

REMOTE INTERNSHIP PROGRAM

Need some extra help during this time of uncertainty?

Have a special project that needs attention, but you're short on time? HRSM students are ready to help!

Hire a remote intern today.

Think of this flexible internship opportunity as freelance, project-based work. Students can complete micro-internships by working remotely on a special short-term project, or a full 10 – 12 week internship.

Flexible hours! The number of hours can vary to meet the needs of your organization during this unusual time.

HRSM students are trained in analytical reasoning, finance and accounting, marketing, human resources, policy examination, service management and strategic management for various business environments.

HRSM student interns can help you meet your business goals by working remotely or a combination of on-site and online.
