Vendor questions and answers

Do we need to protect the floors at USC?

If the equipment is heavy and VCT tile has to be crossed yes it needs to be protected because of asbestos mastic under some of the tile .If a tile were to come up then our Hazmat Crew would have to step in delaying the move. It will be the contractors responsibility to protect flooring/walls. etc. Contractor will be responsible for any damage.

Will the delivery take place during normal business hours? If not, when is the delivery?

It will be normal business hours

There are 3 elevators in the building. We will have to share the elevators or can we reserve and use at least one for this move?

One elevator is a freight elevator and it can be locked out for freight service

~So my question is< addendum states "Exact dates will be determined after award". Should we charge a weeks holding/storage and adjust if not needed at the end or would you prefer a change order be done once a mover is selected and dates are agreed and hold time/Storage is determined it will be needed at that point?

See Pack/Load dates above.
