

MSN, Certificate and DNP Handbook (AY 2022-2023)

PREFACE

Welcome to UofSC College of Nursing (CON). We are here to help you be successful in your graduate nursing education endeavors. The College of Nursing Master of Science in Nursing (MSN), Post Masters Graduate Certificate (PMGC), and Doctor of Nursing Practice (DNP) (MSN/PMGC/DNP) Graduate Student Handbook provides students with current information about curricula, policies, and other vital information concerning the graduate programs in the College. Wherever in this CON Student Handbook the pronoun “they” is used, the same shall be interpreted to include members of both sexes.

It is important that students become familiar with the current MSN/PMGC/DNP Graduate Student Handbook. All graduate students must read and understand the content and are responsible for adhering to the policies and procedures stipulated in the Handbook. Students must sign a statement annually attesting to the fact that they have read the current Handbook.

Disclaimer

The policies and procedures described in this handbook are continually revised and updated on the College of Nursing website. The College of Nursing and the University of South Carolina must reserve the right to make changes affecting policies, fees, curriculum, or any other matters announced in this handbook. Notifications of changes or additions to the MSN/PMGC/DNP Graduate Student Handbook made throughout the year are posted in a prompt fashion on the CON website and Virtual Communities in Blackboard (Bb). Students are responsible for checking the program Bb on a regular basis for all program-related updates and handbook updates. If you have questions regarding the contents of this handbook, please contact the [Office of Academic Affairs](#).

University of South Carolina, College of Nursing Overview

Dean's Welcome

https://sc.edu/study/colleges_schools/nursing/about/message_from_dean/index.php

Accreditation

MSN Accreditation

The Master of Science in Nursing Degree programs at the University of South Carolina are accredited by the **Commission on Collegiate Nursing Education** through 2031. Our programs also meet the standards for American Nurses Association Credentialing Center, National Organization of Nurse Practitioner Faculty, and the American Association of Colleges of Nursing's Essentials.

Post Masters Graduate Certificate Accreditation

The Master of Science in Nursing Degree programs at the University of South Carolina are accredited by the **Commission on Collegiate Nursing Education** through 2031. Our programs also meet the standards for American Nurses Association Credentialing Center, National Organization of Nurse Practitioner Faculty, and the American Association of Colleges of Nursing's Essentials.

DNP Accreditation

The Doctor of Nursing Practice degree program at the University of South Carolina is accredited by the **Commission on Collegiate Nursing Education** through 2031. We also meet the standards for American Nurses Association Credentialing Center, National Organization of Nurse Practitioner Faculty, and the American Association of Colleges of Nursing's Essentials.

State Authorization Reciprocity Agreement (SARA) and State Board of Nursing Regulation Information

Please review SARA and State Board of Nursing Information at https://sc.edu/study/colleges_schools/nursing/academic_programs/accreditation.php. In addition, if a current student is considering relocating to another state after being admitted into the program, the student must contact the program director to discuss how the move may impact their ability to participate in academic courses (distributed learning) and clinical practica (experiential learning) opportunities in a different state. Also, if a current student is working as a travel nurse in another state, the student must contact the program director to discuss how working in another state will impact their ability to participate in academic courses and clinical experiences.

University Bulletins and Policies and Procedures

There are several resources available to aid you in meeting your academic and personal goals. Registration at the University of South Carolina assumes the students' acceptance of all published regulations. The academic bulletins are the official documents of record concerning undergraduate and graduate academic programs and regulations. These bulletins are for information purposes only and do not constitute any contractual

agreement between a student and the University of South Carolina. The University reserves the right to make changes in curricula, degree requirements, course offerings, or academic regulations at any time when, in the judgment of the faculty, the president, or the Board of Trustees, such changes are in the best interest of the students and the University.

All graduate students are also responsible for the regulations listed below:

2022-2023 Graduate Studies Bulletin

<https://academicbulletins.sc.edu/graduate/>

2022-2023 Policies and Regulations

<https://academicbulletins.sc.edu/policies-regulations/>

UofSC Policies and Procedures Manual

<http://www.sc.edu/policies/policiesbydivision.php>

Academic Calendar

- The College of Nursing follows the University Academic Calendar in the Fall and Spring terms.
- The College of Nursing Summer Calendar differs from the traditional University calendar. There are typically three sessions offered each summer. Accelerated courses are typically scheduled to begin after spring final exams and run through July. Non-clinical courses are typically scheduled to begin after spring final exams and run through the first of August. Clinical courses are typically scheduled to begin after spring final exams and run through mid-August. Registration for summer and fall courses occurs simultaneously during the Advance Registration period in the spring semester.
- Consult the appropriate academic calendar for information regarding the academic year (i.e., semester beginning and ending dates, registration windows, holiday, etc. (https://www.sc.edu/about/offices_and_divisions/registrar/academic_calendars/index.php)).

UofSC College of Nursing Strategic Plan

Mission

The University of South Carolina College of Nursing provides nationally recognized educational programs and advances science, practice, and policy to optimize health for all.

Vision

To be a preeminent College of Nursing of distinction that pioneers innovation, leadership, and excellence.

Values

Diversity, Inclusivity, Commitment, Caring, Integrity, Respect, Professionalism

College of Nursing Comments and Kudos

The College of Nursing has an electronic box [Comments and Kudos](#) to allow students to make comments, share ideas, ask questions, and provide feedback to the Dean. The Office of the Dean review all submissions. Suggestions and comments submitted will be shared with the appropriate personnel as applicable. All submissions can be done anonymously. However, if you would like a response, you have the option to provide your contact information on the form.

Diversity, Equity, and Inclusivity Statement

At UofSC College of Nursing, we value each student, staff, and faculty. We want everyone to feel welcome and included. We aim to cultivate and support the values of the College of Nursing: diversity, inclusivity, commitment, caring, integrity, respect, and professionalism. We believe that diversity, equity, and inclusion are necessary to achieve academic and institutional excellence. All members of the CON community not only matter, but their unique perspectives are the core of our strength and success.

The CON DEI team created the DEI Suggestion/Feedback Box [DEI Suggestion/Feedback Box](#) to allow students an anonymous option to provide feedback on opportunities and challenges. Dr. Jenerette is the only person with access to the feedback.

Please visit our [College of Nursing Diversity, Equity & Inclusivity \(DEI\) website](#) for more details and resources available to you.

University of South Carolina Harassment and Discrimination Policies

The University of South Carolina follows the lead of state and federal government when maintaining the laws and regulations concerning discrimination and harassment. Questions or concerns regarding the University's equal opportunity programs should be directed to the Office of Civil Rights and Title IX, 901 Sumter Street, James F. Byrnes Building, Suite 401, Columbia, SC 29201, or 803-777-3854 (Voice), fax 803-777-2296, e-mail: civilrights@mailbox.sc.edu, https://www.sc.edu/about/offices_and_divisions/civil_rights_title_ix/index.php.

Academic Integrity

All students at the University of South Carolina College of Nursing must adhere to the following school-wide policies:

Carolinian Creed

We oppose intolerance by promoting integrity within our campus community. Our common values are formed upon the foundation of our creed, which emphasizes openness and civility. [Carolinian Creed](#)

Code of Conduct

Our [Code of Conduct](#) outlines students' responsibilities to themselves and the Carolina community.

Honor Code

All UofSC students are responsible for adhering to the [Carolinian Creed](#).

Honor Code violations include:

- Plagiarism: "Use of work or ideas without proper acknowledgement of source."
- Cheating: "Improper collaboration or unauthorized assistance on connection with any academic work."
- Cheating: "Using, possessing or distributing the contents of any examination (e.g., unauthorized access to test/quiz information, unauthorized duplication of test/quiz materials) without authorization."
- Falsification: "Misrepresenting or misleading others with respect to academic work."
- Complicity: "Assisting or attempting to assist another in any violation of the Honor Code."

For more detailed information, please review the [UofSC Policy on Academic Responsibility – The Honor Code](#). The [Office of Academic Integrity](#) provides resources to faculty and students for combating and preventing cheating, plagiarism, falsification, and complicity. Be aware that UofSC faculty are bound to report any violations of the Honor Code to the Office of Academic Integrity.

When a violation of academic integrity occurs:

- Office of Student Conduct and Academic Integrity decides non-academic (University) sanctions.
- In addition to university sanctions, the academic unit makes decisions about academic (course) sanctions.
- At the College of Nursing, academic penalties range from a 0 (zero) for an assignment to dismissal from the program, depending on the severity of the violation.

Civility and Professional Conduct

As students' progress through the curriculum, they are preparing for transition into professional life. Some behaviors expected in the classroom/clinical setting parallel many behaviors expected in the workplace.

Classroom Expectations

- a. Notify professor when unable to send assignment on time prior to the deadline
- b. Complete reading all assignments
- c. Engage in class discussion
- d. Maintain appropriate and professional demeanor during online class activity
- e. Refrain from the use of online discussion forum for posting of non-academic material (i.e., advertisements for jobs, products, or services)

Ethics for Nursing

Nursing is a profession, and as such, nursing students are expected to behave ethically. Ethical behavior applies to colleagues, peers, supervisors, subordinates, and clients.

Click <https://www.nursingworld.org/practice-policy/nursing-excellence/ethics/code-of-ethics-for-nurses/> for the complete Code of Ethics for Nurses developed by the American Nurses Association (ANA). The Code of Ethics serves as a guide for ethical behavior in the nursing profession. As such, students should adhere to the Code of Ethics, the Carolinian Creed, UofSC Code of Conduct, and Honor Code.

Copyright Policy

The Nursing Programs seek to aid enrolled students by offering electronic presentations and recordings of lectures to improve student engagement and to better meet individual learning needs. With the growing use of technology, students and faculty have the responsibility to understand and observe copyright laws including educational fair use guidelines, obtaining written permission, and to follow the corresponding campus University policy.

As supplemental tools, all material found in lectures is owned by the University of South Carolina College of Nursing or its faculty and is protected by United States Copyright laws.

Lecture material is only available to students enrolled in the course where the content is available, and use is not permitted outside the scope of the course. Recorded lectures will only be posted to Blackboard. Material found in the lectures may not be photocopied, screenshot, duplicated or distributed by any student without the express, written permission from the faculty member who created the material. Video, audio, or photographic recordings of course material are prohibited. Recordings, course material, quizzes, tests, and lecture notes may not be reproduced verbatim nor

uploaded to publicly accessible web environments. Recordings and course material may not be exchanged nor distributed to a third party for compensation. Recordings and course material may not be used for any purpose other than personal study and may not violate any policies herein. An individual may individually print copies of lecture material solely for personal use under the scope of the course.

Duplication or dissemination of lecture materials without authorized use may violate federal or state law and UofSC University policies.

Failure to adhere to these policies is a violation of the College of Nursing Professionalism Policy and may result in disciplinary action under university guidelines.

Dispute Resolution

In recognition of the fact that disputes or concerns will arise, UofSC CON's basic guideline is that any dispute should be resolved at the lowest level possible. Your course instructor(s), advisor, program director, Assistant Dean for Student Affairs, Assistant Dean for Graduate Studies, Associate Dean for Academic Affairs, Associate Dean for Diversity, Equity, and Inclusivity, and Dean are resources available to you. See [Student Grievance Policy](#) or [Student Petition Policy](#)

Academic Programs

Graduate Nursing Program Requirements

Individual program policies may supersede this policy due to national accreditation regulations. Check with your Program Director to determine any additional requirements:

Program of Study

The Graduate School Master's Program of Study (MPOS) and the Doctoral Program of Study (DPOS) are binding agreements between The Graduate School and the student that must be on file and approved prior to graduation. Students must follow courses in the order and as outlined on the program of study. Modification to the MPOS or DPOS may be made only in consultation with the appropriate Program Directors. Prior to beginning any change(s), the change(s) must be submitted to The Graduate School on the Program of Study Adjustment Form (GS-43 (POSA)), which is submitted by the student's graduate advisor. Forms are found at [Graduate School Forms Library](#).

Master of Science in Nursing (MSN) Requirements

MSN Overview

Seven tracks are offered at the master's degree level: Adult-Gerontology Acute Care Nurse Practitioner (AGACNP), Family Nurse Practitioner (FNP), Psychiatric Mental

Health Nurse Practitioner (PMHNP), Healthcare Leadership (HL), Nursing Education (NE), Nursing Informatics (NI), and Master's Entry to Practice Nursing (MEPN). Each program of graduate degree study is a distinct and sequential course plan leading to theoretical and clinical expertise within the specialty. Foundation courses include nursing theory, research methodology, and statistics. A detailed description of the courses required in each major and emphasis area is found in the [UofSC Graduate Studies Bulletin](#).

Advanced practice core foundation courses include advanced diagnostics, pharmacology, pathophysiology, and physical assessment.

MSN Learning Outcomes

1. Apply theoretical knowledge to the practice of advanced nursing roles.
2. Utilize evidence to address population health problems.
3. Demonstrate professionalism at the advanced nursing level in the clinical setting.
4. Pursue quality, effectiveness, and innovation in shared leadership of interprofessional health teams.

MSN Program of Study

In developing the program of study, the following criteria will apply for Master of Science in Nursing:

- The course listing will depend on the emphasis.
- All clinical hours within the program of study must be completed in the role area and with the population specific to the degree sought.
- Work hours may not be substituted for, or counted towards, the completion of required clinical hours.
- The number of clinical hours taken at the University of South Carolina College of Nursing will be consistent with the requirements of certification in the specialty area specific to the degree sought.
- Once the program of study has been developed in consultation with the graduate advisor and program director, it will be reviewed with the applicant and guide the completion of the selected program.

MSN Degree Requirements

Requirements for earning the MSN degree include:

1. Completion of an approved program of study.
2. Completion of an applied research course, [NURS 791](#), or a thesis, [NURS 799*](#).
3. Completion of required clinical hours in the specialty area specific to the degree.
4. A GPA of 3.00 (on a 4.00 scale) on all courses attempted for graduate credit and all courses numbered 700 and above.
5. A GPA of 3.00 (on a 4.00 scale) on all courses on the approved program of study.
6. Passing a comprehensive assessment during the last semester of the program.

[*Thesis policies, procedures and deadlines](#) are available on the Graduate School website.

MSN Time Limitations

MSN students are expected to complete their program of study in 4 years or less, beginning with the initial graduate course following matriculation. Additionally, when courses are taken at the University are beyond The Graduate School's six-year limit, the course must be revalidated to be applied toward the degree. Please refer to the Graduate School Bulletin Academic Regulations section on **Revalidation of Out of Date Courses** for more information. Coursework taken at other institutions cannot be revalidated.

MSN Research Requirements

Candidates for an MSN degree must complete research activities consistent with program requirements. For the MSN degree, the student may elect a thesis option or a non-thesis option. Students electing the thesis option must meet with the appropriate Program Director at matriculation to enroll in NURS 799* Thesis Preparation (6 credits) and complete a thesis under the supervision of a thesis committee. Students electing the non-thesis option enroll in NURS 791 Seminar in Clinical Nursing Research (3 credits).

[*Thesis policies, procedures and deadlines](#) are available on the Graduate School website.

MSN Comprehensive Examination Policy

MSN Graduate Nursing students must complete a comprehensive exam as required by the Graduate School and College of Nursing before graduating. Students will be allowed three attempts to pass the MSN Comprehensive Exam. If a student is unsuccessful after the first or second attempt, they may be required to schedule a meeting with the program director to discuss their results and preparation plan. A student will not be allowed to graduate if they are unsuccessful on the MSN Comprehensive exam after three attempts. The student will be required to enroll in an independent study course for remediation and successful completion of the MSN Comprehensive exam. (Approved by MSN Council 11.22.2020)

MSN Certification Requirements

While program curricula offered by the University of South Carolina, College of Nursing prepare students to sit for national certification within their specialty area, Nurse Practitioner program graduates may be required to complete additional state specific requirements before being permitted to practice. In some specialty areas such as HL and NI, eligibility requirements may include work experience.

MSN Clinical Log

Clinical hours requirements are guided by national organizations and certifying bodies requirements. All students must log ALL clinical hours whether direct or indirect in the [Central Student Portal](#).

Post Masters Graduate Certificate (PMGC) Requirements

PMGC Overview

The College offers a variety of post masters graduate certificate programs. The program of study is designed to augment the student's prior graduate study through advanced practice preparation in one of six emphasis areas: Adult-Gerontology Acute Care Nurse Practitioner (AGACNP), Family Nurse Practitioner (FNP), Psychiatric Mental Health Nurse Practitioner (PMHNP), Healthcare Leadership (HL), Nursing Education (NE), and Nursing Informatics (NI).

PMGC Learning Outcomes

1. Demonstrate professionalism at the advanced nursing level in the clinical setting.
2. Pursue quality, effectiveness, and innovation in shared leadership of interprofessional health teams.

PMGC Program of study

In developing the program of study, the following criteria will apply for Post Masters Graduate Certificate:

- The course listing will depend on the emphasis and entry preparation.
- All clinical hours within the program of study must be completed in the role area and with the population specific to the certificate sought.
- Work hours may not be substituted for, or counted towards, the completion of required clinical hours.
- The number of clinical hours taken at the University of South Carolina College of Nursing will be consistent with the requirements of certification in the specialty area specific to the certificate sought.
- Once the program of study has been developed in consultation with the graduate advisor and program director, it will be reviewed with the applicant and guide the completion of the selected program.

PMGC Degree Requirements

Requirements for earning the PMGC degree include:

1. Completion of an approved program of study.
2. Completion of required clinical hours in the specialty area specific to the post master's graduate certificate.
3. A GPA of 3.00 (on a 4.00 scale) on all courses attempted for graduate credit and all courses numbered 700 and above.
4. A GPA of 3.00 (on a 4.00 scale) on all courses on the approved program of study.

5. A minimum 18 hours for students already certified for advanced practice nursing who need to obtain additional certification.
6. Passing a comprehensive assessment during the last semester of the program.

PMGC Time Limitations

PMGC students are expected to complete their program of study in 3 years or less, beginning with the initial graduate course following matriculation. Additionally, when courses are taken at the University are beyond The Graduate School six-year limit, the course must be revalidated to be applied toward the degree. Please refer to the Graduate School Bulletin Academic Regulations section on **Revalidation of Out of Date Courses** for more information. Coursework taken at other institutions cannot be revalidated.

PMGC Comprehensive Examination Policy

The College of Nursing requires that all PMGC degree programs offered by the University of South Carolina have an end of program comprehensive assessment of graduating students. All PMGC students must successfully pass a comprehensive assessment during the last semester of the program .

Students will be allowed three attempts to pass the PMGC Comprehensive Exam. If a student is unsuccessful after the first or second attempt, they may be required to schedule a meeting with the program director to discuss their results and preparation plan. A student will not be allowed to graduate if they are unsuccessful on the PMGC Comprehensive exam after three attempts. The student will be required to enroll in an independent study course for remediation and successful completion of the PMGC Comprehensive exam.

Approved by MSN Council 11.22.2020

PMGC Certification Requirements

Students who complete the program of study are eligible to apply for national certification examinations in the applicable specialty area.

While program curricula offered by the University of South Carolina, College of Nursing prepare students to sit for national certification within their specialty area, Nurse Practitioner program graduates may be required to complete additional state specific requirements before being permitted to practice.

PMGC Clinical Log

Clinical hours requirements are guided by national organizations and certifying bodies requirements. All students must log ALL clinical hours whether direct or indirect in the [Central Student Portal](#).

Doctor of Nursing Practice (DNP) Requirements

DNP Overview

The DNP program prepares you to be an advanced practice nurse ready to assume clinical and leadership roles. APRN graduates develop skills to evaluate and assess research to improve patient care. Executive Healthcare Leadership graduates are prepared to influence health care environments through professionalism, leadership, strong communication skills and business knowledge. A detailed description of the courses required in each major and emphasis area is found in the [UofSC Graduate Studies Bulletin](#).

DNP Learning Outcomes

At the conclusion of the program, the DNP graduate will be able to:

1. Identify direct and indirect clinical problems in complex health settings and work with interprofessional teams to address them.
2. Differentiate theoretical knowledge as it applies to direct or indirect clinical care.
3. Translate evidence to address population health problems.
4. Integrate data bases and information literacy in designing interventions for advanced practice.
5. Execute evidence-based interventions to improve health care outcomes.

DNP Program of study

In developing the program of study, the following criteria will apply for Doctor of Nursing Practice:

- The course listing will depend on the emphasis.
- All clinical hours within the program of study must be completed in the role area and with the population specific to the degree sought.
- Work hours may not be substituted for, or counted towards, the completion of required clinical hours.
- The number of clinical hours taken at the University of South Carolina College of Nursing will be consistent with the requirements of certification in the specialty area specific to the degree sought.
- Once the program of study has been developed in consultation with the graduate advisor and program director, it will be reviewed with the applicant and guide the completion of the selected program.

DNP Degree Requirements

Requirements for earning the DNP degree include:

1. Doctoral residency of at least 18 graduate credit hours for three consecutive major semesters. Enrollment in a summer term is not required to maintain continuity, but credits earned during summer terms (including May session) will count towards the 18 hours required for residency. The residency requirement may only be met after admission to the DNP program.
2. Completion of an approved program of study.
3. Comprehensive assessment through defense of project proposal.

4. Completion of a research utilization/evidence-based practice project and oral defense.
5. Complete program within six years. Programs are designed for completion within six to 12 semesters.
 - Master's-prepared students - Executive Healthcare Leadership concentration – 36-39 hours
 - Master's-prepared students – APRN (no concentration) – 33 hours
 - BSN-prepared students – Executive Healthcare Leadership concentration – 60 hours
 - BSN-prepared students – Clinical concentration – 73-74 hours, depending on specific track
6. Complete a minimum of 1,000 clinical hours. Credit will be given via a gap analysis for some clinical hours earned during the master's program. After admission, each student will be required to submit a portfolio for evaluation of clinical hours and after evaluation, the required number of hours required in the DNP program will be outlined prior to matriculation.
7. A GPA of 3.00 (on a 4.00 scale) on all courses attempted for graduate credit and all courses numbered 700 and above.
8. A GPA of 3.00 (on a 4.00 scale) on all courses on the approved program of study.

DNP Time Limitations

Post-BSN DNP students are expected to complete their program of study in 6 years or less, beginning with the initial graduate course following matriculation. Completion time for BSN prepared students is typically 8 or 9 semesters of full-time study.

Post-MSN DNP students are expected to complete their program of study in 4 years or less, beginning with the initial graduate course following matriculation. Completion time for MSN prepared students is usually 6 or 7 semesters.

Additionally, when courses are taken at the University are beyond The Graduate School ten-year limit, the course must be revalidated to be applied toward the degree. Please refer to the Graduate School Bulletin Academic Regulations section on **Revalidation of Out of Date Courses** for more information. Coursework taken at other institutions cannot be revalidated.

DNP Residency Requirements

Doctoral residency is completed over a minimum of two semesters for a total of 6 credit hours. The residency requirement may only be met after admission to the DNP program.

DNP Certification Requirements

While program curricula offered by the University of South Carolina, College of Nursing prepare students to sit for national certification within their specialty area,

Nurse Practitioner program graduates may be required to complete additional state specific requirements before being permitted to practice.

DNP Project Proposal and Final Paper Outline

The DNP project is the culmination of students' study in the DNP program. The project is done under the supervision of the DNP committee consisting of two graduate faculty in the College of Nursing (one serves as the Project Chair and one as the project committee member), and one outside practice mentor. Other individuals may be added if additional expertise is needed. This project is graded T/U and implemented in NURS 897. A total of 6 credit hours (over at least 2 semesters) of NURS 897 must be completed for the degree and may be taken for variable credit (1-6). The College of Nursing does not allow a student to continue in the program with a grade of U in two semesters. Students must successfully prepare a project proposal, which serves as the written and oral comprehensive exam required by the Graduate School, prior to the implementation of the project. All proposals must obtain IRB approval prior to implementation. The student must successfully complete the project and will not graduate until the DNP project committee approves the project. For additional information, see DNP Project Guidelines – Effective Summer 2019 in DNP Virtual Community in Blackboard under DNP Project Information, DNP Project Proposal and Final Paper Outline Folder.

DNP Master Checklist

The DNP Master Checklist outlines the requirements for the DNP program. Close adherence to these guidelines will ensure successful completion of the DNP program in a timely manner. View the checklist in the DNP Virtual Community in Blackboard under DNP Project Information, DNP Master Checklist.

DNP Project Committee

DNP Project Committees require three members. Two members must be College of Nursing faculty members (the Chair and another member). The third member is an outside member – “outside” is defined as outside the UofSC College of Nursing. If your outside person is a faculty member at another university or is employed at a health care agency, it is preferred that they are doctoral prepared. If appropriate, the outside member may be at the agency where your scholarly project will be conducted. You should review additional information and required forms in the DNP Virtual Community in Blackboard under DNP Project Information, DNP Project Committee.

DNP Log and MSN Hours Verification

ANCC and NONPF outline the Essentials for DNP Curriculum. 1000 clinical hours are required for all students upon graduation with a DNP degree. These hours can be a combination of direct patient care hours as well as indirect hours to increase knowledge in areas such as leadership, policy, informatics, or health care systems for example.

If you are a post-MSN DNP student, the clinical hours required in the MSN can count towards your DNP degree from the CON. Each post-MSN DNP student should seek verification of hours from their MSN program. This can be sent to the CON at scnursing@sc.edu on the school letterhead, or the form may be sent to the MSN program and sent back to the CON. Once obtained an individual plan of hours will be developed for the student. This verification is ONLY needed for post-MSN DNP students. Post-BSN DNP students must complete all 1000 required hours in the program here at the CON prior to graduation.

All students must log ALL clinical hours whether direct or indirect in the [Central Student Portal](#).

Academic Policies and Procedures

The policies and procedures listed should not be viewed as a replacement for the [2022-2023 Graduate Studies Bulletin](#). As appropriate, the graduate programs within the CON may develop their own policies and procedures to augment the Graduate Studies Bulletin.

Organization of this Section

Information relevant to all programs is included in all handbooks, supplemented by program specific information. Wherever possible, students are also referred to electronic references via hyperlinks.

Confidentiality and Release of Student Records

The Family Education Rights and Privacy Act (FERPA), as amended, sets forth requirements regarding the privacy of student records and affords students certain rights with respect to their education records. A full explanation is available on the [Office of the University Registrar website](#).

Core Performance Standards

The UofSC College of Nursing sets forth its essential eligibility requirements for its nursing program by citing the core performance standards. The standards describe requirements in six dimensions of ability/performance (see below). An example would be if a student's condition requires that they use a crutch, walker, cane, or arm cast, they will not be allowed to participate in clinical activity until the student submits a statement from their provider of care stating they may resume all activities without any assistive devices.

Core Performance Standards

Standard 1. Critical Thinking and Related Mental Abilities: Must have critical thinking ability sufficient for clinical judgment. Examples of necessary functional abilities associated with this standard include (not an all-inclusive list): Has the ability to interpret, investigate, communicate, and comprehend complex situations; identify cause and effect relative to clinical situations under varying degrees of stress; must be able to read and comprehend detailed charts, reports, journal articles, books, etc.; and capable of performing all arithmetic functions (addition, subtraction, multiplication, division, ratios, and simple algebraic equations).

Standard 2. Communication and Interpersonal Abilities: Must be able to read, write, speak, and comprehend English with sufficient skill to communicate effectively verbally and non-verbally. Must have interpersonal abilities sufficient to interact with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds. Examples of necessary functional abilities associated with this standard include (not all inclusive): Has the ability to establish rapport with clients and their families, peers, agency personnel, and faculty; explain treatment procedures, initiate health teaching; and document and interpret nursing actions and client responses.

Standard 3. Physical Activities: Must have physical abilities sufficient to move from room to room and maneuver in small spaces with gross and fine motor abilities sufficient to provide safe and effective nursing care. Examples of necessary functional abilities associated with this standard include (not all inclusive): Able to move around a client's room, work spaces, treatment areas and administer CPR; calibrate and use equipment; position and transfer clients; capable of pushing up to 200 pounds independently; capable of reaching 18 inches above head without the use of mechanical devices to elevate themselves; capable of sitting, standing, walking for extended periods of time; experience no limitations when bending, stooping, sitting, standing, walking (i.e. uses no mechanical devices to assist themselves which would impede the safety of a client), ability to move to and respond to an emergency situation in a timely manner, and able to document in a clear, legible manner.

Standard 4. Hearing: Auditory ability sufficient to monitor and assess health needs. Examples of necessary functional abilities associated with this standard include (not all inclusive): Able to hear auscultatory sounds, monitor alarms and emergency signals; able to tolerate loud noises for extended periods of time. Assistive devices must correct hearing to this degree and must be always worn during practicums.

Standard 5. Visual: Must have the visual ability sufficient for observation, assessment, and intervention necessary for nursing care. Examples of necessary functional abilities associated with this standard include (not all inclusive): Observe client response, accurately read equipment, gauges, and monitors, vision correctable

to 20/40, normal depth perception, and ability to distinguish colors and ability to tolerate offensive visual situations.

Standard 6. Smell: Smelling ability sufficient to monitor and assess health needs. Examples of necessary functional abilities associated with this standard include (not all inclusive): Having ability to differentiate between various types of smells, and ability to tolerate offensive odors.

*Standards may be changed at any time.

**For any injury or illness that occurs while enrolled in the CON, please refer to [Medical Clearance for Absences from Class Due to Injury or Illness](#) or [Bloodborne Pathogens Exposure Protocol](#)

Student Grievance Policy

Overview

For nonacademic issues, see [STAF 6.27, Student Grievance Policy, Non-Academic](#). For academic issues refer to both [STAF 6.30, Academic Grievance Policy](#) and the College of Nursing policy below.

The graduate student academic grievance policy describes the channel of resolution used in the College of Nursing to resolve students' academic issues or complaints. The channel requires that the student seek resolution with the faculty member alleged to have caused the problem and, if not resolved, the student should initiate resolution through a defined set of procedures.

Students are encouraged to meet with their course faculty if they have academic problems. Further procedures for resolution of differences are outlined in the Academic Grievance Policy of the current UofSC Policies and Procedures Manual and this College of Nursing Graduate Student Handbook. Contact the Assistant Dean for Student Affairs in the College of Nursing for assistance.

Graduate Student Grievance Policy - Academic

UNIVERSITY OF SOUTH CAROLINA COLLEGE OF NURSING

GRADUATE STUDENT GRIEVANCE POLICY – ACADEMIC

The purpose of this policy is to inform students of their rights and responsibilities regarding the academic issues cited below.

1. Protection of freedom of expression. Students should be free to take reasoned exceptions to the data or views offered in any course of study and to reserve judgment

about matters of opinion. They are responsible, however, for learning the content of any course of study for which they are enrolled.

2. Protection against improper academic evaluation. Students should have protection, through orderly procedures, against prejudiced or capricious academic evaluation. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled.

3. Protection against improper disclosure. Information about student views, beliefs, and political associations which professors acquire in the course of their work as instructors, advisors, and counselors should be considered as confidential. Protection against improper disclosure is a serious professional obligation. Judgments about a student's ability and character may be disclosed under appropriate circumstances, normally with the knowledge and consent of the student.

Student Grievance Process

If a student perceives that any of the protections described above have been violated, the student should initiate resolution through the following channels and in the sequence indicated.

1. Discuss the issue with the faculty member involved in the alleged violation. The discussion must take place within 30 calendar days after the end of the semester during which the alleged incident occurred. If the complaint is not resolved with the faculty involved, then go to the next step.

2. Notify the Assistant Dean for Student Affairs, who will explain the grievance policy and the student's rights and responsibilities. The Assistant Dean for Student Affairs will assist the student in completing a written narrative describing the alleged violation of the protections described above. The narrative must contain the nature of the problem or complaint, reasonable evidence to support the case, background material, and a description of what has been done to resolve the problem.

3. Meet with the Assistant Dean for Graduate Studies and submit the written narrative describing the alleged violation. The written narrative must be submitted no later than one semester after the alleged violation has occurred. The Assistant Dean for Graduate Studies will send to the student a written response within 10 regular working days following the meeting. If, after receiving the Assistant Dean for Graduate Studies' response, the complaint is not resolved to the aggrieved student's satisfaction, the student must notify the Associate Dean for Academic Affairs within 10 working days of receiving the letter and request a grievance hearing. The Associate Dean for Academic Affairs will appoint an Ad Hoc Grievance Committee of four faculty members, one of whom will serve as chair, and three students to conduct the grievance hearing. The grievance hearing will be held within 10 regular working days of the student's request. The Associate Dean for Academic Affairs will distribute the

written narrative of the student's grievance to the Ad Hoc Grievance Committee and the faculty alleged to have caused the violation at the time of appointment to the Ad Hoc Committee.

4. Attend the grievance hearing and present the alleged violation(s) to the Ad Hoc Grievance Committee and answer questions. The faculty member(s) who is alleged to have caused the grievance has the right to be present during all presentations of evidence to the Committee. The student and the faculty member may call witnesses. However, the Chair of the Ad Hoc Grievance Committee must be notified in writing at least 24 hours before the hearing of the names of all witnesses and the reason each witness has been called.

5. It is the responsibility of the student and the faculty member, respectively, to arrange for the appearance of witnesses. The Assistant Dean for Graduate Studies may not attend the grievance hearing.

6. The Ad Hoc Grievance Committee must schedule a hearing; inform the faculty involved in writing and schedule their appearances at the hearing; maintain accurate, confidential records of the case; conduct the hearing in a fair and impartial manner; and inform the student and the faculty member(s) of the decision within two regular working days of the hearing.

Appeal

Graduate students may file an appeal of the decision of the Ad Hoc Grievance Committee to the Dean of the College of Nursing within ten days of receipt of the finding of the Ad Hoc Grievance Committee. The appeal must be filed on grounds that cite procedural error that results in a bias decision; new evidence; or penalty imposed that is not appropriate to the violation. If the Dean finds merit in any of the above claims, the Dean will appoint a new Ad Hoc Grievance Committee who will conduct a new grievance hearing. If the Dean does not find merit to student claims, the finding of the Ad Hoc Grievance Committee will be upheld.

Graduate students may appeal decisions to the Graduate School. Appeals accepted by the Graduate School for consideration of reversal or modification of the Departmental decision are those with one or more of the following cited as grounds: inequitable application of regulations, bias, conflict with regulations, or extenuating circumstance. See current Graduate Bulletin for additional information.

A faculty member who feels aggrieved because of student grievance proceedings has the right to appear before the University Faculty Grievance Committee and present their case to the Committee. The process is described in the Faculty Manual.

*Policy may be changed at anytime

Student Petition Policy

Overview

Students who feel they are entitled to relief from or deviation in the academic regulations of the University or the College of Nursing should apply through the petition process of the Student Petitions Committee of the College.

The purview of the Student Petitions Committee is to address student petitions, in accordance with College and University guidelines. Students will receive an e-mail notification within 24 hours followed by a letter informing them of the Committee's decision and outlining the required course of action. A copy will be sent to the student's advisor and Program Director. All matters of academic discipline are acted upon through the Student Petitions Committee of the College of Nursing.

Meetings

The Student Petitions Committee meets three times a year at the close of the fall, spring, and summer semesters, and as needed, to rule on specific academic problems.

Petition Process

A student must petition the committee in writing, describing the situation, and may be asked to present their case at the committee meeting. The petition form is obtained from and submitted to the Assistant Dean for Student Affairs.

Student may submit a petition for the below reasons. This list is not all inclusive.

- Continuance of Probation Status (Institutional GPA below 3.000 as required by the terms of your probationary semester)
- Waiver of Graduate Conditional Admission Requirements
- Waiver of graduate rule – Any student receiving two (2) grades of 79.99% (C+) or lower in the same NURS course or in any two NURS courses will be dismissed from the College of Nursing
- Waiver of graduate rule – a student may attempt each NURS course twice in the graduate program and a grade of W (withdrawal) in any graduate course will constitute an attempt

Student should explain any extenuating circumstances - whatever they might be - i.e., finances, anxiety, family, illness, etc. that caused you to not be successful, and even more importantly a plan for success if allowed to continue in the program. Please attach supporting documentation if available.

CON Graduate Course Progression Policy

- Any required, NURS or ITEC course on the student's program of study must receive a grade of B or better. If a grade lower than B is earned, this course must be repeated.
- All students must maintain a minimum 3.0 GPA.
- Any student receiving two (2) grades of C+ or lower in the same NURS or ITEC course or in any two NURS or ITEC courses will be dismissed from the College of Nursing.
- Any non-NURS or non-ITEC elective or contributing course must receive a grade of C or better.

CON Graduate Course Attempt Policy

- A student may attempt each NURS course twice in the graduate program.
- A grade of W (withdrawal) in any graduate course will constitute an attempt.

CON Graduate Pass/Fail Spring 2020 Policy (CON Graduate S+/S/U for Spring 2020 Full Term and B Term Courses Only)

Approved by the UofSC Faculty Senate on April 1, 2020

To address complications presented by the COVID19 pandemic, the Faculty Senate Steering Committee approved the following grading accommodations for undergraduate students enrolled in Spring 2020.

- All courses will be graded as originally planned according to grading criteria in course syllabi. After grades are submitted at the end of the semester, undergraduates can choose, on a course-by-course basis, to request a pass/fail grade for the Spring 2020 semester with the exception of Graduate or professional school courses, which can be taken as pass/fail only when deemed appropriate by the program or school Dean.
- The following pass/fail scale will be used: Earned grades of A, B+, B, C+, and C will be replaced with SC, earned grades of D+ and D will be replaced with S, and an earned grade of F will be replaced with U.
- If students select the S+/S/U grading scale for a course, points will not be factored into the GPA. Courses with S+ and S will count towards earned semester hours.
- Courses graded with the S+/S/U scale, under this exception for Spring 2020, will count towards applicable curricular, major, continuation, and graduation requirements. For example, if a course requires a C or better in a prerequisite, students selecting this alternative grading scale would need an S+ in the prerequisite course.
- Faculty members will not be aware of students who select the pass/fail grading choice when entering final grades. Grades will be entered in the format for which the course was approved.

- Students who previously decided to take a course on a pass/fail basis will continue on a pass/fail basis using the University's established S/U system (e.g., S is earned if the grade is D or above and U is earned for grades below D).
- For the Spring 2020 semester, undergraduate students who choose to replace a course letter grade with the S+/S/U option must do so no later than July 1, 2020.
- This process will occur through the Office of the University Registrar. A form will be available on the University Registrar website for the student to request that a letter grade be replaced with the S+/S/U scale.
- UofSC will include a transcript note on all academic records, regardless of grading basis, indicating the extraordinary circumstances of the global public health emergency during Spring 2020.
- Because some graduate and professional programs require letter grades to be reflected on transcripts, when necessary, students will be able to request an official letter attesting to the letter grade earned in any classes that were converted to S+/S/U. This letter would attest only to grades, not to GPA. We will ensure that those who need evidence of your academic achievements this spring will be able to get it. A form will be available on the University's website for students to request these letters.
- Students will be allowed to retake undergraduate courses in which they earned an S+, S, or U during Spring 2020. Any undergraduate courses retaken under this provision will not count towards the number of courses currently allowed by the current course grade forgiveness policy. In addition, students who were retaking a class for grade forgiveness in Spring 2020 can retake the class another semester, without penalty.

The graduate council has approved to expand the P/F policy approved by the faculty senate on 4/1/2020 for all graduate courses. The UofSC graduate school has administrative oversight of all CON graduate program; therefore, this policy will be an available option for all graduate nursing students. All aspects of the UG policy are intact with the major difference in the Graduate policy is **courses on a graduate program of study must be completed with a grade of C or better, therefore, only the S+ grade will be satisfactory for graduate students and this policy does not waive any progression requirements for a grade of B or better.**

CON Graduate Course Progression Policy (suspended for the full-term Spring 2020 and Spring B 2020 terms)

- A minimum grade of 80% (B) is required in all graduate NURS courses.
- If a grade lower than 80% (B) is earned, this course must be repeated.
- Any student receiving two (2) grades of 79.99% (C+) or lower in the same NURS course or in any two NURS courses will be dismissed from the College of Nursing.

CON Graduate Course Attempt Policy (suspended for the full-term Spring 2020 and Spring B 2020 terms)

- A student may attempt each NURS course twice in the graduate program.
- A grade of W (withdrawal) in any graduate course will constitute an attempt.
- **Any NURS course attempted will not count toward the two-course attempt policy**

Course or Clinical Failure

If a required course is failed, it must be repeated at the next available offering and a satisfactory grade must be achieved. The repeated course may not be taken with the Pass/Fail Option. Any courses for which the failed course is a prerequisite may not be taken until a satisfactory grade in the prerequisite course has been achieved. However, the failing grade remains on the transcript even though the student has repeated the course and obtained a passing grade or above. The failing grade is still calculated into the cumulative GPA.

Failure to earn a satisfactory evaluation in the clinical component inclusive of the faculty evaluation will result in a course failure regardless of other grades earned in the course. Clinical failure may occur at any time during the semester. Students will receive an “D+,” “D” or “F” in a clinical course if they fail to meet objectives or if they are removed from the clinical setting for unsafe practice or unprofessional activities at any point during the course. Violation(s) of the Nurse Practice Act will be reported to the Board of Nursing.

Failure to achieve a B or greater will result in repeating the entire course including clinical hours. A student who is failing a clinical course for unsafe practice may not withdraw from the course. In the event of a failure for unsafe clinical practice, the Assistant Dean for Graduate Studies will define the conditions under which the student may repeat the course.

Graduate Learning Contract

Graduate students may also require guidance on professional behavior or clinical remediation. A graduate learning contract may be developed by the course faculty in conjunction with the program director or graduate director. The learning contract will outline the behavior or clinical skills in need of improvement, an action plan and timeline for improvement as well as consequences if improvements are not achieved.

Special Enrollment Status (Z Status)

The dean of The Graduate School, under certain circumstances, may certify that a student’s full-time enrollment is less than the normal requirement of 9 hours for graduate students or 6 hours for students serving as graduate assistants. This is known as Z-Status. Students seeking an exception to minimum enrollment requirements (Z-Status) should submit a written request to the dean of The Graduate School with acceptable justification from the student’s academic advisor or the graduate director of the academic program. International students must also submit

the approved [Exemption from Full-time Enrollment](#) form from International Programs for Students.

For a student, whose need for under-enrollment results from an internship, practicum, or field experience required by the graduate program, a justification indicating the term requested and the nature of the experience should be submitted in a written memo to the dean of The Graduate School by the student's academic advisor or the program's graduate director.

Students nearing completion of a doctoral degree requiring a dissertation may be granted special enrollment status and certified as half-time or full-time if the student has completed course work required for the degree except dissertation preparation (899). Eligibility requires verification of three conditions by the student's academic advisor or program graduate director. The memo requesting Z-status must indicate that:

1. all course work on the program of study has been completed except for dissertation preparation (899).
2. the student is working on the dissertation full-time, or if applicable, at least half-time; and
3. the student is not employed outside their graduate assistantship or, if applicable, employed no more than half-time if not on a graduate assistantship.

A Z-status request for under-enrollment privilege must be term-specific and is limited to two terms. Z-status for under-enrollment privilege may be extended beyond two terms with the approval of and justification from the academic unit and with the approval of the dean of The Graduate School.

Students who request exemption from full-time enrollment for financial aid purposes must submit the Special Academic Enrollment Release form (F 6.2) from the Office of Financial Aid.

Family Leave (Z Status)

A graduate student who is the primary child-care provider is eligible to take a one major term of family leave from graduate study the major term during or following the event for the birth of a child or adoption of a child less than 6 years old. The graduate student taking family leave will receive a one-year extension of all academic responsibilities, including time to degree, removal of incomplete grades, and course in-date time. During family leave, the graduate student will be on special enrollment (Z-status) status and must have health coverage. The student may waive out of university-sponsored health insurance if covered by other insurance or may elect to continue enrollment in the University-sponsored student health insurance plan. The student is responsible for submitting required waivers and/or for contacting the student health insurance contractor directly to enroll in the health insurance program and for paying premiums by the deadline. Students should be aware that a graduate

assistantship position or other financial support may not be available upon return from family leave.

Note: While this policy does not mandate that programs continue financial support during family leave and/or guarantee student support or resumption of an assistantship after returning from family leave, programs are strongly encouraged to do so whenever possible. For process information view Graduate Studies Bulletin, [Family Leave \(Z-status\)](#) .

Leave of Absence or Inactive Status

A student taking one or more semesters off from coursework will need to reactivate degree-seeking enrollment privileges. Visit [Update Application or Admission Status](#) for more information. The Program Director and/or Admission Committee will review the application and determine the semester of return based on the student's revised program of study. A new background check, drug screen, and proof of current unencumbered RN license will be required upon re-enrollment. Additional documents may be required depending on the length of leave for example: updated goal statement.

MSN, PMGC, and DNP students must contact their program director and/or graduate advisor if taking one or more semesters off from coursework.

Withdrawal from Course and/or University

A student may attempt a specific graduate course twice in the graduate program. An attempt is any grade or W received in a course. Each MSN, PMGC, and DNP course may only be attempted twice.

Students can drop a course or withdraw with a grade of W or WF via SSC. Deadlines for dropping a course without receiving a W and WF, as well as refund dates, are determined by the part of term to which a course is attached. Every part of term during a semester has a drop/add deadline.

Withdrawals are defined by the time in the semester you wish to withdraw. There are both academic and financial implications associated with the date you drop your course(s). Should you wish to withdraw from a course with a grade of W or WF, a grade of W or WF will be recorded on your transcript. A grade of W will not be calculated in your GPA but will be recorded on your permanent record. Courses dropped after the WF deadline will be recorded as a WF on your permanent record. The grade of WF is treated as an F in the calculation of your GPA. The WF deadline will vary based on the part of term for your class found in SSC. Prior to withdrawing, you are encouraged to view your Concise Student Schedule located on the Registration tab of the Student section found in SSC to identify your part of term, speak with a counselor at the Office of Financial Aid and Scholarships for questions

regarding how dropping some or all your courses will impact your aid (e.g., federal, and private loans, grants, scholarships, special status, etc.).

A student who wishes to drop a course for medical reasons or other acceptable cause after the session penalty date specified on the Academic Calendar for that term (last day to receive a **W**), may petition for assignment of *W* by submitting a Request for Assignment of **W** for Extenuating Circumstances form (AS-122A) available from the Assistant Dean for Student Affairs with the appropriate documentation of circumstances, (e.g., a letter from a physician or health care provider). The petition requires the approval of the student's graduate director, the instructor of each course, and the dean of The Graduate School. A request for partial reduction (rather than complete) withdrawal for extenuating circumstances must include evidence (i.e., a written statement from a physician, counselor, or other qualified professional; or other documentation of extenuating circumstances) that a reduction in, rather than complete withdrawal from, student course work is appropriate. Students must be aware that liability for repayment of student loans and other financial obligations may apply. Note: *W* or *WF* does count as an attempt of the course. Only two attempts per course are permitted.

For information about tuition refunds, please contact the [Bursar's Office](#).

MSN Transfer Credit

Course work not part of a completed certificate program or graduate degree from USC or another institution may be transferred for credit toward a master's degree. No more than 12 semester hours of graduate credit may be transferred into a master's program that requires 30-36 hours; no more than 15 semester hours of graduate credit may be transferred into a master's program that requires 37-45 hours; and no more than 18 semester hours of graduate credit may be transferred into a master's program that requires 46 or more semester hours.

Eligible courses must meet the following criteria:

- Taken at the graduate level.
- Taken at an accredited, four-year institution.
- Meet the requirements for NURS 700, NURS 717, NURS 720, NURS 790 – cannot transfer any of the 3 P's or NURS 718 or any clinical course.
- Final grade of B or higher (no pass/fail or audit).

The transfer course work must be relevant to the program and have course content and a level of instruction equivalent to that offered by the University's own graduate programs. All transfer credit decisions are at the discretion of the course faculty. The appropriate faculty member reviews the syllabus to determine equivalency and to make a formal recommendation to the appropriate program director. The Program Director routes their recommendation along with faculty member's recommendation to the Assistant Dean for Graduate Studies for final CON approval. Approval for

acceptance of transfer credit is then submitted to the dean of the Graduate School for final approval on the Request for Transfer of Academic Credit ([G-RTC](#)) form. Only credits with grades of B or better (equivalent to 3.0 on a 4.0 grading scale) may be transferred from another institution into a Master's degree program. Coursework transferred for credit toward a Master's degree must be from an accredited institution and must be no more than six years old at the time of graduation. Please refer to the Graduate Studies Bulletin Academic Regulations section on Transfer Credit before contacting the graduate advisor for more information about transfer credit.

Post Masters Graduate Certificate Transfer Credit

Course work not part of a completed certificate program or graduate degree from USC or another institution may be transferred for credit toward a Post Masters Graduate Certificate degree. No more than 6 semester hours of graduate credit may be transferred into a graduate program that requires 12-17 hours; no more than 9 semester hours of graduate credit may be transferred into graduate programs that require 18 or more hours.

Eligible courses must meet the following criteria:

- Taken at the graduate level.
- Taken at an accredited, four-year institution.
- Meet the requirements for NURS 700, NURS 717, NURS 720, NURS 790 – cannot transfer any of the 3 P's or NURS 718 or any clinical course.
- Final grade of B or higher (no pass/fail or audit).

The transfer coursework must be relevant to the program and have course content and a level of instruction equivalent to that offered by the University's own graduate programs. All transfer credit decisions are at the discretion of the course faculty. The appropriate faculty member reviews the syllabus to determine equivalency and to make a formal recommendation to the appropriate program director. The Program Director routes their recommendation along with faculty member's recommendation to the Assistant Dean for Graduate Studies for final CON approval. Approval for acceptance of transfer credit is then submitted to the dean of the Graduate School for final approval on the Request for Transfer of Academic Credit ([G-RTC](#)) form. Only credits with grades of B or better (equivalent to 3.0 on a 4.0 grading scale) may be transferred from another institution into a Master's degree program. Coursework transferred for credit toward a Master's degree must be from an accredited institution and must be no more than six years old at the time of graduation. Please refer to the Graduate Studies Bulletin Academic Regulations section on Transfer Credit before contacting the graduate advisor for more information about transfer credit.

DNP Transfer Credit

Course work not part of a completed certificate program or graduate degree from USC or another institution may be transferred for credit toward a doctoral degree. A limited

amount of course work may be transferred from another institution for credit toward a doctoral degree. The exact number of transfer hours varies by program but may not constitute more than 50 percent of the hours listed on a program of study, not including dissertation preparation (899) or the equivalent.

Eligible courses must meet the following criteria:

- Taken at the graduate level.
- Taken at an accredited, four-year institution.
- Meet the requirements for NURS 717, NURS 720, NURS 790, NURS 805, NURS 808, NURS 781 – cannot transfer any of the 3 P's or NURS 718 or any courses that contribute to the DNP project, or any clinical course.
- Final grade of B or higher (no pass/fail or audit).

The transfer course work must be relevant to the program and have course content and a level of instruction equivalent to that offered by the University's own graduate programs. All transfer credit decisions are at the discretion of the course faculty. The appropriate faculty member reviews the syllabus to determine equivalency and to make a formal recommendation to the appropriate program director. The Program Director routes their recommendation along with faculty member's recommendation to the Assistant Dean for Graduate Studies for final CON approval. Approval for acceptance of transfer credit is then submitted to the dean of the Graduate School for final approval on the Request for Transfer of Academic Credit ([G-RTC](#)) form. Only credits with grades of B or better (equivalent to 3.0 on a 4.0 grading scale) may be transferred from another institution into a doctoral degree program. Course work transferred for credit toward a doctoral degree must be from an accredited institution and must be no more than ten years old at the time of graduation. Please refer to the Graduate Studies Bulletin Academic Regulations section on Transfer Credit before contacting the graduate advisor for more information about transfer credit.

Revalidation of Outdated Courses

Students enrolled in a master's or certificate program at UofSC may, with permission of the academic program, request revalidation of UofSC graduate courses over six years old for inclusion on the Master's program of study. Each academic unit will determine whether a course is appropriate for revalidation. All instructions for revalidation must be followed and the Permit for Revalidation Examination ([PRE](#)) form must be completed and submitted to the dean of The Graduate School for approval prior to revalidation. Proof of payment of revalidation fees must be submitted with the Permit for Revalidation Examination form.

Students enrolled in a doctoral program at the University of South Carolina may, with permission of the academic program, request revalidation of UofSC graduate courses over ten years old for inclusion on the doctoral program of study. Each academic unit will determine whether a course is appropriate for revalidation. All instructions for revalidation must be followed and the Permit for Revalidation Examination ([PRE](#)) form

must be completed and submitted to the dean of The Graduate School for approval prior to revalidation. Proof of payment of revalidation fees must be submitted with the Permit for Revalidation Examination form.

- Revalidation of a course requires that the student demonstrate current knowledge of the course content by a faculty member who currently is teaching or has taught the course.
- Core, foundation, and Clinical Courses leading to nurse practitioner preparation cannot be re-validated. These courses must be repeated.

The College of Nursing Program Director recommends approval to the Assistant Dean for Graduate Studies, who then sends the request to The Graduate School for approval. A per credit hour fee must be paid to the Bursar's Office before revalidation can occur and a receipt must accompany the Permit for Revalidation Examination form for approvals. It is the student's responsibility to track the Permit for Revalidation Examination form through the approval process, and to obtain the faculty member's signature upon completion of revalidation requirements. The completed form must then be submitted to the appropriate College of Nursing graduate advisor for filing and forwarding to The Graduate School.

Note: Coursework taken at other institutions may not be revalidated.

Independent Study Courses

The purpose of an independent study is to allow the student to pursue an area of academic interest not covered by the regular course structure. Students seeking to enroll in an independent study course should work with a faculty member willing to serve as Instructor of Record. Prior to enrolling in the course, the student and faculty member will meet to develop the learning objectives and course outcomes. A syllabus is required to be completed and approved.

Prior to enrolling in a graduate independent study course, a student must complete a graduate Independent Study Contract form (**G-ISC**). The approval of the instructor, advisor, and the graduate director of the program is required. Students send an approved copy of the **G-ISC** to the Office of the University Registrar before registering for the course. Students enrolled in the MSN or DNP programs may not enroll for nursing independent study courses on a pass/fail basis.

Note: Not more than 6 hours of independent study may be used on a master's program of study.

Registration for Independent Study

The Graduate School Independent Study Contract form (**G-ISC**) is required for any graded, for-credit course in which the student is doing independent academic work. This contract is to contain the following information:

- Course Description should give insight into the content to be covered within one semester or part of the semester
- List of Tasks should include 1) a brief description of each task and how it will be assessed, 2) an estimate of when it will be due or accomplished, and 3) the weighted contribution toward a final grade, preferably expressed as a percentage. The total of all the tasks should be 100 percent.
- Grading Scale should indicate the percentage ranges for each grade and must include an A and an F. Indicating the full range of grade possibilities is most desirable. For example: A = 90–100%; B+ = 87-89.99%; B = 80–86.99%; C+ = 77-79.99%; C = 70–76.99%; D+ = 67-69.99%; D = 60-66.99%; F = 0-59.99%.

Course faculty and graduate director must approve this form. The G-ISC form and syllabus should be first submitted to the graduate advisor prior to registration.

Attendance Policies

University and College Attendance Policy

Students are expected to attend all regular class meetings. Unsatisfactory class attendance may be considered adequate reason by the instructor for requesting the student to withdraw from a course. Any special circumstances must be discussed with the course faculty prior to the start of the semester.

University and College Attendance Policy for Online Graduate Courses

Students are expected to log into the course at least two (2) times weekly to read announcements, access course content in Course Weekly Guides, participate in interactive online learning activities. Unsatisfactory class attendance may be considered adequate reason by the instructor for requesting the student to withdraw from the course.

Simulation Attendance Policy

On-Site Simulation Experience is mandatory. Failure to attend the On-Site Simulation Experience will receive a grade of “F” for the course, regardless of grades earned, and will be dismissed from the program.

Skills Immersion Attendance Policy

Skills Immersion Experience is mandatory. Failure to attend the Skills Immersion Experience or any portion of, will receive a grade of “F” for the course, regardless of grades earned, and will be dismissed from the program.

Field Study (Clinical Practice) Attendance Policy for Field Study (Clinical) Courses

Students are expected to complete all scheduled clinical practice hours as required for successful completion of the course. Schedules are planned with the preceptor with input from the course faculty and clinical faculty. Faculty may require withdrawal

or failure of any student who has missed sufficient practice hours or has not completed clinical objectives for the course.

Religious Observance and Holidays

UofSC is required by law to excuse absences from class for observance of a religious practice, holiday or holy day, if the instructor of the class is provided written notification by the student of their intent to observe such religious practice, holiday or holy day no later than the end of the second week of regularly scheduled classes in a full fall or spring semester term, and within twice the length of the drop/add period for any other term. Change/Drop dates can be found at <https://mysc.edu/codes/partofterms/index>.

Grading Policies

The following policies are in place to promote quality learning outcomes and fairness to all students.

Grading Scale

The College of Nursing uses a 10-point grading scale with no grade rounding.

A = 90-100

B+ = 87-89.99

B = 80-86.99

C+ = 77-79.99

C = 70-76.99

D+ = 67-69.99

D = 60-66.99

F = 59.99 or lower

The Grade Point Average (GPA) is tabulated at the end of each semester. The University of South Carolina grades on a standard 4.00 grading system.

Student grade report is viewable within SSC in the Grades section. Final grades are due 72 hours after the exams. If your grade is not posted, contact your instructor. For letter grade definitions, see 2022-2023 Graduate Bulletin, [Grading Policies](#)

Rounding Policy

The College of Nursing does not allow grade rounding.

Grading of DNP Project Courses

Completion or satisfactory progress in these courses will be indicated by the grade of "T"; unsatisfactory progress will be indicated by a grade of "U". No other grading options (i.e., Incomplete) are available. These grades will not be used to calculate the student's GPA. However, the College of Nursing does not allow a student to continue in the program with a grade of "U" in two courses.

Grade Disagreement

The role of the Assistant Dean for Graduate Studies in matters of grade disagreement is to investigate the processes used by faculty in determining the grade and advise the faculty member in handling any perceived problems with applying grading processes outlined in the syllabus or any other apparent violations of fairness. The faculty member determines the grade that is awarded.

Incomplete Policies

The grade of I (incomplete) is assigned at the discretion of the instructor when, in the instructor's judgment, a student is prevented from completing a portion of the assigned work in a course because of an illness, accident, verified disability, family emergency, or some other unforeseen extenuating circumstance.

Re-enrolling in a course will not make up for an incomplete grade. A grade of "I" is not computed in the calculation of a student's cumulative grade point average until the make-up grade is posted.

After 12 months, an "I" (incomplete) grade that has not been replaced with a letter grade is changed permanently to a grade of "F" or to the backup grade indicated by the faculty member on the Assignment of Incomplete Grade form. In the rare instance the instructor believes there is justification for an extension beyond the 12- month limit, a request for extension of incomplete time should be submitted to the dean of The Graduate School before the expiration of the 12- month period on the Extension of Incomplete Time Period Authorization (**GS-47**) form for approval. The Graduate School does not approve the make-up of "I" grades in courses which are already out-of-date for use on a student's program of study or extensions of time without sufficient justification and/or supporting documentation.

Incomplete in Non-Clinical Courses

A grade of incomplete in a non-clinical course is assigned by the instructor only under the following conditions:

- The student has academic good standing in the course with a passing grade average.
- The student has no more than two outstanding course requirements unmet in the course.
- The student and instructor have an agreed date of submission for all outstanding course requirements. The student has up to 12 months to complete the work unless the instructor has given an earlier deadline.

Any grade of incomplete which remains after one calendar year from date of assignment automatically converts to either an "F" or the backup grade assigned by the instructor.

Incomplete in Clinical (Theory and Practice Courses)

A grade of incomplete in a clinical (theory and practice) course is assigned by the instructor only under the following conditions:

- The student has academic good standing in the course with a passing grade average.
- The student has clinical good standing in the course with no record of clinical practice errors risking patient safety in the course.
- The student has no more than two outstanding course requirements unmet in the course.
- The student has completed the majority of any required clinical hours (e.g., more than 50% of clinical hours are completed) in the course.
- The student and instructor have an agreed date of submission for all outstanding course requirements. The student has up to 12 months to complete the work unless the instructor has given an earlier deadline.

Carrying this grade may hold severe implications of failure to progress to next term with delay in the student's academic and clinical progression of an academic term or full academic year. Any grade of incomplete which remains after one calendar year from date of assignment automatically converts to either an "F" or the backup grade assigned by the instructor.

Examination Policies

1. All exams must be taken in proctored settings.
2. All exams must be completed by the due date/time. Failure to complete any exam by the due date/time will result in a grade of 0 for that assignment. In case of emergencies and/or extenuating circumstances, please notify the faculty in advance.
3. Point deductions will be incurred for failure to complete the exam in the designated time frame. If you exceed the time limits for the exam, 2 points per minute will be subtracted from the grade.
4. Discussion or reproduction of any online assessment (e.g., exams or quizzes) in any form is a violation of academic integrity and, if it happens, it will be reported.

Proctored Examination Options

There are 4 options for taking proctored exams:

- Students may take proctored exams in the Office of Distributed Learning Testing Center on the Columbia Campus. The center, which is located at **1716 College Street**, has 9 computers/testing workstations. The center is open Monday –Friday from 9:00 a.m. – 5:00 p.m. No fee.
- Online Test Proctoring: Monitor, by Respondus is a remote proctoring service. Monitor provides automated exam proctoring and enables students to take assessments within Blackboard. After a one-time installation of a plugin, each student follows a startup sequence that guides them through completion of requirements set by the instructor (these requirements are entered when you set

up your assessment in Blackboard). Monitor records each student's session for later review and applies monitoring algorithms to notify instructors of the timestamp of any suspicious activity for their review. This product is integrated in Blackboard, and available for use at no cost to students, instructors, or academic departments. System Requirements: Windows: 10 (but not 10S), 8, 7; Mac: OS X 10.12 or higher; or iOS: 10.0+ (iPad only). Students must also have a web camera (internal or external) & microphone and a broadband internet connection

- [Student Disability Resource Center](#) provides alternative testing accommodations. SDRS Test Proctoring Suite is located at 1705 College Street, Close-Hipp, Suite 203. No fee.
- The University of South Carolina System offers a number of [approved testing sites](#). To schedule an exam, students must inform Distributed Learning of their preferred testing site, and then contact the site coordinator **at least one week before each exam** to schedule an appointment. No fee. Off-Campus Sites: Students may use a proctor from any accredited college or university that has testing services available. Most institutions have testing facilities or testing services offered through their online program. Students will need to complete a [Proctor Request Form \[PDF\]](#) for approval to take exams at an off-campus testing location.

More information for students about test proctoring can be found on the UofSC Distributed Learning [Test Proctoring page](#).

Travel to Research Sites

Students are responsible for transportation to sites for their research each semester and for covering the cost of travel. It is the obligation of students to provide their own vehicle collision and/or bodily injury liability insurance for their personal vehicles. Neither the College of Nursing nor the University of South Carolina is responsible for the cost of any vehicle transportation or occurrences.

CON Policies and Procedures Specific to Graduate Nursing Programs

Organization of this Section

Information relevant to all programs is included in all handbooks, supplemented by program specific information. Wherever possible, students are also referred to electronic references via hyperlinks.

Communication between the College of Nursing and Graduate Students

The official mode of communication between the College of Nursing and graduate students is through university e-mail. All students matriculated in the CON are assigned a UofSC e-mail account upon acceptance of an admission offer. Students must monitor their university e-mail account regularly and are responsible for responding promptly to requests made by e-mail. No other e-mail account may be used for official communication with the school.

Accommodations for Students with Disabilities

The UofSC is committed to ensuring that every student has equal access to all aspects of the UofSC experience. Student Disability Resource Center (SDRC) coordinates efforts to ensure that students with disabilities receive reasonable accommodations and serves as consultants to faculty, staff, and campus partners. SDRC information can be viewed [here](#). Please contact SDRC with any questions at (803) 777-6142, e-mail: sadrc@mailbox.sc.edu

Medical Clearance for Absences from Class Due to Injury or Illness

Students must notify all course and clinical faculty if injury or illness results in absence from class and/or clinical experiences (including simulation, immersions, lab, and extrinsic). Students do not have to disclose diagnoses or disabilities to the College of Nursing.

- Step One: If missing class, simulation, lab, immersion, and or clinical - Notify course faculty via email.
- Step Two: If missing simulation, lab, immersion, and/or clinical - **Also** notify also clinical instructor via their preferred contact method if needing to be absent from clinical, simulation, lab, or immersion experience.
 - Students should expect a response within 24 hours from the faculty with instructions/plans for the course/clinical.
- Step Three*: Download from your course the Medical Clearance for Core Performance Standards (MCCPS) form. This form should be completed at the time of being assessed formally by a healthcare provider. A medical clearance form or “return to school” note generated from a provider, which is not documented on the MCCPS form will not be accepted. The only exception is the medical clearance form generated by UofSC University Health Services. Please obtain a business card for the provider as well if not documented on the University Health Services clearance form. Please be sure that the clearance addresses **both** clinical and class.
- Step Four: **DO NOT attend clinical, lab, simulation, immersion, or class** even if you have completed the above steps.
 - Any student reporting injury/illness is **NOT** cleared for face-to-face class until receiving final clearance from the course faculty.
 - Any student reporting injury/illness is **NOT** cleared for simulation, lab, immersion, and/or clinical until receiving final clearance from the CON administration, regardless of being seen by a healthcare provider and/or

completion/submission of the medical clearance form. The **medical clearance form should be submitted to NURSEVTS@mailbox.sc.edu**.

- ***If you are absent due to COVID and reported your results to University Health Services:** You must send the COVID Isolation Notice from University Health Services to NURSEVTS@mailbox.sc.edu upon receipt and you will NOT need to provide the Medical Clearance for Core Performance Standards form.
- ***If you are absent due to COVID and did not report your results to University Health Services:** You will need to submit the Medical Clearance for Core Performance Standards form.

Clearance for simulation, lab, immersion, and/or clinical will be submitted to the appropriate students daily no later than 10 pm. If you are a student waiting for clearance and do not receive clearance by 10:00 pm on that day, then you are not cleared to resume simulation, lab, immersion and/or clinical on the next day.

Clearance for simulation, lab, immersion, and/or clinical will be submitted to the appropriate students daily no later than 10 pm. If you are a student waiting for clearance and do not receive clearance by 10:00 pm on that day, then you are not cleared to resume simulation, lab, immersion and/or clinical on the next day.

Prescriptive Authority and APRNs

The South Carolina (SC) Board of Nursing (BON) accepts the UofSC College of Nursing (CON) curricula and pharmacology hours as meeting the minimum of 45 contact hours of education for prescriptive authority licensure designation.

- The 45 didactic hours taken in NURS 702 Pharmacologic Management in Pediatric, Adult, & Gerontological Patients Across Healthcare Delivery Continuum are also sufficient for initial approval of prescriptive authority in accordance with the Laws Governing Nursing in South Carolina, section 40-33-34, if the application is made within two years of graduation from either the Master of Science in Nursing degree program, Doctor of Nursing Practice degree program, or a Certificate of Graduate Study degree program.
- If more than two semesters have lapsed since the student was active in their program, current competence in advanced pharmacology must be demonstrated.
- Procedure:
 - Components assessed in the demonstration of current competence:
 - Prescribe accurate and safe prescriptions for individuals with common acute and chronic conditions.
 - Select appropriate drug treatment regimens for common acute and chronic conditions.

- Evaluate the appropriate monitoring parameters for specific drug regimens.
 - Incorporate evidence-based guidelines in the development of pharmacologic treatment plans.
- Students will be required to enroll in NURS 769 Independent Study in Nursing for 7 weeks (A-term). Successful demonstration of current competence as described above depends on successfully completing modules and exams. The exam average must be at least an 80 (no rounding) to be considered passing. If a student earns less than a B and has not earned less than a B in any other course, a second attempt will be allowed during B-term. However, if the student earns less than a B and they have previously earned less than a B in another course, they will be dismissed from the program.
- If students do not apply for their license within 2 years of graduation, they will have to meet the Board of Nursing requirements for additional continuing education in pharmacology.
 - Any student who will be looking to be certified outside of SC should check with their intended state Board of Nursing to determine the specific requirements.

Student Substance Use Disorders (SUD) Policy

Purpose

The College of Nursing recognizes the importance of educating its students about the problems of substance use disorders (SUD). Unfortunately, this significant health risk is prevalent among healthcare providers. Aside from impacting the personal and psychological integrity of the individuals with SUD, Substance use disorders might significantly alter the ability of healthcare providers to administer safe, competent patient care. In extreme cases, SUD by a healthcare provider can lead to malpractice lawsuits and even criminal prosecution. Recognizing that SUD is both a brain disease and a professional hazard, the University of South Carolina has resources available for students experiencing SUD issues.

The College of Nursing has established this policy to clarify procedures for students who are found to have misused controlled or illegal substances and/or alcohol. This policy addresses the student's ability to maintain personal and professional integrity and facilitates the student's success both clinically and didactically. In the clinical setting, this policy enhances patient safety. It also fosters the development of professional nurses who are well educated about the prevalence of SUD and its potential to lead to adverse patient outcomes.

Policy

This policy applies to all students who have matriculated into College of Nursing academic program(s).

Any unlawful possession, use, manufacture, distribution, diversion, or improper use of any substances by any student in the College of Nursing may constitute removal from clinical and/or cause for termination from the program(s). In addition, no student may consume or be under the influence of or be in the possession of alcohol at any time the student is in the classroom and/or performing clinical duties. Improper use of alcohol may also constitute removal from clinical and/or cause for termination from the program. Students must comply with all local, state, or federal laws and regulations controlling the possession, manufacture, use, or distribution of controlled or illegal substances and alcohol. Students are accountable for their ingestion of substances, regardless of whether aware or unaware of the contents of which they ingested (including orally, inhaled, vaped, or other means). The College of Nursing will deal with student claims of unintentional intoxication on a case-by-case basis considering all facts and circumstances. Students must also adhere to all University of South Carolina policies regarding alcohol and/or drug use. Specific policies of note include: STAF 3.02, Alcohol Policy and Guidelines for the University Community; STAF 3.18, Drug Policy for University Students; STAF 3.19, Overdose Medical Treatment; STAF 6.26, and Student Code of Conduct. These policies can be found at [**Policies and Procedures Manual**](#).

In addition, there are circumstances in which students might need to take over the counter or prescribed medications that have the potential to impair their professional performance in the clinical setting or personal behavior. Documentation from treating provider should indicate diagnosis and anticipated length of medication administration. As such, all students are responsible for being aware of the effect these medications may have on performance and must notify their Program Director, Course Coordinator, or Instructor within 72 hours prior to clinical attendance or required drug screening about the use of any medication that could impair performance or has the potential to influence a drug screen result.

Failure or refusal to comply with the SUD policy may be grounds for disciplinary action, including dismissal from the program. Any attempt to delay, hinder, or tamper with any drug screen or to alter the results of a drug screen will be considered a refusal to comply with this policy. In addition, failure, or refusal to comply with any aspect of the SUD policy may be reported to the University's Office of Student Conduct for possible disciplinary action in accordance with the University's Student Conduct Policy.

Procedures

I. Drug Screens

Many clinical training sites, or institutions in which human research is being conducted, require that students undergo drug screens, like what is required of their employees, prior to placement at the sites. Therefore, all students involved in clinical practice settings, whether for education purposes or for the recruitment of research

subjects and/or the collection of research data, will be required to undergo drug screening prior to entering clinical sites.

In addition, during enrollment in a College of Nursing program(s), a student may be required to undergo drug or alcohol testing for cause when the university faculty and/or administrator(s) determine there is reasonable suspicion that the student is impaired due to illegal drug or alcohol use, or the use or misuse of prescribed or over-the-counter medications. Drug screening based on reasonable suspicion may be requested in the following scenarios, but will not be limited to these examples: when: unusual or aberrant behavior or patterns of abnormal or erratic behavior; physical symptoms of impairment; arrest or conviction for a drug or alcohol related offense; evidence of drug tampering, drug diversion, or misappropriation; direct observation of drug use or discrepant drug counts; alterations in student clinical and/or didactic performance that may not be attributed to other causes; following a work-related injury or illness when there is any evidence (direct or circumstantial) that it may have been related to use of a controlled substance; observation of poor judgment or careless acts which caused or had the potential to cause patient injury, jeopardize the safety of self or others, or resulted in damage to equipment. Drug screening may also be required following a work-related injury or illness if requested by the facility or third-party payor such as an insurance company.

II. Reporting

A faculty or staff member who suspects possible substance misuse by a student must report the suspicions along with relevant supporting information to the Program Director or Course Coordinator who will then immediately contact the appropriate Assistant Dean, Assistant Dean for Student Affairs, and the Associate Dean for Academic Affairs. In the absence of the Program Director or Course Coordinator, the faculty member observing the behavior should contact the appropriate Assistant Dean, Assistant Dean for Student Affairs, and the Associate Dean for Academic Affairs. Any faculty member with evidence that an enrolled student has engaged in clinical care of patients and families or participated in classroom activities while impaired must report their observations to the appropriate Assistant Dean.

A student who suspects possible substance misuse or a violation of this policy by another student has the responsibility to report this information. A report needs to be made to the student's academic advisor, and/or Instructor, Course Coordinator, or Program Director. The appropriate Assistant Dean, Assistant Dean for Student Affairs, and the Associate Dean for Academic Affairs should be notified by the advisor, course instructor, course coordinator and/or program director. The identity of the individual making the report will be kept confidential to the greatest extent possible consistent with the need to investigate the report and subject to legal requirements.

Any student arrested or convicted of violating any federal, state, or local law pertaining to the manufacture, possession, sale, use, or distribution of a drug or alcohol or misuse

of prescribed medications must report this event to the appropriate Assistant Dean, Assistant Dean for Student Affairs, and the Associate Dean for Academic Affairs within three days of the event and prior to any clinical contact with patients and families. If the student holds a nursing license, the student should also contact their governing Board of Nursing for guidance in reporting an arrest and/or conviction.

III. Drug Screening Procedure

Drug and alcohol screening required by the College of Nursing will be conducted utilizing the following measures:

- a. Students are responsible for all expenses incurred for drug screens.
- b. The student must be screened at a facility approved by the College.
- c. The student must fully comply with the approved facility's drug screening standards, methods, and procedures for collecting samples.
- d. The drug screen shall screen for the use of the controlled substances (examples listed in Appendix 1).
- e. The student must disclose any prescribed or over-the-counter medications, as well as any dietary habits that could modify screening results.
- f. If the accuracy of a positive drug screen is disputed by the student, the student may request a retesting of the initial samples by the facility; however, the student will cover the cost of the additional drug screens. Drug screens done outside the appropriate window of time will not be considered valid.
- g. Substance use disorder is verified if either: (i) the positive test result is not disputed, or (ii) if the student-requested retest of the initial sample is positive.
- h. If the drug screen is inconclusive, the screening will be treated as positive until definitive analysis by alternate testing is accomplished. Alternate testing will be conducted at the same facility as the inconclusive drug screen results and will be at the student's expense. During this time, the student will not be permitted to have any contact with their clinical sites, but may be allowed to attend classes, pending the approval of the appropriate Assistant Dean.
- i. The approved drug screening facility will publish a final report of the test results (positive, negative, or inconclusive) to the College of Nursing.
- j. A student who is required to and submits to drug and/or alcohol screening will be expected to authorize the release of the results to the College and other relevant University offices.
- k. If a student refuses to release the drug screen results to the College and other relevant University offices, the test will be presumed positive and treated as a positive screening result for the purpose of this policy.

Admission to the program will be withdrawn for a student screening positive. All interim actions up to or including: (1) a student undergoing a drug or alcohol screening, (2) a student refraining from contact with clinical sites, and/or (3) a student refraining from class attendance will be determined by the appropriate Assistant Dean in consultation with the Associate Dean for Academic Affairs, relevant Program Director, Course Coordinator or Instructor and relevant University experts. In the case of drug or alcohol

screening based on reasonable suspicion, the cost of any required drug or alcohol testing will be the responsibility of the student at a facility approved by the College of Nursing. A student who refuses to submit to a drug screen or who refuses to release the results of drug or alcohol screen will be regarded as having voluntarily relinquished their clinical responsibilities and can be suspended from the program(s) until further investigation is completed. Any attempt to delay, hinder, or tamper with any drug screen or to alter the results of a drug screen will be considered a refusal to submit to testing and may result in an inference of impairment and/or a violation of this policy.

IV. Confidentiality

The requirement that a student be screened, as well as the drug screen results, will remain confidential and disclosed only to those individuals within the University of South Carolina or an affiliated clinical site with a need to know or as required by law. Upon written request, students will be provided with a copy of the drug screen results. All students who hold a nursing license and who are suspected of SUD will be asked to self-report to their respective State Board of Nursing. If the student refuses to self-report, the appropriate Assistant Dean, Assistant Dean for Student Affairs, and the Associate Dean for Academic Affairs will consult with the appropriate Program Director, Course Coordinator or Instructor, and other relevant University officials with a need to know. If a health or safety emergency exists which puts the student or others at imminent risk of harm, then the College of Nursing may choose to report the student to the appropriate State Board of Nursing.

V. Self-Disclosure

Students who self-disclose a substance or alcohol use problem to a faculty member, staff member, Program Director, appropriate Assistant Dean, Assistant Dean for Student Affairs, or the Associate Dean for Academic Affairs, **prior** to or following a positive drug/alcohol screen result, and who are willing to enter and complete an appropriate program of treatment may be granted a medical leave of absence while they undergo treatment. In consultation with their health care provider and University providers (Counseling and Psychiatry-Student Health Services and/or Substance Abuse Prevention and Education (SAPE)), a treatment program will be identified, and the student will be assisted with entrance. The student must sign appropriate HIPAA Authorization forms permitting designated University providers (Counseling and Psychiatry-Student Health Services and/or SAPE) to communicate with the student's private health care providers about their recovery status with the College of Nursing.

VI. Treatment and Counseling Resources

Students who are concerned that they may have a substance or alcohol use problem are encouraged to seek appropriate assessment, treatment, and counseling from qualified health care professionals. The following websites reflect some treatment

resources, counseling services, and mutual support programs that are available to students:

- [Alcoholics Anonymous](#)
- [American Society of Addictive Medicine](#)
- [Mental Health at UofSC](#)
- [Narcotic Anonymous](#)
- [National Directory of Drug and Alcohol Abuse Treatment Programs](#)
- [UofSC Substance Abuse Prevention and Education](#)
- [UofSC University Health Services](#)

VII. Reentry into the Academic and Clinical Environment

Return from a medical leave of absence due to disclosure of a substance use problem will be considered by the appropriate Assistant Dean and approval of the Associate Dean for Academic Affairs following successful treatment and sustained progress in recovery efforts in addition to other conditions that may be stipulated in the leave of absence agreement. The leave of absence will be a minimum of one calendar year from the time of the positive drug screen with a longer period if determined as needed by your healthcare professionals. Time of re-entry would also be contingent on space available in the program of study. The conditions will be appropriately individualized considering the situation and needs of the student. All required University and College documents must be completed, including a plan for successful return to course and clinical work that is approved by the student's health care provider, relevant University experts (Counseling and Psychiatry and Student Health Services) and the College of Nursing. Factors that have been identified as helpful for reentry into the academic and clinical environment include 12-step program participation, random drug screenings, and sponsorship in a support group. The student must also provide medical clearance from the appropriate individual coordinating therapeutic intervention and evidence of an unencumbered nursing license (if a RN-BSN or graduate student). Re-entry to the College of Nursing will be determined in consultation with the Counseling and Psychiatry and Student Health Services offices. A student in recovery from SUD who is permitted to reenter the College of Nursing must comply with all the conditions of return delineated as part of the program reentry agreement.

Depending upon the length of absence from the program, the student may be required to restart the clinical and/or didactic components of their program of study. Alternatively, the student may only be required to repeat specific semesters of clinical and didactic study, based on the decision of the appropriate Assistant Dean in consultation with the relevant Program Director or Course Coordinator. A student recovering from SUD will be monitored closely, particularly in clinical practice. Frequent monitoring to ensure the student remains substance free will be required.

Reentry can be difficult for students, especially for those who have just started their educational program and have limited time invested in the program. Reentry after relapse into SUD is not advised for any student. Reentry into a nursing program's

curriculum after a period of absence, no matter what the reason, can be a stressful time of readjustment. A student who has been in rehabilitation for SUD requires the same period of adjustment as a person who has been away from clinical and didactic arena for any other reason. A student in recovery who is reentering the program will be encouraged not to resume their course of study too hastily, but instead allow themselves time to develop appropriate support systems to facilitate the reentry.

Appendix 1

- Amphetamine (methamphetamine) Barbiturates
- Benzodiazepine
- Cocaine
- Marijuana
- Methadone
- Opiates (codeine & morphine) Phencyclidine
- Propoxyphene
- MDMA
- Oxy (2 categories)

Revised January 2021

Student Use of Social Media Guidelines

As professional nurses, students are responsible for protecting the privacy and confidentiality of patients and research participants. The following guidelines are intended to minimize the risks of using social media:

- a. First and foremost, nurses must recognize that they have an ethical and legal obligation to always maintain patient privacy and confidentiality.
- b. Nurses are strictly prohibited from transmitting by way of any electronic media any patient-related image. In addition, students/nurses are restricted from transmitting any information that may be reasonably anticipated to violate patient rights to confidentiality or privacy, or otherwise degrade or embarrass the patient.
- c. Do not share post or otherwise disseminate any information, including images, about a patient or information gained in the nurse-patient relationship with anyone unless there is a patient care related need to disclose the information or other legal obligation to do so.
- d. Do not identify patients by name or post or publish information that may lead to the identification of a patient. Limiting access to postings through privacy settings is not sufficient to ensure privacy.
- e. Do not refer to patients in a disparaging manner, even if the patient is not identified.

- f. Do not take photos or videos of patients on personal devices, including cell phones. Follow employer policies for taking photographs or video of patients for treatment or other legitimate purposes using employer-provided devices.
- g. Maintain professional boundaries in the use of electronic media. Like in-person relationships, the nurse has the obligation to establish, communicate and enforce professional boundaries with patients in the online environment. Use caution when having online social contact with patients or former patients. Online contact with patients or former patients blurs the distinction between a professional and personal relationship. The fact that a patient may initiate contact with the nurse does not permit the nurse to engage in a personal relationship with the patient.
- h. Consult employer policies or an appropriate leader within the organization for guidance regarding work related postings.
- i. Promptly report any identified breach of confidentiality or privacy.
- j. Be aware of and comply with employer policies regarding use of employer-owned computers, cameras and other electronic devices and use of personal devices in the workplace.
- k. Do not make disparaging remarks about employers or co-workers. Do not make threatening, harassing, profane, obscene, sexually explicit, racially derogatory, homophobic, or other offensive comments.
- l. Do not post content or otherwise speak on behalf of the employer unless authorized to do so and follow all applicable policies of the employer.

*All guidelines apply to students. Student should also not make disparaging remarks related to their clinical site, faculty, or school. The College of Nursing has adopted the NCSBN position statement:

NCSBN (2011) White Paper: A Nurse's Guide to the Use of Social Media
https://www.ncsbn.org/NCSBN_SocialMedia.pdf

Student Social Media Takeover Guidelines

Please refer to the guidelines below when participating in any form of social media takeover- Instagram, TikTok, etc.

Takeover at the Clinical Setting

- You may record/take pictures before entering and after exiting the clinical building or facility. No recording or taking of pictures of any identifying signs or names of the clinical site.

- No pictures or videos while inside the clinical building or facility. The CON phone policy will be enforced while in clinical.
- You may talk about your experiences such as the highlights of your day, what you learned, your feelings, what skills you performed, etc.
- Do not state which hospital you were at or your exact location within the hospital- you may say what unit you were on
 - Example: my clinical was on a med surgical unit today...

Takeover at the College

- You may record/take photos before and after class
- If you record/take photos of classmates, please inform them their photo will be on the CON social media so those who do not want to be featured can decline
- Do not speak about specific test questions, simulation experiences, or other academically confidential experiences. It is best to obtain permission from the faculty, if during a class.
- Simulation lab
 - No photos or video during a simulation
 - You may take staged photos with manikins during a break, before/after class
 - Patient confidentiality rules apply in simulation. If you choose to photograph with a manikin, please do not take photos with a manikin that is being used that day as a patient.
 - See Lonnie Rosier or Shannon Gooding to assist with any pictures of manikins

Takeover General Reminders

- While in uniform remember to respect the Core Values of Nursing
- Follow all HIPAA best practices
- Have FUN! Make us PROUD!

What makes a good Takeover? At the UofSC CON, takeovers usually focus on a unique event or experience in a student's life. Content should build community among current nursing students and provide prospective students an authentic

experience of Gamecock life such as diverse, interactive narratives based on their passion for and participation in university organizations, events, and academics. Examples include:

- Day in the life of a Gamecock nursing student
- Highlights of a class, clinical, or experiential learning experience
- Special events such as organizations, internships, scholarship, convocation, or commencement
- Other events as identified by the student or CON

These guidelines will help you create a successful Takeover story:

Takeover Do's:

- **Start the takeover with a video or picture of yourself. Introduce who you are and that you are taking over the CON social media Instagram.**
- **Introduce yourself** at events and announce that you are snapping, so those who do not want to be featured can say, “no” or decline.
- **Be friendly and gracious.** Respect people’s boundaries and thank participants.
- **Be positive.** Represent the University and CON, and its students, faculty, staff, and larger community in a positive light.
- **Do over.** If a subject stumbles or says something offensive. Ask nicely to reshoot the picture/video without profanity, etc. If they resist, thank them for their time and move on.
- **Take us through your typical day.** Are you involved in any organizations, clubs, committees, etc.? Where is your favorite place to eat on campus? Where do you hang out/study between classes? Do you ever attend events on campus? Do you venture into the city?
- **Shoot vertically.**
- **Adhere to** the University [Student Code of Conduct](#), and University laws and policies.
- **No alcohol, drugs, profanity, nudity, harassment, political campaigning, or degradation in posts. You must follow all copyright and hosting/posting laws/regulations.**

- **Ask permission.** When featuring specific individuals, get their verbal consent before recording them. If the situation demands recording them first, then ask for consent after. When in a public place or not focusing on a specific person or group of people, you do not need to get consent. When in doubt, ask permission.

Takeover Don'ts:

- **When in doubt, do not.** If you feel a picture/video is questionable in content, talk with one of the administrators about your concerns.
- **Do not use social media while driving.** This is illegal and extremely dangerous.
- **Do not be disappointed or upset if an administrator does not use your story.** They are the curators. You might not be aware of other issues happening behind the scenes.
- **Do not be afraid to ask questions** of the administrators. We are here to help.

Technology

Information regarding the Computer Standards, Computer Purchasing through UofSC, and Software used in the Nursing Curriculum can be found at https://sc.edu/study/colleges_schools/nursing/internal/current_students/technology/index.php.

Student Progression with Course of Study

Academic Advising

For most graduate students, the academic advisor is the program director or student graduate advisor. Advisors are the principal source of assistance to students in planning an academic program, seeking advice, and dealing with problems as they arise. However, it is the responsibility of the student to maintain contact with the advisor. Faculty and staff will make every effort to help students but cannot be expected to be responsible for problems not brought to their attention in a timely manner.

A mandatory online and on campus orientation is required for all new MSN, PMGC, and DNP students. Each student receives advisement and is provided with a Program of Study developed by the program director prior to initial registration. Thereafter, all MSN, PMGC, and DNP students are required to participate in advisement as needed as communicated via Blackboard announcements. Deviation from the program of study will result in a mandatory advisement with the program director prior to subsequent registration. Enrollment in clinical and other special courses is contingent upon a student fulfilling additional requirements by stated deadlines (i.e.,

prerequisites, immunization and other health requirements, health agency requirements, and contractual agreements in effect).

Academic Standard for Progression

Good Standing

A student in good standing is defined as a student who:

- Graduate courses may be passed for degree credit with a grade as low as C, but a degree-seeking student must maintain at least a B (3.000 on a 4.000 scale) cumulative grade point average. The CON stipulates that no grade below B can be applied to a core course.
- Maintains the proper course load (without incompletes)
- Is not on academic probation
- Does not have two consecutive semesters of non-enrollment
- Is on an approved leave of absence
- Is not on financial hold nor carrying past due balances
- Has completed the immunizations, background check, and drug screening processes with no identified problems
-

Academic Probation

A student will be placed on probation if they

- Has a cumulative GPA of less than 3.00 (B) at the end of any semester. Student is allowed one calendar year to raise the cumulative GPA to at least 3.00.
- Has a cumulative GPA of less than 3.00 due to conversion of grades of incomplete at end of semester in which the grade is posted. Student is allowed one major semester of probation dating from the semester in which the University Registrar receive the Incomplete conversion grade to raise the cumulative GPA to 3.00 or above.
- Has earned less than a minimum grade of 80% (B) in any graduate course work. If a grade lower than B is earned, this course must be repeated to enroll in subsequent nursing courses. However, the initial below B grade remains on the student record and counts toward the “Two C Rule” (see Academic Dismissal).
- See [CON Graduate Pass/Fail Spring 2020 policy](#) (CON Graduate S+/S/U for Spring 2020 Full-Term and B Term Courses Only).

Academic Standard for Graduation

At the time of graduation, the student’s cumulative grade point average (GPA) must be at least 3.00 (B) on a 4.000 scale. Additionally, the student’s average on all grades recorded on the program of study for courses numbered 700 or above must be at least 3.000 and all courses listed on the program of study must be at least 3.000.

Academic Suspension

Students are expected to maintain professionalism, adhere to ANA's Code of Ethics, UofSC Honor Code, and the College of Nursing's Core Values always while in the clinical setting or when representing the University of South Carolina College of Nursing. A student banned from a clinical agency because of unprofessional, unethical, or illegal behavior may receive an academic penalty, including but not limited to clinical failure, course failure, suspension, expulsion from the College, or other penalties. The violation may be reported to the Board of Nursing or the governing board of the student's license.

Reinstatement after Suspension

After suspension, reinstatement to the College of Nursing will not be granted for one calendar year following the term of suspension. To appeal for reinstatement the student must submit a completed petition packet to Assistant Dean for Student Affairs. If the appeal is approved, then the Student Petitions Committee must forward it to the Dean of the Graduate School for action (see [Student Petitions](#)).

Appeals may be initiated at any point following suspension, but petition packets must be received by the Assistant Dean for Student Affairs at least 45 days before the start of the term for which the student wishes to be readmitted.

Academic Dismissal

A student will be dismissed from the College of Nursing if they:

- Receive two grades of 79.99% (C+) or lower in the same NURS course or in any two NURS courses.*
- Fail a required graduate course twice or withdrawing from the course on the first attempt and failing the course on the second attempt or vice versa. A student may only attempt a specific graduate course twice in the graduate program. An attempt is any grade or W received in a course. *
- Have a grade of 'U' in two courses*
- Have a cumulative GPA of less than 3.00 at end of one calendar year of academic probation.
- Have a cumulative GPA of less than 3.00 at end of major semester of probation dating from the semester in which the University Registrar receive the Incomplete conversion grade.
- Have a positive [drug screening](#).
- Have an encumbered professional (RN or APRN) license. A student in a post-license program who becomes no longer licensed (suspension, revocation, or lapsed) or has any form of restriction/probation as a registered professional nurse by any license granting authority, no longer meet the admission criteria of the program and are no longer eligible to progress. If at any time after the initial background and drug screen have been completed, there is a change in the student's status, it is the student's responsibility to immediately report the circumstances to the appropriate Program Director, Assistant Dean for Student

Affairs, Assistant Dean for Graduate Studies, or Associate Dean for Academic Affairs. Failure to report can result in immediate dismissal from the program.

*See [CON Graduate Pass/Fail Spring 2020 policy](#) (CON Graduate S+/S/U for Spring 2020 Full-Term and B Term Courses Only)

Appeals for Reinstatement

Appeals for reinstatement from students should be reviewed first by the Assistant Dean for Student Affairs. If the appeal is approved, then the Student Petitions Committee must forward it to the Dean of the Graduate School for action (see [Student Petitions](#)).

Graduate School Academic Forgiveness

The Graduate School [Academic Forgiveness Policy](#) is outlined in the Graduate Studies Bulletin in the Graduate Academic Regulations section.

Course Enrollment Status and Load

Students enrolled in full-time or part-time study are entitled to use the full services of the University. Full-time status requires enrollment in at least nine credit hours during a regular semester and six credit hours during the summer. For the purposes of financial aid, a student must be enrolled in at least six (6) hours per semester to be eligible for financial aid. Students may elect not to enroll for a summer session; however, they are not entitled to use faculty, computing, or library resources during that time. A student must be enrolled for at least one credit during any semester in which the DNP project progress is made and such University resources as the library, computer facilities, or faculty time are used.

Graduate School requires any student who misses one or more semesters to renew your enrollment privileges. If three years or more lapse between enrollments, students must reapply for admission.

Course Format Definition

All nursing courses in the MSN, PMGC, and DNP Programs are delivered online through Blackboard Learning Management System which allows UofSC faculty to create a secure course website for class communications, posting assignments, posting readings, linking to complementary websites, administering exams, and much more. In courses that use Blackboard, the course syllabus will provide basic information about accessing [Blackboard](#). Additional information about Blackboard is available at [Getting Assistance](#).

Students access online courses at [Blackboard Access](#). Courses offered in this format are constructed and conducted differently than traditional classroom courses. Below are some suggestions on how to be successful in online courses:

- Become familiar with Blackboard (Bb), the course software
- Learn how to access Bb using multifactor authentication
- Read the “How to…” guides that are found in each course. They are well worth your time
- Participate actively in the course

Clinical courses have didactic component online but require direct clinical practice and other activities such as clinical conferencing or simulation.

Course Attempts

A student may attempt a specific graduate course twice in the graduate program. An attempt is any grade, W, or WF received in a course. Each MSN, PMGC, or DNP course may only be attempted twice.

Course Load

The Graduate School definition for normal full-time enrollment status for graduate students is 9 hours for graduate students or 6 hours for students serving as graduate assistants.

Common Verification Requests

The University of South Carolina (Columbia, Aiken, Beaufort, Upstate, Lancaster, Salkehatchie, Sumter, Union) is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) as a degree-granting institution at the associate, baccalaureate, masters, professional and doctoral levels.

UofSC will provide enrollment verification or a transcript to fulfill a verification request. Currently enrolled students can obtain a verification of enrollment through the National Student Clearinghouse at no charge through their Self-Service Carolina account.

UofSC will also provide a student with an official transcript for a fee. An official transcript is a complete record of a student’s enrollment history, including all University of South Carolina campuses and can be used to verify credit hours completed by a student. A transcript can be used to verify a student’s degree awarded, enrollment history, GPA, good standing, or eligibility to return to UofSC.

- **Degree Verification**
- Enrollment Verification for Current Students
- Enrollment Verification for Current Students for Past Academic Terms
- Enrollment Verification for Alumni for Past Academic Terms
- **Enrollment Verifications for Third Parties**
- Academic Good Standing/Eligible to Return to UofSC

- Good Standing Auto Insurance
- [Insurance Forms](#)
- [Loan Deferments](#)

Course Registration

Registering for courses is an important task that all students must complete throughout their time at UofSC. New and transfer graduate Nursing students may not register for nursing courses until they have been admitted to the program, agreed to the program of study, and completed orientation. Access our registration system at [Self Service Carolina \(SSC\)](#).

The University Registrar establishes the official calendars followed by the University of South Carolina system. Access the full current and upcoming semester academic calendars to find key dates and information including holidays, registration dates, payment deadlines, drop or add dates, as well as exams and commencement for each term. Each part of term has specific drop, add, and refund dates. Review your schedule in SSC to determine the [part of term](#) for your classes.

Registration Tips

- Step 1: Review your Program of study in Central. Log in [Central Student Portal](#) - make note of the courses you are projected to take in the next term. If you have questions about your program of study or the courses you are scheduled to take, contact your program director.
- Step 2: Check your Registration Time Ticket in [SSC](#) - see "Registration" then "Registration Notices and Holds". Make a note of the date/time and set a reminder in your calendar.
 - What is a Registration Time Ticket? It is the time the University Registrar has appointed a student to begin registration for the next term.
- Step 3: Check your student account for holds. See "Registration" then "Registration Notices and Holds." What should you do if you have a hold on your account in SSC? [Contact the office that placed the hold on your account](#) and determine what needs to be done to have the hold removed. Ensure your hold is removed before the time on your Registration Time Ticket.
 - What is an Advisement Hold? Advisement holds are placed on student records by the College of Nursing to ensure students complete all prerequisite requirements. Advisement holds prevent registration. Advisement holds will be removed by staff as CastleBranch compliance is confirmed.

- Step 4: Continuing students: Confirm your **CastleBranch** account is up to date - Sign in to your CastleBranch account and view your "To Do List" - take care of any overdue items before the time on your Registration Time Ticket.
- Step 5: Register for the classes listed on your program of study at your designated registration time (See Step 2 above to determine your designated time). Students must register only for those courses listed on their program of study. Students who deviate from their program of study may be removed from courses by the College of Nursing.
 - Need help with the Registration Processes in SSC? See the **SSC tutorials**.

Course Restrictions

Registration for a clinical nursing course is limited to students admitted to a College of Nursing graduate degree or post masters graduate certificate program.

Registration Advisement holds are placed on student records for the following reasons:

1. Prior to clinical course: Each graduate nursing student is placed on registration hold before the start of the upcoming registration term in which a clinical experience will occur. Each student must have a fully compliant CastleBranch account by the end of first semester of enrollment and request registration "signoff" from the student graduate advisor for the registration hold to be lifted and to register for classes. Student graduate advisor(s) lifts the registration holds. This is an opportunity for students and the program director/advisor to ensure that the Program of Study and planned course registration is correct.
2. NURS 769/769A (independent study courses) requires completion of an independent study contract (G-ISC) by the student and faculty member that must be filed with the student's graduate advisor for the student file and with the University Registrar.
3. NURS 840/840A (independent study courses) requires completion of an independent study contract (G-ISC) by the student and faculty member that must be filed with the student's graduate advisor for the student file and with the University Registrar.
4. Student must successfully defend proposal in NURS 783 or NURS 807 before enrolling in NURS 897 (DNP Project Preparation and Residency). NURS 897 requires syllabus, completion of an independent study contract (G-ISC) by the student and faculty member that must be filed with the student's graduate advisor for the student file and with the University Registrar and approved Clinical Agreement for Student Experience (CASE) Form.

Course Selection and Drop Period

The University Registrar's web page [SSC](#) enables students to register via the internet and access their personal information such as grades, financial aid, fees, and class schedule. The most up to date information is posted online.

Students can use SSC to add, drop, or change a course or section. Any change in enrollment must be recorded with the University Registrar. Students may check the [Academic Calendar](#) online for the last day to drop a course without a grade of "W" being recorded and for the last day to drop a course or withdraw without a grade of "WF" being recorded. Please note a "W" does constitute an attempt of a course. Failure to complete the official course withdrawal process has serious implications for calculation of the final course grade and calculation of grade point averages. Students should discuss any potential changes with their program director and assigned student graduate advisor prior to making the changes.

For a refund schedule, please see the [Tuition Refund](#) section for more information. Please note that should a student fail to attend classes in a course for which they are registered, they may not be automatically dropped from the course. Students who fail to drop a course they are not taking, but are still registered for, within the drop/add period may receive a grade of FN in that course.

Applicants to the MSN, PMGC, and DNP programs may not register for nursing courses until they are admitted to the program, have agreed to the program of study, and completed orientation.

Registration for a clinical nursing course is limited to students admitted to a College of Nursing graduate degree or post masters graduate certificate program.

All health requirements to include background check and drug screening must be compliant by the end of the first semester of enrollment or a registration hold for subsequent semester enrollment will be issued.

Registration for independent study courses requires an independent study contract (see Course Restrictions).

Course/Faculty Evaluations

At the end of each course, students evaluate the course and its instructor(s). The results of these evaluations are maintained by the Office of Academic Affairs.

Textbooks

Most assigned textbooks are available in the University Bookstore. The [University Bookstore](#) is located on the first floor of the Russell House. Several other bookstores such as the South Carolina Bookstore and Addams University Bookstore, located near campus, also sell required textbooks and academic supplies.

Degree Completion and Graduation

Application for Degree

The graduation application is the first step you will need to take to graduate from your academic program. To be eligible for graduation a student must meet all University and College of Nursing standards for receiving a degree. Candidates for degrees must file a formal application during the last semester before graduation prior to the deadline set by the University Registrar. Deadlines are posted for each term on the official academic calendar of the University Registrar. Applications filed after the deadline result will not be accepted and will delay receipt of diploma. At the time of graduation, the student's cumulative grade point average (GPA) must be at least 3.00. Additionally, the student's average on all grades recorded on the program of study for courses numbered 700 or above must be at least 3.00 and all courses listed on the program of study must be at least 3.00.

Review the application and award processes on the University [Registrar's website](#) to better understand what happens once you submit your application.

Graduation Requirements

While the Graduate School allows MSN and PMGC students to complete their programs within six years, the College of Nursing expects MSN and PMGC students to complete on a different timeline to ensure accreditation compliance. MSN students are expected to complete their program of study in 4 years or fewer; PMGC students are expected to complete their programs of study in 3 years or fewer.

While the Graduate School allows DNP students to complete their programs within 10 years, the College of Nursing expects DNP students to complete on a different timeline to ensure accreditation compliance. Post-BSN-DNP students are expected to complete their program of study in 6 years or fewer; Post-MSN-DNP students are expected to complete their program of study in 4 years or fewer.

Programs are designed for completion within six to 12 semesters. Candidates unable to meet this requirement must petition for an extension to the Assistant Dean for Graduate Studies. Any additional requirements in effect at the time of re-evaluation must be completed.

All failing ("F"), and Incomplete grades must be cleared or completed by graduation day or the student's name will be removed from the graduation list. A cumulative GPA of 3.00 is required. All University balances must be paid in full. At the time of graduation, the student's cumulative grade point average (GPA) must be at least 3.00. Additionally, the student's average on all grades recorded on the program of study for courses numbered 700 or above must be at least 3.00 and all courses listed on the program of study must be at least 3.00.

Ceremonies

The College of Nursing host a Graduate White Coat ceremony in both Summer and Fall each year. This ceremony recognizes our graduate students as they prepare to begin their clinical or leadership education.

Commencement exercises are held for degree candidates in both Fall and Spring each year. The President of the University of South Carolina presides over commencement. To honor their commitment, each degree candidate is recognized by name and congratulated by the dean of the graduate's college or school. Visit the [Registrar's website](#) for additional information regarding commencement.

Doctoral students who have already graduated may request to participate in commencement exercises for a term other than their actual graduation term. In order to be considered to walk **late**, students must submit the [Request to Participate in Commencement Early/Late Form](#). Visit the University Registrar's website for additional information regarding commencement.

In addition, the College of Nursing celebrates the accomplishments of the graduating class with a special Convocation ceremony in Fall, Spring and Summer each year.

Diplomas

Students with outstanding University balances, incompletes, "NR" or uncleared "F" grades at the time of graduation will not be able to obtain their diplomas nor will they be able to obtain any official transcripts or other University information until the balances are paid in full.

Have a question about your degree or diploma? Review [frequently asked questions](#) to find answers.

Graduation Awards

Students are encouraged to nominate themselves or others for the College of Nursing Student Awards. More information about the nomination process will be disseminated to students during the academic year.

Alumni

Upon graduation, students at the College become alumni of the University of South Carolina. The College's alumni family is a major support system for the College and alumni donors help to support several scholarships annually. Alumni are electronically sent copies of *UofSC College of Nursing Gamecock CONnection* and invited to attend annual alumni events and celebrations. All graduates are encouraged to notify the alumni office or the My Carolina Alumni Association of address changes. Contact us at https://sc.edu/study/colleges_schools/nursing/alumni/.

Admission Information

MSN Admission Requirements

- The **Adult-Gerontology Acute Care Nurse Practitioner (AGACNP)** program prepares you to provide direct patient management in acute and complex care settings, skills that are in high demand with rising patient acuity and a growing elderly population.
- The primary care **Family Nurse Practitioner (FNP)** program prepares you to provide primary health care across the patient's lifespan.
- The **Psychiatric Mental Health Nurse Practitioner (PMHNP)** program prepares you to provide holistic, mental health care integrating neuroscientific principles of behavior, experience and psychopharmacology with psychotherapy, consultation and trauma-related care across the patient lifespan.
- The **Healthcare Leadership** program prepares you to manage the delivery of nursing and healthcare services across diverse healthcare settings.
- The **Nursing Education** program prepares you to function as an academic or clinical nurse educator across various program levels and settings.
- The **Nursing Informatics** program prepares you to identify and manage health care data to support clinicians and patients in decision making and improve health outcomes.
- The **Masters Entry to Practice Nursing** will prepare non-nurse baccalaureate prepared individuals to enter the nursing profession as master's degree graduate.

MSN Frequently Asked Questions

Click to view [frequently asked questions](#).

Post Masters Graduate Certificate Admission Requirements

Post Masters Graduate Certificate in Advanced Practice Nursing (already certified as an APRN)

Students pursuing the Post Masters Graduate Certificate in Advanced Practice Nursing who are certified, practicing and meet the LACE components as Advanced Practice Nurses may not be required to take one or all these courses. Determination will be done after admission via GAP Analysis. ^

- The Adult Gerontology Acute Care Nurse Practitioner program prepares the nurse to provide health care services to acutely ill adults and gerontology patients with complex health problems.
- The Family Nurse Practitioner program prepares the nurse to provide primary health care across the lifespan.
- The Psychiatric Mental Health Nurse Practitioner program prepares the nurse to provide psychiatric mental health services to clients/patients across the lifespan in various settings.

^NURS 702, NURS 704, NURS 707, NURS 718, NURS 760A, NURS 768A, NURS 778A

Post Masters Graduate Certificate in Advanced Practice Nursing (non-APRN)

- The Adult Gerontology Acute Care Nurse Practitioner program prepares the nurse to provide health care services to acutely ill adults and gerontology patients with complex health problems.
- The Family Nurse Practitioner program prepares the nurse to provide primary health care across the lifespan.
- The Psychiatric Mental Health Nurse Practitioner program prepares the nurse to provide psychiatric mental health services to clients/patients across the lifespan in various settings.

Post Masters Graduate Certificate in Healthcare Leadership

The program prepares the nurse to be a key leader in health organizations.

Post Masters Graduate Certificate in Nursing Education

The program prepares the MSN or Doctoral graduate to serve in the academic or clinical nurse educator roles.

Post Masters Graduate Certificate in Nursing Informatics

The program prepares you to identify and manage health care data to support clinicians and patients in decision making and improve health outcomes.

PMGC GAP Analysis

A GAP Analysis will be done upon admission into the PMGC program for practicing APRNs to assess the 3Ps (Pathophysiology, Pharmacology, and Physical Health Assessment) and diagnostics previously taken. The 3Ps previously taken must be across the lifespan. They must be three separate courses that meet current criteria for content based on the Consensus Model for APRN regulation. The Program Director will be responsible for completing the gap analysis. Every effort will be made to ensure that upon graduation from the University of South Carolina, students meet the criteria for certification and licensure in the appropriate specialty area as known at the time of admission. All courses must meet the graduation time outlined by the Graduate School.

PMGC Frequently Asked Questions

Click to view [frequently asked questions](#).

DNP Admission Requirements

The DNP program at South Carolina prepares you to become an advanced practice nurse or take on a leadership role. Through online classes and select on-campus immersions, you will gain the skills and confidence to implement evidence-based

practices and system-wide changes to improve patient outcomes. The DNP program has three entry points depending on prior educational experience: (1) Students with a Bachelor of Science (BSN) degree, (2) Students with a master's degree in nursing, and (3) Registered Nurses with an MBA/MPH/MHA.

BSN to DNP

If you enter as a **BSN-prepared student**, you may choose to earn one of three DNP degrees with a clinical concentration: Adult Gerontology Acute Care Nurse Practitioner (AGACNP), Family Nurse Practitioner (FNP) or Psychiatric Mental Health Nurse Practitioner (PMHNP).

The Executive Healthcare Leadership concentration is open to both BSN and master's-prepared applicants.

Post-Master's to DNP

If you are a [post masters graduate certificate in advanced practice nursing student](#), you may expand on your APRN role with the advanced practice DNP (no concentration). All DNP clinical concentration APRN graduates develop skills to assess research and evaluate outcomes to improve patient care.

The Executive Healthcare Leadership concentration is open to both BSN and master's-prepared applicants.

DNP GAP Analysis

A GAP Analysis will be done upon admission into the DNP program to assess the clinical hours completed while in a masters or post BSN certificate program. All DNP students must meet the 1,000 post BSN clinical hours to be eligible for graduation with a DNP degree. The Program Director will be responsible for completing the gap analysis. Every effort will be made to ensure that upon graduation from the University of South Carolina, students meet the criteria for certification and licensure in the appropriate specialty area as known at the time of admission. All courses will need to meet the time to graduation outlined by the Graduate School.

DNP Frequently Asked Questions

Click to view [frequently asked questions](#).

Change of Program or Major

After the student has been admitted to an MSN, PMGC, or DNP program, the program or major may be changed. Both the existing Program Director and the Program Director from the "new" program must approve this transfer. Some graduate programs require essays and/or interviews; this is up to the discretion of the "new" program. Requests will be evaluated on a space available basis and may require a delay in the program of study.

If both Program Directors approve the transfer, the [Second Degree-Seeking Application](#) must be submitted to the Graduate School. Along with the second degree-seeking application, current students may be required to submit new recommendations and updated goal statement for the new program requested. Students who missed a semester will also need to submit an updated unencumbered nursing license and update CastleBranch information. There may be additional program specific requirements. (Alert: submission of this form puts a hold on registration and suspends the existing program of study.)

Clinical Education Policies

A big part of your nursing education will be your clinical experiences and our agreements with the facilities where you will be doing your direct and/or indirect clinical hours require records of your immunizations and clearances to enter the clinical setting. These requirements include immunizations as well as CPR certification, drug screen and background checks, and any other site-specific requirements. Records are to be submitted to and held by our compliance vendor, [CastleBranch](#). Go to [Package Selection](#) to place an order. Students must complete clinical requirements by the designated deadline within the first semester of enrollment. Failure to complete requirements by the designed deadline could impact continued enrollment. For issues with package ordering, documentation submissions, etc., please contact CastleBranch using the Chat with us feature through your myCB account or call the User Experience Specialists at 888.723.4263.

All students at University of South Carolina College of Nursing in either direct or indirect clinical coursework clinical coursework must meet the requirements of the clinical compliance policy to continue clinical coursework. Failure to do so may result in being dropped from coursework. If at any time after the initial background and drug screen have been completed, there is a change in the student's status, it is the student's responsibility to immediately report the circumstances to the appropriate Program Director, Assistant Dean for Student Affairs, Assistant Dean for Undergraduate/Graduate Studies, or Associate Dean for Academic Affairs. Failure to report can result in immediate dismissal from the program. It may seem redundant, but because of HIPAA regulations, we must use different systems and University Health Services and the College of Nursing cannot share your information with each other. **Due to the demands of our clinical agencies, requirements are subject to change.**

CastleBranch Package Codes

- AGACNP Students
 - UP68AGACNP: Background Check - Drug Test - Future Focus - Compliance Tracker - eLearning

- UP68bg: Background Check only (use when updated background check is required)
- UP68bgdt: Background Check - Drug Test (use when updated background check and drug test is required)
- UP68dt: Drug Test Only (use when updated drug test is required)
- UP68el eLearning (use when updating requirements)

- APRN, EHL, FNP, NE, NI, PMHNP Students
 - UP68np: Background Check - Drug Test - Future Focus - Compliance Tracker - eLearning
 - UP68bgdt: Background Check - Drug Test (use when updated background check and drug test is required)
 - UP68bg: Background Check only (use when updated background check is required)
 - UP68dt: Drug Test Only (use when updated drug test is required)
 - UP68el eLearning (use when updating requirements)

- HL Students
 - UP68na: Background Check - Drug Test - Future Focus - Compliance Tracker - eLearning
 - UP68bgdt: Background Check - Drug Test (use when updated background check and drug test is required)
 - UP68bg: Background Check only (use when updated background check is required)
 - UP68dt: Drug Test Only (use when updated drug test is required)
 - UP68el eLearning (use when updating requirements)

Clinical Compliance Requirements

Immunizations

As a part of the compliance process all students must submit proof of the following immunizations. Influenza, Tuberculosis test, HIPAA and OSHA must be completed and submitted every year. Certain programs or clinical sites may have additional requirements that students may need to complete and submit.

Tuberculosis Test

One of the following is required:

- Negative two-step PPD skin test (Mantoux) administered 1-3 weeks apart within the past 12 months OR
- Negative two-step skin test administered 1-3 weeks apart and all subsequent 1 step skin tests with the most recent 1 step test being administered within the past 12 months OR
- Negative QuantiFERON Gold Blood Test administered within the past 12 months OR

- Negative T-Spot Blood Test administered within the past 12 months.
- If the result is positive, a clear chest x-ray report must be submitted following last positive test result, administered within the past 12 months along with a physician clearance documented on letterhead.

The renewal date will be set for 1 year, requiring one of the following:

- Negative one-step test OR
- Negative QuantiFERON Gold Blood Test OR
- Negative T-Spot Blood Test

Positive Rubeola Titer (Measles)*

A positive **IgG** (not IgM) antibody titer (lab report required) indicates immunity. If a titer is negative or equivocal, the negative or equivocal titer result must be accompanied by a booster injection. An additional titer is not required after a booster injection.

MMR vaccine and its component vaccines should not be administered to women known to be pregnant. Because a risk to the fetus from administration of these live virus vaccines can occur, should avoid becoming pregnant for 28 days after vaccination with MMR or other measles, mumps, or rubella-containing vaccines.

Positive Mumps Titer

A positive **IgG** (not IgM) antibody titer (lab report required) indicates immunity. If a titer is negative or equivocal, the negative or equivocal titer result must be accompanied by a booster injection. An additional titer is not required after a booster injection.

MMR vaccine and its component vaccines should not be administered to women known to be pregnant. Because a risk to the fetus from administration of these live virus vaccines can occur, should avoid becoming pregnant for 28 days after vaccination with MMR or other measles, mumps, or rubella-containing vaccines.

Positive Rubella Titer (German Measles)

A positive **IgG** (not IgM) antibody titer (lab report required) indicates immunity. If a titer is negative or equivocal, the negative or equivocal titer result must be accompanied by a booster injection. An additional titer is not required after a booster injection.

MMR vaccine and its component vaccines should not be administered to women known to be pregnant. Because a risk to the fetus from administration of these live virus vaccines can occur, should avoid becoming pregnant for 28 days after vaccination with MMR or other measles, mumps, or rubella-containing vaccines.

Positive Varicella Titer (Chicken Pox)

A positive **IgG** (not IgM) antibody titer (lab report required) indicates immunity. If a titer is negative or equivocal, the negative or equivocal titer result must be accompanied by a booster injection. An additional titer is not required after a booster injection.

Simply having had the disease is not enough, you must receive a titer and that tier must be positive for immunity.

Positive Hepatitis B Surface Antibody Titer (Anti HBs)

A positive surface antibody titer (lab report required) indicates immunity. If a titer is negative or equivocal, Hepatitis B vaccines and a 2nd titer are required. Full immunization consists of a two or three Hepatitis B vaccination series followed by a 2nd titer given 1-2 months after the final vaccination. Students must begin the vaccination series prior to clinical course registration. Evidence of a positive titer must be provided prior to next semester's course registration. If the post-vaccination titer is negative or equivocal, then one will be considered as a non-responder, not expected to convert, and documented as not immune to the Hepatitis B virus.

Tdap (Tetanus-Diphtheria-Pertussis)

Tdap administered within the past 10 years

Influenza (Flu Shot)

One of the following is required:

- Documentation of a flu shot administered during the current flu season OR
- Declination waiver which must be completed on a school form and signed by the Assistant Dean for Student Affairs.

Criminal Background Check

During the first course of enrollment, students are required to undergo a background check through the approved College of Nursing vendor. Additional screening may be required by clinical agencies or following a student's break in enrollment. Students are responsible for all expenses incurred for background checks.

Criminal Background Checks include the screenings listed below but additional checks may be required depending on agency placements or other requirements. The following will be searched: 7-year County Criminal Search, National Sex Offender Registry, Nationwide Healthcare Fraud and Abuse Scan (FACIS level 3), I.S. Patriot Act Search, Residence History and Social Security Alert.

A 7-year background check is conducted unless the background check indicates further background investigation is needed to confirm a clean check, which means the background check may go back further in years. This will incur additional expense to the student as well as any check of any other registry or records required by law, accrediting agency, or specific agency.

Drug Screening

12 Panel Drug Screen Check

During the first course of enrollment, students are required to undergo a drug screening through the approved College of Nursing vendor. Students may be subject to random checks throughout the program. Additionally, other screenings may be required by clinical agencies or due to student break in enrollment. Students are responsible for all expenses incurred for drug screenings.

Drug screens include but may not be limited to 9 panel + MDMA + Oxy Test screening for amphetamines, cocaine, marijuana, barbiturates, benzodiazepine, methamphetamine, methadone, opiates, oxycodone, phencyclidine, propoxyphene, and MDMA.

HIPAA and OSHA

All students must document their knowledge of protection against bloodborne disease annually. The documentation must be submitted to CastleBranch before the student is permitted to register for clinical courses, attend classes, or begin practicums.

Annual compliance of eLearning modules is required for HIPAA and OSHA training. Go to **[Package Selection \(portal.CastleBranch.com/UO26\)](https://portal.CastleBranch.com/UO26)** to order module when renewal is required.

Code: UP68el for annual renewal.

BLS CPR Certification

All students must be certified in BLS CPR by one of the following agencies to enter the clinical setting.

- **[American Heart Association](#)** (preferred) OR
- **[American Red Cross](#)** OR
- Military Training Network Healthcare Provider

Completed course must have a hands-on, on-site skills training component for BLS course. Submit a copy of eCard or front and back of signed certification card. The renewal date will be set based on the expiration of the card. A letter from the provider will be accepted and temporarily approved for 30 days by which time the permanent CPR card must be submitted.

ACLS CPR Certification (AGACNP Students Only)

All AGACNP students must be certified in ACLS CPR by one of the following agencies to enter the clinical setting.

- **[American Heart Association](#)** (preferred) OR
- **[American Red Cross](#)** OR
- Military Training Network Healthcare Provider

Completed course must have a hands-on, on-site skills training component for ACLS course. Submit a copy of eCard or front and back of signed certification card. The renewal date will be set based on the expiration of the card. A letter from the provider will be accepted and temporarily approved for 30 days by which time the permanent CPR card must be submitted.

Nursing Licensure

All UofSC College of Nursing graduate students must have a SC Registered Nurse unencumbered licensure or be eligible for a SC unencumbered licensure when admitted and must maintain current unencumbered licensure throughout the program. Students must have a current RN licensure for the state in which precepted clinical experiences occur. UofSC must have state authorization for the student to engage in clinical in that state. Unencumbered SC licensure is required if the precepted clinical experience occurs in SC unless licensed in a Compact state.

Student Name Badge

All students completing a clinical or enrolled in a clinical/immersion course experience must purchase a name badge. The student lab coat and name badges are to be worn for clinical experiences and as authorized by the College of Nursing. Photo ID and name badges are required for all clinical activities and are to be ordered upon admission to the major. The first and last legal name is required on the name badge along with the identification "UofSC Graduate Student." Other unique identifying tags may be required per clinical site. Information on how to order nametags is found in Blackboard in the Clinical Information section. A photocopy of the student's name badge must be uploaded into CastleBranch.

Authorization for Release of Records and Information/Participant Clinical Education Experience Agreement

All students will be required to sign and upload into CastleBranch an Authorization for Release of Records and Information and Participant Clinical Education Experience Agreement.

Handbook Acknowledgment

All students are required to read the Graduate Student Handbook annually. Students will sign and upload into CastleBranch a **Handbook Acknowledgement Form**.

Academic Bulletin(s) and Code of Conduct Acknowledgment

All students are required to read the Academic Bulletin(s) and Code of Conduct annually. Student will sign and upload into CastleBranch an Academic Bulletin(s) and Code of Conduct Acknowledgement. The form is downloaded from CastleBranch.

Professional Liability Insurance

Nursing students do not have to obtain professional liability insurance before entering their first clinical. Students are assessed a malpractice fee associated with specific clinical courses. The University insurance policy covers them during all course-related clinical experiences. However, students contemplating clinical employment must obtain their own professional liability coverage, as the University's policy does not cover students in employment related- situations.

Go to [department fees](#) for additional information.

CON Guidelines for COVID-19 Vaccine Policies established by Clinical Organizations

Clinical organizations may have COVID-19 vaccination requirements that differ from and are beyond the control of the University's and College's vaccination policies. For any College of Nursing student whose academic progress depends on clinical placements, failure to meet COVID-19 vaccination requirements established by external organizations could mean the student will be unable to finish the degree as previously advised. Updated guidelines are posted in courses each semester.

Guidance for all Clinical Experiences

The clinical experience must be in an agency/facility/office where the University of South Carolina has a current contract. The clinical contract is with the agency/facility/office and not necessarily the preceptor. The only time the agreement may be with a preceptor is if the preceptor is the sole proprietor of the agency/facility/office.

The Office of Academic Affairs must have all clinical requirements on file. Clinical agencies may have additional requirements other than those required by the College of Nursing that must be met before beginning clinical practice. See Initiating a New Contract section for information on how to initiate a contract with the clinical agency.

- It is the student's responsibility to ensure that all clinical requirements are met.
- The selected preceptor at the agency will be contacted periodically to assess your skills and progress or unannounced site visits will be conducted if deemed necessary.
- Contact faculty member(s) by phone or email if assistance is needed.
- Contact faculty member(s) by phone or email if there are any problems or concerns in the clinical area.
- Notify clinical faculty member(s) immediately by phone or email if left alone at the clinical site. Call 911 if an emergency arises at the clinical site and the preceptor or designated licensed health care provider is not on site.

Central Student Portal

The clinical experience must be in an agency/facility/office where the University of South Carolina has a current contract. The clinical contract is with the agency/facility/office and not necessarily the preceptor. The only time the agreement

may be with a preceptor is if the preceptor is a sole proprietor of the agency/facility/office.

The Office of Academic Affairs must have all clinical requirements on file. Clinical agencies may have additional requirements other than those required by the College of Nursing that must be met before beginning clinical practice. See Initiating a New Contract section for information on how to initiate a contract with the clinical agency.

Clinical Course Requirements and Approval Process

Step 1. Review your degree plan via the Central Student Portal (<http://con-central.nurs.sc.edu/studentportal>) to see the clinical courses you will be taking and when you are scheduled to take them. Next review in the appropriate virtual community in Blackboard the folder “**Finding a Clinical Site**” to see a **list of clinical courses** with required number of clinical hours, course descriptions, course objectives, and **examples of appropriate clinical sites**. The folder also contains the “**Preceptor Recruitment Letter**” for each clinical course.

Step 2. Review the list of “**Current Contracts**” –in the **Central Student Portal** to see if the facility you are considering for clinical rotation has a current contract.

Step 3. If the facility you are considering **does not have a current contract** listed, please complete the “**Clinical Placement Information Form**” (see “**Initiating a New Clinical Contract**” section within the “**Finding a Clinical Site**” folder in Blackboard) and send to CONContracts@sc.edu as soon as possible.

Step 4. Review “**Placement Requirements**” folder. This folder contains a list of facilities that require additional paperwork or have additional steps prior to students receiving approval for placement at their site. Please follow the instructions listed.

Step 5. Once you have secured a preceptor for your clinical rotation – **Submit a CASE** form electronically via the Central Student Portal. See “**Clinical Agreement for Student Experience (CASE form)**” folder. NOTE: **Do not wait for a clinical contract to be completed**; you should submit your CASE form regardless of the status of the clinical contract. Questions about case forms should be emailed to CASEFORM@sc.edu.

Step 6. Review your current **CastleBranch account**. Make note of the date your drug screen and background check were completed. Check with the facility where you plan to do your rotation to ensure your drug screening and background check are within the timeframe the facility requires. If necessary, complete a new background check and/or drug screening. Also, **update any health information or required documents** that are rejected or overdue in your current CastleBranch account.

Step 7. See “**Order a Name Badge**” folder in Blackboard to learn how to order your student’s name badge if you do not have a College of Nursing student name badge.

Students are required to wear their UofSC College of Nursing name badge when completing clinical hours. See “**Lab Coat**” folder in Blackboard to learn how to order your UofSC College of Nursing Lab Coat. All students are required to wear their UofSC CON lab coat when completing clinical hours.

Initiating a New Contract

If the facility you are considering **does not have a current contract** listed, please complete the “**Clinical Placement Information Form**” (see “**Initiating a New Clinical Contract**” section within the “**Finding a Clinical Site**” folder in **Blackboard**) and send to CONContracts@sc.edu as soon as possible. Upon receipt of this information, 4 - 9 months are required to complete the approval process for a new site contract or renewal site contract for clinical placement. If you have questions regarding a contract, please contact the Clinical Compliance Coordinator for the College of Nursing at 803-576-7301.

****Note: Name of person responsible for signing contracts in your attended facility should have legal signature authority. This could be an Office Manager, CEO, President, or Nurse Manager. Make sure to list the appropriate person to assist us with follow up efforts. Incorrect information could cause delays in acquiring a contract if one is needed.**

Clinical Placement Requirements

In addition to the CastleBranch requirements, there may be additional clinical agency requirements. You can view specific agency requirements at https://www.sc.edu/study/colleges_schools/nursing/internal/current_students/clinical_agency.php.

Clinical Placement Assistance

The CON assists with clinical placement. Clinical sites and preceptors identified by the CON are not guaranteed to be in the student’s current city or state. Students may be required to travel within their state, a neighboring state, or even to SC for clinical placement. Once the Clinical Placement Coordinator identifies the site and preceptor, it is the student’s responsibility to initiate a contract if one does not exist, enter a completed CASE form, and complete any clinical placement requirements. It is important to note that new contracts may take several months to finalize. If you need assistance with clinical placement, please contact Mrs. Jeanne Cavanaugh, Director of Clinical Partnerships at cavanauj@mailbox.sc.edu or (803)777-7128, OR Ms. Neely Cathcart, Clinical Placement Coordinator at cathcanm@mailbox.sc.edu or 803-576-7868.

Case Form Submission

A student enrolled in a course with a clinical component is responsible for finding an approved health agency and an approved preceptor for their clinical experience. A list

of current clinical agreements held by the CON are found in the Student Portal under Clinical Contract. Students are advised to locate a preceptor at least a semester before the clinical course begins. Students having difficulty finding an experience must contact the course faculty member and the Director of Clinical Partnerships for assistance.

You are required to submit a CASE Form at <http://con-central.nurs.sc.edu/studentportal> after you have secured a preceptor for each clinical course. It must be submitted no later than one (1) week prior to the beginning of each course. If the college already approves a site or preceptor, the student will select them from a list. If new, students must enter all prompted information. A confirmation email will be sent to the preceptor and site contact including a confirmation link. The student will be able to track the progress of the approval in the system. Review instructions on how to submit and view Case Form Sample in Bb Clinical Information and Documents. **Students who use multiple preceptors need to submit a preceptor agreement (CASE Form) for each preceptor. If you go with a preceptor to different sites, the College of Nursing must have an approved contract on file that covers the sites.**

Students CANNOT begin clinical experience until they receive contract verification and preceptor approval by the student's course professor. Going to clinical without the appropriate approval of contracts, course professor, and necessary forms in place will result in course failure and may be grounds for dismissal from the program and the CON, a violation of Academic Integrity, liability exposure, and possible Board of Nursing sanction due to possible HIPAA violations, among others.

****Please note your preceptor is not the site contact. Please find the appropriate site contact for your facility prior to submitting your CASE form. This is typically the person in charge of student placement at the facility.****

If you experience any difficulties with accessing the system, please contact Michael Palladino at mpal@central-360.com or email caseform@sc.edu.

Clinical Safety and Performance

Dress Code for Clinical Courses

(Approved by College of Nursing Faculty): By choosing to be a graduate student in the College of Nursing at the University of South Carolina, each student accepts the responsibility to present and maintain a professional image by complying with the dress code policy. The dress code is designed to protect the personal safety of patients, as well as students, while in the clinical area; project the professional image of nursing; and portray the proud heritage of UofSC nurses. The following are specific stipulations of the code:

- Conservative business attire covered by a clean, white knee length lab coat with name tag identifying you as an RN and UofSC graduate student is to be always worn.
- Shorts, jeans, tightly fitted clothing, and see-through, low-cut midriff revealing tops and bottoms are all inappropriate attire.
- Hair should be clean, neat, and off the collar.
- Hair must conform to natural hair colors and non-extreme styles.
- Other than one earring per earlobe, piercing jewelry is to be removed.
- All tattoos must be covered either by clothing or an appropriately sized bandage.
- No perfumes or colognes, scented makeup or hair products may be worn.
- Nails must be clean and not extend beyond the fingertip. Artificial nails in any form are unacceptable. If nail polish is worn, it must be clear.
- Appropriate clinical equipment that is operational includes but is not limited to cardiology stethoscope, ophthalmoscope/otoscope, percussion hammer, and tuning fork. Other equipment may be needed as outlined by the Agency or Clinical setting.
- Name badge with appropriate credentials following USC guidelines.

Although this dress code is congruent with most health care agencies, some agencies have dress codes that are more restrictive and should then be followed. College of Nursing faculty reserve the right to ask students to leave the clinical area if their attire is deemed inappropriate or student's lack of appropriate equipment to perform the clinical duties.

Travel to Clinical Sites

Students are responsible for transportation to sites for their practicum experiences each semester and for covering the cost of travel. It is the obligation of students to provide their own vehicle collision and/or bodily injury liability insurance for their personal vehicles. Neither the College of Nursing nor the University of South Carolina is responsible for any vehicle occurrences or transportation.

Center for Simulation and Experiential Learning (SAEL)

The Center for Simulation and Experiential Learning of the College of Nursing in the Williams-Brice building. This state-of-the-art facility is designed to replicate realistic practice environments where healthcare students develop clinical decision-making skills and enhance technical skill acquisition. Students function within their full scope of practice while receiving real-time feedback and guidance from expert clinical educators. All simulation-based learning experiences adhere to the International Nursing Association for Clinical Simulation and Learning's (INACSL) Standards of Best Practice: SimulationSM. For more information, please visit [SAEL](#).

Bloodborne Pathogens Exposure Protocol

This protocol applies to all UofSC Columbia campus employees, student employees and all other UofSC students who have an exposure to a potentially infectious biological material. A potentially infectious material or biological hazard may include an incident involving a microorganism (e.g., bacterial agent, viral agent, and fungal agent), human-derived material, biological toxin, or an incident involving recombinant DNA research. Exposures through sexual contact are not included in this protocol.

Procedures for needle sticks or other exposure to a potentially infectious material:

- Report the incident immediately to the supervisor and clinical faculty to authorize medical evaluation. Supervisors are responsible for ensuring students are offered immediate medical care, appropriate diagnostics, and treatment.
 - Percutaneous Exposure (e.g., needle stick, cut, animal bite) – Immediately wash or flush the exposed area with soap and water for 10 minutes.
 - Mucous Membrane Exposure (i.e., eyes, nose, or mouth) – Flush the exposed area with water. If exposure is to the eyes, flush eyes (holding open) using the eyewash station for 10 minutes.
- The student or supervisor should immediately notify the appropriate entity within the health care institution where the exposure occurs, to initiate testing of the “source patient” for HIV, hepatitis B, and hepatitis C infection. It is important for rapid HIV testing to be completed with results available within a few hours. Each institution has its own procedures for obtaining “source patient” testing, and supervising faculty should know these procedures. If there is uncertainty about whom to contact within the host institution, instructions should be obtained from one or more of the following:
 - Employee health office
 - Charge nurse for the floor or unit where the exposure occurred
 - Infection control nurse
 - Administrative officer of the day
 - Clinic director (for outpatient sites)
- Once the necessary “source patient” testing has been ordered, seek medical treatment as soon as possible after the incident (see below for specific instructions).
- Notify Assistant Dean for Student Affairs of incident at 803-608-7770 between the hours of 9am-9pm. Leave a message with return phone number if no answer. If no response within one hour, call the Office of Academic Affairs at 803-777-7412.
- Steps to Take When an Injury Occurs:
 - Immediately report the injury to your faculty supervisor. For **non-life-threatening** injuries or illnesses, in which medical treatment may be necessary the faculty supervisor and injured student together will **immediately** call CompEndium Services (**available 24/7**) at **877-709-2667** to report the injury

Note: In case of a life-threatening injury or illness, dial 911 or go to the nearest emergency room and contact your supervisor and CompEndium as soon as possible. CompEndium will assist in processing and scheduling the employee's work-related injury for treatment and claims handling with the university's insurance provider.

- **CompEndium will direct the injured student to a medical provider for treatment.** They will also issue a treating authorization number to the medical provider, which will authorize treatment of the injured student.
- The injured student will complete the **Employee Injury Report Form (81-B)** and the faculty supervisor will complete the **Supervisor Report of Injury Form (81-C)**. These completed forms are required to be faxed to CompEndium at 877-710-2667 **AND** emailed and to (803 777-0616, ATTN: Assistant Dean for Student Affairs.)

All exposure incidents in the clinical agencies and the client-simulated laboratory (CSL) shall be reported, investigated, and documented. If an exposure occurs and there is no faculty present, the student must notify faculty and/or the Office of Academic Affairs as soon as possible.

Workers' Compensation covers the following populations who experience a bloodborne pathogen exposure while working or at clinical if, appropriate reports are filed:

- All university employees and apprenticeship students in the Colleges of Education, Exercise Science, Medicine, Nursing, Pharmacy, Physical Therapy, and Social Work.
- Work study students and graduate assistants who are exposed while on the job.

Students who suffer a Non-Job Related/Non-clinical related Bloodborne Pathogen Exposure during an enrolled academic session:

- Should report to the University Health Services for initial evaluation and referral. If the University Health Services is closed, students may seek care at nearest hospital emergency department. If away from Columbia area, the student should report to the nearest hospital emergency department.

Evaluation and Review

The Associate Dean for Academic Affairs is responsible for annually reviewing this policy and procedures and its effectiveness and for updating the program as needed. (Reviewed August 2022)

Preceptor Guidelines

The University of South Carolina, College of Nursing, does not directly pay nor facilitate student payment for student clinical placements in healthcare systems,

provider practices or payment to individual preceptors. This includes application fees for such placements.

Preceptors for clinical courses are integral to the student's clinical learning. The preceptor must have the expertise to support (facilitate) a student's achievement of course/clinical objectives as listed on the course syllabus and clinical agreement forms. The course faculty approves the preceptors. The preceptor for the course receives the evaluation tool to assess student's performance, located in the course syllabus. Taking into consideration preceptor evaluation, the course faculty determines the student's final grade. Preceptor guidelines are found at [Nursing Preceptor Handbook](#).

Unsafe Clinical Practice and Clinical Evaluation

Nursing Department faculty members are academically committed to preparing students who are competent in the skills of nursing practice: technical, diagnostic, and interpersonal. Faculty members have an ethical and legal responsibility and accountability for the protection of others within the health care and larger community from unsafe, unethical, or illegal nursing practice on the part of University of South Carolina students and graduates. All students are expected to be familiar with the principles of safe, ethical, and legal practice and are expected to perform accordingly. Therefore, students may be disciplined or dismissed from the nursing major for practice or behavior, which threatens, or has the potential to threaten, the safety of a client, family member, authorized representative, student peer, faculty member, healthcare provider, and/or self, or is unethical or illegal. Unacceptable practice may be a one-time event or a series of events. Clinical practice may be considered unsafe when a student fails to use the nursing process effectively by engaging in one or more of the following activities.

Unsafe Clinical Practice List

You understand that should it be determined that if you are considered unsafe and fail to use a nursing process effectively, you will receive an academic penalty (including but not limited to clinical failure, course failure, suspension, expulsion from the College, or other penalties) and be referred to the Office of Academic Integrity for additional disciplinary action. (Please note that this list is not all-inclusive.)

Unsafe clinical practice is at the discretion of each individual professor:

1. Unacceptable practice is defined as: An act(s) or behavior(s) of the type that violates the Nurse Practice Act. An act(s) or behavior(s) that violates the American Nurses Association (ANA) Code [of Ethics] for Nurses, the ANA Standards of Clinical Practice, or the College of Nursing Core Values.

2. An act(s) or behavior(s) that threatens, or has the potential to threaten, the physical, emotional, mental, or environmental safety of a client, family member or designate, student peer, a faculty member, health care provider, or self.
3. Attending clinical with active infectious disease process or when lab results are in critical range.
4. An act(s) or behavior(s) that is unethical, dishonest, or illegal, e.g., lying or deliberately giving inaccurate information.
5. An act(s) or behavior(s) that constitutes nursing practice for which the student is not authorized to perform, or has not been taught, at the time of the incident.
6. Unauthorized entry(s) into the computer or misuse of clinical records or misuse of computer technology to violate patient, faculty, or staff rights.”
7. A trend of behavior often characterized by being unprepared or inadequately prepared for clinicals, the classroom or in simulation.
8. Continued inability to perform safely, ethically, or legally without immediate/close instructor supervision (in this case, there may not be a single isolated incident of unacceptable practice, failure to progress).
9. A use of prescribed/non-prescribed or other substances that alter the ability to clinically reason in the classroom, simulation area or clinical environment.
10. Failure to recognize the need for assistance when unfamiliar with advanced practice nursing action.
11. Failure to take advanced practice nursing action when such action is essential to the health and safety of the client.
12. Failure to recognize the influence of own attitudes and behaviors on care of client.
13. Failure to assume responsibility for completing nursing action.
14. Violation of laws or rules relating to patient record confidentiality.
15. Classroom (online) or College behavior that is threatening or potentially harmful towards peers, instructors, advisors, or others.
16. Unsatisfactory attendance/tardiness in clinical, simulation, advisement, or classroom.

Clinical Evaluation

All clinical grade determinations are completed by the course faculty in conjunction with the clinical faculty and student preceptors. Determining unsafe or unsatisfactory clinical practice. An evaluation with any area of the clinical evaluation considered unsatisfactory, the course faculty will contact the preceptor and remediation may be required by the student or if warranted a clinical failure may be assigned. Clinical practice that is considered unsafe must be evaluated as such by more than one faculty member involved in the course, usually the faculty member serving as the student’s clinical instructor and the Course Director or Program Director. If students are found to have unsafe or unsatisfactory clinical practices faculty will then consult the Assistant Dean for Graduate Studies who may choose to meet with the student and will consult with the faculty about potential processes to improve student performance. If it is determined that the student’s clinical practice is so unsafe that they must be removed from clinical, the faculty will determine if the student has failed

the course. The Assistant Dean for Graduate Studies will be consulted and will review documentation leading to the determination of unsafe practice and course failure. In collaboration with the faculty, the Assistant Dean for Graduate Studies will determine if the student will be permitted to re-take the course or if the student is to be dismissed from the College.

Clinical Remediation (NURS 769A/NURS840A)

Students whose clinical performance would benefit from additional clinical exposure to demonstrate the expected competencies are, with course faculty and program director approval, eligible to register for NURS 769A (MSN) or NURS 840A (DNP). This experience will be allotted credit hours based on the number of clinical hours needed for remediation (1 credit = 112 hours) and must be completed in a period not to exceed one academic semester. A course may be remediated only one time. NURS 769A and NURS 840A will be graded on a pass/fail basis and will not be factored into the student's cumulative grade point average. Completion of NURS 769A and NURS 840A may not be applied to program elective requirements.

Procedures:

1. Approval to register for the remedial experience must be obtained from the faculty responsible for the course and from the program director as well. If the course involves activities in the simulation lab, the Director of the SAEL must be involved in the planning of the remedial experience.
2. The student, in collaboration with course/program faculty, will design an individual experience that addresses the areas of deficit, and which affords the student sufficient time and clinical exposure so that expected course outcomes are achieved. This experience will be detailed in a contract format, using the Independent Study Contract (ISC) Form, which will be signed by both student and faculty.
3. Specific objectives for the experience should fully address the areas of deficit and be congruent with the course in which the clinical difficulties were encountered. Additionally, the student will be held to the objectives that are detailed on the course clinical evaluation form that correlates with the specific course involved.
4. The course/program faculty must approve the plan for remediation before the student can proceed to the clinical area for practice.
5. The course/program faculty will determine the credit allotment for this remedial experience. The tuition will be determined based on this credit allotment and will apply to the costs associated with personnel costs necessary to oversee this experience.
6. Total hours completed during the remediation experience are not to exceed the number of hours originally assigned to the course.
7. At the conclusion of the experience, the student will complete the clinical evaluation tool as part of the self-evaluation process. Additionally, in narrative form, the student will evaluate their success in achieving the goals that were

set for this individualized experience. All work must be accomplished with the grade of “pass” for the student to progress to the next level and for the successful completion of the course to be noted on the transcript.

8. A copy of all materials related to the completion of this course will be maintained in the student’s file.

Current Competence in Advanced Physical Assessment Policy

Time away from clinical learning experiences is essential in determining whether the student needs to demonstrate current competence in advanced physical assessment. If more than two semesters have lapsed since the student was active in advanced clinical learning, current competence in advanced physical assessment must be demonstrated before progression in the clinical sequence begins.

Procedure

Components assessed in demonstration of current competence are:

- Demonstration of a comprehensive physical assessment (mandatory).
- Comprehensive documentation of physical examination findings (mandatory).
- Written comprehensive history of present illness (HPI) (completed at the discretion of the Program Director).

Successful demonstration of current competence as described above depends on adequate preparation for this examination. Faculty assistance in preparation for the examination is an additional educational activity. A maximum of two attempts to demonstrate current competence is allowed. Demonstration is graded on a pass/fail basis. Demonstration, pass or fail, is not calculated in the student’s GPA. Failure to demonstrate current competence requires repeating NURS 704 at the student’s expense and achieving a passing grade. Failure to demonstrate current competence also delays re-entry into the clinical course sequence. The student may need to take a leave of absence until they are able to rejoin the clinical course sequence.

Student Resources

Role of the Assistant Dean for Student Affairs

One of the roles of the Assistant Dean for Student Affairs is to serve as a student advocate in the College of Nursing. The Assistant Dean for Student Affairs also serves as the initial contact for concerns such as requesting exception to a college policy (petitions) or a grievance. The Assistant Dean serves as a confidential, informal, and independent resource for graduate student concerns and conflicts within the College of Nursing. Ms. Cheryl Nelson can be reached at (803) 777-8777 or by e-mail cynelson@e-mail.sc.edu.

Role of the Associate Dean for Diversity, Equity, and Inclusivity (DEI)

The Associate Dean for DEI strives for impartiality, fairness, and objectivity in the treatment of all students and the consideration of their issues in the College of Nursing. She also serves as a confidential resource for student concerns and conflicts within the College of Nursing. Dr. Coretta Jenerette can be reached at (803) 576-8332 or by e-mail cjeneret@mailbox.sc.edu.

The CON DEI team created the DEI Suggestion/Feedback Box [DEI Suggestion/Feedback Box](#) to allow students an anonymous option to provide feedback on opportunities and challenges. Dr. Jenerette is the only person with access to the feedback.

College of Nursing Comments and Kudos

The College of Nursing has an electronic box [Comments and Kudos](#) to allow students to make comments, share ideas, ask questions, and provide feedback to the Dean. The Office of the Dean review all submissions. Suggestions and comments submitted will be shared with the appropriate personnel as applicable. All submissions can be done anonymously. However, if you would like a response, you have the option to provide your contact information on the form.

Division of Student Affairs and Academic Support

The [UofSC Division of Student Affairs](#) collaborates with campus and external constituents to provide access, facilitate students' progress and persistence, advance learning, and shape responsible citizens and future leaders.

Graduate School Opportunities and Support

Tuition and Required Fees

Tuition is charged based on the number of credit hours taken in each semester. You will also be charged a Health Professions Fee and Technology Fee each semester, and in some semesters may be charged added fees (such as laboratory fee and malpractice insurance fee) that are associated with certain courses.

Lab Fee Explanation

Graduate nursing school is expensive, and the clinical component adds additional expenses in which fees are assessed. This Board of Trustee approved lab fee covers

simulation lab with immersions, supplies, guest faculty for immersions, staff to ensure all regulatory, legal and compliance issues are met with your respective clinical sites (as each site differs), staff to assist with clinical placements, part-time faculty hired (NP faculty) who assist our full-time faculty in maintaining 1:6* ratio of oversight of clinical experiences (e.g., a faculty will have 6 students to evaluate the clinical site and preceptor, to reach out to you and assess your progress, etc.). While students may not be currently in the simulation lab with immersions, the regulatory, legal and compliance portions are still occurring. We are still contacting facilities to see if students can remain, processing clinical contracts, and assisting student with clinical placements for future terms. If you review the [Bursar's](#) website, you will see that this fee is assessed to each clinical course in your program. Therefore, this fee will not be reimbursed, nor can it be reduced.

*Ratio changes to 1:8 effective Spring 2023.

Tuition Refund

Withdrawing from class can have both an academic and monetary impact. For information regarding academic withdrawal, please review the withdrawal information provided by the [University Registrar](#). You can also view the Parts of Term Dates and Deadlines located in the Academics section of [my.sc.edu](#). Each part of term has specific drop, add, and refund dates. Review your schedule in [SSC](#) to determine the [part of term](#) for your classes.

If you are withdrawing from all courses during a given semester, contact regapeal@mailbox.sc.edu to obtain information on the Tuition Refund Appeal process.

Financial Aid

Financial Assistance

The UofSC Office of Financial Aid and Scholarship can help you evaluate your costs and determine what type of financial aid support you need — loans, scholarships, grants, or student employment. To be fully considered for all financial aid resources, you must complete a new Free Application for Federal Student Aid each year and all your paperwork must be received before the April 1 annual priority deadline. You may contact the Office of Student Financial Aid and Scholarships directly with any financial aid questions: uscfaid@mailbox.sc.edu or 803-777-8134.

The College of Nursing has one graduate scholarship application that is used for consideration for all eligible departmental scholarships in the college. Each year, the online scholarship application will be available on our website in December and the application will be due no later than March 15th of the following year. The funding for the submitted application is effective for the upcoming academic year. College of

Nursing award decisions are expected to be finalized and announced late July/early August of each year.

In addition, as external scholarships are announced, this information is shared with students via Blackboard in the appropriate communities under Fellowship and External Scholarship Opportunities. Scholarships, traineeships, and research funding opportunities may be available through the College, The Graduate School, the University, and extramural sources.

Federal Nurse Faculty Loan Program

The Federal Nurse Faculty Loan Program is a federally subsidized loan to cover tuition, fees, books, laboratory experiences and other reasonable educational expenses.

The NFLP is a loan cancellation program with a service obligation for recipients of the loans. To be eligible for the maximum 85 percent cancellation, the borrower must agree to serve as full-time or part-time nurse faculty at a school of nursing for a consecutive four-year period following graduation from the program.

To learn more select this [link](#).

Graduate Assistantships

The College offers a limited number of graduate assistantships with stipends. Tuition assistance for graduate assistantships is sometimes available to graduate students enrolled in at least six (6) credit hours during the fall and spring semesters; summer assistantships require at least three (3) credit hours of enrollment. Contact the College of Nursing Human Resources Director for more information at (803) 777-6918.

Funded Research Opportunities

Opportunities to take part on funded research programs may be available to full-time graduate students. This experience can be a valuable addition to a student's studies. For further information, the student may consult the Office of Research at (803) 777-6488 .

50 Great Scholarship for Nursing Students

This [scholarship resource](#) is provided through healthcare-administration-degree.net

Academy of Medical-Surgical Nurses Foundation (AMSN)

These [grants and scholarships](#) are available to applicants who are AMSN members for 1 year at time of application date. There may be additional requirements based on grant or scholarship.

AfterCollege AACN Scholarship

The AfterCollege-AACN Scholarship Fund supports students who are seeking a baccalaureate, master's, or doctoral degree in nursing. Special consideration will be given to students in a graduate program with the goal of becoming a nurse educator; completing an RN to BSN or MSN program; and those enrolled in an accelerated nursing program. One scholarship in the amount of \$2,500 will be awarded each quarter.

To apply, visit the [AfterCollege/AACN Nursing Scholarship Program](#) page. Have questions about this scholarship? Contact at scholarships@aftercollege.com, and visit [Official Scholarship Rules](#) for full details!

Scholarship Deadlines: March 31, June 30, September 30, December 31
