ADAPTED TOY WORKSHOP

Scan to Register!

<https://bit.ly/44RnlbC>

WHO

Family members, professionals and school staff who would like to learn how to adapt toys for children with disabilities are invited to attend the workshop.

WHEN

November 16 and 17, 2023

- Trainings are one hour long
- Registration is required to attend
- This training is free of charge

WHERE

SC Assistive Technology Program
Center for Disability Resources
8301 Farrow Road, Poplar Building
AT Resource Center
Columbia, SC 29203

WHAT

Children with disabilities often have difficulty interacting with toys. Families, professionals and school staff are invited to bring battery-operated toys to the SC Assistive Technology Resource Center to learn how to adapt the toys for switch use. The toys should have an on/off switch and only one action. An example would be Flappy the Elephant, as he only flaps his ears when he is turned on, or Robo Alive T-Rex Robotic Pet that only walks when it is turned on. SC Assistive Technology Program staff and students from Richland Two will be available to assist you. Everyone will leave with their toy adapted for switch use and a switch to operate it.

If you need an accommodation to participate, please contact us at least one week prior to the scheduled training.
