Question & Answers

1. Request for extension for submittal of bids
Bids are due April 4, 2018 @1 1:00am
2. Bid states 64 chairs but drawing indicates 108 chairs per room for a total of 216 chairs. What is the total number of chairs
The 64 number is incorrect; the sketch is correct, which shows 108 seats per room for a total of 216 seats.
3. Will contractor remove and dispose of existing seats or will USC take care of this?
USC Building Services will remove and dispose existing seats.
4. Will USC be responsible for patching concrete floors after removal of existing chairs and carpet?
USC Building Services will remove existing flooring, patch existing concrete slab and install new flooring prior to the seat installation. Vendor must provide a seating installation drawing in Auto-CAD (computer aided design) so that the architect can coordinate flooring with seat layout.
5. As opposed to a sample chair, is it acceptable to provide location of the same chair to demonstrate quality?
A sample that meets the intent of the specification can be used instead; colors/finishes can be different than those that were specified for this project. Location of a similar in-situ seat must be within 100 miles of Columbia and contractor must arrange access and coordinate a site visit, as require.

Bidder shall acknowledge receipt of Amendment No. 1 in the space provided below and return it with their bid response. Failure to do so may delay award of contract.
