Department of Defense, Prisma Health and University of South Carolina partner to study a way for quicker recovery of stress fractures

WHO Fort Jackson Commander Brig. Gen. Milford H. Beagle, Jr., Army Moncrief Health Clinic Chief of Rehabilitation Maj. Bower, University of South Carolina Department of Health Professor Dr. Beattie and Palmetto Health-USC Orthopedic surgeon Dr. J. Benjamin Jackson

WHAT Press Conference

WHERE Victory Tower on Fort Jackson, S.C.

WHEN Sept. 27 from 10:30-10:45 a.m.

WHY Brig. Gen. Beagle invites the media to come hear how Fort Jackson is working with the local medical community and university to help current Army trainees’ recovery more quickly and it also hopes to reduce the rate of repeat stress fractures which will the Army as a whole. Dr. Jackson, received a $2.9 million federal grant from the Department of Defense. Approximately 250 trainees are expected to be included in the study during the four year period, beginning in Oct.
