TRAVEL ASSISTANCE FOR GRADUATE STUDENTS TO PARTICIPATE IN SCIENTIFIC MEETINGS

PURPOSE

Travel funds are available to partially support the presentation of scientific research results by graduate students of the School of the Earth, Ocean & Environment at regional, national and international meetings. Students may request a specific amount of support, but the level of support allotted may vary depending on the number of applicants, availability of funds, and the number of travel grants previously awarded to the applicant. For some meetings, students may be required to help staff at a departmental booth during part of the meeting. Students applying for Travel Grants should be currently enrolled for a minimum of six credit hours. Exceptions apply to students in their final semester of their studies wherein only one credit hour is required.
