GEOG 595: Internship in Geography
Open in all semesters

Internship Coordinator: Prof. Susan Wang
Department of Geography, Callcott 327A
E-mail: cwang@mailbox.sc.edu
Internship website: http://go.sc.edu/geography-internships

Bulletin description
Internship in government agencies, private-sector businesses, and non-profit organizations under the joint supervision of sponsor and departmental. A maximum of three credits may be applied to undergraduate Geography major or to Geography Master’s degree. May be repeated to a maximum of six credits.

Course overview
GEOG595 is an internship course available to Geography majors and non-majors in each semester, including summer terms. Students serve as interns (paid or unpaid) in government agencies, private-sector businesses, or non-profit organizations. A special effort is made to assign each intern to a position compatible with his/her interests, abilities, and career aspirations. Internship activities and experimental learning are supervised jointly by sponsors and the department internship coordinator.

Students may enroll in GEOG 595 for 1–6 credits. Geography majors can use this course to fulfill up to 3 hours of Geography Elective credit, but not the 500-level course requirement. Master’s students may include up to 3 credits toward their degree program of study. The course fulfills the Professional and Civic Engagement requirement for USC’s Graduation with Leadership Distinction (See end of syllabus for further information).

Prerequisites: Contract Form approved by department internship coordinator.

Learning outcomes
This course aims to better prepare students for the workplace. Through semester-long internship activities, students will:

- Gain hands-on work experience with a participating community partner;
- Transform their classroom-based academic learning to applied learning toward real-world problems and community needs;
- Acquire and develop marketable job skills;
- Explore up-to-date career options and employment opportunities.
Reading assignments
There are no set readings for this course. Reading assignments may be recommended or required by the supervisor to improve the intern’s understanding of issues relating to the internship.

Course requirements
Working under the supervision of agency personnel, interns are required to complete 50 hours of work per credit hour earned (for students taking GEOG 595 for 3 credits, this will entail approximately 10 hours/week during the fall or spring semester).

Aside from these internship duties, students are required to submit two reports:

Mid-semester progress report: The report should be 3-4 double-spaced pages total, double spaced (6-7 pages for graduate students). It includes:
- Background and goal/learning objectives of the internship;
- A description of actual duties and the amount of time devoted; new knowledge being acquired and skills being developed and applied; progresses and challenges being experienced;
- A description of the Career Readiness Competencies being gained. Review the checklist of the New College Graduate competencies defined by the National Association of Colleges and Employers (NACE).

After receiving the mid-semester report, the coordinator will contact the intern and supervisor to discuss the intern’s learning activities and to suggest remedies for any problems or challenges that might arise.

End-of-semester final report (poster): A poster-style report is required to present the semester-long internship activities. An example poster can be found here. More examples are available on our internship website.

When the internship contract is complete, the supervisor in the hosting agency will be contacted by the internship coordinator to finish an “Intern Evaluation Form”.

Course evaluation and grading
To reiterate, students wishing to use GEOG 595 for degree credit must enroll for a grade. Final grades will be based on the following modes of assessment:
- Mid-semester progress report = 20% (non-rubric);
- End-of-semester poster = 40% (non-rubric);
- End-of-semester evaluation from the supervisor = 40% (rubric). The intern will be evaluated in four categories: overall rating; individual performance indicators, statement of intern’s strength and weakness, and additional comments.
The grading scale is as follows:
90–100 = A; 87–89 = B+; 80–86 = B; 77–79 = C+; 70–76 = C; 67–69 = D+; 60–66 = D;
59 and below = F

Course management
Blackboard: Blackboard will be used to post important information for internship students. Students can access Blackboard at the following URL: https://blackboard.sc.edu. The Blackboard Help Desk can be reached at 777-1800.

Communication: The internship coordinator can be reached via email (see details above). All email communications with the coordinator and with internship agency supervisor should be composed in a professional manner, using proper grammar and formal sentence structure (not texting language).

Disabilities: The Department of Geography is committed to working with internship partners to make internships accessible to students with disabilities. If you have a disability that may require special accommodations, please contact the internship coordinator (Dr. Wang) along with the Office of Student Disability Services: 777-6142, TDD 777-6744, or email sasds@mailbox.sc.edu, to discuss internship options. All accommodations must be approved through the Office of Student Disability Services.

Academic Responsibility: Students who engage in unprofessional or unethical behavior, who commit acts of dishonesty in the workplace, and who do not fulfill contractual obligations to the hosting agency may be terminated from the internship. This may result in a Fail for the course. Students are expected to practice the highest possible standards of academic integrity in their written work. Any deviation from this expectation will result in a minimum academic penalty of failing the written assignment and may result in additional disciplinary measures. Students are encouraged always to conduct themselves in accordance with the Carolina Creed (http://www.sa.sc.edu/creed).

This course is on the approved course list for Graduation with Leadership Distinction. If you engage in multiple research, study abroad, internship, or community service experiences, you could be eligible to graduate with leadership distinction. Sign up to meet with a GLD Advisor to learn more and consider ways to get involved throughout your time at UofSC. GLD achievements will be recognized on your transcript and diploma. This is an excellent way to demonstrate to graduate/professional schools and future employers that you can apply course concepts in real-world settings to make decisions and solve problems! Graduation with Leadership Distinction: Your Pathway to Purpose!
