## Services Provided:

By working with us from beginning to end, we can help prospective individuals prepare for the various responsibilities of homeownership, including learning about personal finances, mortgages, maintenance and upkeep of homes, and much more. Habitat homeowners must be active participants in building a better home and future for themselves and their families. Every Habitat home is an investment. For us, it is one answer to a critical need, and we believe that stronger homes will create stronger communities. Prospective Habitat homeowners must demonstrate a need for safe, affordable housing. Need will vary from community to community.

Once selected, Habitat homeowners must partner with us throughout the process. This partnership includes performing "sweat equity," or helping to build their own home or the homes of others in our homeownership program. Sweat equity can also include taking homeownership classes or performing volunteer work in a Habitat ReStore.

Homeowners must also be able and willing to pay an affordable mortgage. Mortgage payments are cycled back into the community to help build additional Habitat houses.

Habitat's homeowner selection is managed at the local level, through our hundreds of local Habitat for Humanity locations all over the U.S. and around the world. For more information and to learn more about the process or how you can apply, please contact your local Habitat.
