## Nursing Major Undergraduate Minor Declaration

Undergraduate students in the College of Nursing **may** declare a minor outside their major area of study. Although not required by the College of Nursing, a minor may be possible if time permits or if time is reserved by the student in the planning of their curriculum.

A minor is a series of courses that display a distinct curricular pattern in one discipline that is different from the major. Undergraduate minors normally require a minimum of 18 credit hours of prescribed courses. Undergraduate minors appear on the transcripts, but not on the diplomas.

All minor requirements are outlined in the university undergraduate bulletin. A list of undergraduate minors is available at <http://bulletin.sc.edu/> under the Programs A-Z link. Before declaring a minor, students should read the requirements of the minor and determine if all courses can be completed by their anticipated graduation date.

Courses applied toward general education requirements cannot be counted toward the minor. No course may satisfy both major and minor requirements. All minor courses must be passed with a grade of C or higher. At least half of the courses in the minor must be completed in residence at the University.
