

SECONDARY EDUCATION - 5th-YEAR PROGRAM

Teach 9th through 12th grade.

Complete your bachelor's and master's degree.

THE PROGRAM

You will gain the professional education knowledge and skills necessary to be a highly effective teacher in grades 9-12. Earning two degrees- a Bachelor of Arts or Bachelor of Science and then a one-year Master of Teaching (M.T.) degree will prepare you to teach high school English, mathematics, science, or social studies.

While completing your undergraduate degree in a major specific to the subject you plan to teach, you will take 12 - 18 hours in foundational education courses and have field experiences in high school classroom settings. The bachelor's degree in your teaching area provides strong content preparation. Your two degrees will provide multiple career options, and your yearly salary as a first-year teacher will be approximately \$4,500 higher in many states because of your master's degree.

ACCELERATE YOUR PROGRAM

Most students complete the program in 5 years; however, depending on the AP/IB/Dual Enrollment courses you took in high school, you may be able to complete the bachelor's and master's degrees in 4 years. Summer courses could be required. Talk with an advisor to determine if this is an option for you.

PROGRAM ACCREDITATION

This program has been accredited by:

- Council for the Accreditation of Educator Preparation (CAEP)
- National Council of Teachers of English (NCTE)
- National Council of Teachers of Mathematics (NCTM)
- National Science Teachers Association (NSTA)
- National Council for the Social Studies (NCSS)
