

# Exceeding Expectations

Community involvement not only provided a strong foundation for growth, but it benefited the students educationally. Between school and extra curricular activities, club members found ways to balance the two despite the difficulties. SGA hosted their annual Veterans Day program to honor those who have served our country. Saints for Christ provided an outlet for support for anyone. Beta Club organized blood drives through Red Cross and aided in the Water Festival. Even teachers and students participated by spreading childhood cancer awareness and sponsoring clothes drives to help the needy. Getting involved was important because it created a ripple effect that reached out beyond the school and into the community.
