Welcome back NutriNews subscribers! We hope you've enjoyed your summer. Please see updates below on all the nutrition-related activities that have occurred over the past few months and what's to come this Fall Semester.

Important Nutrition-Related Updates & Events at UofSC

The Nutrition Consortium is hiring for 2 open positions: A Graduate Assistant and a Student Engagement Coordinator (undergraduate). Please follow the links to the job descriptions and send applications to emkenney@email.sc.edu.

Recent UofSC Student Achievements
Congratulations are in order! The following individuals are being highlighted for their recent achievements:

- **Hope Bercaw, MSPH**, graduated with an MSPH in Epidemiology this Spring 2022 and her thesis focused on diet. (Title: *Longitudinal relation of dietary quality and hemoglobin A1c in youth and young adults with diabetes*). She also received the Outstanding Epidemiology Masters Student departmental award. Hope worked with the SEARCH Food Security (SFS) Cohort Study team throughout her masters program, becoming an integral member over time. She has played a key role in analyzing and disseminating SFS data as well as helping with data collection tasks (i.e., recruiting participants, developing newsletters, assembling kits for remote data collection etc.), completing three first-authored manuscripts. Her level of professionalism and dedication is simply extraordinary.

- **Shiva Bhandari, PhD**, completed his doctoral degree in Health Promotion, Education, and Behavior. His dissertation focused on the Suaahara Homestead Food Production program in Nepal. He is assisting with the Drivers of Food Choice program and with the evaluation of the Suaahara program.

- **Harry Cintineo, PhD**, graduated from his doctoral program in Exercise Science and has accepted a position as an Assistant Professor at Lindenwood University. While at UofSC, he was instrumental in helping create and build the UofSC Sport Science Lab. He took an active role mentoring MS students and undergraduates and made significant contributions to the productivity of the lab. Harry took a lead role in assisting with funding and fostering connections with the US Special Forces Operations Command and the Department of Defense. In addition to receiving our Outstanding PhD Student award,
Harry’s work has been recognized by the American Kinesiology Association which awarded him the Graduate Writing Award and the Graduate Scholar Award.

- **Kelli DuBois, PhD**, completed her PhD in Health Promotion, Education, and Behavior. Kelli served as an event supervisor with the Nutrition Consortium, providing leadership in event planning, student outreach, and mentoring. Kelli taught undergraduate courses in HPEB and worked as a graduate assistant for multiple health promotion research projects. She has accepted a position as Postdoctoral Fellow for the mLife study here at the UofSC under the direction of Dr. Brie Turner-McGrievy. In her current position, Kelli contributes to program design and implementation and provides leadership for ongoing weight loss and healthy eating interventions.

- **Selja Isanovic, MS**, finished her MS in Health Promotion, Education, and Behavior. Sejla has been leading research for the Drivers of Food Choice program on food safety. She is continuing in HPEB as a doctoral student.

- **Krystal Rampalli, PhD**, completed her doctoral degree in Health Promotion, Education, and Behavior, and is currently working as a technical consultant for Nutrition International (NI) and as a research associate with Drivers of Food Choice Program at UofSC. Krystal’s role with NI and the Unit of Multisectoral Action in Food Systems, Department of Nutrition and Food Safety, with the World Health Organization’s collaboration explores the potential of using digital technologies to strengthen food fortification interventions for improved nutrition outcomes. Krystal’s current work supports NI with the overall coordination with the selected organizations/agencies participating in this consultation, and leads technical content development. Krystal played a lead role in the DFC program as a doctoral
Recent UofSC Faculty Achievements

Congratulations Dr. Edward Frongillo for receiving the Lifetime Achievement in Global Nutrition Research Award. Well deserved!

Important Nutrition-Related Updates & Events from Professional Organizations

The Food & Nutrition Conference & Expo will take place **October 8-11, 2022**, in Orlando, FL. This year’s event features dynamic educational opportunities and attendees will learn about products and services from exhibiting
companies showcasing the latest and greatest trends in food, nutrition and health. See more information below.

The 22nd International Congress of Nutrition (ICN) will be held in Tokyo, Japan, **December 6-11, 2022**. ICN is a meeting of the International Union of Nutritional Sciences (IUNS) that takes place every four years. The congress will be an ideal opportunity for participants to reaffirm or rediscover their mission to help realize good health and happiness for future generations. Follow the link below for more information.
We will provide more information and send notification of dates and times of affiliate presentations as they become available for these upcoming events. Please let us know if you are presenting at any of the upcoming conferences or if there are any other nutrition-related conferences we should be promoting.
