Who should attend: This training is for DSS employees.

Overview: This interactive course is for those tasked with the responsibility of investigating child death/homicide cases. This training will address the investigation and documentation of sudden infant death syndrome versus suffocation, abusive head trauma, neglect/failure to thrive, and other types of child deaths. This one-day training is designed to help participants navigate the complexities of child death investigations including crime scene documentation and corroboration of statements, interview techniques, and the importance of court preparation.
