## **The Bid Opening has been changed to April 19, 2016 by 3:00 PM EST.**

### **Clarifications**

Page 19: the measurement of the entire Think Tank/East Lawn Wall is approximately 450". This is the specification for the dreamscape mystical wall covering

Page 20: the measurement for the acoustical panel section and SEG fabric graphic (represents the portion of the wall called the Think Tank) is approximately 160". The measurement of the SEG fabric graphic is approximately 80".

### **Questions**

1. Exterior Signage, Fabricated aluminum letters  
Do the back sides of the letters need to be enclosed or can they be open?

**No, the letters are to be enclosed.**

2. Donor Recognition Display  
Can the dimensional tree be made in multiple pieces mounted flush to one another with seams?

**No, the tree is to be one piece.**

3. Focal Wall  
Do you expect the dimensional lettering "IDEAS INTO ACTION" to be mounted on top of the dimensional routed white laminate pattern, thereby lifting the letters off the wall by ¼"?  
Or do you expect the letters to be flush against the wall with the dimensional pattern cut away from lettering?

**No, the letters are to be mounted flush against the wall. 2 inch thick fabricated aluminum letters with 1.5 inch deep routed channels in face.**

4. Sound dampening elements  
Can I arrange with you to have the electrical outlets, etc. removed and then reinstalled on top of the sound dampening pieces?  
Alternatively, can I stop short of them and have all sound dampening elements above outlets – with wall graphics still going all the way down to the floor?

**No, the face plates can be removed from the outlets and conference phone box can be removed.**

5. Small Meeting Rooms  
This appears to be spec'd as just wall prints and no sound dampening, is that correct? Is it intended to look like the Think Tank only without these elements?

**No, there is no sound dampening in the small meeting rooms.**

6. Exterior Signage

Do the letters have to be aluminum or would stainless steel work? The look at feel would be the same after being painted MP46633

**No, please quote the letters as specified in the graphics package of the bid**

7. Donor Recognition Display

Can the fabricated aluminum backer for the tree have an alternate substrate?

**Yes, please specify the alternate substrate solution in your bid**

8. Think Tank & East Lawn Wall: The measurements for the SEG on pg 20 do not align with the wall measurements on pg 19. That space is only 160" overall and 146.5" between the glass so the SEG would need to be revised to fit into that area. Can you double check the measurements?

**Page 19: the measurement of the entire Think Tank/East Lawn Wall is approximately 450". This is the specification for the dreamscape mystical wall covering**

**Page 20: the measurement for the acoustical panel section and SEG fabric graphic (represents the portion of the wall called the Think Tank) is approximately 160". The measurement of the SEG fabric graphic is approximately 80".**

9. Do you guys want a liquid laminate applied to all of the Dreamscapes wall coverings?

**Please quote the Dreamscape wall covering as specified in the graphics package of the bid**
