IB Global Exchange Program:

- All students will attend a top business school from a portfolio of partner institutions from around the world

- Required for all students in Spring Semester 2025

- Focus of the study will be on business content to meet degree requirements and to take courses not available at USC

- Full study abroad briefing in February 2024 for all accepted students
FOREIGN LANGUAGE AND STUDY ABROAD

• Some exchange partners require business content coursework in local language

• Proficiency at or above the 300-level may be necessary prior to exchange semester

• Language skills can be quickly improved through intensive summer language programs either at USC, through another US institution, or possibly abroad to reach proficiency prior to exchange semester

INTERNATIONAL BUSINESS STATEMENT OF PURPOSE ESSAY

(500 word maximum)

Why do you want to be an International Business major? Why did you pick the language in which you are using to satisfy the International Business major requirement? How do you anticipate a degree from the Moore School’s International Business department, your chosen 2nd business major, and your chosen language will combine towards a career path?
The most effective global managers can understand and navigate the complexities of international business while also building meaningful and responsible relationships with people of various nationalities, value-systems, administrative styles, and world experiences. Describe a time in your life when the culture in which you were raised complemented or clashed with a culture outside of your familiarity. As an example, this event could have occurred during a previous experience abroad or even within your own school or community. How did you navigate the situation and what did you learn from it?
INTERNATIONAL BUSINESS ISSUE ESSAY: INSTRUCTIONS

(1000 word maximum)

The International Business major requires that you understand the impact of globalization on the conduct of business and the interactions between businesses and governments that shape the global arena. We have identified three issues which have emerged over the past few years that will most likely have relevance to your future business career.

Based on research on the issue that you will conduct prior to the deadline for this application, you will pick one issue and write a 1,000 word essay on the anticipated impact of these phenomena on the conduct of global business. Because the issues are relatively broad and the limitations of space are substantive, your ability to be concise in providing the analysis will be of great value.
INTERNATIONAL BUSINESS ISSUE ESSAY:
INSTRUCTIONS

It is important that you demonstrate your own thoughts and analysis. If you include information in your essay that is not your own thoughts, you must cite appropriately. We recommend APA or MLA format. Any works cited should be included at the end of the document and will not be counted against your maximum word count. A separate works cited page is not necessary. Essays will be checked using antiplagiarism software.
ISSUE ESSAY TOPIC 1

On March 24, 2023, TikTok CEO Shou Chew testified before congress to discuss the national security risks stemming from the company’s ownership by the Chinese technology company, ByteDance. During the hearing, many lawmakers announced their desire to force the sale of TikTok to a US-owned company, or to ban it all together, as a means of protecting access to the data of its more than 150 million users. But others have countered that data can be protected through regulatory controls that do not require the forced sale of the company, and therefore that the U.S. government should not block foreign direct investment into TikTok based solely on its owners’ nationality. Write an essay about the on-going debate about TikTok as a national security risk that includes a careful analysis of different perspectives to justify what you think should be done.
One of the primary objectives of the United States Chips and Science Act of 2022 is to bolster U.S. leadership in semiconductors, providing over $50 billion for American semiconductor research, development, manufacturing, and workforce development. The act further encourages semiconductor firms to invest in new facilities in the United States but restricts those that receive government funds from future growth in China. Write an essay about why the United States government believes that it needs to provide additional support for US leadership in semiconductors; why it is specifically concerned about competition with China; and what recent events have pushed the protection of semi-conductors to the top of the government’s agenda. Please include your own opinion of the Chips and Science Act’s semiconductors policies in your answer.
In a speech to the Atlantic Council on April 13, 2022, the US Treasury Secretary Janet Yellen introduced the concept of “friend-shoring” as an objective of US trade policy. She argued that moving forward the U.S. should favor “the friend-shoring of supply chains to a large number of trusted countries, so we can continue to securely extend market access, [and] lower the risks to our economy as well as to our trusted trade partners.” Write an essay that explains what Yellen means by friend-shoring; why she believes that we need to reorient our trade to trusted partners; and the contemporary geopolitical events that have led her to this conclusion. In your answer, analyze the pros and cons of such a turn in US trade policy and whether you agree or disagree with it.
APPLICATION PROCESS

- Admissions Committee
