POLICY

The School has faculty representation on the Faculty Senate. Each spring semester, the Faculty Senate office calculates the appropriate senate representation for each college and school. The person(s) will serve for a three-year term.

PROCEDURE

The faculty of the School will elect the appropriate number of members to represent the School as Faculty Senator. If the person elected cannot serve the full term, another election will be held to select a replacement. The person(s) serving as Faculty Senator will make a report to the faculty at the next regularly scheduled SLIS meeting and may make such other reports as appropriate.
