

Subject: Scholarships

Policy Number: A5.60

Date: 4/18/86

Revised: 4/15/16

POLICY

Each year the School will award the scholarships administered by the School to students who have a demonstrated record of academic excellence and/or who have a strong indication for outstanding work in the profession. Scholarships may be awarded in addition to an assistantship.

PROCEDURE

All students who apply for financial assistance will be considered for the School's scholarships. The Director's Office will use the same evaluation process used for decisions on assistantship awards, taking into consideration the specific selection criteria set forth for some scholarships.

The students receiving scholarships will be notified in writing by the Director.

Normally, one-half of the amounts of each scholarship will be paid to the recipient at the beginning of the fall and spring semesters.
