**ITEM TWO: VENDOR QUESTION**

Question: The other question I have is about the fiber construction. In one place it says 100% nylon to prevent fuzzing, then in another place it says BCF Polypropylene. These are two different types of carpet. Also, one place it says 16 oz tufted weight and in another place it says 18 oz.

Answer: Two types of carpet are acceptable; 18 oz weight, 100% nylon or 16 oz weight, BCF Polypropylene.

Question: Is there a brand of carpet for these specs, only see a style?

Answer: USC's requirement is that the carpet meets specs. There is not a specific brand name of carpet

Question: Do the edges need to be seamed so there is no unraveling?  
The edges do not have to be seamed.
