

WHENCE WE'VE COME AND WHY IT MATTERS

a talk by
DR. MARY NICKEL

One of the rare universal truths about humans is that we each spent the better part of a year inside of another person's body. In this talk, Dr. Nickel will explore what the phenomenon of human pregnancy might reveal to us about our moral, social, and political obligations. She will argue that we bear duties of gratitude for the ones who once bore us.

Friday, February 14
12:00 pm - 1:15 pm

Gambrell Hall 429
