilitated dialogue will explore how CRPs can be integrated into cross-disciplinary themed courses by examining various classroom examples and techniques. Given that some faculty view mandated adoption and use of a CR text as infringement on academic freedom (Benz, Comer, Juergensmeyer, & Lowry, 2013), this dialogue will also explore how to preserve the academic freedom of faculty while still allowing for a cohesive experience for students and faculty across diverse classrooms and disciplines.

## **FD - 97 Elevating the Unexpected: Developing Critical Thinking Skills in Cohorted Populations**

Roman II

**Lori Cornelius**

**Emily Woolf Vallier**

*Florida Gulf Coast University*

Facilitators will lead discussion on ways to engage the first-year student with materials that will surprise and delight them. In a successful, three-semester, composition-based cohort, we expose our students to exercises based on reading and viewing assignments that encourage them to deal with unexpected endings and to capture their reactions in writing. Through a series of guided prompts, we will show attendees how this approach will turn suspicious students into enthusiastic participants in their own development as scholars.

## **FD - 98 Who Gets a Seat at the Generation Collaboration Table?**

Roman III

**Rob Miller**

*University of Illinois at Chicago*

**Scott Peska**

*Waubesa Community College*

While there is always a lot of buzz about how student affairs professionals serve students of the newest generations, we sometimes forget that our field is comprised of professionals from many different generations! In this facilitated dialogue, we will talk about ways in which we create value and meaning in the field of higher education and what strategies we use to create collaboration with other personnel at our institutions. Participants should come ready to have open, honest conversations about institutional and generational barriers and ways in which they work with others to continue to serve the newest generation of students.

## **FD - 99 Challenges and Opportunities in Conducting Institutional Review of First-Year Experience Courses**

Roman IV

**Jerry Fliger**

*Alvin Community College*

From time-to-time institutions may require a review of the first-year seminar. Given the wide-reaching impact this course has, there are many stakeholders. There may be even more views on what the course should look like. This session will facilitate a dialogue centered around uncovering the challenges and the opportunities such a review invites. Designed for individuals who have completed such a review and have reflections to share and those heading into the waters.

## **CR - 100 Exploring the Impact of First-Year Residence on Student Academic Outcomes**

Florentine I

**Mildred Eisenbach**

*University of Guelph*

This study is an investigation of the relationship between participation in Residence Learning Communities (RLCs) and first-year grades, second-year retention, and five-year graduation rates at the University of Guelph. A longitudinal observational study was conducted to analyze the academic outcomes of the entire cohort of first-year students (N = 4,805), comparing those who lived in an RLC and those who lived in traditional residence or off-campus. A review of the communities, collaboration, data collection, analysis and outcomes will assist others considering their own institutional research.

# SUNDAY, FEBRUARY 17

## CT - 101 Get a Job? First-Year Experience, Students, and the Future of Work

Florentine II

**Constance Staley**

*University of Colorado, Colorado Springs*

**Jennifer Kushell**

*YSN (Your Success Now)*

**Steve Staley**

*Colorado Technical University*

Getting a job once represented the crucial turning point between adolescence and adulthood. But today we are seeing yesterday's jobs balloon into mind-boggling career options for college graduates. The alternative economy is booming. Increasingly students consider joining smaller ventures, striking out on their own, and diving into the social impact space. Automation threatens entry-level jobs, where new hires once routinely learned the ropes, while the demand for advanced critical thinking/problem-solving skills is soaring. How can we help our FYE students begin preparing for the jobs of both today and tomorrow? This session will blend practical application, academic experience, and eye-opening forecasts.

## CT - 102 Using Academic Coaching in First-Year College Transition

Florentine III

**Nick Plfum**

**Kendyl Walker**

**Kim Maurer**

**Geoff Baurer**

*Ohio University*

Research consistently demonstrates that first-year students feel overwhelmed by the transition from high school to college. During the transition, many students struggle to find where they fit in the university and locate academic and personal resources, such as self-management, goals setting, and self-reflection, needed to help them succeed. Academic coaching offers a new perspective for helping first-year students' transition to college. The session will provide a framework through which participants will understand the needs of first-years students and how co-active academic coaching can be useful for students during their transition.

## CT - 103 When Parkland Goes to College

Florentine IV

**Katie Treadwell**

*The University of Kansas*

On February 14, 2018, students in Parkland, Florida, watched their classmates die in one of the nation's worst active shooter attacks. A few months later, students in Santa Fe, Texas, encountered the same worst-case scenario. Students are embarking on their undergraduate education having experienced more trauma than any previous generation. This session will provide opportunities to learn about supporting students who begin their higher education experience in the midst of trauma, reconsider mental health resources and case management practices before students arrive on campus, and consider the changing nature of student activism as it relates to the Parkland generation.

## 3:00 p.m. – 4:00 p.m.

## V - 104 Empowering Students to Connect With Alumni For Meaningful Career Advice

Messina

**Annie Mais**

*Roadtrip Nation*

This session will discuss how institutions are leveraging a unique and meaningful project-based curriculum, which combines engaging self-discovery video content and introspective activities, to help students align their interests with compatible careers. This session will include detail around the measurable increase in social capital for students once they make a meaningful connection with an alumnus who shares their career interests.

## CT - 105 Social Media: Cutting Through the Clutter to Engage Students

Capri

**Kaylee Smith**

*Texas State University*

As the popularity of using social media for means branding and marketing increases, it is difficult for higher education programs to cut through the clutter of mainstream social networking sites. Meanwhile, the current college generation is looking to social media for answers to questions they might have. The Common Experience at Texas State University has turned fledgling social media accounts into some of the most active and widely followed at the university. In this session, the presenter will share tips and strategies on effectively using social media to engage students in common experiences.

## CI - 106 RAISEing the Standard and Increasing Student Success in Developmental Education

Milano I

**Katrina Hunter**

**Vickie Johnson**

*Georgia State University Perimeter College*

Many institutions face the need to redesign developmental coursework while reducing obstacles to college readiness for students who are already enrolled. This session will provide an overview of Project RAISE: Raising Achievement and Increasing Success in Education at Georgia State University's Perimeter College. Project RAISE is an award-winning initiative comprised of \$5M in grants from the U.S. Department of Education's Predominantly Black Institutions Program. The project focuses on redesigning developmental education to promote an individualized, holistic approach to student learning while using evidence-based strategies to strengthen students' non-cognitive skills to close skills, opportunity, and achievement gaps among diverse student populations.

## CR - 107 A Sense of Belonging: Studying a Foundational Academic Literacy Course

Milano II

**Jordan Stouck**

**Cathi Shaw**

*University of British Columbia, Okanagan*

This study explored the success of a Foundational English course at a research-intensive university. The aim of the course is to prepare at-risk, multilingual first-year students for academic writing tasks. The course focuses on academic acculturation and writing instruction. Given the growing international student population, research in this area could have wide-ranging implications for curriculum design and institutional services. This study incorporated student surveys, instructor interviews,

**REFRESHMENT BREAK | 2:45 PM – 3:00 PM**

*Forum Ballroom Foyer*

and institutional tracking of student success. Findings point to the diversity of student needs, the efficacy of learning supports, as well as the importance of careful alignment and scaffolding within curricular design.

## **CT - 108 How Student Awareness Can Enhance Student Retention, Persistence, and Success**

Milano III

**Wayne Jackson**

*University of Central Florida*

**Pamela Hoelzle**

*Entrepreneur Ready*

This workshop will address in particular the trend of self-awareness as a student success, retention, persistence strategy and highlight early learners from a current initiative the Multicultural Academic and Support Department at the University of Central Florida is piloting in combination with Who Am I and Why Am I Here to enhance first-year student success.

## **CI - 109 Building a Beloved Community: Redesigning First-Year Orientation**

Milano IV

**Katrina Abes**

**Rouel Velasco**

*University of Hawaii - West Oahu*

How can institutions create and build communities between students, faculty, and staff? This session will demonstrate how a student development unit has expanded on Aunty Pua's Building a Beloved Community curriculum as a new pathway to foster spaces of inclusion and belonging to the professional staff and first-year students in preparation of the university becoming a student-ready campus.

## **CI - 110 Integrating Faculty into the First-Year Experience**

Milano V

**Monika Babiszkievicz**

**Katrina Arce**

**Nicole Zardenetta**

*University of Southern California*

Facilitated by the Office of Undergraduate Advising and Student Affairs, the presentation will highlight our Meals with Faculty Mentors program's accomplishments in facilitating meaningful connections between first-year students and faculty. We will discuss strategies on how to effectively integrate faculty into first-year programming and will encourage attendees to critically think about the impact faculty can create for students at their respective institutions.

## **CT - 111 The Changing Role of the Student Advocate**

Milano VI

**Timothy Cairry** - Advocate, '18

*Widener University*

This workshop will address the rise in students coming to college with serious mental health issues through the lens of the academic support professional specifically the Office of Student Success and Retention at Widener University. Professionally, it is necessary to adapt our services to the changing needs of our current students for their success. Best practices will be examined such as the Widener University Behavior Intervention Team model and the Widener University Traumatic Brain Injury Team. Establishing an academic point person on these teams is vital for institutional success.

## **CT - 112 Information Privilege: Exploring Privilege Through Access to Information**

Milano VII

**Charissa Powell**

*University of Tennessee, Knoxville*

Talking about privilege can be challenging, and for traditional first-year students, can be a topic that is entirely new. This presentation will explore how one professor taught a first-year seminar and used access to information to examine the concept of privilege with students. Information privilege "carries assumptions about who has power, who does not, and what types of information are valuable" (Hare & Evanson, 2018). Attendees will leave this presentation with an awareness of why exploring privilege with first-year students is essential and how to incorporate privilege into work with first-year students.

## **CT - 113 Lessons Learned from a Multi-Institution Online Tutoring Pilot**

Milano VIII

**Melissa Thomas**

*University of Texas at Austin*

The presenter will describe work guiding 17 learning center administrators through an online tutoring pilot using the GoBoard.com platform and discuss what we learned in terms of needs assessment, usage, training, and best practices. A complete implementation and training guide for online tutoring will be shared.

## **CI - 114 Get Ready, Gen Z is Here: Is Your Campus Ready?**

Octavius 7-10

**Eric Kirby**

**Heather Garcia**

**Jodi Simmons**

*Southern Utah University*

A special population is arriving on our campuses. Known as Generation Z, these students want flexibility, speak their minds through social media, are extremely debt adverse, and rely heavily on their parents. This session will highlight the strategies taken on our campus to help these students (and their parents) become connected, find support, and achieve success. Participants will be invited to analyze our approach and explore how these concepts might work on their campus.

## **CI - 115 25 Years of the First-Year Reading Experience at the University of South Carolina**

Octavius 11

**Catherine Greene**

**Katie Hopkins**

*University of South Carolina*

The evolution of the first-year reading experience at the University of South Carolina over the past 25 years. Throughout this time, responding to student needs and institutional initiatives have helped us to make this experience multi-faceted and most meaningful. Presenters will highlight lessons learned during this time as well as the current model for infusing the common reading book into the first-year experience at Carolina.

**CANCELLED**

# SUNDAY, FEBRUARY 17

## **CR - 116 Four-Year Persistence and First-Year Seminar: A Quasi-Experimental Design**

Octavius 12-13

**Susannah Moore**

**Brittany Dorn**

**Michael Graham**

**Angela Vaughan**

*University of Northern Colorado*

The purpose of this study was to provide rigorous evidence of FYS effectiveness by using quasi-experimental methods and assessing long-term achievement, four-year persistence and graduation rates. Study participants included student groups who are at higher risk (e.g., first-generation students, students of color, and undeclared students). For all students, FYS participants had significantly higher four-year persistence (almost 14% higher) and graduation rates (almost 8% higher) as compared to their matched nonparticipants. For at-risk students, these differences were even great (four-year persistence 29%; graduation 16%). This study provides strong evidence that a three-credit, research-based academic FYS can positively affect students' long-term achievement.

## **CR - 117 First-Year, First-Semester Honors College Students on (Honors) Academic Probation**

Octavius 14-16

**Marty Robinson**

*East Carolina University*

**Thomas Cox**

*University of Central Florida*

This study was conducted to examine the experiences of first-year, traditional-aged honors students placed on academic probation at the conclusion of the first semester and how they perceive their current circumstances, reasons for their inability to meet the honors requirements, and future academic pursuits. A phenomenological research design was employed where participants met with the investigator one-on-one for a semi-structured interview. Ten students participated in the study; six were first-year students on honors probation, and four were in academic good standing following the end of the first semester.

## **CT - 118 Building a Successful Partnership Between First-Year Experience Instructors and Peer Leaders**

Octavius 17-19

**Kris Kumfer**

**Lisa Kamody**

**Wendy Rogers**

*Ohio University*

A strong and effective peer leader–faculty leadership team can serve as the needed catalyst to positively connect first-year students within learning communities and other FYE programs. This session will provide an overview of the development of a faculty-peer leader partnership guide in an established FYE program. Using the partnership guide as a template, participants will discover ways their FYE programs can develop a similar framework to enhance communication, address potential barriers, and explore new strategies for strengthening faculty and peer leader relationships.

## **V - 119 Applying ACT Research on Student Persistence to Practice: It's Easy...Really**

Octavius 20

**Don Pitchford**

*ACT*

This interactive session will share insight on ACT's research that focuses on factors that can help predict student persistence. In addition, insight

will be provided about cognitive and noncognitive (SEL) barriers to success, the importance of diagnosing these barriers and then intervening to remediate and maximize retention/completion rates. Participants will discover how some user friendly web-based diagnostic and learning tools can immediately be applied to practice upon return to campus.

## **CT - 120 A Sure Bet: Implementing Career Preparation During First-Year Experience**

Octavius 21-23

**Aimee Stright**

*James Madison University*

What do you want to major in? I want to be an engineer! Students are focused on finding a career early in their college experience. Advisors have worked to identify approaches to beginning this conversation early, helping students find internships and jobs that connect them to their career goals. Strategies incorporating lenses such as career, developmental, and proactive advising will be discussed. A timeline will be shared including topics like the utility of a parallel plan and importance of engaging with partner offices. Participants will learn how to successfully launch their own students onto career pathways.

## **FD - 121 All Things Peer Educators**

Roman I

**Deanna Peck**

**Ling Lee**

*San Jose State University*

Do you have peer educators? Do you want to have peer educators? No matter where you are in the process, this facilitated dialogue is for you. We will discuss the various roles for peer educators and the support they can provide first-year students. We will share ideas about training, logistics, and assessment as well as considering the pros and cons of bringing peer educators from diverse programs together in a comprehensive learning support unit.

## **FD - 122 A Marriage of Convenience: Collaborations Between Student and Academic Affairs**

Roman II

**Elizabeth Huggins**

**Joe Pierce**

*Augusta University*

At many institutions, academic affairs (AA) and student affairs (SA) professionals have a limited understanding of each other's roles on campus. As a result, both sides of the house may feel misunderstood or unappreciated—avoiding opportunities for engagement. It would be mutually beneficial to create stronger working relationships to improve student success. This session will provide a project-based opportunity, designed to simulate a working model of engagement. Collaborating together, AA and SA participants will create a mock event or campus initiative, and in the process, improve their understanding of each other's interests and perhaps a more effective marriage.

## **FD - 123 The Student Journey Framework**

Roman III

**Julia Michaels**

*Association of Public and Land-grant Universities*

Not enough students who enter college leave with a diploma, yet a college degree has been the key to upward social and economic mobility. Achievement gaps among low-income, minority, and first-generation students persist despite universities' efforts to increase college access, equity, and completion. During this session, we will share a prototype framework designed to help universities tailor their approaches to graduation and retention efforts. Participants will identify common loss

points (points along the student journey where students drop out or stop out at higher rates) and connect them to solutions. Participants will also provide suggestions to improve the tool.

## **FD - 124 Cultural Divides: Changing Demographics and Connecting with the Google Generation**

Roman IV

**Steve Whitley**  
**Rachel Echeandia**

*University of Illinois at Chicago*

Since 2000, higher education has seen significant changes in student demographics while educator demographics have remained relatively static. In particular, racial/ethnic minority students, international students, and first-generation students have a greater presence on college campuses. With growing globalization, access to information, and increasing cultural divides, the ways we adapt our curriculum and teaching are often reactive and opportunities for engagement and relevance are therefore missed. As educators, what are we doing to keep up with our students?

## **V - 125 Seven Non-Obvious Secrets to Prepare Students for the Real World**

Florentine I

**Rohit Bhargava**  
*Non-Obvious Company*

What if eating left handed was the ultimate secret of success? For the past 10 years, Wall Street Journal best-selling author Rohit Bhargava has been teaching leaders, organizations, and students how to think differently and be more interesting. He is an adjunct professor of Storytelling at Georgetown University and has been invited to keynote hundreds of events in 32 countries, plus multiple TEDx talks. In this session, he will share seven irreverent lessons from his award-winning book *Always Eat Left Handed* on what it really takes to prepare students for success in the real world.

## **CI - 126 The Journey to Pathways of Academic Student Success**

Florentine II

**Donna Gohlke**  
**Rosemarie Hammon**  
**Christopher Coleman**  
**Anamaria Olivares**

*Tarrant County College*

This session will detail the conception and rationale of Pathways to Academic Student Success (PASS) program. In order to meet district goals, and, in an effort to prevent future academic decline among at-risk students, south campus advising chose to create this interventional process for students on academic probation. The session will lead participants through the PASS process and a typical PASS session model. Presenters will discuss the intervention process, the PASS contract, and students' LASSI results. Statistical outcomes from 2016-2018 will also be provided. Participants will receive a portfolio of forms, letters, presentations, and additional resources used by the PASS program.

## **CI - 127 #WriteOnFAMU: A Guide to Implementing Writing Cultures Across First-Year Experience Curriculums**

Florentine III

**Kenyatta Rosier**  
**Jennifer Collins**  
**Atira Charles**

*Florida A&M University*

Participants will learn how Florida A&M University (FAMU) implemented the #WriteOnFAMU initiative to create a culture in which first-year students become actively engaged in their learning through writing proficiency. #WriteOnFAMU aims to build a campus climate in which FYE faculty are

encouraged and supported to teach with high-impact educational practices and create opportunities for students to enhance their writing proficiency, reflect on their own writing, and provide meaningful feedback to their peers.

## **CT - 128 Creating a Culture of Student Success**

Florentine IV

**Betsi Burns**  
**Shawna Cooper-Gibson**  
**Kevin Clarke**

*Loyola University Chicago*

Student success is the primary objective for higher education. The presenters will share how we are re-imagining student success at Loyola University Chicago. Building on theory and best practice, Student Academic Services at Loyola is using predictive analytics to provide targeted interventions to support student success. Using collaboration, communication and coordination along with Kalsbeek's framework of progress, process and promise, our practice for student success is grounded in our institutional mission.

### 4:15 p.m. – 5:15 p.m.

## **CT - 129 First-Year Seminar as the Integrative Engine in Learning Communities**

Capri

**Chelsie Hawkinson**  
**Rita Sperry**  
**Brandi Kutil**

*Texas A&M University - Corpus Christi*

First-year seminar (FYS) is the integrative engine of learning communities at Texas A&M University - Corpus Christi (TAMU-CC). By embedding FYS in learning communities, teaching teams guide students in the successful integration of course concepts and personal experiences for transferability to the real world. Frameworks exist to support learning community teams in creating integrative assignments at the beginning of the semester and facilitate student progress toward integrative learning over the course of the semester. FYS faculty will share sample integrative assignments and supplemental activities that support student integration of learning.

## **CT - 130 Peer Mentor Global Training and its Effects on First-Year Experience Courses**

Milano I

**Gretchen Forman**  
**Amy Fruehling**  
**Meredith Blumthal**

*University of Illinois at Urbana-Champaign*

The Global Leaders Training program, a collaboration between the Engineering First Year Experience office, Engineering Career Services, and International Programs, was designed to develop peer mentors global and intercultural competencies through critical, constructive, and creative thinking. Through an eight-week course and two-week study abroad experience, peer mentors working in FYE courses examined the topics of diversity, teamwork, and career readiness as they relate to their development as peer mentors and to the teaching of these topics in FYE courses. The session will highlight the program's development, results, and subsequent curriculum and college-wide contributions to the FYE.

## **CI - 131 The Nuts and Bolts of Living-Learning Communities at Georgia Tech**

Milano II

**Emma Blandford**  
**Alison Southern**  
**Allison Noffsinger**

*Georgia Institute of Technology*

The Living-Learning Communities (LLC) at Georgia Tech are operated by the colleges, schools, and academic departments on campus and driven by academics. Each departmental LLC host is provided with consistent support and institutional strategy for growing and supporting the development of their LLC. Goals and objectives, which are the cornerstone of any LLC, are developed to specifically target students in their area of interest or need. While the goals and interests may vary, the consistency in support ensures that students will receive the same level of added engagement, academic support, and enhanced collegiate experiences across the board.

## **CT - 132 Use of Peer Facilitators as Leaders in First-Year Classrooms**

Milano III

**Karin Machluf**  
*Penn State Scranton*

**Mark Orchard**  
*Brigham Young University - Idaho*

Peer mentoring is an increasingly popular strategy for increasing first-year retention. BYU-Idaho has designed an extended orientation program facilitated by student peers. This approach eliminates faculty or staff instructors in the classroom, who instead, focus their time on developing student peer facilitators in their leadership classroom roles. Peer facilitators instructed by faculty, gain needed skills for successfully managing 32 student classrooms focusing on student engagement and connection. This presentation will discuss this approach, as well as a recent collaboration with Penn State Scranton to replicate the results on a campus with a population of mostly first-generation students.

## **CR - 133 Undeclared Students At-Risk? Supporting First-Year College Success with First-Year Seminars**

Milano IV

**Summer Yoast**  
**Emili Pickenpaugh**  
**Angela Vaughan**  
*University of Northern Colorado*

It is commonly believed that undeclared college students are at a higher risk for attrition or at risk for performing poorly. However, there is little research to support this belief, or on relevant interventions for this population. This study assessed differences overall between declared/undeclared students and the impact of a research-based academic FYS on undeclared students' success. Undeclared students had significantly lower GPAs and lower first-year persistence as compared to declared students. However, undeclared FYS participants including higher risk students (e.g., first-generation students) had significantly higher first-term GPAs (average 0.3 points) and one-year persistence (average 10%) as compared to nonparticipants.

## **CT - 134 Learning Communities and Team-Based Learning: A Winning Combination!**

Milano V

**Sara Moore**  
**Amy Everitt**  
**Michele Sweeney**  
*Salem State University*

Looking for a strategy to engage students' critical thinking skills? Team-based strategies are designed to support high-performance learning within teams, providing incentives for pre-class preparation, commitment to individual student learning, and social responsibility. Having been immersed in a major-specific learning community, students described how their experience prepared them to move forward in their academic careers. Linked classes with team-based projects fostered a sense of community and helped students learn to work as a team with diverse people. An important skill they will need in the real world after college, teamwork was a unique feature of the learning community experience.

## **CI - 135 Keeping It FLI- Engaging With Intent to Retain First-Year Cohort**

Milano VI

**MaToya Marsh**  
**Tim Lee**  
**Jasmika Cook**  
*Chicago State University*

Chicago State University (CSU) is a nontraditional, commuter campus located on the Southside of Chicago. The university has struggled to recruit and retain students, especially traditional first-time, full-time first-year students. As the university works toward improving its overall numbers, the Department of First Year Experience (FYE) has created programming that aims to increase retention by creating a traditional campus feel on a commuter campus. This presentation will focus on one of the university's signature retention programs, Freshman Leadership Institute (FLI). As a result of FLI, retention rates have risen, student satisfaction has improved, course completion rates and campus involvement has increased.

## **CT - 136 Giving First-Year Students a Second Chance**

Milano VII

**Kim Williams**  
**Ashley Dees**  
**Michelle Bombaugh**  
*University of South Florida*

The University of South Florida recently implemented a deferred probation procedure to redress issues first-year students often face transitioning to university. Previously, first-year students could be academically dismissed prior to completing two full semesters at the university. Summer admits were particularly disadvantaged as they could be dismissed as early as fall without completing a full academic year. The deferred probation procedure grants first-year students one additional semester to address their academic standing. This presentation will discuss the origins of the procedure, current data on this population of students, and the procedure's potential as a strategy to increase first-year persistence.

## **CT - 137 The Power of Peer Leaders to Foster Diversity and Inclusion**

Milano VIII

**Meagen Rinard**  
**Hannah Longauer**  
**Jenna Lehr**  
*Ohio University*

Diversity within our institutions is on the rise, but some minority populations continue to experience lower success rates due to marginalization. Within first-year seminars/learning communities, peer leaders are frequently used for academic and social support for first-year students. Therefore, peer leaders have the potential to influence their students through diversity education and inclusive practices to foster feelings of mattering. This session will examine these issues through the presenters' institutional context. Presenters will use this framework, as well as current research, to demonstrate relevant trends within diversity,

inclusion, and the first-year experience through interactive discussions and case studies.

## **CT - 138 Training and Supporting Part-Time First-Year Seminar Instructors**

Octavius 7-10

**Maria Buchta**

*Norwalk Community College*

**Christine Harrington** - Excellence in Teaching Recipient, '16

*Middlesex County College*

Training first-year seminar instructors, especially in colleges where many first-year seminar sections are taught by part-time faculty, can positively impact student success. It's critical for all First-Year Seminar faculty to know the purpose of the course, be an expert in the course content, have pedagogical expertise, and know how to develop meaningful connections with students. In this interactive session, we'll explore the professional development needs of part-time first-year seminar instructors. We'll then explore in-person and online strategies to best meet these needs for part-time faculty with incredibly busy schedules. Several examples and models will be shared.

## **CT - 139 Possibilities and Pitfalls: Experiences of Creating an Online First-Year Seminar**

Octavius 11

**Forrest Lane**

*Sam Houston University*

First-year seminars (FYS) help to enhance the academic and social integration of entering students and are associated with many positive outcomes. These seminars are primarily offered in a face-to-face formats but there is a growing population of students who take some or all of their courses online. This requires institutions to carefully consider how FYS can be successfully delivered in other formats. This session will detail the development and pilot of an online FYS seminar that was paired with developmental mathematics at a public four-year institution. Challenges and opportunities will be discussed for those looking to explore this delivery format.

## **V - 140 Common Reading Program Activities for College Communities**

Octavius 12-13

**Ana Perez**

*Simon & Schuster*

Designing a common reading program can be daunting. The information of this session will be pertinent to institutions looking to enhance their established program or assist those looking to initiate a new one. An overview of the process from program inception to creating robust community experiences will be discussed. Examples of methods and activities from recently selected Simon & Schuster common read titles for university communities will be provided to demonstrate high-impact practices.

## **CR - 141 Changing the Patterns of STEM Retention Through Online Summer Bridge**

Octavius 21-23

**Karen Cianci**

**Shadi Adineh**

**Kerry Brown**

**Melinda Gunning**

*Fresno Pacific University*

In 2017, Fresno Pacific University began a program for all incoming first-year STEM students that could shift the patterns of representation in the STEM field. FPU is the second largest not-for-profit private Hispanic

Serving Institution in California and the seventh largest in the nation. This innovative, online, summer program supports all incoming first-year STEM students through small-group learning communities that foster teamwork, connectedness, and support from both peer students and STEM faculty. Emphasis is placed on embedding college success strategies into first-year gatekeeper course preparation. Online format of the college prep course has fiscal advantages, addresses preparedness in college-level math, biology, and chemistry, and promotes first-year success.

## **FD - 142 Empowering Peer Leaders**

Roman II

**Amy Hughes Giard**

*University of Oregon*

First-year students benefit from having a peer mentor in the first year of college; however, peer mentors also benefit from the same high-impact experience. Students who are mentors report improved academic performance, stronger connections to faculty, improved communications skills, and personal growth. What are the most effective ways to empower peer mentors? In this interactive session, we will discuss best practices in developing strong peer leaders; programmatic areas that need improvement; and new ideas, strategies, and techniques to implement changes. Possible topics include training and retaining peer leaders, building one-to-one faculty relationships, curriculum/program development, and other issues identified by participants.

## **FD - 143 Tackling Critical Social Issues: Do's, Don'ts, and What Comes Next**

Roman III

**Stacy Cooper Patterson**

**Christine Krieger**

*Goucher College*

Colleges often struggle to find effective methods of educating students around the topics of race and identity, consent, substance use, and healthy sexuality. Particularly at small colleges, it can be difficult to determine when and how to have these discussions with limited staff and financial resources. In this facilitated discussion, we will share our successes and challenges in addressing these topics, and others will share their own best practices and struggles. In the end, each participant should expect to leave with an action plan of how to tackle conversations around at least one of these topics on their own campuses.

## **FD - 144 Learning Communities: Creating Connections for Student Success**

Roman IV

**Kimberly Kilpatrick**

*University of Texas at El Paso*

Learning communities (LCs) can offer both students and instructors a valuable and rewarding learning experience. Successful collaboration between instructors requires effective communication and a shared desire for positive learning outcomes for our students. This session will provide participants an opportunity to share thoughts and experiences on LCs. Specifically, the discussion will focus on some of the essential components of the LC: effectively creating the partnership, successfully managing the challenges that may occur, maintaining productive communication, and developing a coordinated plan of action for shared assignments for our students.

# SUNDAY, FEBRUARY 17

## **CR - 145 Examining Digital Curricular Enhancements and Student Success Within First-Year Seminars**

Florentine I

**Megan Cogliano**

*Nevada State College*

**Dan Gianoutsos**

*University of Nevada, Las Vegas*

**Matthew Bernacki**

*University of North Carolina*

Researchers examined implications of student completion of digital curricular supplemental enhancements (online modules) within a face-to-face, three-credit first-year seminar at a large, diverse, public university. Enhancements were online modules embedded in courseware and designed to increase students' awareness, skillfulness, and ability to apply learning strategies known to improve performance. Using self-regulated learning as a theoretical framework, researchers explored relations between training performance and GPA, fidelity of training and differences in training performance, by topic and level of understanding, and across demographic groups (i.e., exploring/undeclared majors vs. major pathway students; first-generation vs. continuing generation students; male vs. female).

## **CI - 146 What the FTIAC?!! Promoting Success for First-Time, Full-Timers**

Florentine II

**Raynard Ross**

**Stacia Barczak**

*Grand Rapids Community College*

This session will provide an overview of an effort that uses rewards and incentives, along with concierge-style support to encourage adoption of educational habits that contribute to individual success and retention; as well as promote a sense of community at our large Midwestern community college. The focus of this effort is on first-year students of all ages who attend full time. Session participants will gain understanding of the theoretical framework, institutional hurdles, and frontline work related to planning, implementing, and evaluating this simple, yet innovative persistence and completion project.

## **CT - 147 Beyond Retention: Deep Impact of Holistic Approaches to Peer Mentoring**

Florentine III

**Christine Standish**

**Emily Demke**

**Angus Macfarlane**

**Cynthia Wong**

**Mike Jensen**

*Utah Valley University*

Retention and persistence toward graduation are enduring concerns among many institutions of higher education. Our model of student success goes beyond student retention by addressing first-year students' academic, emotional, and social success. At Utah Valley University (UVU), the UVU Mentor Program creates deep impact by adopting a holistic student-centered approach through the five roles of mentors (a) trusted friend, (b) peer leader, (c) learning coach, (d) student advocate, and (e) connecting link. This session will be led by two current UVU student-mentors who will help attendees increase their impact by meeting students' needs from a holistic approach.

## **CR - 148 Serving Those Who Have Served: Military Veterans on Our Campuses**

Florentine IV

**Janine Payton**

*Molloy College*

As military veterans return from active duty, they have been faced with many challenges in adjusting to civilian life. Because of the comprehensive Post-9/11 GI Bill, many veterans have chosen to use their education benefit and attend college. Navigating a college campus, using campus services, and adjusting to the college environment can be difficult. This session will discuss ways to best support military veterans when they are on campus, and recommendations for which services they are most drawn to in assisting and supporting them toward graduation.

## **4:15 p.m. – 5:30 p.m. Featured Sessions**

### **FS - 149 Managing Summer Melt: Moving Students from Intending to Attending**

Octavius 14-16

**Jean Henscheid**

*National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina*

It is estimated that up to 40% of students who intend to enroll in college have their intentions "melted" during the summer between high school and college. Educators committed to first-year student success must be critical partners in the effort to identify and support these students from their high school senior year through their first college year. This session examines promising practices and current research on summer melt and builds the case for starting first-year success efforts before students arrive on campus. Participants will leave with a plan to develop their own Summer Melt Team.

### **FS - 150 Spirituality, Authenticity, Wholeness, and Self-Renewal in the Academy**

Roman I

**Tracy Skipper**

**John Gardner**

**Betsy Barefoot**

*National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina*

Students' affiliation with religion has declined steadily over the last five decades (Egan et al., 2016). Yet, in 2015, 70.8% of students saw themselves as very spiritual (up from 44% in 1996). How can faculty and staff support students' spiritual growth and development when many struggle with incongruities in their professional lives? Is it possible to sustain individual spirituality, authenticity, wholeness, and self-renewal in higher education? In this facilitated dialogue, participants will be encouraged to think deeply about their own beliefs and values and consider how institutional cultures foster (or perhaps hinder) authenticity and wholeness for themselves and their students.

### **FS - 151 Assessing Orientation, Transition and Retention to Support Student Success**

Octavius 17-19

**Joyce Holl**

**Melanie Payne**

**Quincy Spencer**

*NODA – Association for Orientation, Transition, and Retention in Higher Education*

Participants attending this session will hear about ways to identify the key issues needed to address in the orientation, transition and retention

(OTR), programming on their home campuses. Specifically it focuses on the development and delivery of programs and learning experiences during student transition. This session will introduce best practices, as well as research and assessment findings to guide OTR practice.

## **FS - 152 Going Global: International Perspectives on The First-Year Experience in Higher Education**

Octavius 20

### **Abdulaziz Alfehaid**

*Imam Abdulrahman Bin Faisal University (Saudi Arabia)*

### **Hala Al-Najjar**

*American University of Kuwait*

### **Christine Curtis**

*University of the Bahamas*

### **Yukari Hashimoto**

*University of Nagasaki*

### **Rob Kenedy**

*York University (Canada)*

### **Jennifer Keup**

*National Resource Center for The First-Year Experience and Students in Transition*

### **Pinar Özbek**

*Koç University (Turkey)*

### **Annsilla Nyar**

*South African National Resource Centre for The First-Year Experience and Students in Transition*

As the first-year experience (FYE) movement gained traction in the U.S., interest in this concept across the globe also grew. Throughout its history, the National Resource Center for The First-Year Experience and Students in Transition has engaged in international efforts that are consistent with its mission, including supporting the development and activities of national networks around the first-year experience and student success in other countries and continents. Further, the issue of internationalization in FYE includes the influx of international students among the incoming cohorts of new students in higher/tertiary education, increasing use of study abroad programs, and renewed emphasis on intercultural competence and global learning as key experiences and outcomes of college. This featured session, led by members of the Center's International Advisory Board, will provide an interactive opportunity to examine these trends and explore the direction of the FYE movement across countries and cultural contexts.

SUNDAY

# ONLINE COURSES

## ON THE FIRST-YEAR EXPERIENCE AND STUDENTS IN TRANSITION

APRIL 29 - MAY 24, 2019

JUNE 17 - JULY 12, 2019

GALLUP®

THE FIRST STEP ON A  
STUDENT'S JOURNEY IS  
**self-discovery ...**

**Students who learn to use their CliftonStrengths thrive. They develop deep, meaningful relationships with friends and mentors. They discover how to live healthy lives full of well-being and purpose.**

Start students on their journey by helping them discover their natural talents. Then help them develop those talents into strengths. Understanding and using their strengths empowers students to be engaged with their campus, find their path to success and stay in school. Stop by Gallup's booth 48 to explore how CliftonStrengths for Students can help transform your students' college experience.

# CUSTOM PRODUCTS

## FOR YOUR FIRST YEAR PROGRAM

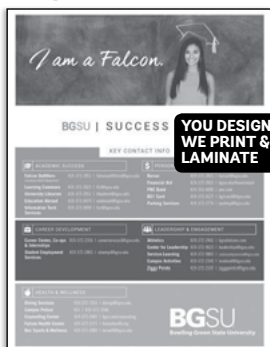

### CREATE YOUR OWN CUSTOM CAMPUS GUIDE

3 easy ways to enhance the freshman experience using the **QuickStudy** format

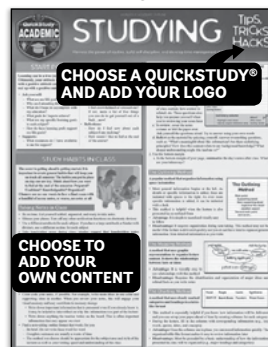

**1** We design it, print it, and laminate it.

**2** You design it; we print and laminate it.

**3** Customize our existing content.

Why should you customize QuickStudy®?

Arizona State University, Bowling Green State University, North Carolina A&T are among some of the schools who have their very own custom campus guides already, join them!

Ideal for: Freshman orientation \ Student recruiting \ 1st Year Programs \ Student Success centers

### CREATE YOUR OWN CAMPUS DOODLE CALENDAR OR DOODLE BOOK

We can take any of your photos and create a custom, colorable piece of doodle art.

Art fee is only \$20 per photo - Art fee waived when you order 1000+ pieces - As low as \$4.50/unit!

#### Doodle Calendars

#### Doodle Coloring Books

Coloring books are the latest trend!  
Create one specifically for your school!

#### How does it work?

**1** Send us a photo **2** We create your doodle

**3** We color the front cover

Ideal for: Freshman orientation \ 1st Year Experience Programs \ Fraternities & Sororities \ Fundraisers

# Journal

**of The First-Year Experience & Students in Transition**

A semiannual refereed journal providing current research and scholarship on significant student transitions. The primary purpose of the *Journal* is to disseminate empirical research findings on student transition issues, including

- Explorations into the academic, personal, and social experiences—such as outcomes related to success, learning, and development—of students at a range of transition points throughout the college years. These transitions consist of, but are not limited to, the first college year; the transfer transition, the sophomore year; the senior year and transition out of college, and the transition to graduate work;
- Transition issues unique to specific populations (e.g., nontraditional, traditional, historically underrepresented students, transfer students, commuters, part-time students); and
- Explorations of faculty development, curriculum, and pedagogical innovations connected to any of the transitions identified above.

### CI - 153 Improving and Institutionalizing RetainU: Supporting First-Year STEM Student Success

Capri

**Yvette Hester**

**Sara Thigpin**

*Texas A&M University*

The College of Science at Texas A&M University welcomes approximately 900 students each year. All are academically talented and provide opportunities to increase graduates in STEM. However, transition shock is a nationally recognized phenomenon that occurs when students enter college for the first time. Building on the success of the college's pilot RetainU program in the fall 2017, a decision was made to scale the program up to serve all incoming first-time-in-college students. RetainU was institutionalized at the college level in Fall 2018 to reach all incoming first-year students, offering a model for increased retention and graduation rates.

### CI - 154 Academic Recovery: Designing Intervention Seminars for First-Year Students on Probation

Milano I

**Mike Dial**

*University of South Carolina*

At the University of South Carolina, first-year students on academic probation and those who fail U101 are invited to enroll in an academic recovery section of UNIV101 in the spring. This session will explore the unique developmental and emotional needs of first-year students on probation and will describe a variety of theoretical frameworks relevant to designing seminars for probationary first-year students. By supporting first-year students on probation, universities deliver on the promise of care made to students and their families in the admissions and orientation processes. Moreover, supporting students on academic probation has been shown to improve graduation rates.

### CT - 155 Creating a Proactive Faculty Advising Program for First-Year Students

Milano II

**Mark Biggs**

**Tracey Glaessgen**

**Kelly Wood**

**Rachelle Darabi**

*Missouri State University*

With an increased effort to retain more first-year students, Missouri State University is re-envisioning an element within its split-advising model. To transform the faculty advisement culture, we created professional development workshops to foster a proactive advising approach, particularly with first-year, first-generation, and underrepresented students. Sustaining this proactive advising effort requires balancing different stakeholder needs—administrators, faculty, students—while providing a clear, consistent message about how proactive advising can benefit and retain more at-risk first-year students. Lessons learned from this advising culture shift should be of interest to institutions whose goal is to increase first-to-second-year retention.

### CI - 156 The LEAD Program: Developing Faculty to Best Support Students

Milano III

**Corinne Corte**

**Amanda Voigt**

*Arizona State University*

The LEAD Program is a cohort-based first-year multi-course program designed to support student success and subsequently, increase retention. The faculty who teach these courses come from a variety of academic disciplines and pedagogical backgrounds. In order to best support these students, program leadership has developed an intentional, comprehensive, and diverse training program for faculty. Pre-semester training includes a 20-hour knowledge acquisition online module, followed by in-person curriculum and pedagogical training. During the course of the semester, faculty continue their development with a variety of ongoing activities that support their work with our student population.

### CI - 157 PLUM: Using the Learning Management System to Empower Students in Entry-Level Math Courses

Milano IV

**Bridget Parsh**

**David Zeigler**

**Chevelle Newsome**

**Vannessa Newsome-Slade**

*Sacramento State University*

In 2018, the CSU eliminated the Entry Level Mathematics Test and developmental math course requirement for first-year students. With strong collaboration across campus, PLUM (Placement, Learning, and Understanding Math) was developed. Using the learning management system, incoming first-time college students are guided not only through policies for completing of their math course, but major requirements, placement tests, and campus resources. During this session, participants will be able to view the Canvas site, discuss successful strategies for working across campus, and identify potential hurdles encountered during implementation.

### CI - 158 Redesigning the First-Year Seminar for Holistic Student Development

Milano V

**Lacy Hodges**

*Georgia Institute of Technology*

Beginning in summer 2018, Georgia Tech's first-year seminar, GT1000, instituted a complete curriculum redesign. Assessment of GT1000 indicated that students, instructors, and peer leaders felt that the course was useful but lacked a clear focus and should do more to meet the needs of our incoming first-year students. Through cross-campus partnerships, the curriculum of GT1000 has been revised to focus on holistic student development, intentional academic pathways, and student well-being. This session will address the strategies used in revising the curriculum, challenges in implementing the new curriculum, and its impact on our first-year students.

### CI - 159 Bridging the Summer Experience: Supporting the Transition

Milano VI

**Michael Coombes**

*North Carolina State University*

Summer bridge programs provide opportunities for students to transition to the university environment through connections with peers, student mentors, and campus resources before the beginning of the fall semester. In this session, the facilitators will share an overview of one institution's summer bridge program, assessment measures implemented, and the impact on student success.

## **CT - 160 Implementing the Group Interview Process for Peer Mentor Selection**

Milano VII

**Janice Chatham**  
**Cynthia Crawford**  
**Karlyn Chen**  
*Virginia Tech*

Great peer mentoring programs are the result of the students we select. This presentation discusses the pros/cons of a traditional interview verses a group interview process for selection of student mentors in a FYE. While our Office of Admissions moved to a more accessible and open application, we also found a need to evolve our interview/selection process to identify the best fit for our departmental student leaders in a less stressful and more engaging way. Attendees will receive detailed information on the activities used and how better to implement the interview process based on our experiences.

## **CT - 161 First Gen to First Gen: Mentoring and Being Mentored**

Milano VIII

**Susan Kaye Pastor**  
**Sarah Stolte**  
**Chelsea Saldana**  
**Daniel Mortensen**  
**Jaycee Johnson**  
*Edgewood College*

Recent research on characteristics and needs of first-generation college students points to strong interest in being mentored and strong need for institutional flexibility. In this session, first-generation college students who are now faculty, staff, and undergraduate teaching assistants (peer leaders) describe their experiences working in an interdisciplinary first-year seminar program in which relationship-building is central and allows faculty and peer leaders to recognize individual needs for mentoring and advocacy. The session will also highlight how experiences of first-year students in Edgewood College's COR 1 program are enriched by the leadership of first-gen students as teaching assistants.

## **CT - 162 Comprehensive Peer Leader Training: Integrating Research, Theory, & Practice**

Octavius 7-10

**Jaime Miller**  
*Auburn University*

**Joe Cuseo - Advocate, '01**  
*Marymount California University*

Professionals charged with the coordination of peer leadership development are often expected to invent and implement a comprehensive training program that effectively prepares student leaders for their leadership role. This session will focus on concrete practices for delivering a program that is supported by leadership research and student development theory. Attendees will acquire specific strategies that may be transferred and applied in the context of their home campus. Time will be allocated for reflection and discussion of the practices presented, potential obstacles to their implementation, and viable approaches to overcoming those obstacles.

## **CT - 163 Pedagogical Superfood: Reflective Practice in Action**

Octavius 11

**Wade Leuwerke**  
*Drake University*

**Paul Gore**  
*Xavier University*

Courses and programs designated to promote student success often emphasize content at the expense of process. There exists overwhelming support for the power of reflection on learning (metacognition). Metacognitive reflection promotes deeper understanding of one's own cognitive process, personalizes the learning experience, promotes application and generalization of learning, and a sense of agency. This presentation will provide an overview of metacognition and its importance, will equip participants with a set of easily transferrable techniques for promoting reflective practice in their classrooms and programs, and will challenge them to develop new approaches specific to their practice.

## **V - 164 Purpose Leads to Persistence: Supporting Informed Academic Decisions**

Octavius 12-13

**Elizabeth Connolly**  
*CPP Innovation Labs*

**Quanda Sims**  
*Morris College*

**Kesha Lee**  
*North Carolina Central University*

What could be more important than helping students identify purpose upon matriculation? In this session, we will discuss the importance of redesigning the intake process for students to include academic and career exploration and the vital role interest fit plays in identifying the right path. Our partner institutions will outline their inclusion of interest measurement and its impact on admissions, enrollment, engagement, retention, and other student success metrics.

## **CR - 165 See The Dance: Piloting an Arts-Based Intervention in Higher Education**

Octavius 14-16

**Jason White**  
*College of Charleston*

Every year in higher education, many college students experience bias incidents of racial and ethnic stereotyping in the student body, often occurring in the form of thematic parties and events, social media postings, micro aggressions, and racist writings and illustrations. Post-incident, student participants often claim ignorance or freedom of speech in defense of their actions. Studies show that the arts have enormous potential to reduce risk factors by facilitating anti-bias education in a nonthreatening way. This study discusses the design and development process of an arts-based intervention to address this social problem and reports results from the pilot test.

## **CR - 166 First-Year Experiences That Create STEM Pathways**

Octavius 17-19

**Mary Jo Parker**  
**Mitsue Nakamura**  
*University of Houston-Downtown*

Pathways to STEM graduate/professional schools and entry into the workforce cannot be taken for granted as undergraduates begin their collegiate careers. This presentation will propose a review of an incremental and structured approach designed to increase the understanding of why workforce or why graduate/professional programs while also supporting entrance into graduate programs or workforce through engagement. The structure outlined in this presentation will bring a focus to FTIC as well as transfer students, ensuring both groups make progress toward these STEM goals. The Scholars Academy model has covered the entire university with many of these pathway guideposts.

## **V - 167 Online Orientation: The New Student Experience for any Admissions Model**

Octavius 20

**Sam Swingle**

*Advantage Design Group*

**Heather Hubbert**

*California Baptist University*

**Meryl Rogers**

*Suffolk County Community College*

Participants will learn how to design a unique orientation program that invites student engagement, regardless of institutional selectivity. Presenters include two deans of student affairs representing two-year and four-year institutions who are using an online orientation platform to create a new student experience that welcomes, reinforces, and builds confidence throughout the enrollment process and beyond. This session will feature a discussion of the strategies, decisions, development, and differences since launch. Participants will take a tour of their platforms, see how they apply technical and creative features, and gain new insights from their real-life examples.

## **CI - 168 Incorporating Active-Learning Strategies for Emiratis in Gender-Segregated First-Year Classrooms**

Octavius 21-23

**Mah-e-Anjum Khalid**

*Zayed University*

This session will look at a number of active-learning strategies that have been implemented both institutionally and on a class-by-class basis, and their varying levels of success with first-year Emirati students. The main findings include the impact of different educational techniques with different genders, looking at learning styles within a more uniform socioeconomic and ethno-religious group and navigating through second-language English student's learning experiences in the first year when their English is often at a much lower level.

## **FD - 169 How are Promise Programs Redefining the First-Year Experience?**

Roman I

**Scott Peska**

*Waubesa Community College*

**Kelly Smith**

*Northern Illinois University*

Promise programs are popping up all across the country at two-year and four-year institutions. These programs provide incoming students with free tuition and fees, usually as a last payer scholarship. Some promise programs are dictated by state legislation and others are community or institutionally led. This facilitated dialogue will explore how Promise Programs are redefining or reshaping first-year experience programs.

## **FD - 170 Preventing Probation in the First Year**

Roman II

**Ann McDonough**

**Anne White**

*University of Nevada, Las Vegas*

In the midst of overwhelming academic expectations, work and involvement in extra-mural activities, first-year students can find themselves on a slippery slope to low academic performance and eventual probation. This session will focus on methods of inspiring students to use academic support services, such as tutoring and coaching, leveraging the most powerful media techniques to message academic success interventions engaging faculty and using reward systems to engage high-risk students.

This discussion will also emphasize working with enrollment services to create structures that require students to meet with advisors, academic success coaches, tutors and supplemental instructors.

## **FD - 171 The Student Success Spotlight: The Stoplight of Your Best Practices**

Roman III

**Jennifer Plumlee**

**Holly Gastineau-Grimes**

*Marian University*

Have you been tasked with overseeing and implementing first-year experience initiatives and programs that directly impact student engagement and retention? If so, this session is for you! We are going to put a stoplight spotlight on best practices. During this session, participants will explore best practices and walk away with variety of tangible new program ideas that can be implemented on their own campuses. Participants are encouraged to share perspectives and gain insight into programs that promote student success and increase student retention.

## **FD - 172 Supporting International and Third-Culture Students' First-Year Transition**

Roman IV

**Dottie Weigel**

**Keyauna Moore**

*Messiah College*

More than one million international students are studying at U.S. colleges and universities. Research shows the first-year transition is more difficult for these students than their American peers, especially in light of a challenging political climate. Third-culture students—American citizens who have grown up abroad—also struggle to navigate American institutional norms as they repatriate. In this session, participants will discuss ways to support international and third-culture students as they transition to a variety of classroom and beyond-the-classroom contexts (e.g., first-year seminars, advising, peer leadership, residence life). Participants will gain practical, adaptable, and transferrable strategies to use on their respective campuses.

## **CR - 173 Research-Based Academic First-Year Seminar: Leading STEM Students' Through a Demanding First Year**

Florentine I

**Christopher Ward**

**Kaitlin Ohde**

**Jason Rose**

**Angela Vaughan**

*University of Northern Colorado*

**Jiyoung Park**

*Henderson State University*

To examine the relationship of participation in a research-based academic FYS with first-year achievement of STEM students, university data sets were collected from four cohorts (N = 2,543) of entering students. Data was analyzed for STEM females, males, conditionally-admitted students, and first-generation students between FYS and nonparticipants. Analyses revealed significant differences in one-year persistence (some 13% higher) among FYS participants compared to nonparticipants among all groups excluding females. Additionally, first-term GPA was significantly higher for all FYS STEM students (as much as 0.4 points higher). Recommended for STEM majors to participate in a research-based academic FYS in their first semester.

## **CT - 174 Creating an Engagement-Based First-Year Experience Program for Community College Students**

Florentine II

**Shanna Autry**  
**Tricia Rizza**

*Tallahassee Community College*

First-year experience programs develop academic skills, encourage self-exploration and personal growth, and foster engagement with campus resources and activities. Tallahassee Community College's (TCC) FYE program encompasses a series of activities to educate and engage students within a two-year, non-residential campus setting. The program is a collaborative effort among campus entities that combined New Student Orientation, New Student Convocation, a student success course, and engagement activities. Following Chickering & Reisser's (1993) Seven Vectors and incorporating grit and growth mindset, TCC was able to implement a comprehensive program throughout the first year of enrollment.

## **CI - 175 When They Want to Stay Involved: Leveraging First-Year Experience Alumni**

Florentine III

**Leah Rotella**

*University at Albany, State University of New York*

When living-learning communities (L-LCs) were launched at the University at Albany less than a decade ago, the pilot program included a faculty mentor. Since then, our model has evolved to include a strong student leadership pipeline with uniquely defined roles for graduate students/seniors, juniors, sophomores, and even current L-LC members. Why? Our alumni want to stay involved! This session will provide a variety of suggestions on how to better leverage former FYE participants to strengthen first-year programming, garner increased visibility and credibility of FYE programs, and widen one's affinity group.

## **CI - 176 Toot-Toot for Tutoring: Roadmap for First-Year Student Success and Beyond**

Florentine IV

**Cornelia Wills**

*Middle Tennessee State University*

Middle Tennessee State University is recognized as a national leader among leaders in student success initiatives. It is the No.1 producer of graduates in its former governing system. With top priority given to improving student retention and graduation outcomes, it adopted a blueprint called, Quest for Student Success. Four strategic directions were included in this plan. This session will share success resources, with an emphasis on the evolution of tutoring, how the tutoring program experienced phenomenal growth, with usage more than doubling (increasing by 126%) in only two years, while helping to significantly improve overall university persistence and retention rates.

### 9:15 a.m. – 10:15 a.m.

## **V – 177 On the Same Page Goes Digital: UC Berkeley Collaborates with Amazon Kindle**

Messina

**Alix Schwartz**

*University of California – Berkeley*

**Gretta Kosanovich**

*Amazon Kindle*

In 2018, UC Berkeley enhanced their common-read program by sending digital copies of their chosen title (*The Handmaids Tale*) directly to 10,000 students globally and worked with Goodreads to engage students in an online reading community. The program's centerpiece included a keynote with Margaret Atwood and integration of the themes of the book throughout several courses and activities. In this presentation, Kindle Manager Gretta Kosanovich will interview UC Berkeley's Director of Academic Planning, Alix Schwartz, to discuss how the program is implemented and how moving forward with eBooks added to the program's success.

## **CI - 178 Summer of Success II: Results of a Conditional Admission Program Overhaul**

Capri

**Charlene James**

**Janelle Watts**

*Texas Southern University*

At the 2018 Annual Conference on The First-Year Experience Conference, our presentation Summer of Success: Giving Conditional Admission Students An Opportunity to Try, discussed the many changes we were undertaking to improve the on-boarding process, increase the pass rate of the Summer of Success program, and improve the overall student and administrator experience. With a pass rate of more than 99%, many students were able to test out of developmental education. This session will share recent data, including student survey responses, and describe changes made in the program.

## **CT - 179 Am I in Trouble? Educating Students on Institutional Conduct Expectations**

Milano I

**Emily Tedesco**

**Maureen Grewe**

**Rebecca Kaze**

*University of South Carolina*

Working with first-year students can sometimes mean trying to help them stay out of trouble. Every college and university has expectations for their students' conduct, usually written out in the Code of Conduct or value statement, but how do we get students to understand what those expectations mean for them? This session will overview the strategies and initiatives used at the University of South Carolina to help students stay out of trouble and develop their own ethical decision-making processes. Attendees will learn how to create their own methods for teaching first-year students about their institution's conduct procedures and expectations.

## **CI - 180 Closing the Gap for At-Risk and Underprepared Students**

Milano II

**Christine Metzo**

*St. Cloud State University*

Closing the achievement gap has become a critical charge to institutions of higher education in the United States. As we provide access, we must also find ways to provide the support to ground and sustain the success and belonging of students. This session will feature the high-touch, high-impact structure of a program for provisionally admitted students that has proven results in supporting and sustaining their success and increasing retention and persistence among these students.

## **CI - 181 A Three-Semester Approach to First-Year Advising**

Milano III

**Kristina Siazynski-Ferrer**

**Jennifer VanDeWoestyne**

*Queens University of Charlotte*

As higher education professionals continue to adapt to 21st century emerging trends, advisors must also shift to support students as they transition to college campuses. This presentation centers on the inception of a new model of academic advising at a four-year liberal arts institution. Queens University of Charlotte's new advising model, Royal Advising was implemented fall 2015 and is structured as a professional learning community comprised of faculty and professional academic advisors. The associate dean of student success and director of academic advising will share the characteristics of this new advising model, student benefits, and a professional development component.

## **CT - 182 First-Year Experience Trifecta: Service-Learning + TBL + Peer Educators = Success**

Milano IV

**Kristin Chapleau**  
**Brooke Walker**  
**Lisa Kerr**

*University of Alabama at Birmingham*

Join us for an interactive session where you will discover how you can implement service-learning, TBL, and peer educators in the first-year experience to enhance its effectiveness. Many students at UAB declare Pre-Health majors based upon personal or family members' struggles with diseases or because of what they have seen watching dramatized hospital shows. The goal for incorporating three high-impact practices into one first-year experience course was to help students understand the implications of the work that lies ahead. Intentional classroom activities that involve near-peer interactions and service-learning is not as complicated as it sounds—you can do it too.

## **CI - 183 Stories Behind the Numbers: Closing Equity Gaps Through Learning Communities**

Milano V

**Jessica Klingsmith**  
**Brian Hayes**

*Colorado State University*

Since 1998, Key Communities has existed at Colorado State University as a retention-based initiative. While Key serves all students, an emphasis is placed on supporting students from historically under-served backgrounds. This presentation discusses high-impact practices layered into the community, which include first-year seminars, cocurricular experiences, and an intrusive mentoring model as strategies for closing equity gaps. Data demonstrate a positive impact on graduation and persistence for all Key Community student participants with an 8.3 percentage point gain in persistence and a 9.8 percentage point gain in graduation rates. Results of an institutional assessment of Key's outcomes will be shared.

## **CT - 184 First-Year Seminar: Backwards Designed with General Education in Mind**

Milano VI

**Michael Buccilli**  
**Gayle Barrett**  
**Fran Rosselli**  
**Heidi Zenie**  
**Tamika Davis**

*Connecticut State Colleges and Universities*

An academically rigorous well-designed first-year seminar (FYS) aligns well with general education outcomes. This session will discuss strategies to make the case for including FYS as a general education course on your campus. It will specifically highlight the backward design process, connections to guided pathways, and strong emphasis on career and academic planning. Participants will hear how the presenters navigated the challenges and hurdles to gain state-wide approval. The presenters

will provide a playbook for FYS faculty, coordinators, and system-level administrators who seek to include FYS in the general education core.

## **CR - 185 Igniting College Success: The Comprehensive Research Aligned Mentorship Program**

Milano VII

**Beverly Kahn** - Advocate, '17  
**Dylan Gafarian**  
**Joanna Breitman**  
**Sarina Turbendian**

*Farmingdale State College*

In Fall 2016, Farmingdale State College launched its Research Aligned Mentorship Program designed to provide a seamless transition from high school to college and to assure that students stay on track, succeed academically, and graduate with a baccalaureate degree in four years. The program's approach to advisement is holistic. Counselors not only work with students on selecting courses, but also address all aspects of a student's transition through our mandatory first-year experience course, RAM 101. Presenters will explain Farmingdale's comprehensive approach with a special focus on how they facilitate RAM 101, provide holistic advisement, and employ Digital Roadmaps to Graduation.

## **CR - 186 Nudging First-Generation Students to Succeed**

Milano VIII

**Elizabeth Sayrs**  
**Loralyn Taylor**  
**Angela Lash**

*Ohio University*

Nationwide, first-generation students persist at rates significantly lower than their continuing-generation peers. Recent studies indicate that short-term behavioral interventions (i.e., nudges) can have a lasting effect on students' behaviors, reducing these achievement gaps. Ohio University's MyOHIO Advice program integrates multiple behavioral insights to reframe first-year, first-generation students' beliefs and responses to challenges encountered during the transition to college. An initial educational program is followed by year-long text-based interactive nudges delivered to the student's mobile phone. Pilot results include decreased summer melt and increased retention compared to the control group. Results also reveal areas for further research (e.g., food insecurity).

## **V - 187 The First Year Matters: But What Matters Most?**

Octavius 7-10

**John N. Gardner**  
**Betsy O. Barefoot**

*John N. Gardner Institute for Excellence in Undergraduate Education*

The presenters are co-founders of the John N. Gardner Institute, an 18 year-old non-profit organization, which has enabled them to extend their formative work at the University of South Carolina. In this session, they will share their lessons learned for the most important steps campuses can take to increase the success of new students. Drawing from their work with hundreds of institutions, they will focus on the use of assessment to produce strategic action plans to enhance first-year retention rates, increase the success of transfer students, and address the challenges of "killer courses" through course redesign to reduce rates of D,W,F,I grades. They will also discuss the importance of implementing, to a high degree, aspirational plans for improvement. This session will be interactive to address questions you may have of two of the founders of the FYE movement.

## **CT - 188 Capture! Engage! Complete!**

Octavius 11

**Niqui Pringle-Brown**

**Cate Igo**

*Polk State College*

You can enroll a student in first-year seminar (FYS), but you cannot make them engage. Participants will learn how to capture students' attention and help them find their place on campus through the FYS, a course designed to connect students to the campus, community, curriculum, and career pathways, while fostering active learning and matching the needs of the 21st Century learner. This session will emphasize the pedagogy of active learning and student-centered teaching in the FYS. Course highlights include the AIR (Attend, Image, Reflect) project, faculty coaching, interactive web-based tools, Pathways, and activities participants can immediately implement.

## **V - 189 What Does Online Orientation Mean Today?**

Octavius 12-13

**Dawn Sawyer**

*Comevo, Inc.*

Online orientation has evolved over the last several years from being simply just an online version of orientation material to a dynamic platform capable of branching out and serving many other student success needs and administration functionality. Guided pathway tools, integrated surveys, early alerts, checklists, and data capture have all entered into the arena and are providing endless solutions for the first-year experience as well as many other departments campus wide. The presenter will walk through the evolution of what online orientation can mean in a variety of institutional contexts.

## **CT - 190 Campus as the {Hybrid} Classroom in First-Year Experience**

Octavius 14-16

**Tasha Seegmiller**

**Elizabeth Cox**

**Silvia Kozlovska**

*Southern Utah University*

Professionals in higher education often mistakenly believe that first-year students will intuitively know how to negotiate the nuances of college, both academically and socially. However, first-year students are entering a new culture, often not connecting with needed campus resources early or even knowing such support exists; yet, both academic and student affairs acknowledge that use of and familiarity with these resources support academic growth and personal wellness. At Southern Utah University, these two houses united to create a hybrid (online & face-to-face) course that introduces students to appropriate resources according to research-supported timeliness markers.

## **V - 191 Generation Z: Bridge the Gap Between Staff and Students**

Octavius 17-19

**Tim Elmore**

*Growing Leaders*

For the first time in history, there are often as many as four distinct sociological generations who must learn to work collaboratively and effectively on college campuses. Generation Z is now changing the atmosphere across higher education institutions. Those institutions that learn how to effectively motivate and retain these students, while at the same time leveraging the skills and talents of all generations represented on their campus will best position themselves for success. This session unpacks the latest research on Generation Z and offers practical tips on how to turn their potential into positive impact on any college community.

## **FD - 192 Publishing Research and Practice on College Student Transitions**

Octavius 20

**Forrest Lane**

**Christina Hardin**

**Brad Garner**

*National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina*

The National Resource Center offers multiple outlets for publishing research and practice related to college student transition experiences: the Journal of The First-Year Experience & Students in Transition, E-Source for College Transitions, and The Toolbox. The editors of these publications will be on hand to provide an overview of the submission processes, discuss strategies for crafting strong manuscripts, and describe opportunities for involvement with the publications' editorial boards.

## **CT - 193 Campus Civility, Informed Discourse, and Engaged Students**

Octavius 21-23

**Joni Petschauer** - Advocate, '06

*American Council on Education*

**Cindy Wallace**

*Appalachian State University*

Higher education in the United States is under tremendous pressure to redefine itself and prove its worth in highly charged economic and political environments. Engaging students through informed discourse and thoughtful action is one of the best ways to address this challenge. When words such as fake news and alternative facts enter our lexicon, it is a clarion call to respond. The first-year seminar is the starting place for shaping the discourse necessary for campus civility.

## **FD - 194 Partnering with Your Academic Library to Build a Stronger Community**

Roman I

**Kate Otto**

*Marquette University*

Many academic libraries around the country are offering innovative services like digital scholarship and roving residence reference, as well as collaborating with faculty and other campus departments on new initiatives including curriculum mapping and orientation events. However, academic libraries have yet to implement many new trending collaborations. In this facilitated dialogue, participants across university departments can ask questions and offer ideas on how they believe libraries could be more relevant to their campuses, particularly first-year students. Participants from library departments can take advantage of hearing other campus perspectives, ask questions, and brainstorm new community building ideas.

## **FD - 195 Practicing What We Preach: Taking Risks to Promote Self-Authorship**

Roman II

**Lori Blanc** - Excellence in Teaching Recipient, '17

*Virginia Tech*

First-year seminars have great potential to help students start moving from dependence on authority in education to self-authorship. However, implementing educational practices that provide the challenge and support necessary for this shift in mindset demands a mental shift for educators as well, requiring us to think differently about learning and authority. Indeed, pedagogical practices associated with developing self-authorship can disrupt emotional comfort and lead to resistance

from both students and faculty. As educators, we advise our students to become comfortable with being uncomfortable and taking risks. The discussion will focus on how willing we are to do these things ourselves.

## **FD - 196 Starting from Scratch: Designing a Curriculum for First-Year, First-Generation Students**

Roman III

**Dyron Corley**

*Rutgers University - Camden*

Designing a new curriculum for a program or a student population can be a daunting task. It can be especially challenging for those educators who are not faculty or have little to no experience in curriculum development. Participants in this facilitated discussion will collaborate with other professionals, both faculty and non-faculty, to recognize and assess the needs and challenges of first-generation college students, identify the type of first-year seminar that works best for their institution or program, and discuss the items that should be considered when creating a curriculum for the first time.

## **FD - 197 Embedding Returning Staff into Your Peer Mentor Training Program**

Roman IV

**Brent Weaver**

**Mackenzie Sleight**

**Haley Weinberg**

**Brianna Jackson**

**McKenzie Weien**

*Kansas State University*

Peer mentor training programs commonly encounter a lack of engagement during training, confusion over the purpose of the training itself, and a failure to retain staff. One way to address these concerns is to integrate returning staff members into the structure of new staff training. In this facilitated dialogue, participants will learn best practices for integrating returning staff into their own training program and leave the session with an action plan for engaging experienced peers on their own campuses.

## **CR - 198 Using Assessment to Build Better Online and Traditional FYE Courses**

Florentine I

**Robert Kenedy**

**Grayson Paul**

*York University*

In late 2017, we assessed generic skill deficiencies of 967 LA&PS students. The assessment revealed that only 51% (10,694 students) could be viewed as 'functional', 27% (5,662 students) were 'at-risk,' and 22% (4,613 students) were dysfunctional. There was a progressive decline in grades and satisfaction with their experience from the functional to the dysfunctional groups. There was also a progressive increase in thoughts of leaving university prior to degree completion between the functional and dysfunctional groups. We proposed the development of a web-based program, readily adaptable to blended and face-to-face delivery that would remedy students' generic skill deficiencies.

## **CI - 199 Implementing a Discipline-Based First-Year Experience Around Common Outcomes**

Florentine II

**Jacob Amidon**

**Debora Ortloff**

*Finger Lakes Community College*

As part of a multi-year curriculum and assessment reform effort an FYE was mandated through our shared governance system to be included in all programs. In this session, we will share the design of our outcomes-

based FYE, strategies on working with faculty towards adopting and implementing reform efforts in general and our early results on the effectiveness of our FYE.

## **CI - 200 Using Comprehensive Programming to Foster Growth Mindset and Encourage Resourcefulness**

Florentine III

**Esmer Bedia**

**Jasmine Rose Schmitt**

*University of Texas at Austin*

This session will highlight the practices of a first-year co-enrollment program shared between UT-Austin and Austin Community College. Program initiatives are centered on the belief that there are many valid paths available to students in their academic endeavors and that embracing the journey is as important as reaching the goal. The comprehensive programming fosters a growth mindset and encourages resourcefulness by promoting the use of holistic perspectives in developing and accomplishing personal, academic, and professional goals. Amenities include coordinated academic advising, peer mentorship, targeted social events, and a weekly first-year seminar with customized curriculum to help students optimize their experience.

## **CI - 201 Increasing Common Read Buy-In Through Partnership with Pre-College Programming**

Florentine IV

**Susan Lantz**

**Marion Holmes**

*West Virginia University*

West Virginia University's voluntary Common Read program is faced with the annual challenge of gaining buy-in and interest from incoming students. For fall 2018, the Common Read partnered with Adventure West Virginia's First-Year Trips (FYT) program, an optional pre-college outdoor program with enrollment of more than 1,000 incoming students annually. Common Read tapped into the FYT program's student leaders to recommend and engage students with the common read selection. Preliminary survey results indicate favorable outcomes. This presentation will discuss the implementation, outcomes, and projected next steps for this partnership.

**MORNING BREAK | 10:15 AM – 10:30 AM**

*Forum Ballroom Foyer*

## Plenary Address and Awards Recognition

10:30 a.m. – 12:00 noon | Forum Ballroom 12-24

### Excellence in Teaching First-Year Seminars Award

**Nirmal Trivedi**

Director of First-Year Seminars, Assistant Professor,  
English  
*Kennesaw State University*

### Jordan Smith Undergraduate Student Fellowships

**Frankie Guerrero**

*Arizona State University*

**Ling Le**

*San José State University*

**Jessica Martinez**

*Georgia Southern University*

**Janelle Raymundo**

*Rutgers University*

**Dae'lyn Smith**

*Northeastern State University*

**Stacey Doremus** - Excellence in Teaching  
Recipient, '18

Assistant Director for Leadership Education and  
Development Programs and Systems  
*Georgia Institute of Technology*

### Discover: Create a Lasting Impact, Propel Learning, and Develop Momentum Towards Future Action

The most influential education experiences are ones that are remembered, and more importantly, drive us to take some form of action. There is a growing demand for a more holistic approach in leadership development that embraces complex, dynamic, and challenging contemporary contexts. One response is arts-infused education.

Learn how one instructor shares in the intellectual and exploratory growth of her first-year students through a discovery learning framework that allows students the freedom to explore, collaborate more effectively, take risks and transcend limitations.

**1:30 p.m. – 2:30 p.m.**

### CT - 202 Improving First-Year Experience Faculty Engagement and Teaching Practices

Capri

**Kambra Bolch**

**Victoria Black**

*Texas State University*

The demographics of today's college students are rapidly changing, and the need to adapt first-year course curricula, teaching practices, and proactive services and interventions to support the success and development of our students has perhaps never been more important. This session will discuss how a long-established first-year seminar program (170 faculty teaching 280 sections serving 6,000 first-year students) effectively implemented curricular reorganization, classroom-based peer mentoring, intentional early interventions, and specific professional development to enhance faculty engagement and the first-year community of practice. We will share strategies and approaches to take back to your institution.

### CT - 203 Engaging Parents as Partners for First-Year Student Success

Milano I

**Laurie Hazard** - Advocate, '06

**Stephanie Carter**

*Bryant University*

**Amy Baldwin**

*University of Central Arkansas*

Parent involvement in higher education positively impacts student success and completion rates. How can institutions guide parents' involvement in ways that are helpful to all? This session will provide participants with strategies that institutions can use to engage parents and contribute to student success. Attendees will be introduced to valuable parent resources, strategies for integrating these resources into parent engagement and student success programming, and concrete suggestions for helping address the challenges of the college transition.

### CT - 204 Strategies for Success: Impact of Peer Mentoring in First-Year Seminars

Milano II

**Nataniel Reyes**

**Jamil Johnson**

*University of Central Florida*

First-year seminars (FYS) provide a critical gateway for student success. This high-impact practice is an important pathway to promote student retention, engagement in cocurricular activities, and stronger connection to faculty (Kuh, 2008). Furthermore, there is substantial literature that supports the value of peer mentoring within FYS (Holt & Lopez, 2014). At the University of Central Florida, the SLS 1501 FYS Program enrolls more than 2,000 students and selects 65 peer mentors annually. The presentation will highlight the role of SLS 1501 peer mentors in an academic FYS and provide research-driven practices that are applicable to other institutions.

### CT - 205 Success for All Students: Implementing a Rural Student Support Initiative

Milano III

**Thomas Chase Hagood**

**Naomi J. Norman**

**Lindsay B. Coco**

**Rosemary Gay**

*University of Georgia*

Data show that at the University of Georgia (UGA) rural students—a group which includes many first-generation, minoritized, and Pell-eligible students—have lower retention and completion rates than their non-rural peers. UGA is not alone in this situation. Indeed, the recent national discourse on higher education has brought to light the very real challenges facing rural students. This session discusses the ALL Georgia program, a comprehensive network of academic, financial, and other resources to support students and help close this equity gap via various high-impact practices in a creative collaboration among academic affairs, student affairs, and public service and outreach units.

## **CI - 206 The RAP Battle: Using Gamification to Drive First-Year Student Engagement**

Milano IV

**Andrea Straccia**

**Jaclyn Abeloe**

**Katelyn Hayes**

*University of Colorado, Boulder*

Over the last three years, the Residential Academic Program (RAP) at the University of Colorado Leeds School of Business has successfully increased student attendance at academic and professional events by gamifying engagement through the RAP Battle. The success of the RAP Battle has allowed program staff to move away from a punitive approach of mandatory attendance, to one that incentivizes engagement. In this session, we will share how we administered the RAP Battle, including the cost, results, and lessons learned. We will share strategies for gamifying student engagement in multiple program contexts.

## **CI - 207 Team Advising: A Model for Mentorship and Cross-Division Collaboration**

Milano V

**Emily Morash**

*Connecticut College*

As part of a larger curricular revision process, Connecticut College implemented a team advising model tied to our first-year seminar program. Each student has a faculty pre-major adviser, a staff adviser, a career adviser, and two to three student advisers. The model provides students with multiple perspectives and points of contacts as they arrive to campus and throughout their first year. The program has also forged new partnerships across divisions, providing a holistic approach to training, advising, and leadership development. This session will explore our process for developing our program, assessment strategies, and initiatives that developed out of this program.

## **CI - 208 Using Predictive Analytics and Financial Aid to Increase Institutional Retention**

Milano VI

**Kyle Van Duser**

*University of Hawaii at Manoa*

**Dawn M. Chandler**

*Hawaii Pacific University*

This presentation will discuss the scholarship program (ERIC), that the presenters implemented at a mid-sized, public, research institution. Targeted students were targeted for the ERIC scholarship and received \$5,000 as an incentive to persist from their first to second year. The presentation will discuss the scholarship's impact on students' sense of belonging, retention rates, and tuition revenue generated.

**CANCELLED**

## **CI - 209 Reimagining a First-Year Seminar: One College's Process Toward Improvement**

Milano VII

**Cristina Lawson**

**Rosie Yates**

*Tulane University*

During the fall of 2014, a newly appointed task force on the undergraduate experience at Tulane University brought to light the shortcomings of its first-year seminar program, TIDES. In spite of this, TIDES was also named for its strong potential as a crucial contributor for increased retention through faculty and peer relationship building, affinity with campus and city, and introduction to academic expectations and support. The program has since undergone dramatic reevaluation and implementation. This session will highlight key areas of growth, discussing procedure, application, and assessment.

## **CI - 210 Moving Forward, Giving Back: First Year Day of Service**

Milano VIII

**Mathew Chetnik**

**Franklin Chilaka**

**Sara Moore**

*Salem State University*

A collaboration between the First Year Experience and the Center for Civic Engagement, Moving Forward, Giving Back: The First Year Day of Service brings together 200 first-year students, 125 upper-class volunteers, faculty, staff, and alumni to work at more than 30 sites in six local communities several days prior to the start of classes in August. Data demonstrate an increased GPA, satisfaction, and retention on the part of the student participants and stronger relationships with local service agencies. Participants will walk away with detailed information and plans for implementing a similar high-impact practice on their own campus.

## **CT - 211 The Results are Self-Evident: Campus-Wide Partnerships Promote Student Retention**

Octavius 7-10

**Kyle Ellis**

*University of Mississippi*

**Joe Cuseo** - Advocate, '01

*Marymount California University*

As the saying goes, it takes a village. In the case of increasing first-year retention, it takes a campus. This session will focus on systemic, campus-wide strategies for promoting first-year student persistence that were instrumental in raising retention rates over 8% at a Research I university. When multiple members of the campus community come together to pull the retention rope in the same direction, their collective impact can be powerful and pervasive. This session will highlight a constellation of practical student-centered initiatives that can be implemented together to exert a synergistic effect on student satisfaction, persistence, and academic success.

## **CI - 212 Low and No-Cost Faculty Development for First-Year Seminar Instructors**

Octavius 11

**Katie Hopkins**  
**James Winfield**

*University of South Carolina*

Implementing high-quality faculty development initiatives does not have to break the budget. Using the University 101 Program at the University of South Carolina as a model, this session will explore best practices for designing and implementing faculty development initiatives that are low or no cost. Presenters will share recommendations on how to keep expenses low while providing training and support to instructors that effectively prepares them to teach the first-year seminar.

## **V - 213 How Mastering Their Story Can Transform Students' Life Trajectory**

Octavius 12-13

**Richard Stone**

*StoryWork International*

In the MasterStory Experience, we teach students that there are seven core story lessons that we each must master to maximize our life's possibilities: How to Benefit from Your Origin Story; Recognizing How Stories Condition Consciousness and Our Outlook on Life; How Stories Need Not Function as Conclusions; How to be the Authors of Our Life Story; How to Free Ourselves from the Grip of an Old Story; How to Use Our Stories to Discern Our Deepest Values; and, How to Discover the Source of Your Most Powerful Story. This session will introduce participants to these key life lessons.

## **CR - 214 Understanding Collaboration: The Means to Supporting the First-Year Students' Experience**

Octavius 14-16

**Ola AlMuhtadi**

*Zayed University*

**Mariya Yukhymenko**

*California State University Fresno*

Collaboration in higher education is emerging as a powerful means of providing effective services and supporting students' educational experiences. This study explored the collaborative interactions between the departments of academic advising and student affairs in relation to the first-year program and experience at a federal university in the United Arab Emirates. Using a phenomenological approach, we interviewed seven faculty advisors, seven student affairs professionals, and 15 first-year students to gain an understanding of their experiences and perceptions towards collaboration. Findings highlighted characteristics that defined the collaborative process and barriers that inhibited collaboration between both units.

## **CR - 215 Building Grit: Understanding the Impact of a Summer Bridge Program**

Octavius 17-19

**Laila Shishineh**

**Kristen Coffey**

*University of Maryland, Baltimore County*

The University of Maryland, Baltimore County is a large, public, research university outside of Baltimore, MD. The campus has offered a six-week summer bridge program (SBP), with a focus on math and writing, to all incoming students for more than years (since Summer 2008). While programmatic evaluation of the initiative has been completed each year in the form of pre- and post-assessment surveys, program assessment and outcomes based data from the program have not truly been examined.

Findings from a longitudinal research study will be shared and implications along with next steps will be explored.

## **V - 216 Entering Students' Experience: BCSSE for First-Year and Transfer Students**

Octavius 20

**Jim Cole**

*Indiana University*

Beginning College Survey of Student Engagement (BCSSE) can now be used to survey your first-year, transfer, and older students. Since 2007, nearly 900,000 entering first-year students at more than 500 institutions have completed BCSSE. The updated web survey now includes questions specifically for incoming transfer and older students. This session will describe how data about entering first-year, transfer, and older students provides comprehensive information about your students' experiences. Institutions use BCSSE for academic advising, retention models, faculty and staff development, and other assessment needs. This session will present the new survey, revised reports, and details regarding fall and winter administrations.

## **CR - 217 Promising Practices From a Comprehensive College Transition Program**

Octavius 21-23

**Ronald Hallett**

**Joseph Kitchen**

**Gwendelyn Rivera**

*University of Southern California*

**Robert Reason**

*Iowa State University*

This session will explore promising practices concerning how a comprehensive college transition program can support low-income, first-generation, and minoritized students. The program we studied exists on three college campuses and directors tailor implementation of each program to address their students' needs. Results are presented from a five-year mixed methods study. Findings suggest that the integration and tailoring of program practices benefit students and promote desirable outcomes including validation and self-efficacy. We will share how each promising practice influences student experiences and how the integration of support in a flexible program model leads to student success.

## **FD - 218 Own It! Transforming Academic Integrity in the First-Year Experience**

Roman II

**Lori Lysiak**

*Penn State - Altoona*

Does your syllabus statement on Academic Integrity merely fulfill a requirement? Do your FYE students tune-out at the mention of Academic Integrity violations and the perils that go with it? This facilitated dialogue session will prompt frank discussion and provide insight into how FYE students may own academic integrity through self-directed online modules. Not just another extra credit assignment, this intentional learning experience is a transformative opportunity that FYE students can carry with them throughout their academic career. Participants will engage in an enlightening talk that will also explore how to keep metrics, the role of academic librarians, and the potential for micro-credentialing.

## **FD - 219 Communicating Change and Overcoming Resistance in the First-Year Experience**

Roman III

**Marsais Broadway**

**Heidi Croatt**

*Anoka-Ramsey Community College*

This session will facilitate dialogue around the challenges of creating and implementing first-year experience programs, based on it being an organizational change. Participants will share their experiences and communication strategies for identifying barriers and overcoming resistance to first-year experience programs. Referencing theory on organizational change and resistance, this session will explore topics, such as what organizational change is, what change looks like for an academic institution, the role of resistance in change, and how to communicate change, all specifically related to first-year experience programs.

## **FD - 220 Designing Learning Communities to Meet the Needs of First-Year Students**

Roman IV

**Rita Sperry**

**Chelsie Hawkinson**

**Brandi Kutil**

*Texas A&M University-Corpus Christi*

Learning communities (LCs) have been consistently recognized as a strategy for helping first-year students make a successful academic and social transition to college. However, selecting the courses to link together in LCs for first-year students can be a challenge, especially considering the growing number of students who bring in dual credit coursework. Many institutions struggle to get first-year students to register in the LCs that have been designed for them. Session participants will work together to identify strategies for designing LCs to meet the needs of first-year students in order to maximize the potential benefits from this high-impact practice.

## **CT - 221 Reducing Attrition: Integrating First-Year Experience Concepts Into Education Courses**

Florentine I

**Rhonda Atkinson**

*Valencia College*

**Debbie Longman**

*Southeastern Louisiana University*

Attrition is not just a college issue. It's an economic and employment issue, particularly true in the field of education. At Valencia College, two courses were identified and adapted to integrate New Student Experience (NSE) core concepts (6 P's) into service-learning for education majors. This session describes the process, provides insights based on student assessment responses to the experience; and identifies issues involved in adapting FYE course concepts to courses in the student's major. Research into the outcomes of the new program will be presented and discussed.

## **CT - 222 What Students Need to Succeed: Voices from First-Generation College Students**

Florentine II

**Sara White**

*Berea College Partners for Education*

**Judy Kim**

**Wendy Nealy**

*Evaluation Consulting Group*

**Heather Davis**

*Eastern Kentucky University*

First-generation students are often challenged by a lack of financial resources, academic preparedness, and cultural conflicts between home and the college community. For more than 60 years, Berea College has worked in educational success, lifting educational aspirations and building academic skills for youth in Appalachian Kentucky. Through our work, we have learned that college access and success is a multidimensional issue, particularly for our students who are first-generation college students

from rural Appalachia. This presentation will discuss social and academic concerns, from a combination of data analysis and findings from focus groups and interviews with students.

## **CI - 223 The Ichabod Success Institute: Creating Pathways for Success**

Florentine III

**James Barraclough**

**Alan Bearman** - Advocate, '17

*Washburn University*

This will session focus on the conception, development, and successful launch of Washburn University's Ichabod Success Institute. Washburn's Center for Student Success and Retention developed the Institute in collaboration with high school partners to identify and help students from traditionally underrepresented populations transition into the University. The Institute includes a five-week summer residential program, and two years of intrusive advising and support for each student. Session participants will learn how to develop similar programs and gain a clear understanding of how the successful launch of the program positively affected relations with partner schools and the success of the Institute students.

## **CI - 224 Setting the Stage for First-Generation Student Success: A Collaborative Program**

Florentine IV

**Rosan Mitola**

**Kayla Wright**

*University of Nevada, Las Vegas*

This presentation will explore the advantages and challenges of creating a bridge program for first-generation students and families. The PRIDE bridge program focuses on successful learning and study strategies including: developing a peer network, connecting with campus resources, learning information about study strategies, participating in discussions about college, and engaging with faculty. We will share details about the initiative, how it supports strategic goals for both the Academic Success Center and University Libraries, results from our assessment efforts from 2017 and 2018, and how we plan to improve and continue the program in 2019.

## 2:45 p.m. - 3:45 p.m.

## **CT - 225 Engaging Faculty in First-Year Programming**

Capri

**Kristen Garrison**

*Midwestern State University*

Research and theory about creating first-year experience programming abounds, and one of the central themes is strong faculty commitment. However, an issue constraining many institutions' efforts to build sustainable programming lies in achieving long-term faculty engagement, and very little scholarship provides guidance on how to address this pressing issue. In order to contribute to a deeper understanding of engaging faculty, we need more attention to detailed strategies about how to secure, maintain, and grow faculty support. This presentation will provide a detailed account of one mid-size, public institution's multi-layered successful efforts to include faculty in a range of first-year programs.

# MONDAY, FEBRUARY 18

## **CT - 226 Using New CAS Cross-Functional Frameworks to Facilitate a Collaborative First-Year Experience**

Milano I

**Dallin George Young**  
**Jennifer Keup**

*National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina*

**Patricia Carretta**

*George Mason University*

Responding to demands in higher education, the Council for the Advancement of Standards in Higher Education (CAS) has developed new frameworks for assessing issues that transcend one functional area. Given that collaboration and inclusion are foundational to first-year experience history, philosophy, and practice, it was selected as one of the first areas of development for these new standards. The framework offers direction for creating, refining, and assessing a first-year experience that engages multiple functional areas (e.g., student affairs, academic services and departments, enrollment management). This session will introduce the new framework and discuss its application and implications in a campus setting.

## **CI - 227 FYE Programming Beyond the First-Semester: Academics and Student Affairs Partnership**

Milano II

**Rachel Pickett**  
**Elizabeth Polzin**  
**Devan Lenz-Fisher**

*Concordia University Wisconsin*

This session will address first-year experience programming from summer orientation through the completion of the first year. At the adoption of a new liberal arts curriculum and re-imagination of the first-year seminar, academics and student affairs partnered to implement comprehensive first-year programming that would integrate academic courses and cocurricular activities. Assessment objectives were rooted in university wide learning outcomes. The program development process will be discussed, along with initial assessment data findings as they relate to student success and retention. The session will include interactive discussion and opportunity to brainstorm and explore possibilities at participants' home institutions.

## **CI - 228 Principles vs. Prejudices: Designing Your Self**

Milano III

**Colin Morris**  
**Carleigh Brower**

*Manhattanville College*

This session will present an innovative, integrative, and institutionally distinctive new model of the first-year seminar, Principles vs. Prejudices: Designing Your Self, which is being piloted at Manhattanville College in Purchase, New York. We will show how this highly integrative model seminar has created common academic and cocurricular learning experiences, reflective assignments, and an introduction to design thinking emphasizing the social action history of the college. Direct and indirect assessment data will demonstrate the impacts of this innovative seminar model on entering first-year student success rates, transition, connection to the college, retention, and self-reflection.

## **CI - 229 Student Development Theory, Not Just for Professionals**

Milano IV

**Todd Allen**  
**Reginald Bullock**  
**Danielle Nie**  
**Ashley Oxendine**

*University of North Carolina at Pembroke*

Student development theory has long been used by professionals in higher education to best serve our students but is hardly introduced to our peer educators who spend large amounts of time with new students. This session will introduce the curriculum used for training to educate student leaders including orientation leaders and first-year mentors. This interactive session will highlight UNC Pembroke's efforts to train peer educators to best support new students.

## **CI - 230 Leveraging First-Year Experience to Enhance Affinity on Your Campus**

Milano V

**Sara Quagliaroli**  
**Traci McCubbin**  
**Kate Loughlin**

*Merrimack College*

Over the last few years, Merrimack College has introduced academic success transition programs to support enrollment growth and student persistence. Promise and Drive leveraged the college's FYE as a primary vehicle for community development. This session will detail how a new team integrated the programs' learning goals with those of FYE, cultivated buy-in among faculty and senior leadership, and learned from assessment outcomes to enhance the success of these students. Participants will identify an affinity program on their campus that would benefit from more intentional connections to their FYE efforts and design an action plan to explore initial goals.

## **CI - 231 A Second Chance: The Summer Success Experience at Berea College**

Milano VI

**Chris Lakes**  
**Shalamar Sandifer**

*Berea College*

While countless measures exist to predict which students will succeed in college before they even set foot on campus, we don't always know which students will struggle until they've arrived and fully engage in the experience. Sometimes even the most promising students can get off on the wrong foot, become overwhelmed early on, and find themselves in an academic downward spiral that they have no idea how to save themselves from. In response, Berea College has created an opportunity for students to right the ship of their educational experience after a potentially disastrous first year.

## **CT - 232 Case-by-Case: A 360 Approach to Student Success**

Milano VII

**Kelly Westeen**  
**Mary Margaret Hui**

*University of Arkansas*

The 360 Program is a pilot program at the University of Arkansas, implemented in Fall 2018. It provides first-year students with socio-academic needs (identified through admissions application information) proactive, full-circle academic, financial, social, and wellness support. These students are placed within specific sections of a first-year seminar with an added component of regular, one-on-one meetings with a program advisor. This presentation will share how the 360 program was created, as well as insights and lessons learned from the first semester of this pilot program.

## **CT - 233 The Marginalizing Impact of Racial Microaggressions**

Milano VIII

**Debby Hailwood**

*Ashford University*

Microaggressions are often unintentional slights and insults which may

seem harmless, but the cumulative consequences can have a lasting impression on and contribute to the marginalization of Students of Color. This presentation will introduce participants to the types of common racial microaggressions and examine the underlying messages these microaggressions can communicate. Participants will be challenged to assess their interactions with colleagues and students and will learn how to be more mindful of the messages they are communicating.

## **CT - 234 Community First: Innovative Strategies to Impact the LC Student Experience**

Octavius 7-10

**Melissa Foreman**

**Jaci VanHeest**

**David Ouimette** - Advocate, '14

**Helena DeBald**

**Amanda Wilde**

*University of Connecticut*

The University of Connecticut has worked to build a robust learning community program to complement and enrich its first-year experience. This interactive presentation will provide an inside examination of how faculty-led learning communities have evolved, matured and been a catalyst for innovative teaching and learning practices. The role of the faculty director in establishing the academic vision for the learning environment is critical. We will discuss how Public Health House, one of our longest-standing communities, uses innovative strategies to scaffold learning for first-year students, leading to increased engagement in other high-impact practices at a public research university.

## **CR - 235 Defining Academic and Student Affairs Collaborations in RLCs**

Octavius 11

**Margaret Leary**

*University of San Diego*

**Mary Ellen Wade**

*Loyola University Maryland*

**Tina Muller**

*California Polytechnic State University, San Luis Obispo*

**Richard Gebauer** - Advocate, '15

*Cabrini University*

**Samantha Kramer**

*University of Central Oklahoma*

The popularity of residential learning communities (RLCs) has increased exponentially across campuses, but do stakeholders understand the essential role collaboration plays in RLC success? Academic and student affairs collaborations are the foundation of Inkelas et al.'s (2018) RLC best practices model. In this session, we will review results of a multi-institutional study that attempted to define a concept that can be critical to RLC success. We will discuss this definition, created with the help of academic and student affairs leaders, and additional findings that emerged. We will also introduce a guide for campuses to assess elements of their own collaborations.

## **V - 236 Rounding Some Corners – Observing Life's Oddball Ironies**

Octavius 12-13

**Robert McKenzie**

*East Stroudsburg University of Pennsylvania*

Rounding Some Corners—Observing Life's Oddball Ironies is a book for the internet age. It can be picked up, put back down, picked up, put back down. Comprised of 140 mostly humorous columns covering a wide range of topics inviting reader participation through rhetorical writing techniques including a final line of each column containing a double meaning, this book

will uniquely resonate with students. This book invites a more interactive reading experience than traditional texts because its unique design and scope of topics are highly relatable to students.

## **CR - 237 Three-Year Development, Analysis, and Implementation of a Peer Mentor Program**

Octavius 14-16

**Stephanie Persutte-Manning**

**Jessica Manson**

**Michael Graham**

**Stephanie Pergantis**

**Angela Vaughan**

*University of Northern Colorado*

Students who engage in peer mentorship opportunities are correlated with higher college academic achievement. This mixed-methods study assessed the quantitative data (including first-generation students) on persistence rates (up to 10% difference) and first-term GPA (up to 0.4 difference) of students who had a peer mentor during their first year in college versus those who did not. Qualitative data were collected to examine the impact of the program identified by students, instructors, and the mentors who participated. Information is shared outlining the results, recommendations, and implemented changes over the course of two years (including recommendations made for year three) will be shared.

## **CR - 238 Peer Mentee's Experience of a Peer Mentoring Program**

Octavius 17-19

**Nosisana Mkonto**

**Luvuyo Kakaza**

*Cape Peninsula University of Technology*

**Subethra Pather**

*University of the Western Cape*

To adjust to and function effectively in higher education, first-year students need to develop a sense of belonging and socialization into the culture of the institution. Peer mentoring can provide such support. Peer mentoring programs are credited with being able to support first-year students to adapt and engage at university. Without such support, students might feel isolated, and thus struggle to cope. This session will explore the subjective experiences of a first-year student (mentee) and how social factors in the interpersonal relationships between mentor and mentee contributed to the mentee's adaptation to the university and life in general.

## **V - 239 How To Incorporate Personal Finance Education Into FYE Programs**

Octavius 20

**Peter Bielagus**

*Wealth Educators International*

More students drop out of college because of money management problems than any other reason (Gates Foundation). Financial expert Peter Bielagus will share his tips and tricks on how colleges can incorporate personal finance into existing first-year experience programs, quickly and affordably. He will share the secrets he's used to not just educate students about personal finance, but to actually get them excited to take action. Hundreds of colleges and universities have invited Peter to speak to their students for one simple reason: He makes finance fun. In this session, he will show participants how they can, too.

## **CT - 240 Teachapalooza 2019: A Festival of Bedazzling Strategies, Tools, and Tactics**

Octavius 21-23

**Brad Garner**

*Indiana Wesleyan University*

Keeping up with the best and latest teaching strategies is always a challenge in the midst of our always busy schedules. This session will solve that problem. In an action-packed 50 minutes, participants will learn about a plethora of teaching strategies...and, in addition, receive via email, a complete description of all the shared strategies and more. This one is a don't miss. You'll laugh, you'll cry, you'll feel everything.

## **FD - 241 Success by Design: Renovating the First-Year Seminar**

Roman I

**Rebecca Campbell**

*Northern Arizona University*

Beyond implementation, the first-year seminar (FYS) typically undergoes revision as the seminar matures and needs change. Redesign efforts can be fraught with questions about learning outcomes, student and institutional needs, pedagogical practices, assessment, and faculty development. This facilitated dialogue addresses redesign issues and provides a model for redesign that launches productive conversations and efficacious revision. Participants will examine pedagogic, curricular, and structural revisions as they relate to the different types of FYS. The session will also create dialogue around identifying concrete strategies for course redesign and trouble-shoot common redesign challenges (e.g., textbook selection, faculty development and freedom, and institutional expectations).

## **FD - 242 Going Online: How Can We Ensure Students' First-Year Experience Is Meaningful?**

Roman II

**Kara Maddox**

**Jeff Wells**

**Marty Cummings**

*Georgia Military College*

More than a quarter of higher education students are enrolled in at least one online course. Online education has grown every year for more than a decade, which means many colleges have had to pivot into the online world just to keep up. In this facilitated dialogue session, we will ask the difficult question: can students have a meaningful first-year experience purely online? Facilitators share some innovative ideas and invite participants to do the same. This session will discuss all things digital ed: how do you help create the right online environment for first-year students?

## **FD - 243 De-isolated Advising: Connecting Career and Academic Advising**

Roman III

**Jose Saldivar** - Excellence in Teaching Recipient, '14

**Glenn Yri**

**Sandra Atkins**

*University of Texas Rio Grande Valley*

Career and academic advising often work in isolation, seldom collaborating to provide innovative ways of addressing both the academic and career needs of first-year students. This facilitated discussion aims to provide a space where institutions can share what they are doing to bridge the chasm created by the isolation of going it alone.

## **FD - 244 Harnessing the Power of Peer Leadership**

Roman IV

**Jimmie Gahagan**

**Lynanne Yndestad**

*Virginia Commonwealth University*

In higher education, students serving as peer leaders play a vital role in supporting many aspects of the first-year experience. Research indicates there are benefits both for the students who serve as peer leaders and those they support. In this facilitated dialogue, we will share ideas about how to harness the power of peer leaders through ongoing training, recognition, networking, and career development. Participants will have the opportunity to learn from one another's experiences and share their ideas and best practices.

## **V - 245 How to Use Texting to Nudge and Engage First-Year Students**

Florentine I

**Arianna Hartmann**

*Signal Vine*

**Marcy Glassford**

*Utah Valley University*

Utah Valley University began using Signal Vine's text messaging platform in Fall 2018 as an engagement tool to support their first-year students. With 24% of first-year students being first-generation, UVU has a large number of entering students who need additional guidance as they transition into their first year. Through their use of nudge technology, UVU has been able to increase the engagement of this population, as well as their entire incoming class of first-year students. This session will focus on the initial impact that the FYE department has seen thus far through their texting program.

## **CI - 246 Using the CSI to Predict Student Success**

Florentine III

**Sheila Howard**

**Sharon Gibbs**

**Matt Spring**

**Josh Skinner**

*University of Dallas*

Wondering if administering the CSI to incoming students is worth the cost? Participants will share how the University of Dallas, a small Catholic liberal arts university is using the CSI to help with retention and success of new students. We will discuss, how we determined the test group of students, results that we observed from the test group, arguments for offering the CSI to the entire incoming first-year class and what we have done with the individual student reports.

## **CI - 247 Jump-Starting First-Generation Student Success Through Early-Arrival Programs**

Florentine IV

**Ivory Levert**

**Eric Jaburek**

**Louise Vasher**

*Ohio State University*

First-generation college students face unique challenges in their transition to college related to their academic and social integration into the university. These challenges, if not addressed, can negatively impact their ability to optimize their time, institutional resources, and sense of belonging on campus. In order to mitigate these challenges at The Ohio State University, Buckeyes First was developed, an early arrival program for first-year first-generation college students. Participants will learn more about the history, implementation, and impact of Buckeyes First on first-generation student success.

## CT - 248 Career Pathways: Recruitment, Advising and Supporting Career Programs

Florentine II

**Michelle Waters**

**Evonne Carter**

*College of The Albemarle*

To address this “skills gap” in technical programs as well as declining enrollments, College of The Albemarle has “retooled” efforts to recruit high school students and help them understand and appreciate the value of enrolling in technical programs. This presentation will share the success we have experienced in these “pre-first- year” strategies as well as support in the first year. Strategies include: Advanced Manufacturing day, summer camps, employer open houses, college signing days, dedicated career recruiters, college liaisons, internships, curriculum pathways, and scholarships. These concerted efforts have resulted in an upswing in enrollments and employer satisfaction.

## REFRESHMENT BREAK | 3:45 PM — 4:00 PM

*Forum Ballroom Foyer*

## 4:00 p.m. - 5:00 p.m.

## CT - 249 Reading the Globe: Connecting Your Common Read to the World

Messina

**Hayley Kazen**

*Texas A&M International University*

The common read can connect students to the world! Connecting the classroom to the population students are reading about will help deepen their understanding of issues related to their common read. Using new Google Sites, you can create a website where students in your classroom and in classrooms across the country or world can read about issues, watch relevant videos, post responses to teacher-directed questions, ask questions of other students, and respond to other students' posts in writing or through video. Connecting students to others will help students get the most out of the common read.

## CT - 250 Wicked Competencies: Design Thinking in the First-Year Seminar

Capri

**Margaret Konkell**

*Montana State University*

Wicked competencies promise the ability to deal with tools, technologies, and parameters in constant flux (Handstedt, 2018), and it is argued that students need exposure to the complexities of creative problem solving earlier in their college experience (Razzouk & Schute, 2012). A pilot first-year seminar course, the foundation of a longitudinal research project, incorporates design thinking as a means toward the critical thinking skill development traditionally celebrated in first-year experience. The presentation will review course design, share student work, identify assessment outcomes, and outline planned future research.

## CT - 251 First-Generation Student Success: A Landscape Analysis of Four-Year Institutions

Milano I

**Sarah Whitley**

*Center for First-Generation Student Success, NASPA*

The Center for First-Generation Student Success, an initiative of NASPA and The Suder Foundation, recently released findings from a national landscape analysis of first-generation student success programs at four-year institutions. This session will provide an overview of findings, explore the first-generation identity, examine the shifting institutional approaches and priorities for serving these students, and consider lessons learned from campus initiatives. The presenter will specifically explore findings relevant to the first-year experience and offer recommendations for advancing systemic and institutional change.

## CT - 252 Striving for Success Without Sacrificing Personal Well-Being

Milano II

**Sasha Billbe**

*Arizona State University*

Often, high-achieving and gifted students have rigorous and unforgiving expectations of themselves. Their understanding of their self-worth seems to be grounded in how many accolades they can collect and how well they perform on any type of measured assessment. Students with maladaptive perfectionism are shown to have little self-compassion and often experience psychological distress that accompanies unhealthy achievement motives. Barrett, the Honors College, has cultivated initiatives to help students develop stronger self-compassion which directly improves their overall wellness. This session will show methods to coach and support students to strive for success without sacrificing their personal well-being.

## CT - 253 Bringing the 21st Century Into the First-Year Experience

Milano III

**Charminta Brown**

**Jennifer Gebelein**

*Florida International University*

The intersection of 21st century and critical life skills in the redesigned first-year experience course at FIU paves the way for new approaches to student engagement and success both in students' academic and post-graduation careers. In this session, we will engage participants in transforming their first-year course to an active learning environment. The methods we will showcase include retraining instructor mindsets from traditional to active learning styles, balancing 21st century skills with crucial life skills to ensure academic and personal success, and managing expectations of instructors and students.

## CT - 254 A Developmental Approach to Addressing Homesickness in First-Year Students

Milano IV

**Becky Koch**

*Kirkwood Community College*

First-year students face a multitude of obstacles when preparing for college, one of which is leaving home, often for the first time. Through a developmental advising model, institutions can help students both prepare and cope with the transition into college. Participants will learn why Generation Z is particularly susceptible to homesickness and how they can use their role to help students overcome homesickness and be successful in college.

## **CT - 255 Factors That Support International Student Retention Beyond Orientation**

Milano V

**Andrew Brewick**

*University of Idaho*

**Hamoon Babachahi**

**Sharla Reid**

*Simon Fraser University*

International students create a more enriching learning experience that supports development of cultural competencies, critical thinking, and global networks among all students. They are also a vulnerable first-year population facing unique language and cultural barriers. Most institutions believe orientation programs best foster international student integration and retention, yet only 22% of students agree (2014 NAFFSA survey). This session will explore the current environment for international students via the International Student Integration Index and provide examples of instructional practices and policies, support services, and integration initiatives to guide attendees in developing an inclusive experience that supports international student retention.

## **CT - 256 Your Peer Advisors Do What?**

Milano VI

**Jared Meitler**

*Kansas State University*

Doing more with less is common on campuses as higher education faces decreasing financial support from the state and federal government. Therefore, units must continue to seek strategic ways to support students with fewer professional staff. Participants will hear how an institution has supported the major and career exploration needs with highly motivated peer advisors who meet with students individually and co-teach in the classroom. Theoretical frameworks used by peer advisors, as well as information about recruitment, training, and supervision will be shared. Career advisors, undecided advisors, and individuals that lead peer advisors, can find useful information by attending.

## **CI - 257 Implementing a Default Management Plan at a Minority-Serving Institution**

Milano VII

**Lawrence Brown**

**Jennifer Collins**

**Nigel Edwards**

*Florida Agriculture and Mechanical University*

This session will examine how a minority-serving institution was able to cut its default rate in half by implementing a first-year financial literacy program. The presenters will discuss how integrating financial literacy into a first-year seminar has increased borrowers' awareness and has led to a unique and robust First-Year Financial Literacy program that includes two full-time debt counselors, student financial aid ambassadors, an online financial literacy program, and the award of a financial literacy grant from the U.S. Department of Education. A question and answer period will follow this presentation.

## **CI - 258 Ready to Level Up? HIPs Taxonomy for Learning Communities**

Milano VIII

**Lisa Angermeier**

**Heather Bowman**

**Michele Luzetski**

**Amy Powell**

**David Sabol** - Excellence in Teaching Recipient, '11

*Indiana University - Purdue University Indianapolis*

This session will focus on the ways IUPUI leverages a high-impact practice (HIP) taxonomy to address program quality, fidelity, and student success outcomes. While initial taxonomy implementation efforts focused on determining program fidelity, ongoing work has focused on strategically increasing the quality of every learning community through data-informed decision making. The taxonomy project provides opportunities for program assessments regarding quality, fidelity, student satisfaction, professional development needs, and student success outcomes. As the scaling of HIPs to provide access and equity are an issue in the forefront of education, a taxonomy can be the key to leveling up your learning communities.

## **CI - 259 No Risky Business: Intervention Strategies to Support At-Risk Students**

Octavius 7-10

**Mary Beth Allen**

**Chris Fortunato**

**Aisha Powell**

*East Carolina University*

East Carolina University is the largest College of Business (CoB) in North Carolina and is accredited by AACSB. The first year is critical to students as they are required to meet mandatory requirements to be retained within the CoB. This session will discuss an intervention program designed to retain students in the CoB. The program includes a seminar class with individualized academic advising, peer mentoring, and specialized course material as well as targeted intervention workshops for students identified as academically at-risk. The presenters will discuss results and how similar programs can be implemented at other institutions.

## **CI - 260 Leave It to Peers: Using Peers to Lead Difficult Conversations**

Octavius 11

**Rebecca Kaze**

**Mike Dial**

*University of South Carolina*

University 101 (U101), the nationally recognized first-year seminar at the University of South Carolina, is taught by both a staff or faculty instructor and an undergraduate peer or graduate leader. Peer leaders are strategically trained to facilitate open dialogue about high-risk behaviors associated with alcohol and other drugs. This session will discuss the U101 alcohol curriculum, strategies employed in the training of peer leaders for this lesson, and other challenging situations where peer leaders can contribute meaningfully. Participants will leave with tangible examples of successful practices at USC and opportunities for application of those practices at any institution.

## **V - 261 Captivate, Fascinate, and Educate: Bridging the First-Year Experience**

Octavius 12-13

**Ellen Zimmerman**

*Parkland College*

Engage students from the moment they enter your classroom. Increase student interaction. Create a first-year experience course that you love to teach. This session will provide first-year experience instructors and department chairs with high-impact teaching practices and curriculum. Bridging first-year experience offers instructors the ability to use current research, videos, articles, and lesson plans all in one place while keeping curriculum standardized, and providing instructors with the tools to teach in the modality they prefer.

## CR - 262 Resiliency of High-Achieving Students in Their First Year of College

Octavius 14-16

**Sarah Popovich**

*University of Pittsburgh*

High-achieving students often face high expectations and pressure to do well in college despite facing academic and social challenges. This session will present results from a recent phenomenological study which explored how high-achieving students experience resiliency in their first year of college. This session will provide opportunity for discussion and sharing of best practices on this topic.

## CR - 263 Early Academic Experiences of First-Year Emirati Male College Students

Octavius 17-19

**Adam Jeffers**

*Zayed University*

This research examines academic experiences of first-year Emirati male students at Zayed University in the United Arab Emirates. All participants attended schools in the UAE and entered their first-year experience at the college level. Participants volunteered to share early academic experiences from their K-12 schooling. Data were collected from surveys and questionnaires at the beginning of the semester. Individual and group interviews were later conducted during the middle of the semester. Data reveal historical patterns of academic success with traditional academic instruction as well as how the introduction of international instruction may influence students' approach and understanding of the educational process.

## V - 264 A Principle-Based Approach for Teaching Life Skills to First-Year Students

Octavius 20

**Joel Gardner**

**Phyllis Kowis**

**Julie Larkin**

*FranklinCovey Education*

Many students underperform or drop out of college because they lack both a vision for their education and the self-management and life skills necessary to accomplish that vision. Research has identified lack of essential life skills as a top reason students fail to succeed in college. Students who lack life skills struggle to balance work, family, and school responsibilities; resolve relationship conflicts; manage personal finances; set and achieve academic goals; and maintain physical and emotional wellness. Discover the transformational results students and institutions are experiencing using 7 Habits of Highly Effective College Students as a resource for FYE courses.

## CR - 265 It Takes a Village, People! Campus Collaborations Supporting Student Success

Octavius 21-23

**Amy Ingram**

**Sissy Speirs**

*Auburn University at Montgomery*

Colleges and universities continue to focus efforts on student success. Research persists, programs launch, and yet students still find themselves pulled in many directions without a connecting foundation. AUM's FYE course (UNIV) is the campus melting pot where faculty, staff, and services unite to educate the whole student. By including the entire campus, particularly student affairs, in discussions, development, and implementation of UNIV, the university benefits. From the Career Development Center, to the Office of Human Resources, these collaborations providing professional development and supplemental

instruction lead to increased retention and graduation rates. It truly takes a Village, People!

## FD - 266 Theory of First-Year Student Engagement

Roman I

**Craig Smith**

*Montgomery County Community College*

Continued research on the first-year experience of students entering higher education is necessary and can provide a deeper look at institutional and individual factors that first-year students may encounter and that impact their academic success. The role of the first-year experience program in student persistence will be discussed in this presentation. The theoretical underpinnings used to develop successful first-year student engagement programs/activities will also be discussed.

## FD - 267 What Keeps First-Year Students From Getting the Help They Need?

Roman II

**Sawa Kurotani**

*University of Redlands*

Early detection of academic challenges is essential for improved student persistence and success, especially for first-year students, who are new to the institution and its resources. However, the outreach effort often encounters reluctance—even refusal—to take advantage of support services that they desperately need. What can we do, then, to help first-year students recognize their own potential and become motivated to take forward-looking actions, at the very moment of serious doubts about their own abilities to succeed in college? This session is an opportunity to share our experiences and consider effective strategies to engage first-year students at risk.

## FD - 268 Highlighting Academic and Social Belonging within First-Year Seminar Courses

Roman III

**Darolyn A. Flaggs**

*Kennesaw State University*

You have probably thought to yourself at least once, I wish I would've known that my first year in college. You have also probably heard students question why they had to take a first-year seminar. Highlighting the importance of academic and social belonging within the first unit may provide greater student receptiveness throughout the course. This facilitated discussion will include ways to promote these themes and describe possible benefits of early integration. Participants will have the opportunity to share ideas and brainstorm techniques and activities that enhance students' personal growth via their academic and social belonging.

## FD - 269 Let's Hit the Books: Expanding Common Read Partnerships and Programming

Roman IV

**Katelyn Angell**

*Long Island University, Brooklyn Campus*

This facilitated dialogue will focus on developing critical campus partnerships between the academic library and other campus departments around the first-year common read. The moderator will discuss key collaborations and programming from her position as first-year success librarian. Specifics include planning events related to the common read and its themes, creating learning objects for first-year students and pedagogical tools for instructors, and holding a position of leadership in the common read committee. The objective of the session will be the sharing of ideas by a variety of campus stakeholders on how to best support common read initiatives.

## **CT - 270 Service-Learning as Support for Community College Students' Goal Discernment**

Florentine I

**Erin Riney**  
**Gabby McCutchen**

*Durham Technical Community College*

Since 2014, Durham Technical Community College has used, monitored, and evaluated service-learning in its FYE course. During this presentation, attendees will learn how the cycle of goal discernment frames our first-year experience course; reasons to include service-learning in FYE curriculum; and methods for including service-learning to help students' academic and career goal discernment. We will additionally share students' self-reported evaluations of first-year service-learning experiences on their academic and career goals; how to scale a service-learning program, especially for colleges with small or nonexistent community engagement offices; and how integrating service-learning in FYE course differs for community colleges compared with four-year institutions.

## **CI - 271 RU Focused? Career Readiness for First-Year Students and Peer Educators**

Florentine II

**Lyn Baier**  
**Susan Bennett**  
**Kat Whitaker-Goodman**

**Janelle Raymundo**  
*Rutgers University*

Rutgers First-year Interest Group Seminars (FIGS) guide first-year students through an exploration of an academic discipline, common transition challenges, career development, and campus resources. FIGS promote the professional development of both first-year students and peer instructors, using career competencies from the National Association of Colleges and Employers (NACE) as a framework. We will share insights from our use of a career-matching platform (Sokanu) and in-class activities promoting the self-awareness of first-year students as well as lesson plans and reflection assignments articulating the transferable skills of our peer instructors. We will demonstrate the program's impact by sharing assessment tools and data.

## **CI - 272 The Early Bird Gets the Worm: Pre-Fall First-Year Seminars**

Florentine III

**Cheyenne Rogers**  
**Emily Shreve**  
**Dan Gianoutsos**

*University of Nevada, Las Vegas*

Research shows that first-year seminars are most effective when taken during or before the first college experience. Yet, logistical issues such as federal financial aid policies, classroom space, and staffing make it difficult to serve all incoming first-year students early in their academic career. Our solution is a unique three-credit FYS offered during the four weeks prior to the start of the fall semester, while counting as course credits applied to the fall tuition bill. Using preliminary data and reflection, FYS leaders will demonstrate how this pre-fall FYS at a large, public, research-university was developed, implemented, and assessed.

## **CI - 273 Academic and Student Affairs Collaboration Through an Early-Arrival Program**

Florentine IV

**Elizabeth "Buffy" Stoll Turton**  
**Christina Fitzpatrick**

*Miami University*

First-year early arrival programs support student transitions by promoting students' connections with peers, mentors, involvement opportunities, and the campus and local environments before the start of the academic term. These programs have even more potential for impact when academic and student affairs collaborate effectively, and when participants engage with people, ideas, and resources that facilitate both academic and cocurricular transitions. This session will explore one cooperative early-arrival program that involved departments of Political Science, Psychology, Business Management, and Orientation and Transition as well as the local community. Presenters will discuss collaborative program development, funding, assessment, and student experiences.

---

**5:15 p.m. - 6:15 p.m.**

## **CI - 274 88 from Glum to Great: Students Rate Common Reading Books**

Messina

**Tom Carskadon** - Advocate, '94  
*Mississippi State University*

We will explain a specialized methodology for rating potential common reading books and then share systematically obtained data from representative samples of first-year students who read and rated 88 possible choices for common reading books, including many common reading books most frequently adopted nationwide in recent years. Some books get a definite yes, others a definite no, and some a qualified maybe. Specific, practical suggestions for program success will be provided, along with individual book ratings data that are, to our knowledge, unavailable anywhere else. Participants are welcome and encouraged to share their own common reading experiences at this session.

## **CT - 275 Implementing Library Research Modules in F2F and Online First-Year Experience Courses**

Capri

**Karina Calderon**  
**Jaclyn Darrouzet-Nardi**  
**Ann Gabbert**  
**Joanne Kropp**  
**Monica Martinez**

*University of Texas at El Paso*

The University of Texas at El Paso is a Hispanic-serving, four-year, research-intensive institution whose students are primarily first-generation college attendees and Pell Grant eligible. FYE instructors worked closely with librarians to create a comprehensive library research module for first-year students. The module includes a course-specific library guide, three online video tutorials and quizzes, an interactive scavenger hunt, and two structured library sessions. In this session, we will discuss the development of the library research module and its implementation in both F2F and online classes. This module serves as a blueprint that may be adapted for use at other institutions.

## **CI - 276 Re-Envisioning First-Year Academic Advising**

Milano I

**Paige McKeown**  
*University of South Carolina*

In this session, attendees will learn about the University Advising Center and First-Year Advising model at the University of South Carolina. Topics discussed will include the Advisor Coordinating Taskforce of 2015 and their six key recommendations, standardized vs. centralized advising, in-house training and certification programs for advisors, global communication planning, a look at national best practices, and impact and assessment data gathered.

## **CT - 277 Redesigning America's Community College Orientation: Thinking Beyond a Workshop**

Milano II

**Molly Ward**

**Brittany Barrett**

*Columbus State Community College*

Changing the culture of an institution can be a challenge. Changing how individuals view the way students should be onboarded and welcomed to an institution takes special care and attention. This session will discuss the success and development of a half-day community college orientation program from the ground up. Information will be presented about the data selected to track students and how the program evolved during a multi-year pilot. Spoiler alert—students who attended have a significantly higher GPA than those who attended a 2 1/2-hour workshop! The good, the bad, and the ugly will all be shared!

## **CI - 278 Helping Students Get Back on Track: An Academic Probation Program**

Milano III

**Renée Sefton**

**Kia Kuresman**

*York College of Pennsylvania*

Each year, many first-year students find themselves on academic probation due to a variety of academic, social, and/or personal factors. Developing ways to support students through the process of achieving good academic standing can be challenging and just as unique as the students themselves. This presentation is designed to share with you one high-touch, goal-orientated, personalized approach that has demonstrated excellent results—both quantitative and qualitative—at a small, private institution.

## **CI - 279 Why Are We Here? A Seminar in Finding Academic Purpose**

Milano IV

**Elizabeth Bleicher**

*Ithaca College*

This session will offer a deeper dive into one of the first-year seminars featured in the National Resource Center's 2017 volume on best practices in first-year seminars. It will provide a detailed overview of the principles, structure, results and replicability of a successful first-year seminar designed to use high-impact practices to increase student engagement and empower students to become intentional learners. A description of course structure, methods, student learning outcomes, and assignments is followed by student, faculty, and institutional assessments and examples of spin off programs and courses to which the seminar has given rise.

## **CI - 280 Incorporating Teaching Fellows to Support Success for First-Year Students**

Milano V

**Kesha Lee**

**Kharisma Black**

*North Carolina Central University*

**David Hood**

*Montclair State University*

Student engagement and mentoring are critical components to support student success. This session will provide an overview of the components needed to implement a Teaching Fellows Program (TFP) within the First-year Experience. The TFP supports high-impact practices and engage both the first-year student and the peer mentor. The fellows serve as teaching assistants in the first-year seminar during the fall semester. They continue serving as peer mentors during the spring semester. This session will provide the essential elements, training components, and the

programmatic structure to incorporate a teaching fellows program in a variety of institutional contexts.

## **CI - 281 Teaching and Demonstrating Leadership to First-Year Students**

Milano VI

**Luanne Westerling**

*Nichols College*

The mission of Nichols College is to build tomorrow's business leaders. Drawing on NACE reports that identified leadership as being among the top attributes sought by employers we developed a leadership program to strengthen our students' leadership skills and experiences. A three-credit, first-year course Learning to Lead is the gateway to a non-academic leadership program that spans the remainder of a student's academic career, culminating with a senior-year leadership summit experience, as well as a leadership designation upon graduation.

## **CI - 282 Cultivating a Community of Success: Integrated Teaching, Advising, and Programming**

Milano VII

**Rebecca Serrano**

**Casey Shadix**

*University of Kentucky*

In this session, presenters will share a highly integrated and purposeful system of courses, advising, and cocurricular programming focused on first-year student retention in highly selective and academically rigorous programs of study. The presenters will detail how their unit has leveraged individual professionals' strengths and interests to provide students with the skills they need to develop a sense of belonging and capability in their new community. By practicing high-touch advising, offering timely cocurricular programs, and strategically enrolling students in first-year courses as a cohort, the University of Kentucky College of Health Sciences has become a model for student success.

## **CT - 283 Joining Forces: How Case Management Improves the First-Year Experience**

Milano VIII

**Zulmaly Ramirez**

**Ashley Dees**

**Shane Combs**

**Cesar Cruz Benitez**

**Katie Kosmoski**

*University of South Florida*

This session will address the use of a case management model to identify and support first-year students. Presenters will discuss how the case management model, along with the use of predictive analytics, evolved at their institution and the multi-pronged approach they have taken to identify students in order to provide the right support at the right time to address persistence. A panel of first-year care team partners will share their experience on how this model has connected their services with students to create a holistic first-year experience and improve student success.

## **CR - 284 Peer-to-Peer Diversity Education for First-Year Students: Implications for Practice**

Octavius 11

**Carrie Allen**

*University of Illinois at Urbana-Champaign*

This qualitative study examined the experiences of 13 undergraduate students who facilitated diversity workshops for first-year students during the spring semester of 2017. The study's findings reveal the implications of tasking undergraduates with the sometimes difficult work of teaching other students about diversity and identity as they simultaneously undergo their own critical period of development. This session explores these implications and offers suggestions for improving peer-facilitated diversity programming for first-year students.

## **V - 285 A Holistic Model of Support for Serving Military-Connected Students**

Octavius 12-13

**Terry Arndt**

*College Transition Publishing*

**Ross Bryant**

*University of Nevada, Las Vegas*

It is not enough to have a miscellaneous group of resources available to student veterans if the services don't work together. Many veterans have multilayered needs and require a spectrum of assistance along with a go-to ally on campus who they trust. The purpose of this panel presentation is to get straightforward information regarding the types of comprehensive services that should be available to veterans along with recommendations on how to build synergy among these services.

## **V - 286 Student Engagement: Insights to Foster Success and Belonging**

Octavius 20

**Jenny Baumgartner**

**Steve Pemberton**

*HarperCollins Leadership*

Draw insights and educational practices from Steve Pemberton and his best-selling memoir, *A Chance in the World*, to support academic success and a sense of belonging in first-year students, especially among academically and demographically diverse populations.

## **FD - 287 Creating a Decision-Making Pathway in the First Year**

Roman I

**Shelly Laurenzo**

**Lauren Garrett**

**Kelly O'Shaughnessy**

*College of William & Mary*

At William & Mary, the Office of Academic Advising, Cohen Career Center, and the Office of First Year Experience have begun offering collaborative programming to engage first-year students in academic major and career decision making. While still early in the process, this discussion aims to help identify best practices for similar collaborative efforts at fellow liberal arts institutions. The goal is to lead an open dialogue to discuss the various opportunities, pitfalls, and resources for academic major and career decision making across a student's first-year experience.

## **FD - 288 Making it Work: Developing Minority Male Initiatives at a PWI**

Roman II

**April Barnes**

**Michael Nava**

**Reymundo Ramos**

*Texas State University*

This facilitated discussion will provide an avenue for educators to discuss best practices in developing/implementing an innovative Minority Male Initiative. Retention and graduation rates for men of color is a common issue across the nation. While there is a plethora of research dedicated toward closing the gap for minority male students, there is a lack of practical solutions with tangible results on a large scale. Whether participants are looking for new ideas or have an established program, this session will offer a forum to discuss the challenges and triumphs of working with this population, but more importantly, of working together to create solutions.

## **FD - 289 Orientation Program Techniques for Smaller Institutions**

Roman III

**Shane Pruitt**

*Oglethorpe University*

**Ira Lawson**

*Rhodes College*

When considering smaller institutions, orientation programs can vary as much as the colleges and universities themselves. What works on one campus can fall flat at another. This dialogue is offered by program directors from two unique institutions—serving fewer than 3,000 students—as a conduit for participants to share differing approaches being taken on their campuses to accomplish effective orientation programs.

## **FD - 290 Create Your University Common Read**

Roman IV

**Matthew Ebbott**

*Western State Colorado University*

Assigning a common read may be seen as a challenge to academic freedom. We have found the balance by creating our own place-based common read that is a resource for all instructors in our first-year seminar classes and helps connect first-year students to the university and community. The presenter will share how Western created their common read and guide participants in creating one for their own campus.

## **V - 291 Mindset: Do They Really Believe They Can Achieve?**

Florentine I

**Jahmad Canley**

**Ladonte King**

**Colton Woo**

*LAUNCH Student Success*

Success, it is what we want for all students! In fact, it is the reason we are here. Have you ever wondered why it seems that some students struggle despite having a ton of potential and resources at their disposal? Research tells us that the answer to this question is often mindset. This interactive presentation will go beyond stating the research to share tangible strategies on how to use cognitive science and technology to teach this important skill set to students in the critical first semester.

## **CR - 292 Impact of Peer Mentors on Student Success**

Florentine II

**Dyan Robinson**

*Southern Connecticut State University*

Almost half of the students who begin college are not retained at the

institution where they first enrolled. The purpose of this research is to evaluate the perceptions first-year college students have about the impact of peer mentors on student success during the first year. This study will use the College Student Mentoring Scale to measure four domains that are factors in first-year student success: (a) Psychological and Emotional Support, (b) Degree and Career Support, (c) Academic Subject Knowledge Support, and (d) the Existence of a Role Model.

## **CR - 293 It's Not Too Early To Be Thinking About Internships**

Florentine III

**John Pryor**

*Pryor Education Insights*

Internships, and other experiential education opportunities, are some of the most powerful experiences students can have in college. They allow students to apply knowledge learned in their academic programs and are correlated with greater engagement with work later in life. This research project details the ways in which institutions support, or fail to support, students in internships. An important take away from this project is that students need to understand the importance of internships as early as the first year and how institutions can support students in this endeavor. This is especially true for students of color and other underrepresented groups.

## **CI - 294 Navigating Challenges and Achievements: Creating a Conditional Admission Program**

Florentine IV

**Catherine Willoughby**

**Linsey Koeritz**

*University of Cincinnati Blue Ash College*

University of Cincinnati Blue Ash College has a conditional admission program called the College Program for Academic Success (CPAS) designed to provide at-risk students with support in college. CPAS is an intensive, multi-pronged approach that includes a proactive advising model to help increase persistence and retention of at-risk students. This presentation outlines the assessment metrics that are used to identify the population, qualitative assessment for decision making throughout term, redefining success and areas of change for the program due to assessment, and institutional initiatives that have been established because of the College Program for Academic Success.

## **5:15 p.m. – 6:30 p.m. Featured Sessions**

### **FS - 295 Becoming a Learner: Aligning Student Expectations with Institutional Mission**

Octavius 14-16

**Matthew Sanders**

**Harrison Kleiner**

**Heidi Kesler**

*Utah State University*

The key to increasing student retention, especially in the first year, is aligning student expectations with the mission of higher education. However, this is a significant challenge because nearly all students assume that college equals professional job training. This results in significant confusion and frustration about general education and the whole degree, which often leads to students leaving our institutions. This session discusses institution-wide efforts to align students' expectations with institutional mission. Presenters will explain various interventions in FYE programs and share assessment data that shows the effectiveness of this message on improving student motivation, efficacy, satisfaction, and retention.

### **FS - 296 Turning ON Inspiration: Successful Strategies of Outstanding First-Year Student Advocates**

Octavius 17-19

**Jennifer Keup**

*National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina*

**Adrienne McCrory**

*Cengage*

This session will center on an interactive and open discussion with the recipients of the Outstanding First-Year Student Advocates award, co-sponsored by the National Resource Center and Cengage. These award recipients are being honored for doing exceptional work in the areas of student learning, development and success. During a panel discussion, the award recipients will respond to questions about the challenges of teaching college success and will share their best practices, instructional methodologies and stories of student success on their campuses.

### **FS - 297 Designing a Motivational Syllabus**

Octavius 21-23

**Christine Harrington** - Excellence in Teaching Recipient, '16

*New Jersey City University*

**Melissa Thomas**

*University of Texas*

Discover how the syllabus can be used as a motivational tool. Research based ideas on how to construct an effective syllabus that will engage and motivate students will be shared. Participants will walk away with a fresh perspective on the value of the syllabus and several easy to implement strategies that can increase student success. Resources such as a syllabus checklist will be shared.

### **Outstanding First-Year Student Advocates Reception**

7:00 p.m. – 8:00 p.m. | LOCATION GOES HERE

*Co-sponsored by Cengage*

By invitation only. All current and past first-year student advocates are welcome.

# CENTER FOR FIRST-GENERATION STUDENT SUCCESS

AN INITIATIVE OF NASPA AND THE SUDER FOUNDATION

The Center is the premiere source of evidence-based practices, professional development, and knowledge creation for the higher education community to advance the success of first-generation students.

## STRATEGIC PRIORITIES INCLUDE:

- Comprehensive landscape analysis of first-generation programs and services
- Dynamic web interface to provide centralized resources, best practices, and access to offerings
- Advancing first-generation scholarship and practice through conferences, workshops, and events
- Recognition program featuring cohort-based professional and program development
- Community of practice for idea sharing, innovation, and support
- Toolkits for creating student workshops and faculty/staff training

7:30 a.m. – 11:00 a.m.

Forum Ballroom Foyer

**Continental Breakfast**

7:30 a.m. – 9:00 a.m.

Forum Ballroom Foyer

**8:00 a.m. – 9:00 a.m.****CR - 298 Program to Promote Success for International Students**

Milano I

**Nicole Lamers****Jenny Tsai Chen Lee****Alia Muhammed***University of Illinois – Urbana Champaign*

The purpose of our research is to explore how a first-year experience course designed for international students can influence their retention and achievement and build their confidence and feeling of confidence with the campus community. The goal of the course is to create more intentional integration of international student perspectives on campus.

**CR - 299 Learning Strategies as a Pathway to Community College Success**

Milano II

**Valerie Mann***Johnson County Community College*

Learning how to learn can change academic outcomes for community college students. Johnson County Community College's learning strategies classes have content-applied strategies and use best practices to teach students the skills they need to be successful in their academic pursuits. Repeated studies show dramatic results for students who participate in learning strategies, both in the long and short term.

**CT - 300 The Role of Counseling in Onboarding Community College Students**

Milano III

**Carmen Soto****Kirby Dominguez****Kevin Akiyama****Carolyn Sevilla****Andres Gonzalez***East Los Angeles College*

Meaningful onboarding experiences in a community college student's first year are critical to their success and retention. Through the use of onboarding techniques and effective student-centered events such as student acceptance and extended orientations, East Los Angeles College counselors integrate new students to a large and diverse campus environment. Counselors provide a guided entry and transition of students to their second year. By the end of this session, participants will develop awareness of how to better serve a first-generation Latinx population and how to best leverage existing services and programs to accommodate to the needs of first-year students.

**CANCELLED****CT - 301 Strategies to Promote Community Building in a First-Year Seminar**

Milano IV

**Sandy Greene****Katie Hopkins***University of South Carolina*

In University 101 Programs at the University of South Carolina, community building is viewed as one of the most critical aspects of our first-year seminar. Creating an inclusive classroom community that promotes sense of belonging has the power to positively impact student learning, success, and persistence to the second year and beyond. Community building should not be an after-thought. It should be integrated intentionally into the course from the first-day to the last. Presenters will share strategies that can be used to effectively build community through group work, meaningful assignments, and activities both in and beyond the classroom.

**CT - 302 Common Experience for All: Theme-First Approaches Drive Engagement**

Milano V

**Twister Marquiss****Erika Nielson***Texas State University*

While many institutions find challenges in engaging students in first-year academic programming and common reading, Texas State University's Common Experience has successfully implemented a theme-first approach for more than 14 years. By cultivating campus partnerships, Texas State presented 180 themed events in 2017-18. In summer/fall 2018, it provided 8,200 copies of its common reading book to new students and others, fostered reading in University Seminar classes, and presented months of themed academic programming — including an Innovation Week featuring 54 events (multiple sellouts). The directors of the Common Experience will present their strategies for engagement and scalability for other institutions.

**CT - 303 Effectively Engaging Faculty in First-Year, First-Generation Student Programming**

Milano VI

**Garrett Nagaishi****Martha Wilson***Utah Valley University*

Both student and academic affairs professionals understand the importance of engaging with our students both inside and outside of the classroom. But building collaborative partnerships between academic and student affairs is not always straightforward. In this session, we will discuss ways that our I Am First initiative has effectively included both staff and faculty in the planning and delivery of our first-year, first-generation student services. With the help of one of our faculty mentors, this session will provide ideas and strategies for recruiting and engaging more faculty in our student affairs programming.

**CT - 304 Power of One: Ensuring Student Success Without a Large Staff**

Milano VII

**Christopher Kohl***Tennessee Technological University*

Academic departments or colleges often desire to have their own success center to oversee advising and retention initiatives for their majors. Due to budget cuts and staffing issues, this is not always possible. This presentation will showcase how the College of Agriculture and Human Ecology at Tennessee Tech has promoted student success and increased retention without requiring a large staff.

## **CT - 305 Using Motivational Interviewing Techniques with FYE Course Students**

Milano VIII

**Chris Tankersley**

*Kent State University*

Have you found yourself hitting roadblocks when you are trying to have a difficult conversation with a student? Have you had a recent conversation with a student who was unwilling to budge on their point of view? Do you struggle with keeping up in a conversation and offering helpful advice? Motivational interviewing techniques could be your ticket to having transformative conversations. This session will cover the basics of motivational interviewing techniques, uses for practitioners in student affairs, and ways collaborative conversations can strengthen a student's motivation and commitment to change.

## **CT - 306 Student Risk Factors: Identifying and Supporting Students Through Academic Barriers**

Octavius 7-10

**Cesar Cruz Benítez**

*University of South Florida*

This session will discuss the emerging trend of using a case management model approach to support student success for first-year students. Presenters will discuss how the case management model evolved at their institution, as well as the multi-pronged approach they have taken to identify specific students in order to provide the right support at the right time to address student persistence and progression issues through an intake process. Presenters will elaborate on how the intake process has been an added support to the case management approach, first-year cohort student tracking, and how they work with academic advocates on student issues.

## **CI - 307 Selling Yourself to Yourself: E-Mindsets and Portfolios in First-Year Engineering**

Octavius 11

**Kali Morgan**

**Cristi Bell-Huff**

**Todd Fernandez**

**Joe Le Doux**

*Georgia Institute of Technology*

During their college career in the Biomedical Engineering Department at Georgia Institute of Technology, students will integrate their co-, extra-, and curricular experiences into a portfolio showcasing artifacts, reflections, and stories about their college experiences. Though many liberal arts programs use portfolios, the implementation of a vertically integrated portfolio program featuring stories in an engineering program is unique. This program is introduced in the major-specific first-year seminar (FYS) that frames traditional FYS topics and experiences in the context of developing an entrepreneurial mindset. This session discusses the assessment of entrepreneurial mindset as evidenced in portfolios from the FYS course.

## **CI - 308 Hitting the Jackpot: Building Partnerships Between Residence Life and First-Year Experience**

Octavius 12-13

**Christina Colasanto**

**Isadora Stern**

*American University*

Participants will learn strategies developed to bridge the First-Year Residential Experience program with a first-year experience course, American University Experience. Presenters will discuss the collaboration between academic and student affairs, the institutional grant writing

process, the creation and implementation of out-of-the-classroom residence hall programs that align with the learning objectives of the first-year course, and assessment methods used to evaluate the effort as well as student learning. Participants will engage in discussion and leave with tangible theories and practices that they can use when engaging campus partners to create similar efforts on their own campuses.

## **CR - 309 STEM EXCEL Transfer Learning Community: Program Overview and Initial Findings**

Octavius 14-16

**Eric Martinez**

**Helen Barriere**

**Erika Kato**

*California State University, Long Beach*

This session will describe the need for and impact of a one-semester STEM EXCEL Transfer Learning Community for first-semester transfer students. This program aims to mitigate transfer shock by offering a learning community that provides peer mentorship, tutoring, and a first-semester transfer success course that connects the student to the institution and fosters students' professional, academic, and career development. We will also describe two summer programs for transfer students that facilitate recruitment into the transfer EXCEL program: a Summer Bridge to The Beach Program and a STEM Transfer Orientation. Initial evaluation and assessment of the program's impact will be discussed.

## **CT - 310 Cultural Adaptation of the First Year: Inclusion of Puerto Rican Immigrants**

Octavius 20

**Milagritos González**

**Julio Cruz**

**Norma Garcia**

*University of Puerto Rico-Mayaguez*

Most universities aim to enhance their inclusion and equity initiatives. However, the insistence and requirement of implementing HIPs and best practices pushes against cultural adaptation and endangers the potential effectiveness of programs and the inclusion of diverse students. The first-year and the Complete College America (CCA) programs have identified core components. A framework will be proposed to perform cultural analysis and adaptation of the core elements of the FYE and the CCA game changes, using the example of the Puerto Rican immigrants.

## **CI - 311 Collaborating to Serve Undeclared/Exploring Students Through a First-Year Seminar**

Octavius 21-23

**Keith Lopez**

**Courtney Conrad**

*Colorado State University*

Colorado State University (CSU) has developed a first-year seminar for students entering the university undeclared/exploring. This collaborative approach to the seminar between Orientation and Transition Programs, Undeclared Advising, and the Career Center allows CSU to best serve the needs of these students by guiding them in critically reflecting on their values, personality, skills, and interests as they relate to career and major options while assisting students with the transition to college during the first eight weeks of the semester. Participants will learn about this initiative and its approach to serving this population in a credit bearing format.

**FD - 312 Optimizing First-Year Seminars via Service-Learning: Student/PLA, Partner, and Faculty Perspectives**

Roman I

**Christopher Hirschler**  
**Megan Conchar***Monmouth University*

This session will engage participants in an exploration of best practices and lessons learned and applied in first-year seminars that incorporate service-learning. Attendees will create and share assignments/activities that involve higher order learning outcomes (Bloom's Taxonomy), describe the evolution of attendees' first-year seminar, and engage in constructive dialogue about the benefits and challenges of a first-year seminar that is grounded in service-learning.

**FD - 313 Growing Pains: Scaling Your First-Year Seminar**

Roman II

**Dan Gianoutsos**  
**Emily Shreve**  
**Ann McDonough***University of Nevada, Las Vegas*

How might a first-year seminar coordinator respond when faced with the daunting task of scaling their program larger (e.g., significantly increasing the amount of sections), while simultaneously being asked to maintain (or even increase) program quality? This dialogue will be led by three first-year seminar administrators at the University of Nevada, Las Vegas (UNLV), who recently accomplished a large first-year seminar scale while maintaining—and often improving—the quality of the course. Speaking from three different perspectives (dean, associate dean, and coordinator-level), the facilitators will guide a conversation regarding scaling issues such as instructor recruitment, funding, curriculum design, and operational logistics.

**FD - 314 Peer Mentors in Learning Communities: Positive, Negative, Unprepared?**

Roman III

**Lisa Gaskin***University of North Carolina Charlotte*

What role do peer mentors play in your learning community? Have they been trained for the experience, or are you crossing your fingers and hoping for the best? They have a major impact on their peers; what impact are we having on the mentors? Whether you've found successful strategies for mentor development or are at the beginning of this journey, this dialogue session will focus on how we can serve and build this student population.

**FD - 315 Reducing Marginalization of Students on Teams**

Roman IV

**Elisabeth Stoddard**  
**Kristin Wobbe***Worcester Polytechnic Institute*

Team-based learning has multiple benefits for students, particularly students of color, working-class students, and women. However, bias and stereotyping by team members can minimize and even negate these benefits. University cultures in which white, male, and upper-class cultures predominate can frame, and result in treatment of students of color, working-class students, and women, as lacking the assets needed to succeed. We will share our research on and approaches to creating more equitable and effective team dynamics. Participants will share their experiences and strategies, and together we will develop new ideas to identify and address these problems.

**CT - 316 Incorporating Purposeful Student-Centered First-Year Seminar Pedagogy**

Florentine I

**LaShana Stokes***HACC, Central Pennsylvania's Community College*

Designed for current first-year seminar instructors or for those who want to find out more about effective and purposeful, student-centered pedagogy that works wonders in the college classroom, this session will engage colleagues in conversation about how to effectively create a community of learners. Strategies for authentically engaging students in classroom discussions and promoting deeper learning and self-introspection will also be discussed. Participants will share their own testimonials of how students learn best in your classroom!

**CT - 317 FYE and Educational Planning: Creating Pathways to Success and Completion**

Florentine II

**Michele Campagna** - Advocate, '15  
*Westchester Community College***Joe Cuseo** - Advocate, 01  
*Marymount California University*

This session will explore how First-Year Experience program components can support the goals of career and academic pathways models at two-year and four-year campuses. Integrating structured curricular and co-curricular initiatives in the first year that teach students to make informed educational decisions and guide them to develop and complete education plans are essential components of pathways efforts. We will review how to strategically align curricular and co-curricular practices such as major and career exploration, intrusive academic advising, learning communities, and first-year seminars to support the student success goals of pathways programs.

**CI - 318 Infusing Metacognition & Self-Regulation into the College Success Course**

Florentine III

**Jeffrey Hall***Ashford University*

This session will describe the use of an advanced learning system, rooted in the constructs of metacognition and self-regulation. In 2013, Ashford University faculty re-invented the college success course for the 21st century online, adult learner. The goal is to develop intentional learners and is based on the belief that learning is a personal, individual, and interactive process. Through the process of self-assessment and reflective practice, students are given the opportunity to develop a deep understanding of how they learn and apply that understanding through the development of personalized learning strategies for success in the classroom, workplace, and everyday life.

## **CI - 319 Igniting First-Year Student Engagement in Research and Creative Endeavors**

Florentine IV

**Sean Wernert**

*University of Notre Dame*

More and more students are coming to college with the idea of doing research or some sort of creative endeavor. At the University of Notre Dame, initiatives focusing on helping first-year students engage in research and creative endeavors have been created to provide students with an opportunity that might not otherwise be available. At this session, participants will gain an understanding of how The First Year of Studies at Notre Dame has engaged first-year students in the research process, provided funding, and assessed the impact of the initiatives for students in the first year and beyond.

**MORNING BREAK | 9:00 a.m. – 9:15 a.m.**  
*Forum Ballroom Foyer*

## **9:15 a.m. – 10:15 a.m.**

### **CT - 320 Fostering Positive Mindset in the First-Year Seminar**

Capri

**Jessie McNevin**

*University of South Carolina*

We know that First-Year Seminars are impactful to student retention. As we retain the students, however, we must ask ourselves, "Are we aiming that they simply survive or thrive in college?" Acknowledging that a positive mindset is one scale in Schreiner's Thriving Quotient, how do we foster this optimistic, positive mindset in first-year students? This session will present resources, lessons, and assignments used to build a culture of positivity and cultivate a positive mindset in students within the First-Year Seminar.

### **CI - 321 Reciprocal Engagement: The Impact of Peer Mentoring on First-Generation Students**

Milano I

**Charmaine Troy**

**Ben Pearce**

**Diana Rowe**

*Georgia Gwinnett College*

This session will offer participants an overview of the impact of peer mentoring on the first-year experiences of both first-generation students and their peer mentors in a first-generation learning community. More specifically, the facilitators will share the specifics of what worked in the selection, training, and implementation of the peer mentors and mentees as well as ways to continue polish existing programs. Through this study, attendees will be better prepared to design and implement strategies/programming that contribute to the student's college success, growth, and leadership experience with a focus on first-generation learning communities that use peer mentoring.

### **CI - 322 Getting Your Students to Hit the Jackpot Their First Year!**

Milano II

**Whitney Johnson**

*University of Houston*

Is your institution wanting to increase to a high roller retention rate with some royal flush GPAs? Learn how a business college uses a first-

year experience program to transition its first-time-in-college students, giving them the best hand dealt for success. This program has resulted in high retention rates, high GPAs, and All In persistence to graduation by creating a sense of community and connectedness throughout the first year that ensures hitting the progressive jackpot of academic success and avoiding cashing out by the end of the first year!

### **CT - 323 First-Year Success Begins with a SmartStart: Reflections on College-Readiness Pilot**

Milano III

**Molly Reynolds**

**Lee Ferrell**

**Morgan McGlynn**

**Sarah Ballard**

*University of Kentucky*

This study examines the effectiveness of a summer program aimed at connecting bridging students from acceptance to enrollment in reducing melt, particularly in underprepared or non-college-ready populations. Researchers will speak on intentional communication practices such as nudging and collaborating with campus partners to provide opportunities for students to connect with peers and resources on campus before they move in, so as to ease the process of adjusting to college life and making the first-year experience a more natural transition.

### **CT - 324 Moving Beyond Coexisting: Streamlining a Holistic Student Experience**

Milano IV

**Christine Krieger**

**Stacy Cooper Patterson**

*Goucher College*

Are you at a small college with limited resources? Have you considered connecting your orientation and transitions seminar into a single, streamlined program? In this session, we will describe a process of shifting from two separate transition programs into a cohesive new student experience. We will discuss the opportunities and risks in using peer leaders to both facilitate the transition and teach complex topics, such as race and identity, working towards a campus culture shift. Finally, we will share lessons learned after dismantling, rebuilding, and rebranding two programs into a single, new vision.

### **CT - 325 Thriving in the First Year: Partnering to Maximize Engagement**

Milano V

**Allie Harte**

**Amy Gauthier**

**Will Sherry**

*University of Michigan, Ann Arbor*

As institutions work to strengthen their impact and enrich the first-year student experience within and outside the classroom, collaborative institutional partnerships are essential. Within large, decentralized institutions, partnerships that are both intra-divisional and cross-campus in nature are sometimes challenging to establish, build and sustain. This session will explore the needs, challenges, and benefits that can arise through partnership work, specifically in the realm of strategic planning and institutional directives with the aim of enriching the campus life of the whole first-year student.

### **CT - 326 Advising, Coaching, and Student Success with Life Design in Mind**

Milano VI

**William Johnson**

**Scott Holloway**

*University of North Carolina at Greensboro*

The Life Design Catalyst Program was instituted at UNC-Greensboro to inspire and empower students to take control of their educational experience. Participants will learn how we use the SPARCK model (Story, Purpose, Aspirations, Reflection, Connection, and Kick-Start) to empower students to answer life's biggest question: What should I do with my life? Participants will engage in the process of how we coach/guide students to develop the knowledge and skills to optimize their lives, actualize their potential, and become the best version of themselves in order serve something bigger than themselves and make a positive contribution to the world.

### **CT - 327 Double-Loop Learning for First-Year Students: An Approach to Critical Thinking**

Milano VII

**Joe Ervin**

**Nathan Slife**

*University of Nevada, Las Vegas*

There is a general consensus that critical thinking is an essential part of college. For professionals working with students in their first year, understanding how to introduce critical thinking is of utmost importance. In this session, we demonstrate a concept known as double-loop learning. Stemming from organizational theory, double-loop learning is a process in which the underlying values and assumptions of a given topic are examined. Focusing on the context and curriculum of the first-year experience, we will discuss how double-loop learning can be used as a means for conceptualizing and teaching critical thinking.

### **CI - 328 Surviving Transfer Shock: Assisting Transfer Students With Their First-Year Transition**

Milano VIII

**Katrina Arce**

**Jeff Teng**

*University of Southern California*

The first semester is a crucial time for transfer students. Not only do they have to assimilate into a new community, they also have to learn how to navigate the policies, services and resources at their new institution in half the time of their first-year student counterparts. When students are first-generation or come from underrepresented populations, the process is even more challenging. This session will demonstrate how the USC Marshall School of Business implemented a Transfer Success Program to address these concerns. We will encourage attendees to reflect on the services provided to transfer students at their respective institutions.

### **CT - 329 African American Male First-Year Retention: A Mentoring Story**

Octavius 7-10

**Regina Williams-Davis**

**Anjan Basu**

**Grant Hill**

**Maurice Gregory**

**Michael Murphy**

*North Carolina Agricultural and Technical State University*

North Carolina Agricultural and Technical State University created Aggie MEN (Male Empowerment Network) to combat the low African American male first-year retention rate. After surveying faculty, staff, and students while using student success best practices, a large scale, university-wide mentoring program was created. Serving 500 first-year students in a residence community model, using 100 peer mentors and 50 faculty and staff mentors, Aggie Men is its first year. This presentation will highlight the most foundational challenges of creating, implementing, and maintaining such a large African American mentoring program.

### **CR - 330 Should First-Year Students Participate in Faculty Research?**

Octavius 12-13

**Harold Stanislaw**

**Andrew Gardner**

*California State University, Stanislaus*

Undergraduate participation in faculty research is a high-impact practice that is particularly effective in promoting retention and degree completion by historically underserved students. However, research opportunities are rarely offered to first-year students; nationally, only about 4% of first-year students report having conducted research with faculty. We will present quantitative and qualitative data that suggest first-year research participation should be much higher. Faculty concerns regarding first-year research participation are largely unfounded, and entering students are even more likely to benefit from research participation than more advanced undergraduates.

### **CR - 331 You Belong Here: A Social Belonging Intervention for First-Year Students**

Octavius 14-16

**Jessica Mallard**

**Alyssa Paschel**

*West Texas A&M University*

A sense of belonging is fundamental to succeeding in higher education. As a basic need, its positive outcomes include increased retention and higher academic performance. We designed and implemented a social belonging intervention that includes a video and discussion in select courses as an effort to foster and nurture a sense of belonging among first-year college students, thus increasing student persistence and performance. In this session, we will walk participants through the intervention process and share retention and academic performance outcomes of intervention versus non-intervention students in similar courses.

### **CR - 332 First-Gen in the First-Year Seminar**

Octavius 20

**James Winfield**

*University of South Carolina*

As increased attention is focused on the success of first-generation college students (FGCS) at institutions across the country, one practice that supports this is the integration of an intentionally designed first-year seminar course. At the University of South Carolina, University 101 has a proven record aiding in the retention of FGCS. This session will focus on the impact that this course has on this student population along with sharing best practices that can be easily replicated to discuss lessons and ideas on academics, positive relationships, and career choice.

### **CT - 333 Exploring the Why Behind our Grading and Classroom Policies**

Octavius 21-23

**Christine Harrington** - Excellence in Teaching Recipient, '16

*New Jersey City University*

How do you handle late or missed work, mobile device use during class, missed classes, grading, or other classroom challenges? During this interactive session, instructors will be challenged to explore the why behind their current policies and the impact of these policies on student success. Participants will have the opportunity to explore different approaches to grading and essential classroom policies such as managing late and missing work, evaluating the pros and cons of different practices. Participants will walk away with several ideas about how to revise policies to promote student success and ways to communicate these policies clearly and effectively.

## FD - 334 Required or Requested? Instructor Training for First-Year Seminars

Roman I

**Douglas Long**

**Leah Bryant**

*DePaul University*

Training for first-year seminar varies greatly from institution. Some require annual trainings while others offer optional workshops or none at all. Some focus on academic training while other trainings emphasize issues of student transition and well-being. Some offer stipends for training while others presume participation as part of the teaching assignment. By sharing various institutional approaches to training, we can all consider what might work best at our own institutions.

## FD - 335 Wait! Don't Leave! Student Retention Starts on Day One

Roman II

**Jasmeial "Jazz" Jackson**

*Southern New Hampshire University*

Higher education often tackles student retention issues at specific pain points, when challenges arise, and departmentally. This is a reactive approach and limits our ability to make an impact. However, if we consider the student experience holistically, online and in person, approaching retention from day one puts us in the driver seat and increases our ability to shape their experience and proactively support them by avoiding challenges and eliminating barriers. We will discuss the barriers students experience while exploring proactive strategies that can be implemented on day one.

## FD - 336 Beating Normative Behaviors and the Fear of Missing Out

Roman III

**Carene Shipley**

**Jenna Lehr**

*Ohio University*

Ohio University's Learning Community Programs created a first-year focus group of peer leaders to identify common issues and challenges students face throughout their first semester of college. The biggest challenge identified by the first-year focus group is students struggling to say no to FOMO—the fear of missing out. Participants will engage in a thought-provoking discussion on how the application of student development theories can help shape alternative positive normative behaviors and reduce FOMO in first-year students.

## FD - 337 Risky Business: How to Incorporate Design Thinking Values into Teaching

Roman IV

**Marinda Ashman**

**Stacy Waddoups**

**Benjamin Johnson**

*Utah Valley University*

Our facilitated dialogue will introduce elements of design thinking through active-learning experiences and group discussion. We will use active-learning activities as fodder to explore the benefits of integrating risk taking, which often yields a sense of disequilibrium, into teaching practices. We will explore(a) how to build high trust, respect, and community through risk taking; (b) whether educators need to take risks to facilitate positive, active-learning environments; (c) and what risk taking looks like in an academic setting and its benefits. Ultimately, structured risk taking may build community and facilitate rapid growth and learning.

## CT - 338 Catchers in the Rye: Managing the Effects of First-Year Novice-ness

Florentine I

**Michael O'Brien-Moran**

**Stephanie Crook**

*University of Manitoba*

This presentation explores the cognitive effect of novice-ness on first-year students and other students who are new to a particular learning environment. While institutions have been actively engaged in transition programs since the 1980s, those programs have largely followed rite-of-passage, remediation, or acculturation models. We propose, not a new model, but a new way of thinking about models. By considering the cognitive impact of novice-ness (i.e., the comparative disadvantage impeding the progress of novices relative to the experienced students), we will be able to guide new students to greater agency more quickly.

## CI - 339 Create a Success Course Using Growth Mindset and Academic Capital

Florentine II

**Michael Sparrow**

*Northampton Community College*

Northampton Community College recently revamped its one-credit college success course in order to better meet the needs of incoming students, placing a greater emphasis on academic capital, academic skills, and the mindsets necessary for students to flourish in the college environment. Specifically, this strengths-based course introduces students to growth and creator mindsets, study skills, the FYE program, guided pathways, and the college capital/resources necessary to transition incoming students into Northampton students effectively and efficiently. Attendees of this session will learn about the course's theoretical frameworks, the curriculum, faculty training, assessment data, and NCC's growth mindset partnership with Stanford University.

## CI - 340 First-Year Experience and Assessment: Assessing with an Eye Beyond

Florentine III

**Kathy Clark**

**Joe van Gaalen**

*Florida SouthWestern State College*

The presenters will describe an assessment plan for a first-year experience course at a community-based college. Using the best practice of triangulation, the plan incorporates local and national assessment measures and is evolving as the course extends beyond a Quality Enhancement Plan (QEP). Participants will learn how the assessment plan provides a method of measuring critical thinking growth while simultaneously measuring the effects of various assessment instruments. Additionally, presenters will share how faculty evolve the course and assessment through program assessment.

## **CT - 341 Situation Critical: Responding to Difficult Situations Through Role-Play**

Florentine IV

**Tara Coleman**  
**Brent Weaver**

*Kansas State University*

Few people are skilled at effectively responding to a difficult situation the first time they encounter it. It is easy to imagine you will respond calmly, but when tension is high our response may be very different. Training and role-play can help us recognize warning signs of a challenging situation and allow us to process them more quickly, react more effectively, and respond with care. In this session, participants will role-play scenarios drawn from the group's personal classroom experiences to help them start to develop a routine for handling difficult situations.

## **CT- 342 Listening to Voices in the Margins: Storytelling and Belongingness in the FYE**

Octavius 11

**Nirmal Trivedi** - Excellence in Teaching Recipient, '19  
*Kennesaw State University*

This session will explore storytelling as an essential component of the First-Year Experience for students, faculty, and administrators. Before entering college, students carry with them histories and experiences that are waiting to be heard. These stories, however, are often considered too sensitive, taboo, or even dangerous for faculty and administrators to hear. In this session, we will discuss how students, faculty, and administrators can navigate the murky waters of storytelling to cultivate belongingness in college.

## *Closing Address*

10:30 a.m. – 11:30 a.m. | Forum Ballroom 12-24

**Russell Lowery-Hart** -  
Advocate, '08  
President  
*Amarillo College*

## **No Excuses Leadership for a New Era of Higher Education: Building Systemic Support for Low-Income Students**

Student needs are dramatically different than any time in history. Amarillo College embraced a No Excuses philosophy and systemic culture shift in understanding and addressing our students' biggest barrier to academic success - poverty. Building a systemic approach to poverty has worked: 175% increase in degrees obtainment (229% increase for Hispanic) and a three year completion rate that moved from 19% to 48%. Through poverty training, student defined college values, and intentionally connecting on-campus and off-campus community partnerships, and wrap-around academic interventions, Amarillo College is doing more than mitigating poverty, we are intentionally and systemically eradicating it - with No Excuses.

## John N. Gardner Institutional Excellence for Students in Transition *Award*

  
**NATIONAL RESOURCE CENTER**  
FIRST-YEAR EXPERIENCE® AND STUDENTS IN TRANSITION  
UNIVERSITY OF SOUTH CAROLINA

The National Resource Center for The First-Year Experience and Students in Transition is committed to setting the standard for excellence in supporting students at critical junctures in the educational pipeline beyond the first year. We also seek to promote intentional and integrative connections within and across institutions and educational sectors to enhance the student transition experience. In light of these core commitments, the National Resource Center is pleased to announce a new award recognizing Institutional Excellence for Students in Transition. The award will be presented annually to institutions that have designed and implemented outstanding collaborative initiatives enhancing the entire undergraduate experience. Award recipients will have demonstrated the effectiveness of the initiative in supporting student success, learning, and development at a variety of transition points and in responding to unique institutional needs.

*Each award recipient will receive:*

- Recognition at the 26<sup>th</sup> National Conference on Students in Transition, including the presentation of a plaque during the conference, a half-page announcement in the conference program booklet, and slide(s) highlighting award recipients in multimedia presentations during plenary sessions
- One complimentary registration to the 26<sup>th</sup> National Conference on Students in Transition to include all conference sessions and preconference workshops (on a space-available basis)
- Presentation of a poster session during the conference featuring components of the award-winning initiative(s) and institution
- Recognition in a national higher education media outlet; in the National Resource Center's online newsletter (*E-Source for College Transitions*), and on the Center's web page, listservs (i.e., SOPH List, SYE List, TYE, and GRAD List), and social media channels
- Distribution of press releases recognizing award recipients to national, regional, and institutional higher education media outlets

**More information regarding the award will be available at [www.sc.edu/fye](http://www.sc.edu/fye) by May 1, 2019.**

## THE POWER OF STORY: NARRATIVE THEORY IN ACADEMIC ADVISING

*The Power of Story: Narrative Theory in Academic Advising* acknowledges the power of story in academic advising. The power of story is present in advising interactions, in the unfolding of students' educational stories, in the ways advisors' own stories guide them, and in the impact of narrative skills that advisors possess. Activities and suggested readings are provided to enhance advisors' ability to understand the power of story.

# Outstanding First-Year Student Advocates

With the support and co-sponsorship of Cengage, The National Resource Center for The First-Year Experience and Students in Transition is pleased to recognize individuals on the nation's campuses who are Outstanding First-Year Student Advocates involved in high-impact practices for first-year student success. Two award recipients are chosen in each of the following institutional categories:

- Two-Year Colleges
- Four-Year Colleges & Universities with less than 2,000 students
- Four-Year Colleges & Universities with 2,000 to 7,000 students
- Four-Year Colleges & Universities with 7,001 to 15,000 students
- Four-Year Colleges & Universities with more than 15,000 students

## Award Recipients

### Crystal Benedicks

Associate Professor of English, Coordinator of Writing Across the Curriculum  
*Wabash College*

Dr. Benedicks is known as a change agent at Wabash College through the dissemination of responsibility of first-year writing instruction at Wabash College. She created the Wabash Writing Statement, a unifying statement across academic disciplines to develop a community of writers as considered essential within a liberal arts education. This Statement is responsible for challenging previously-defined barriers in first-year writing instruction, as the responsibility of writing was initially devoted solely to high school teachers or the Department of English. Her commitment to first-year excellence has been noted with frequent involvement in Wabash's summer-bridge program curriculum and dedicated meeting time for all students she works with, providing her with a reputation for academic advocacy and support. Serving at an all-male institution, Dr. Benedicks challenges common stereotypes on masculinity at Wabash College by promoting campus-wide dialogue on expressions of masculinity in American society. This is exemplified through her creation of gender studies courses at Wabash and assignments catering to masculinity's role in society; for example, she once had students write about men's role within the #MeToo movement.

### Katie Chartier

Assistant Director, First-Year Experience  
*College of the Desert*

Katie Chartier has transformed the Engage, Develop, Grow, and Empower (EDGE) summer bridge program that has grown to serve over 4,000 students, far more than the initial class of 22 students. Katie was responsible for many aspects of this growth by advocating for the expansion of EDGE to two additional locations in an effort to address communities with low educational attainments. This growing development has led to EDGE receiving national recognition as an award winning program. Katie is known for her innovation, team building skills, and relentless drive in advocating for first-year college students. Two substantial examples consist of her role in adding a peer mentoring program at the College of the Desert, and promoting inclusion of the Spanish language in staff connections to students as a way to further connect with her college's student population, as College of the Desert is a Hispanic-Serving Institution (HSI).

### Anneke Chy

Program Manager & Lecturer, College of Natural Sciences  
*University of Texas at Austin*

Anneke Chy is known as an outstanding advocate and visionary that has a keen ability to turn ideas into reality. She has been the Program Manager for our Cornerstones program that provides a small academic community for all our first-year students. Her leadership has helped both shape the program as well as implement it at scale. The impact of her work can clearly be seen in comments from students and colleagues as well as impressive improvements in retention. As a result of the programming that Anneke was responsible for, academic probation rates after the first semester have dropped from 12% to 2.5% over a five year span, and retention has increased from 93.5% to 95.5%. She is additionally responsible for implementing the Major Switch program, which focuses on assisting struggling students in first-year science courses by working with introductory course faculty and academic advisors to suggest and develop alternative academic pathways where students can thrive. Anneke also serves the College of Natural Sciences in college readiness programming and placement examinations.

**Robin Cunningham**

Dean, Freshman Studies and Special Programs

*Seton Hall University*

Robin Cunningham embodies the spirit of commitment to Seton Hall University, holding three degrees and working at Seton Hall since 1984. As the Dean for Freshman Studies, she has piloted several initiatives aimed to advocate for and support vulnerable student populations. She is responsible for creating the Seton Summer Scholars summer bridge program to provide foundational experience for students with academic challenges. This program has also been transitioned into the academic year to ensure retention increases and academic success. Robin is also responsible for the creation of the “Gen-1” program; this program aims to specifically support first-generation college students in the two weeks prior to the start of college to ensure student success. Her long-term perspective at Seton Hall has enabled her to consistently match the needs of underrepresented students and to promote academic success in any capacity. Historically, she has also created Seton Hall’s Office of Academic Support for Student-Athletes. She holds involvement in the New Jersey Association of New Student Advocates (NJANSA),

**Brigitte Lahme**

Professor and Chair, Department of Mathematics and Statistics

*Sonoma State University*

Dr. Brigitte Lahme is an outstanding first-year student advocate that emphasizes academic success in the field of mathematics. She has an elaborate career of developing curriculum and course materials that have encourage student success. In addition to co-authoring several college textbooks for mathematics, she served on a multidisciplinary team to develop and offer a year-long STEM course for first-year students funded by the National Science Foundation. This initiative has helped support first-year students in their transition through college while encouraging exploration of STEM. She holds leadership positions as a Professor and Chair for the Department of Mathematics and Statistics. She provides high quality, student centered mathematics instruction to all students that enables them to achieve at a high level of satisfaction and impact in their chosen fields. Her teaching experience has a documented history of high evaluation remarks from her students, with common descriptive terms such as ‘supportive’, ‘passionate’, and ‘hard-working’. She is an empowering advocate that ensures college students of all backgrounds can visualize themselves as part of the future of STEM, and how one faculty leader can inspire and advance the mission of many.

**Don Nix**

Director, Accelerate Student Achievement Program (ASAP) and 360 Advising Program

*University of Arkansas*

Don Nix is an outstanding first-year advocate that exemplifies excellence within college readiness, persistence, and retention. Don currently serves as a director for the Accelerate Student Achievement Program (ASAP), a summer bridge program for first-generation students from East Arkansas, and the 360 Advising program, a comprehensive advising program for students with socio-academic need. Don has also helped in the creation of the Bounce Back Program for students in need of academic assistance, and the Student Talent Enrichment Program (STEP), a peer-mentoring program catered to students in need. Don and his team provide one-on-one support to hundreds of first-year students each year. He serves on key first-year committees, provides programmatic leadership to our summer transition programs, and is the lead instructor teach for academic success courses. Don is one of the most effective and successful educators within the University of Arkansas campus community. Don has been instrumental in designing new programming for the Student Success Center through collaborative efforts with the Office of Student Success and the Division of Student Affairs. He has a demonstrated commitment to ensuring academic success in the first year and is constantly identifying how his institution can better serve academically at-risk students.

**René Sawyer**

Associate Dean – Academic Advancement and Support

*Greenville Technical College*

René Sawyer has developed a strong, positive reputation at Greenville Technical College for her efforts to put students first. She is responsible for building curriculum, extracurricular programs, guided advising processes, and developed talented faculty. She is known for not shying away from large initiatives to assist first-year students; an example of this consists of her leadership of a five-year Title III Grant which yielded several student success initiatives. She was also responsible for leading Greenville Technical College’s academic advising from Student Service to Academic Affairs, a shift that required major changes to college procedures, personnel, and facilities. She has been considered a “super-advisor” with an extensive knowledge of programs, courses, and transfer options. She also tends to advise students with the most difficult situations and has repeatedly conducted advising sessions at night and on weekends to ensure students can adequately receive advising services.

## Calley Stevens-Taylor

Dean of Student Success  
*Cedar Crest College*

During her tenure as Dean of Student Success, she restructured the curriculum of both first-year seminar courses at Cedar Crest College to focus on college experiences and life skills that more accurately reflects the Cedar Crest community. She is responsible for the creation of both an early alert system and a one-stop Student Success Center to efficiently and effectively promote student success. Calley additionally has a track record of advocacy for international student populations, including the addition of academic coaching and logistics-based staff. Dr. Stevens-Taylor collaborates with Student Affairs to maintain a case-management approach to academically at-risk students. Her collaborative nature extends to partnerships with Residence Life, Athletics, and Academic Services staff. Her holistic commitment to serving international students has been met with an increase in Cedar Crest College's overall international student population, from 2 percent to 10 percent. In addition to this population increase, her developmental initiatives have not gone unnoticed, seeing a 13.2 percent increase in retention over five years at Cedar Crest College.

## Loretta Swank

Director, Center for Student Excellence  
*Southeastern Louisiana University*

Dr. Loretta Swank is frequently recognized as a leader, advocate, creator, and innovator. Through her relatively short time as Director of the Center for Student Excellence, Dr. Swank has enacted fundamental changes to Southeastern Louisiana University's first-year experience programming. Dr. Swank's changes to the CSE and their impact on students is recognized campus-wide. Southeastern's VP for Student Affairs recognizes her commitment to students as he writes, "Dr. Swank's work and dedication to our students is beyond exemplary." Her changes include a complete revision of Southeastern 101 to a Freshman Success Course; enhancing Orientation; embracing proactive advising, early intervention strategies and academic coaching; creating a Freshman Academic Coaching course (SE 102) for first-year students on academic probation; and developing a Freshman Seminar Series to help freshmen establish campus connections. She has a demonstrated commitment to emphasizing first-year student success through her aforementioned developments and her advocacy towards improvements to the on-campus Tutoring Center, which manages over fifty subject areas.

## John Wegner

Dean, Freshman College and Center for Academic Excellence  
*Angelo State University*

Dr. John Wegner has a history of success at Angelo State University dating over twenty years, teaching at least one first-year experience or first-year composition course every semester. As a dedicated advocate for first-year students, he has been responsible for developing more effective transitional experience for students in their first and second semesters in college. He currently oversees over 50 sections of first-year focused 'Signature Courses' and teaches one himself to promote scholarly exchange between first-year students and faculty. Much of Dr. Wegner's work can be attributed to a keen sense of the future. His transitional development with advising can be attributed to the high number of students that change their academic major. He has additionally led advising units to more accurately define career readiness in college students while ensuring a valued educational experience. Dr. Wegner has a distinguished career as a faculty member that has repeatedly demonstrated a commitment to first-year success in both academic and career readiness, contextualized through his role as a Dean for the Freshman College and Center for Academic Excellence.

## Semifinalists

Mike Barnette  
*Tarleton State University*

Molly Berry  
*Millikin University*

Kathy Buckelew  
*Wallace State Community College – Hanceville*

Roberta Challener

## Jordan Smith Undergraduate Fellowships

The National Resource Center for The First-Year Experience and Students in Transition awards five fellowships to undergraduate students for the Annual Conference on The First-Year Experience. The purpose of the Fellowship Program is to advance the leadership skills and knowledge base of undergraduate students so that they may in turn use what they learn at the conference to enhance and encourage first-year student development on their respective campuses.

### Fellowship Recipients

#### Frank Guerrero

*Arizona State University*

#### Ling Le

*San Jose State University*

#### Jessica Martinez

*Georgia Southern University*

#### Janelle Raymundo

*Rutgers University*

#### Dae'lyn Smith

*Northeastern State University*

### Semi-Finalists

Kharisma Black  
*North Carolina Central University*

Charlotte Bucy  
*Radford University*

Rachel Chai  
*University of South Alabama*

Gregory Chase  
*Arizona State University*

Karli Clausen  
*Central Michigan University*

## Excellence in Teaching First-Year Seminars

Penguin  
Random  
House

Sponsored by Penguin Random House and The National Resource Center for The First-Year Experience and Students in Transition, University of South Carolina, the award is given to an instructor who has achieved great success in teaching first-year seminars and who inspires student learning, development, and success. Universities were asked to submit one representative for their campus to be nominated for this award.

### Award Recipient

#### Nirmal Trivedi

Director of First-Year Seminars and Assistant Professor of English  
*Kennesaw State University*

Dr. Nirmal Trivedi is an assistant professor of English within the Department of English and the Director of First-Year Seminars in the Department of First-Year and Transition Studies. Dr. Trivedi is recognized for his focus on utilizing traditional and innovative elements to maximize the educational experience for his first-year seminar students. Dr. Trivedi has successfully incorporated innovation in teaching into his classes in ways that acknowledge and cater to changing student needs. One of Dr. Trivedi's innovative assignments was an eJournal called "Year One: a Journal of the First-Year Experience at Kennesaw State." In this eJournal, students wrote for each other and for other students around the country who were experiencing the challenges of transitioning to college. The digital platform inspired students to more openly

seek out an audience by writing directly to their peers. Dr. Trivedi aims to challenge his students to exceed their self-imposed limitation through a described "problem-based" curriculum that enables dialogue on an initial problem and the literature, resources, and technology needed to succeed. Dr. Trivedi has played an important role in revising the curriculum of first-year seminars at Kennesaw State by shifting focus to non-cognitive factors such as resilience, mindset, and belonging-ness as foundational aspects of a first-year seminar. He believes in the transformative potential that can be found in a first-year seminar, and has routinely demonstrated excellence in teaching first-year seminars.

### Semifinalists

Lisa Angermeier  
*Indiana University – Purdue University Indianapolis*

Sarah Bennett  
*Arizona State University*

Hayley Kazen  
*Texas A&M International University*

Karen Yiu

## CALL FOR PROPOSALS

# Paul P. Fidler

## RESEARCH GRANT

The National Resource Center for The First-Year Experience and Students in Transition invites applications for the 2019-2020 Paul P. Fidler Research Grant, which is designed to encourage the development and dissemination of knowledge that has the potential to make a national impact and improve the experiences of college students in transition. The Paul P. Fidler Research Grant award includes a cash stipend, travel to two national conferences, a presentation at a national conference, and priority consideration for publication.

### Comprehensive Award Package

- Stipend of \$5,000
- Travel to the 26th National Conference on Students in Transition, October 2019, in Orlando, Florida, at which the award will be presented
- Travel to the 27th National Conference on Students in Transition, 2020, at which the research findings will be reported
- Announcement on the National Resource Center webpage, listservs, and print publications
- Priority consideration for publication by the National Resource Center for The First-Year Experience and Students in Transition

### Submission Deadline

Completed applications must be received by the National Resource Center by 11:59 p.m. Eastern, July 1, 2019.

### Application Procedures

The application and proposal form can be found at [www.sc.edu/fye/fidler](http://www.sc.edu/fye/fidler). Application materials (proposal, curriculum vitae) must be submitted electronically by the deadline. For more information, send an e-mail to [nrcsrch@mailbox.sc.edu](mailto:nrcsrch@mailbox.sc.edu).

## Past Recipients

### Diane Cardenas Elliott and Joni M. Lakin

## Vendor Hall Schedule

You will have the opportunity to visit with vendors during continental breakfasts, refreshment breaks, and the opening reception in addition to the vendor hall hours below:

### Saturday, February 16, 2019

7:00 p.m. – 8:30 p.m.

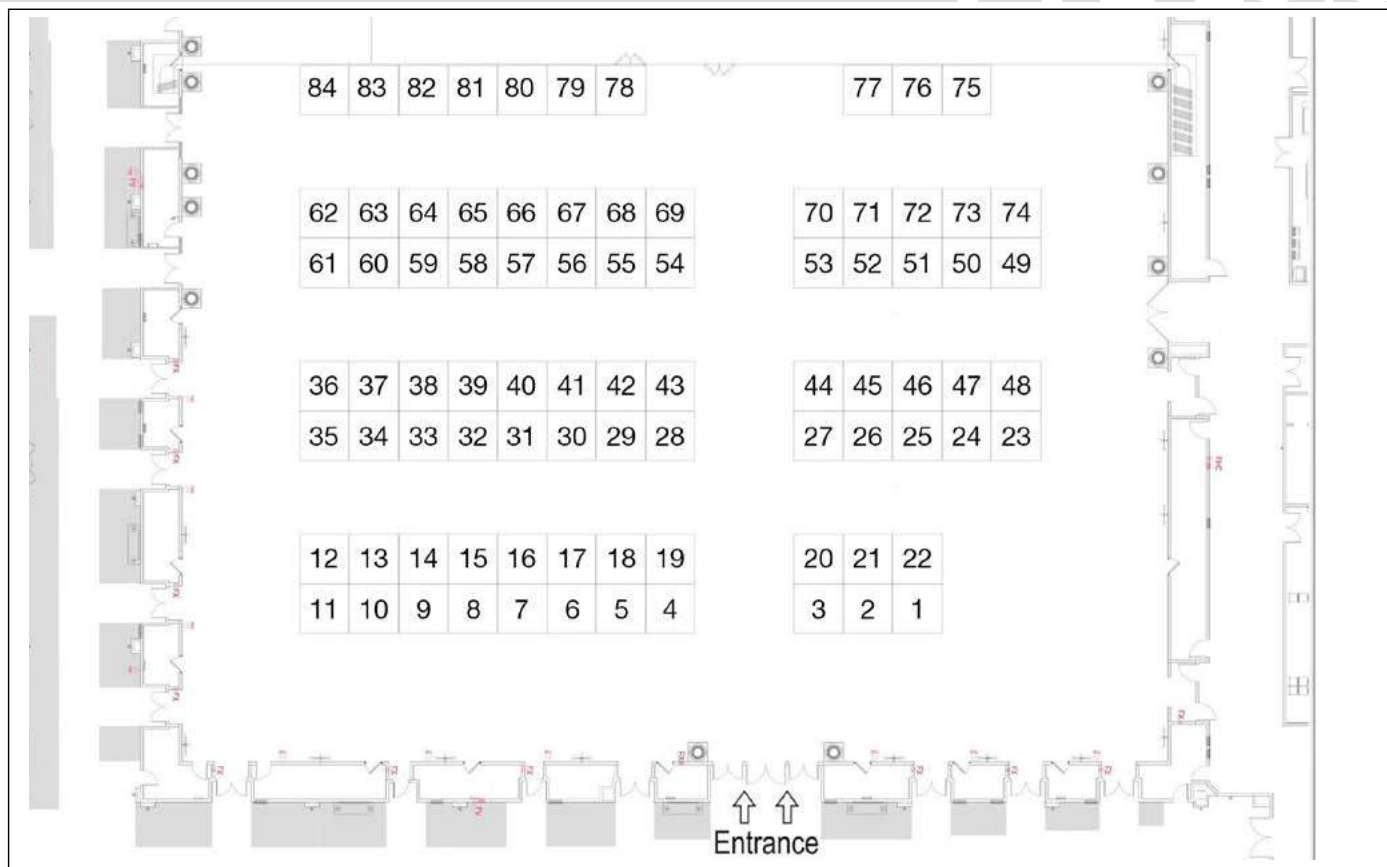

### Sunday, February 17, 2019

7:30 a.m. – 11:00 a.m.

1:00 p.m. – 5:00 p.m.

### Monday, February 18, 2019

7:30 a.m. – 12:00 noon

## ACT, Inc.

ACT is a nonprofit organization providing a continuum of integrated assessment solutions that align with our mission of helping people achieve education and workplace success.

## Advantage Design Group

Advantage Design Group is transforming online orientation with its Advantage Orientation Platform. Students engage in a video-rich, interactive experience with a digital resource accessible anytime, on any device. Orientation Pros create and measure impact with a suite of administrative and analytic tools. We can do the same for you.

## Amazon Kindle

Amazon Kindle offers a massive selection of digital titles from leading authors and innovators. eBooks are ideal for reading programs, leadership trainings, keynotes, and events. Discover a new way to enhance your first year experience programs with eBooks.

## BarCharts Publishing, Inc.

BarCharts Publishing, Inc. is the publisher of QuickStudy® reference materials. We provide high-quality reference materials with accurate, easy-to-read information in visually engaging formats. Our focus is to assist students, educators, professionals worldwide in accomplishing their goals. QuickStudy® reference materials - Guaranteed to boost confidence, grades and test scores!!

## BVT Publishing®

Affordable Educational Resources

## BVT Publishing

BVT publishes quality, affordable textbooks for the college market. Our five FYE textbooks include "College Success: A Concise Practical Guide" by Strickland, "Learning Strategies for College and Career" by Campbell, and "The College Success Handbook" by Williams. Come to our booth and pick up a free evaluation copy!

## Campus Labs

Campus Labs empowers institutions to make valuable connections with their data. We offer a complete set of integrated solutions for areas such as assessment, retention, teaching and learning, student engagement, and institutional effectiveness. We're proud to serve more than 1,400 public and private colleges and universities. Learn more at [campuslabs.com](http://campuslabs.com).

**CASHCOURSE**  
YOUR REAL-LIFE MONEY GUIDE

## CashCourse, National Endowment for Financial Education

CashCourse is a free, online noncommercial financial literacy resource for colleges and universities, created by the nonprofit National Endowment for Financial Education. The program provides customizable, interactive personal finance tools used at more than 1,000 colleges and universities across the country. Visit <http://www.cashcourse.org> to enroll or learn more.

### Catapult / Counterpoint Press / Soft Skull Press

Catapult, Counterpoint, and Soft Skull are three sister publishers. Highlights include author Wendell Berry, *THE RUNAWAY SPECIES* by David Eagleman (2018 FYE selection for TXST), *TRACE* by Lauret Savoy (ASLE Award winner), *JANE: A MURDER* by Maggie Nelson, and *WHITE LIKE ME* by Tim Wise.

### Center for First-Generation Student Success

The Center for First-generation Student Success, an initiative of NASPA and The Suder Foundation,

is the premier source of evidence-based practices, professional development, and knowledge creation for the higher education community to advance the success of first-generation students.

### Cengage

Cengage is the higher education and technology company built for learners.

Our industry-leading initiatives include

Cengage Unlimited, the first-of-its-kind all-access digital subscription service. We embrace innovation to create learning experiences that build confidence and momentum toward the future students want.

### College Transition Publishing

College Transition Publishing specializes in developing highly successful first year transition programs. Based on your

programs needs, we offer publications, online course software, webinars, presentations, professional development and coaching for traditional, online, community college and student veteran populations. Learn more by visiting [www.CollegeTransitionPublishing.com](http://www.CollegeTransitionPublishing.com)

### Comevo, Inc.

Comevo's LaunchTM online orientation software, full-service content production, and DiscoverSM Dynamic Q&A tool to streamline communication between hundreds of schools and their students

since 1999. Features such as interactive video assessments and profile-based content amplify engagement and information retention to support student retention.

### Complete College America

Complete College America is leveraging our Alliance and implementing strategies around the country to close achievement gaps, boost graduation rates and ensure every student has the opportunity to achieve their dreams.

### Council for the Advancement of Standards in Higher Education (CAS)

CAS, a consortium of professional associations in higher education, promotes the use of its professional standards for the development, assessment, and improvement of quality student learning, programs, and services.

### Cupanion

Partnered with over 60 universities and colleges, our reusable products and unique app experience help to engage students, reduce costs, minimize waste, and visualize the impact of good habits. Every time you refill Cupanion gives a cup of clean water to a person in need. Fill it Forward.

### DC Internships

DC Internships sponsors academic internship programs in Washington, D.C., each summer and semester. Programs include transferable credit from George Mason University and an internship placement. Program areas of focus include: public policy, economics and international affairs; journalism, communications and PR; business and government affairs, nonprofit sector, and community service.

### EVENTUS

Eventus is a mobile app platform that offers engagement tools for the first-year experience. From orientation apps to campus social networks, Eventus offers you the tools to modernize your student engagement strategy and seamlessly introduce your students to everything that your campus has to offer.

FranklinCovey

EDUCATION

### FranklinCovey Education

For nearly three decades, FranklinCovey Education has been one of the world's most prominent and trusted providers of educational leadership programs and transformational processes. The 7 Habits of Highly Effective College Students is a principle-based student success curriculum designed to enable students to succeed in college and in life.

### CliftonStrengths® for Students

### Gallup

Gallup's Clifton Strengths for Students transforms the college experience by helping students understand the relationship between their strengths, engagement on campus, and personal well-being and how those lead to a thriving college experience. Engaged students with thriving well-being stay in school, excel academically, and graduate prepared to live an authentic life.

### Grove Atlantic

Grove Atlantic is an American independent publisher known for its literary fiction, poetry, and non-fiction. Grove Atlantic's notable authors include literary luminaries such as Samuel Beckett, Kathy Acker, and Frantz Fanon, as well as more recent writers such as Pulitzer-Prize winner Viet Thanh Nguyen, Jeanette Winterson, and Jim Harrison.

## GROWING LEADERS

Ready for Real Life

### Growing Leaders

Growing Leaders is a global nonprofit that encourages and equips students to take on real-life opportunities and challenges in the classroom, in their careers, and in the community. We do this by partnering with schools like yours to teach practical life and leadership skills.

### H&H Publishing Company

Explore our research based assessments, textbooks, and online courses to improve your students' study strategies. Weinstein's 'LASSI' and 'LASSI PLUS,' Walter Pauk's 'Essential Study Strategies,' and our eight-page study skills booklets are just a few of the quality products you will discover when you visit our booth.

### Hachette Book Group

Hachette Book Group is a leading trade publisher based in New York publishing under the divisions of Grand Central Publishing; Little, Brown and Co.; Perseus Books; Hachette Books; Hachette Nashville; Orbit; Redhook; Little, Brown Books For Young Readers; Hachette Digital; and Hachette Audio. Find us at [www.hachettebookgroup.com](http://www.hachettebookgroup.com).

HARPERCOLLINS  
LEADERSHIP

### HarperCollins Leadership

HarperCollins Leadership offers integrated, values-based development experiences through books, e-courses, podcasts, and web-based tools to help emerging and established leaders learn and apply the principles in order to activate the leadership potential in every individual. Many of our books have been popular with FYE programs and common reading programs around the country.

### HarperCollins Publishers

HarperCollins Publishers is proud to publish a wide range of titles for use in your first-year programs, from well-loved classics such as THE BOY WHO HARNESSSED THE WIND and LITTLE PRINCES to newer favorites such as HIDDEN FIGURES and HILLBILLY ELEGY.

Harvard  
University  
Press

### Harvard University Press

Harvard University Press is a leading publisher of works in the sciences, humanities, and social sciences. HUP's publication program, which includes important digital projects and platforms, is driven by the belief that books from academic publishers are more essential than ever before for understanding critical issues facing the world today.

### Houghton Mifflin Harcourt

Houghton Mifflin Harcourt has published some of the world's most renowned novels, nonfiction, and children's books. Its distinguished list includes ten Nobel Prize winners, forty-eight Pulitzer Prize winners, and fifteen National Book Award winners, as well as J.R.R. Tolkien, Willa Cather, Temple Grandin, George Orwell, Tim O'Brien, and Virginia Woolf.

### Human eSources

Human eSources believes that everyone is unique. Since 1998, our online products have empowered students, parents, teachers, and counselors in over 50 countries to discover and apply students' natural gifts and overcome personal challenges using decades of personality type, learning style, multiple intelligence, and student success research.

IDEAPRESS  
PUBLISHING

### Ideapress Publishing

Ideapress Publishing is an author-centric publishing company. Our mission is to produce brilliant business books - and what this means is creating a solution that offers EVERYTHING that independent authors need to publish a successful book.

### Ingram Academic Services

Ingram Academic Services is a niche offering through Ingram Publisher Services geared towards meeting the needs of academic publishers and university presses. Our services include warehousing, print-on-demand network, digital asset management services and metadata management system, as well as far-reaching sales representation.

Innovative Educators  
Educating Faculty, Staff & Students Online

### Innovative Educators

We Believe Learning Happens Everywhere Education Must Be Engaging & Accessible Technology Transforms Learning Your Challenges Are Our Challenges Our Products Solve Problems We Can Make Your Job Easier

### John N. Gardner Institute for Excellence in Undergraduate Education

Gardner Institute

The Gardner Institute partners with colleges, universities, philanthropic organizations, and others to help them create and implement strategic plans for student success focused on improving teaching, learning, retention, advising, and completion. Through doing so, the Institute strives to advance higher education's larger equity, social mobility, and social justice goals.

### Jullien Gordon Speaking & Publishing

Jullien Gordon has spoken at over 100+ orientations, convocations, and FYE programs nationally. His TED Talk on How To Maximize College & Minimize Debt has been viewed over 300,000 times on YouTube. He is also the author of 101 Things To Do Before You Graduate. Find out more at [www.jullienjordan.com/speaking](http://www.jullienjordan.com/speaking).

### Kendall Hunt Publishing Company

Kendall Hunt is a premier publisher in both digital and print media with over 70 years of experience and over 9,000 titles. We combine service, innovation, and our pledge of quality to provide you with advantages that are unparalleled in educational publishing.

### LAUNCH Student Success

LAUNCH Student Success is the ultimate in FYE and Student Success Programs. It features text books, videos, mobile apps, student workshops, and professional development for faculty and staff!

### Macmillan Learning

Macmillan Learning improves lives through learning. Our legacy of excellence in education informs our

approach to developing world-class content with pioneering, interactive tools. Our commitment to teaching and discovery upholds our mission to improve lives through learning. To learn more, please visit our booth and online at <http://www.macmillanlearning.com>.

### Macmillan Publishers

Trade books for First-Year Experience (TM) and common reading programs from Farrar, Straus & Giroux; Henry Holt; St. Martin's Press; Picador; Flatiron Books; and Celadon. Follow us on Instagram, Twitter, and Facebook @macmillanreads. [macmillanfyebooks.wordpress.com](http://macmillanfyebooks.wordpress.com)

### McGraw-Hill Education

McGraw-Hill Education is driven by a vision to help unlock the full potential of each learner. As a learning science company, research and data provide the foundation for the decisions we make, the resources we create and the partnerships we seek to build with educators, schools, colleges and students.

### Mentor Collective

Mentor Collective is committed to developing student success interventions that consistently deliver outcomes for institutions and their students. Headquartered in Boston, MA, Mentor Collective provides comprehensive mentorship services and technology to our 50+ institutional partners, empowering these schools to provide all students with a Transformative Mentorship experience.

### National Resource Center for The First-Year Experience and Students in Transition

The National Resource Center for The First-Year Experience and Students in Transition focuses on enhancing the learning and success of all college students; hosts a series of national conferences, workshops, and institutes; engages in research; publishes a scholarly journal, books, and electronic newsletter; maintains a website; and hosts electronic listservs.

### National Survey of Student Engagement - Indiana University

The Center for Postsecondary Research hosts the National Survey of Student Engagement (NSSE) and the Beginning College Survey of Student Engagement (BCSSE) and other surveys and tools to help institutions assess quality in undergraduate education and strengthen the learning environment in the first year of college and beyond.

### New Jersey City University

New Jersey City University offers a Doctorate of Education in Community College Leadership. Aspiring leaders enrolled in this 55 credit online program will graduate prepared to build and advance community colleges. The curriculum is delivered over a three-year period that includes an annual one-week summer residency requirement.

### NODA-Association for Orientation, Transition and Retention in Higher Education

NODA is an international association whose mission is to provide education, leadership and professional development in the fields of college student orientation, transition and retention. NODA is dedicated to inter-association cooperation, the advancement of professional and ethical standards, and the production of scholarly work.

### Pacific Crest

As an Educational Consulting and Publishing Company since 1985, we have helped hundreds of colleges to Transform their Educational Culture into Learning to Learn and Self-growth using Process Education by providing professional development, college coaching, and active learning curriculum to increase student success, faculty performance and institutional effectiveness.

### Penguin Publishing Group

Penguin Publishing Group publishes trade fiction and nonfiction books through a wide range of imprints. Please visit [www.penguin.com/fye](http://www.penguin.com/fye) for information on our titles. Find us on Facebook at [bit.ly/penguin-fye-fb](https://bit.ly/penguin-fye-fb).

### Knopf Doubleday Academic

The Knopf Doubleday Publishing Group publishes a broad selection of highly acclaimed fiction and nonfiction titles that have been used in numerous common reading programs across the country. Follow us on Facebook: [www.facebook.com/freshmanyearreading](https://www.facebook.com/freshmanyearreading)

### Random House and Penguin Academic

We are a division of the world's largest English-language general trade book publisher, representing an array of prestigious imprints that publish some of the foremost writers of our time. Many of our titles have already become mainstays in first-year experience programs throughout the country.

### Roadtrip Nation

Roadtrip Nation empowers individuals to identify their interests and explore pathways aligned with their unique aspirations and skills. While our public TV film series is what we are known for, we also provide authentic and engaging career content that supports student success and positive career outcomes.

## ROUNDING SOME CORNERS

### Rounding Some Corners--Observing Life's Oddball Ironies, by Rob McKenzie

Rob McKenzie is the author of Rounding Some Corners--Observing Life's Oddball Ironies, a collection of mostly humorous columns with potent double meanings covering a variety of topics that will engage today's students. McKenzie is a Professor and the Chairperson of the Department of Communication at East Stroudsburg University of Pennsylvania.

## RUFFALO NOEL LEVITZ

### Ruffalo Noel Levitz

Ruffalo Noel Levitz (RNL) is the leading provider of higher education, enrollment, and student success solutions. The firm serves 1900+ colleges and universities through data-driven solutions focused on the industry. Ruffalo Noel Levitz provides institutions the ability to scale their efforts by tapping into a community of support and resources.

### SDI Innovations

School Datebooks, powered by SDI Innovations, provide skills that will last a lifetime. For more than 30 years, we have fine-tuned our assignment planners creating the best time management tools in the industry. And, it's all backed up by our unmatched, best-in-class, customer service.

### Signal Vine, Inc.

Signal Vine's text messaging platform enables organizations to communicate with first-year students in a way that maximizes student responsiveness and engagement. Through personalized, data-driven text messages, students get support in real time, which in turn improves enrollment and persistence rates.

### Simon & Schuster

Simon & Schuster is a global leader in the field of general interest publishing, dedicated to providing the best in fiction and nonfiction for consumers of all ages, across all printed, electronic, and audio formats. For more information, visit [www.simonandschuster.com](http://www.simonandschuster.com).

### StoryWork International

StoryWork International provides educational institutions a comprehensive curriculum to assist students to discover their deepest purpose and meaning in life, and expand their repertoire of skills and knowledge to live with greater joy and fulfillment.

### Stylus Publishing

Founded in 1996, Stylus publishes books and journals that focus on higher education. Our higher education program covers such areas as: teaching and learning, service learning, assessment, online learning, racial and gender diversity on campus, student affairs, doctoral education, and leadership and administration. [www.styluspub.com](http://www.styluspub.com)

### The Naked Roommate

For 11 years (and counting), The Naked Roommate has been the #1 go-to guide for the very best college experience!

### The National Society of Collegiate Scholars (NSCS)

NSCS is a national, not for profit, honor society that recognizes students who excel academically during their first and second year of college. Driven by scholarship, leadership and service, NSCS provides over a million dollars in scholarships and chapter funds annually, along with several professional development and leadership opportunities.

### Top Hat

Top Hat is the active learning platform that helps professors engage students and build comprehension before, during, and after class. It addresses student engagement, textbook affordability and customizability, student comprehension, and secure test administration.

### Trigger Publishing

Trigger is a publisher wholly dedicated to mental health welfare for the global community. We want to change the world and give those with mental health issues a path to recovery and a voice through literature, education and positive exposure.

### University Press Sales Associates

### University Press Sales Associates

University Press Sales Associates is comprised of MIT Press, Princeton University Press and Yale University Press. Our publishers bring scholarly ideas to the world. We publish books that connect authors and readers across all spheres of knowledge to advance and enrich the global conversation.

### VitaNavis - The Myers-Briggs Company

VitaNavis (a division of The Myers-Briggs Company) is a campus-wide solution that offers time-tested and research validated tools to help students find their purpose. By leveraging interest and personality data, students explore majors, programs of study, and careers through the latest job and education data from O\*NET, BLS, and IPEDs.

#### W. W. Norton & Company

Independent since 1923, Norton publishes books that educate, inspire, and endure.

#### Wealth Educators International, LLC

Wealth Educators International (WEI) is a personal finance education company that teaches money management at colleges,

high schools, corporations and military bases throughout the world. For more than 15 years, WEI has delivered over 1000 live presentations in 49 states and 8 countries. Our website is [www.peterbspeaks.com](http://www.peterbspeaks.com).

#### Workman Publishing

Workman Publishing Company is an independent publisher of adult and juvenile trade books, and has produced a string of iconic bestsellers. Its wide range of nonfiction titles includes cookbooks, parenting, gardening, and self-help books, and novels like *In the Time of the Butterflies*, *Purple Hibiscus*, and *Water for Elephants*.

Simple Solutions for Tomorrow's Learning

affordable and transformative learning experiences by making it easy to create custom course materials. With XanEdu, educators design materials around their course, rather than design their course around off-the-shelf textbooks.

#### XanEdu Custom Solutions

XanEdu partners with educators and bookstores at more than 1,200 higher education institutions. We deliver

BOOTH 26 - 27

# WHAT WILL YOUR FRESHMEN READ?

## CRAIG & FRED | Craig Grossi

"This veteran's memoir is an inspiring read filled with messages of hope, resilience, and optimism that will stick with you long after you finish. Craig is proof of what is possible when we understand it is not what happens to you but how you react that matters."

—Danielle Kolodkin, HarperCollins Speakers Bureau

## BARRACOON | Zora Neale Hurston

"In 1931, Cudjo Lewis was the only person alive who could tell the story of his own capture, enslavement, and emancipation—and he told it to Zora Neale Hurston. Hurston's careful fieldwork has made it possible for Cudjo's voice to be heard by 21st-century students."

—Diane Burrowes, Academic Marketing Department

## THE COOKING GENE | Michael W. Twitty

"Michael Twitty's *The Cooking Gene* traces Twitty's own family roots alongside the charged politics surrounding the origins of soul food, barbecue, and Southern cuisine. Give your students a place at this American table with Michael's enthralling part-memoir, part African American culinary history of the Old South."

—Kim Racon, Academic Marketing Department

## THE FOX HUNT | Mohammed Al Samawi

"A captivating memoir that reads like a page-turning thriller, *The Fox Hunt* reminds you of the power of human connection. Mohammed's story is one of courage and compassion in a time of war, and what can happen when we recognize what we have in common."

—Gillian Wise, Special Markets Department

## THE PERSON YOU MEAN TO BE | Dolly Chugh

"*The Person You Mean to Be* is the book I wish I'd read when I started college. At a time when your students are leaving their comfort zones, Dr. Chugh's practical strategies will set them on the right path to becoming the people they mean to be."

—Michael Fynan, Academic Marketing Department

# Purpose + Plan = Persistence

**Guiding students to find purpose through the lens of their interests and strengths can make an impact from the start.**

The VitaNavis® platform, developed by the Innovation Labs at The Myers-Briggs Company, drives informed decision-making during student intake and onboarding and on through graduation. At the heart of the platform, a valid and reliable assessment pairs with academic and career exploration tools using data from iPEDS, O\*Net, and BLS, to help students select programs and majors, and identify how those programs and skills acquired, relate to the world of work following completion. Additionally, tools are available to assist staff in supporting students when discussing interests, vocations and academic paths, learning styles, and more.

## ATTEND OUR SESSION

### **Purpose Leads to Persistence: Supporting Informed Academic Decisions**

Monday, February 18, 8:00 AM – 9:00 AM

What could be more important than helping students identify purpose upon matriculation? We will discuss the importance of redesigning the intake process for students to include academic and career exploration, and the vital role interest fit plays in identifying the right path. Our partner institutions will outline their inclusion of interest measurement and its impact on admissions, enrollment, engagement, retention and other student success metrics.
