

PHYSICAL EDUCATION, B.S.P.E.

Teach PE in kindergarten through 12th grade.

Impact young lives through physical literacy.

THE PROGRAM

As you prepare to become a highly effective Physical Education teacher in grades K-12, you will learn to promote daily and lifelong physical activity in children and adolescents. You will develop the skills, knowledge, and dispositions physical education teachers need in order to provide optimal learning for children in their journey of physical literacy. You will have field experiences and internships throughout the program in diverse school settings, where you will work alongside award-winning faculty and experienced physical education teachers.

State reciprocity and our national accreditation make it easy to become certified in most states. Our graduates are also well-prepared to enroll in master's degree programs during their first years of teaching.

SPECIALIZED COURSE WORK

Your course work and field experiences will prepare you to:

- apply theory and science to your teaching and coaching
- design and implement PE curriculum using evidence-based planning and instructional skills
- effectively manage movement settings
- support the learning needs of students with and without disabilities

PROGRAM ACCREDITATION

This program has been accredited by:

- Council for the Accreditation of Educator Preparation (CAEP)
- National Association for Sport and Physical Education (NASPE)

**College of
Education**

2020-2021

TYPICAL PROGRAM FOR PHYSICAL EDUCATION, B.S.P.E.
