

# quarantine MUST HAVES

## 1 Yerba Mate

"I really love Yerba Mate because there are so many different flavor options. It has a ton of caffeine, so it energizes me, but it's a lot more fun for me to drink than coffee. I think Mac students love it because it's really easy to carry around, it looks super cute, and it's usually less expensive than a comparably good coffee. I feel like the coffee at gas stations and regular stores where Yerb is sold isn't very good, so it's good if you want caffeine and don't have the time or money to go to an actual coffeeshop."

**Isabella Dietz (12)**

## 2 Among Us

"I feel like most video games, especially Among Us, have gotten more popular because of the need for people to interact with one another without leaving home. With the lack of social interaction during COVID, games like Among Us have had their chance to shine. Its key premise is sort of being as socially active as possible with trying to get information and communicate with each other."

**Elijah Johnson (12)**

## 3 Hair claw clips

"I always felt like a classic low bun was a little boring, so it's nice to be able to spice it up with claw clips. I love learning different ways to wear them and seeing all the variety in shape and color. They're just one of those trends that upgrade any outfit."

**Ellen Fox (12)**

## 4 Squishmallows

"I like collecting Squishmallows because they are very cute and cuddly, and it's fun to get all types of different ones and name them."

**Addy Merritt (10)**

## 5 LED lights

"I like how the TikTok lights can change everything in my room to a different color. Different colors help me focus or go to sleep. I like how I can change them depending on what mood I'm in."

**Annabel Winter (11)**

## 6 Roller Skates

"The amount of tricks you can learn on skates are endless. I'm really into learning how to jam skate right now, but it's definitely not easy. I really like roller skating because it's something you can enjoy as a group, and especially in a pandemic it's a fun thing to do while still being able to social distance and stay safe."

**Olivia Linscomb (11)**

## 7 Tie Dye

"I really liked the tie dye trend this year because it's a cool way to show off my personality. I feel like it's also just a fun activity to do with friends."

**Elanor Olsen (11)**

## 8 Platform Converse

"I loved the platform Converse trend this year personally because they are such a multipurpose trend! First off, they make you taller, so you can tower over people, and they also look super cool and give off super '60s vibes. All in all I'd say they are one of the best trends."

**Scarlett Houser (12)**

"A positive take away from this pandemic that I have is that I got to spend more time with my family. In doing this I was able to realize how lucky I am to have family that I enjoy hanging out with." **Kate Boyle (10)**
