Notes on Committees

- Changes moving away from direct alignment to COA standards
- All Committees **except** T&P are open. Meeting times and agenda should be sent out via the faculty listserv
- We need assigned student reps on each committee (except T&P). These folks should be identified and announced to all via the student listservs
- Suggestion for the new Personnel Committee:
 - Personnel is a committee to handle all faculty related personnel policies and functions other than the actual T&P Process
 - Previous chair serves as XO in the following year to ensure institutional knowledge.
 - The chair of the Personnel Committee is the chair of the T&P Committee – The T&P Committee functions as a subcommittee of Personnel
 - Director appoints the personnel committee taking into account faculty preference
 - All types of faculty can serve on the personnel committee
- This Year the BSIS and Curriculum Committee are merged to forward the new curriculum. Next year LIS and Curriculum will Be Combined
