Item #2 on Specification Details – Custom 5 Seat Taping Station – You note only 4 Taping Modules, 4 Full extension Pull outs, 4 fixed back rests, 3 storage modules, 3 waste cutouts, and 3 three drawers. My calculations from this on a Five Seat Taping Station is that all of the above mentioned items should be bumped up by 1 each. 5 of the Taping Stations, 5 Full ext, etc. Is this correct? Otherwise I will be as specified on the BID.

Item # 2 is modified as follows:

**2. (1) One Modular taping station custom 5 seat 42" height:**

1. Basis of Design: Proteam by Hausmann Custom – Total length 20 feet
2. 5 taping modules with front storage 24" w x 44" d x 42" h (A9511-99)
3. 5 Full Extension Pull out (A918)
4. 5 Fixed Backrest 75-degree-12" high with finished back (A926-99)
5. 4 Storage Module 24" w x 44" d x 38" h (A9517-99)
6. 4 Waste cutout (A924)
7. 4 Three drawers only (A923-99)
8. 2 Storage Module 12" w x 44" d x 38" h (A9517-99)
9. 5 Deboss Logos
10. Construction: dowel and glue laminated wood construction
11. Hardware: self-closing laminate drawer with nylon rollers, concealed hinge adjustable, self-closing 110-degree European hinges
12. Cabinet backs are concealed by wall and are not required to be finished
13. 2" thick high-density foam upholstered tops (removable without tools)
14. Weight Capacity: 450lbs
15. Finish: Black Vinyl, Laminate Formica Terril 2297-MC Micro-Dot Finish all exposed surfaces
16. Warranty: Manufacturer 3 year parts, 1 year labor

On both Item #1 and Item #2 you request 3 Storage Modules 12" W X 44"D. The Manufacturer of this product has told me in actuality it will only be 2 of these per Taping Station, one on each end of the overall unit. Is this correct? Or should I BID as specified with 3 12"W Storage Modules per Taping station (both items #1 and Item #2).

Items #1 and @ are modified as follows
