The following questions were received from Vendor A

Question #1

Are we producing all signs at one time and installing at one time?

Answer

We order specialty signs on an as per-requested basis. Standard signage (Name plates, room number markers, etc) are ordered on a bi-weekly basis. These signs are to be produced and installed in two weeks on a regular schedule. This bi-weekly order can sometimes be large, but all signs are expected to meet the two-week deadline.

Question #2

What are the quantities we are producing?

Answer

As in the answer to question one, orders can range from a single sign or a large order of hundreds of signs. This number can grow even larger if a new building needs signage.

Question #3

What training are we providing you and what software updates?

Answer

The vendor is to supply the software that is required to create proofs for the signs that we order. This would include any applicable software updates required by the vendor. Additionally, they are to provide training in the software so that proofs can be made in an efficient manner to aid in the production process.

For example, we currently use Corel; this is our current vendor's preferred software. They trained the signage coordinator to use the program and supplied them with templates of all signs. In turn, this helps the vendor in sign production as well as ensuring signs will be made correctly.

Question #4

Are we providing and materials for you to produce signs on your **vanguard 7000**?

Answer

No.

The following questions were received from Vendor B

Question #1

Could I get renderings or a detailed descriptions for sign types Y1, Y2, Y3 and Y4 (sizes of vinyl, acrylic letters and plaques)?

Answer

We brought the renderings to the Pre-Bid Meeting. Vinyl, acrylic letters, and plaques all vary by size.

Question #2

I know the frames are to be ½” deep) How thick do the insert panels need to be?

Answer

The inserts are 2 mm wide.

Question #3

Do you have a preference of Velcro or magnetic?

Answer

While we do sometimes utilize Velcro; magnets are preferred – especially concerning our building directories.
