

**STRUCTURAL REPAIRS  
WILLIAMS BRICE STADIUM  
UNIVERSITY OF SOUTH CAROLINA  
PROJECT NO: CP00394073 – FM00458985**

**Addendum One**  
July 25, 2014

This addendum modifies the Contract Documents only in the manner and to the extent stated herein and shown on any accompanying drawings and will become a part of the Contract Documents. Except as specified or otherwise indicated by this addendum, all work shall be in accordance with the basic requirements of the Contract Documents.

**GENERAL:**

1. Attached is the *sign-in sheet* for the Pre-Bid meeting held Thursday, July 24, 2014, indicating all attendees.
2. Per the Pre-Bid Meeting on July 24, all questions regarding this project were to be submitted in writing to the architect no later than Friday, July 25. Email acceptable. Any questions received after this time will not be addressed.  
The architect's email address: Keith Myhand: [kmyhand@jcsarchitects.com](mailto:kmyhand@jcsarchitects.com)
3. The contractor is responsible for providing his own dumpster.
4. The owner will designate a nearby restroom onsite for the contractor's use. The contractor is to leave the restroom as clean as he found it upon project completion.

**DRAWINGS:**

1. Sheet A201: Delete Keynote #1 and related scope from this project. Owner has completed this work.

2. Sheet A201; Photo #3 / Keynote #3: Add the following photos to this scope. For bidding purposes, the contractor is to account for 150 linear feet of expired condensate piping to be replaced and provided with the continuous aluminum jacket as noted.

3. Sheet A203; Photo #1: The block low wall currently shown is being completed by the owner. Replace the current photo with the one below showing the adjacent vender low walls and repair this condition per Keynote#1.

4. Sheet A203; Add the following photos as Photos #3 along with the following Keynote #3 to this sheet. This area is located along the concourse wall panels between the 3<sup>rd</sup> and fourth bents. The area is approximately 20' long and about 16" wide. "Key Note #3 – Remove top area of concrete as required. Treat reinforcing steel with rust inhibitor, apply bonding agent and apply new concrete topping SIKA Top 122 Plus. Apply new concrete topping in a manner as to provide a slight cant to slope water away from the wall panel."

5. Sheet A203: Add the following photo as Photo #4 along with the following Keynote #4 to this sheet. This area is on the northern end wall of lower deck and approximately 30' above the ground level. This wall is opposite of the northeast ramp. "Key Note #4 – Remove loose concrete and clean. Treat reinforcing steel with rust inhibitor, apply bonding agent and apply new concrete repair mortar SIKA Top 123 Plus and Armatec A110. Finish to match adjacent surface upon completion of repair."

**END OF ADDENDUM**

**University of South Carolina**  
Columbia, South Carolina
